Department of Revenue, Title 2, ch. 15, part 13.

Fund structure, Title 17, ch. 2.

69-1-224. Determination of fee. (1) On or before August 31 of each year, the department of revenue shall:

(a) determine the total gross operating revenue generated by all regulated activities within this state for all regulated companies for the previous fiscal year;

(b) compute the percentage, subject to revision as provided in subsection (2), of the amount determined in subsection (1)(a) that will produce an amount equal to the current appropriation to the office of the consumer counsel, except that a regulated company owned and operated by any municipal corporation within this state may not be required to pay a sum in excess of 0.06 of 1% of its gross operating revenue;

(c) adjust the percentage multiplier computed in subsection (1)(b) to ensure that sufficient funds are generated to meet the appropriation and that excess funds are not generated or retained by:

(i) determining the appropriation to the office of the consumer counsel for the previous fiscal year and comparing it to the fees collected from the previous fiscal year;

(ii) reducing or increasing the percentage determined in subsection (1)(b) for the current year in order to account for any difference determined in subsection (1)(c)(i); and

(iii) if necessary, reducing the revenue to be collected for the current year by any funds remaining unspent at the close of the prior fiscal year; and

(d) give notice by mail to each regulated company of the percentage to be applied to the gross operating revenue reported under 69-1-223(2) to determine the amount of the fee to be paid.

(2) (a) The department of revenue shall adjust the percentage multiplier if the department considers a change necessary to meet or to not exceed the amount to be raised by the fee because of:

(i) fluctuations in the actual gross operating revenue subject to the fee; or

(ii) submission and approval of a budget amendment authorizing the spending of money from a contingency appropriation included in the appropriation measure for the office of the consumer counsel and authorized to be raised by means of the fee.

(b) Adjustments of the percentage multiplier are subject to the exception provided in subsection (1)(b) for municipally owned and operated regulated companies.

(c) Regulated companies must be given at least 30 days' notice of any change in the percentage multiplier.

(d) Any change in the percentage multiplier is effective at the beginning of the next calendar quarter.

(3) In the event that the fee charged in 1 year is in excess of the amount actually expended in that year, the excess must be deducted from the amount required to be raised by the fee for the next year before the determination required by subsection (1) is made. Money remaining unspent at the close of the fiscal year must be used to reduce the percentage calculated in subsection (1) in the subsequent fiscal year.

(4) All fees paid by a regulated company pursuant to this section are immediately recoverable by the regulated company in its rates and charges. Within 30 days after the issuance by the department of revenue of the notice required by subsection (1), the public service commission shall by separate order authorize each regulated company to fully recover in its rates and charges, on an annual basis, the fees levied by this part.

69-1-225. Computation and collection of fee in absence of statement — penalty and interest. (1) If a regulated company or an officer or employee of a regulated company fails, neglects, or refuses to file the statement required by 69-1-223(2), the department of revenue may after the time for filing has expired proceed to inform itself, as best it may, regarding the regulated company's gross operating revenue from all activities regulated by the commission within the state for the calendar quarter, quarters, or portion thereof and may determine and fix the amount of the consumer counsel fee due.

(2) (a) When a deficiency is determined and the fee becomes final, the department shall mail a notice and demand for payment to the regulated company. The fee is due and payable at the expiration of 10 days after the notice and demand were mailed. Interest on any deficiency assessment bears interest until paid, at the rate of 1% a month or fraction of a month, computed from the original due date of the return.

(b) If payment is not made within 10 days, the amount of the deficiency is considered delinquent. A 10% penalty must be added to the amount of the deficiency.

(c) The taxpayer may seek review of the department's action pursuant to 15-1-211.

(3) The 10% penalty may be waived by the department of revenue if reasonable cause for failure and neglect to file the statement is provided to the department.

(1) If a regulated company or an officer or employee of a regulated company files the statement required by 69-1-223(2) but fails, neglects, or refuses to pay the fee due within the time required, the department of revenue may after the time for payment has expired add to the fee due, in addition to any other penalty provided by law, a penalty of 10% thereof plus interest at the rate of 1% per month or fraction of month computed on the total amount of the fee. Interest is computed from the date the fee is due to the date of payment.

(2) The department of revenue shall mail to the regulated company a notice, pursuant to 15-1-211, setting forth the amount of the fee, penalty, and interest. The taxpayer may seek review of the department's action pursuant to 15-1-211.

69-1-228. Credit for overpayment — interest on overpayment. (1) If the department of revenue determines that the amount of fee, penalty, or interest paid for any year is more than the amount due, the amount of the overpayment must be credited against any tax, penalty, or interest then due from the taxpayer and the balance refunded to the taxpayer or the taxpayer's successor through reorganization, merger, or consolidation or to the taxpayer's shareholders upon dissolution.

(2) Except as provided in subsection (3), interest is allowed on overpayments at the same rate as is charged on deficiency assessments from the due date of the return or from the date of overpayment, whichever date is later, to the date the department of revenue approves refunding or crediting of the overpayment.

(3) (a) Interest does not accrue during any period in which the processing of a claim for a refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department of revenue for the purpose of verifying the amount of the overpayment.

(b) Interest is not allowed:

(i) if the overpayment is refunded within 6 months from the date the return is due or from the date the return is filed, whichever is later; or

(ii) if the amount of interest is less than $1.

(c) Only a payment made incident to a bona fide and orderly discharge of actual tax liability or one reasonably assumed to be imposed by this chapter is considered an overpayment with respect to which interest is allowable.

History: En. Sec. 11, Ch. 676, L. 1991.

69-1-230. Statute of limitations. (1) Except as provided in subsection (3), a deficiency may not be assessed or collected with respect to the year for which a return is filed unless the notice of the additional fee proposed to be assessed is mailed within 5 years from the date the return was filed. For purposes of this section, a return filed before the last day prescribed for filing is considered as filed on the last day. If the taxpayer, before the expiration of the period prescribed for assessment of the fee, consents in writing to an assessment after that time, the fee may be assessed at any time prior to the expiration of the period agreed upon.

(2) A refund or credit may not be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim or the department of revenue determines the existence of the overpayment and approves the refund or credit. If the taxpayer has agreed in writing under the provisions of subsection (1) to extend the time within which the department of revenue may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed if no claim is filed is automatically extended.

(3) If a return is required to be filed and the taxpayer fails to file the return, the tax may be assessed or an action to collect the tax may be brought at any time. If a return is required to be filed and the taxpayer files a fraudulent return, the 5-year period provided for in subsection (1) does not begin until discovery of the fraud by the department of revenue.

(2) In addition to all other licenses, fees, and taxes imposed by law, all regulated companies shall, within 30 days after the close of each calendar quarter, pay to the department of revenue a fee based on a percentage of gross operating revenue reported pursuant to 69-1-223(2)(a), as determined by the department of revenue under 69-1-403.

(3) The amount of money that may be raised by the fee on the regulated companies during a fiscal year may not be increased, except as provided in 69-1-224(1)(c), from the amount appropriated to the department by the legislature for that fiscal year, including both base and contingency appropriations. 69-3-301. Schedule of rates, tolls, and charges. (1) Every public utility shall file with the commission, within a time fixed by the commission, schedules which shall be open to public inspection, showing all rates, tolls, and charges which it has established and which are in force at the time for any service performed by it within the state or for any service in connection therewith or performed by any public utility controlled or operated by it. Every public utility shall file with and as a part of such schedule all rules that in any manner affect the rates charged or to be charged for any service. When a schedule of joint rates or charges is or may be in force between two or more public utilities, such schedule shall in like manner be printed and filed with the commission.

(2) A copy of so much of the schedule as the commission considers necessary for the use of the public shall be printed in plain type and kept on file in every station or office of the public utility where payments are made by the consumers or users. Such copy shall be open to the public and in such form and place as to be readily accessible to the public and conveniently inspected.

69-3-302. Changes in schedules. (1) Except as provided in 69-3-308, a change may not be made in any schedule, including schedules of joint rates, except as approved by the commission, upon the passage of 9 months, or by operation of 69-3-907(1). If the 9-month time period expires prior to commission approval of a schedule, a utility may waive the time period.

(2) Notwithstanding any provision of this title to the contrary, other than rate adjustments made pursuant to 69-3-308, the rates, tolls, or charges set forth in any schedule filed with the commission pursuant to 69-3-301 must become effective and be lawful rates, tolls, or charges for the utility service rendered 9 months after the date upon which the schedule was filed under the rules of practice and procedure for filing as adopted by the commission or upon commission

approval, whichever occurs first, unless the utility waives the 9-month time period. However, if the rates, tolls, or charges become effective because of the passage of 9 months, the revenue collected is subject to rebate, plus interest at an annual rate determined by the commission, to the extent that the rates, tolls, or charges ultimately approved by the commission in its final decision produce revenue that is less than that collected under the filed schedules. In the case of an investor-owned utility, the interest rate set by the commission may not exceed the cost of equity capital as last determined by the commission.

(3) The commission may prescribe rules necessary to effectively administer this section.

69-3-303. Notice and hearing on proposed change. (1) Except as provided in 69-3-308, before the commission may approve any change increasing the rate or rates for utility service in a schedule generally affecting consumers in a utility's service area or before any change may become effective due to the passage of 9 months, the commission shall publish a notice of the proposed change, conforming to the requirements of 2-4-601 in one or more newspapers published and of general circulation within the area affected by the proposed change. This notice must announce a hearing on the proposed change and must inform interested persons as to how they may petition the commission to become parties to the hearing.

(2) The commission shall proceed to conduct the hearing under the Montana Administrative Procedure Act. The final decision of the commission in any matter decided after a hearing conducted pursuant to this section must conform to the requirements of a decision in a contested case under the Montana Administrative Procedure Act.

If the final decision is to disapprove a decrease, the commission may order a surcharge to be paid by all consumers for the amount not collected retroactive to the date of the temporary approval. The commission shall order interest to be paid on a rebate or surcharge as determined by the commission. 69-3-305. Deviations from scheduled rates, tolls, and charges. (1) A public utility may not:

(a) charge, demand, collect, or receive a greater or less compensation for a utility service performed by it within the state or for any service in connection with a utility service than is specified in the printed schedules, including schedules of joint rates, that may at the time be in force;

(b) demand, collect, or receive a rate, toll, or charge not specified in the schedules; or

(c) grant a rebate, concession, or special privilege to a consumer or user that, directly or indirectly, has or may have the effect of changing the rates, tolls, charges, or payments.

(2) The rates, tolls, and charges named in the printed schedules are the lawful rates, tolls, and charges until the rates, tolls, and charges are changed, as provided in this chapter.

(3) The commission may order refunds or credits of rates, tolls, or charges collected in violation of this section and may order payment of interest at a reasonable rate on the refunded amount.

(4) The provisions of this section do not prohibit the sharing of profits or revenues with customers in conjunction with an alternative form of regulation approved under 69-3-809.

(5) (a) A provider of regulated telecommunications service may offer, for a limited period of time, rebates, price reductions, or waivers of charges in conjunction with promotions, market trials, or other sales-related activities that are common business practices. Promotional pricing for services other than basic local exchange access to end users does not require advance approval of the commission. Informational price lists must be filed with the commission on or before the date that the promotion begins. Promotional offerings for basic local exchange access to end users and packaged services that include basic local exchange access to end users require advance approval of the commission. The commission shall approve, deny, or upon a showing of good cause set for hearing an application for a promotional discount within 30 days of the filing of the application. If the commission has not acted on the application within the permitted time period, the application is considered granted.

(b) A public utility providing electricity or natural gas may offer grants and subsidized loans to install energy conservation and nonfossil forms of energy generation systems in dwellings.

(c) The commission may define the appropriate scope of promotions, rebates, market trials, and grants and subsidized loans, either by rule or in response to complaints. The commission may determine whether a particular sales activity or grant or subsidized loan program under this subsection is unfairly discriminatory or is not cost-effective. Costs and expenses incurred or revenue foregone with respect to sales activities and grant and subsidized loan programs that the commission determines are unfairly discriminatory or not cost-effective are the responsibility of the provider's shareholders in rates set by the commission.

(6) A public utility violating the provisions of this section is subject to the penalty prescribed in 69-3-206. However, this does not have the effect of suspending, rescinding, invalidating, or in any way affecting existing contracts.

Each public utility is required to conform its schedule of rates, tolls, and charges to such classifications.

(2) The commission shall prescribe a declining block rate structure for electric service, when cost-justified.

This section does not apply to advertising that encourages the conservation of energy or product safety or informs the public of the availability of alternative forms of energy or recommends usage at times of lower rates or lower demand. Furthermore, for communications public utilities, the provisions of this section do not apply to advertising that relates to special equipment that is available to aid persons with disabilities or to special services that are designed to protect the public health, welfare, and safety, to promote more efficient use of a communications system, or to promote increased use of regulated communications services.

(2) (a) (i) The commission shall allow a public utility to file rate schedules containing provisions for the automatic adjustment and tracking of Montana state and local taxes and fees, except state income tax, paid by the public utility. The resulting rate schedule changes must include:

(A) adjustments for the net change in federal and state income tax liability caused by the deductibility of state and local taxes and fees;

(B) retroactive tax adjustments; and

(d) Failure of the commission to issue an order pursuant to subsection (2)(c) is considered approval on the part of the commission.

69-3-804. Exemption for private telecommunications service. Construction, maintenance, or operation of a private telecommunications service does not constitute the provision of regulated telecommunications service, and a private telecommunications service is not subject to any of the provisions of this title. If any other person or entity, including the owners or shareholders of the entity owning or operating a private telecommunications service, uses the telecommunications service, whether for hire or not, the private telecommunications service is a regulated telecommunications service under this part. An occasional or accommodative use of a private telecommunication system by a third person is not a violation of this section.

69-3-805. Registration of telecommunications providers. (1) Before any person or entity provides telecommunications service within the state of Montana, it shall file with the commission a notice including:

(a) the name, address, and telephone number of the provider;

(b) the name, address, and telephone number of the person responsible for regulatory contacts and customer dispute resolution on behalf of the provider;

(c) a description of the provider's existing operations and general service and operating areas in any other jurisdictions;

(d) a list of the provider's parent, subsidiary, and affiliated companies, together with principal addresses and telephone numbers of each;

(e) initial tariffs or price lists for regulated telecommunications services, including a narrative description of the regulated telecommunications to be offered and the geographic area and markets to be served;

(f) a general description of the facilities and equipment that will be used to provide services, including whether the service will be offered on a facilities basis, a resale basis, or a combination of both of them;

(g) a statement of whether the provider intends to draw from the federal or state universal service fund or other explicit support funds, including a statement of whether the provider intends to seek the commission's designation as an eligible telecommunications carrier;

(h) disclosure of any formal actions against it by any court or state or federal regulatory agency that resulted in any type of penalty or sanction within the 5 years prior to the date of filing the notice;

(i) if the provider is other than a corporation, a description of the form of ownership, the names and addresses of all principal owners and managers, the provider's agent for service of process in Montana, and the date of creation of the business entity; and

(j) other information from regulated telecommunications carriers as the commission may require to accomplish the purposes of this chapter.

(2) The commission may waive any of the requirements set forth in subsection (1).

(3) The provider shall file with the commission a report of any judgment, penalty, or sanction entered in any other jurisdiction that could adversely affect the provider's ability to provide communications services in Montana.

History: En. Sec. 5, Ch. 546, L. 1985; amd. Sec. 31, Ch. 349, L. 1997.

69-3-806. Prohibition against cross-subsidization. A provider of regulated telecommunications services may not use current revenue earned or expenses incurred in conjunction with services subject to regulation under this chapter to subsidize services that are not regulated or are not tariffed. Expenses incurred in conjunction with services that are not regulated or that are not tariffed under this chapter may not be attributed to services that are subject to regulation for any reason.

History: En. Sec. 6, Ch. 546, L. 1985; amd. Sec. 32, Ch. 349, L. 1997.

69-3-807. Regulation of rates and charges. (1) The commission may establish specific rates, tariffs, or fares for the provision of regulated telecommunications service to the public. The rates, tariffs, or fares must be just, reasonable, and nondiscriminatory.

(2) Alternatively, the commission may authorize the provision of regulated telecommunications service under terms and conditions that best serve the declared policy of this state. For a service detariffed under this subsection, the provider shall maintain a current price list on file with the commission and shall provide notice of changes in the price list as prescribed by the commission. The commission is not required to fix and determine specific rates, tariffs, or fares for the service and in the alternative may:

(a) totally detariff the service;

(b) detariff rates for the service but retain tariffs for service standards and requirements;

(c) establish only maximum rates, only minimum rates, or permissible price ranges as long as the minimum rate is cost compensatory; or

(d) provide other rate or service regulation as will promote the purposes of this part.

(3) Except as provided in subsection (4), in determining applications under subsection (2), the commission shall consider the following factors:

(a) the number, size, and distribution of alternative providers of service;

(b) the extent to which services are available from alternative providers in the relevant market;

(c) the ability of alternative providers to make functionally equivalent or substitute services readily available;

(d) the overall impact of the proposed terms and conditions on the continued availability of existing services at just and reasonable rates; and

(e) other factors that the commission may prescribe through rulemaking that are appropriate to fulfill the purposes of this part.

(4) Notwithstanding the provisions of subsection (3), the commission may exercise its power under subsection (2)(c) with respect to any services of a telecommunications provider if the commission finds that action consistent with the provisions of 69-3-802 and with the public interest. Noncompetitive local exchange access to end-users and carrier access services may not be detariffed.

(5) A provider of regulated message telecommunications service and related services shall average its service rates on its routes of similar distance within the state unless otherwise authorized by the commission. This subsection may not be construed to prohibit volume discounts, discounts in promotional offerings, or other discounts as long as the discounts are not offered in a discriminatory manner.

History: En. Sec. 7, Ch. 546, L. 1985; amd. Sec. 3, Ch. 210, L. 1991; amd. Sec. 33, Ch. 349, L. 1997.

69-3-808. Forbearance of rate regulation to facilitate competition. (1) In accordance with the provisions of this section, the commission shall forbear regulation as to rates, tariffs, fares, or charges to facilitate competition and shall authorize the provision of all or any portion of regulated telecommunications service under stated or negotiated terms to any person or entity that has acquired or is contemplating acquisition of, through construction, lease, or any other form of acquisition, similar telecommunications service from an alternative source.

(2) At any time, the provider of regulated telecommunications service may file a verified application with the commission for forbearance of regulation to facilitate competition. The application must describe the telecommunications service to be offered, the customer to be served, and the party or parties offering similar service, together with other information and in a form that the commission may prescribe. The additional information must be reasonably related to the determination of the existence of an alternative offer but may not require information relating to the cost of providing the service.

(3) The commission shall approve or deny an application for forbearance of regulation to facilitate competition within 15 days after the filing of the application. If the commission has not acted on an application within the permitted time period, the application is considered granted. The commission shall deny the application only upon a finding that the application is incomplete

or that the subject or similar service is not being offered to the customer by parties other than the applicant. If a customer or potential customer of the provider seeking forbearance requests a quotation of prices from another provider of telecommunications service having tariffs or price lists for similar services on file with the commission, the commission may presume the existence of competition.

(4) The provisions of 2-4-601, relating to notice and hearing, do not apply to this section.

(5) Upon approval of the application, the provider of telecommunications service may negotiate with a person or an entity for the provision of the service without regard to its tariffs or price lists on file with the commission.

(6) Within 10 days after the conclusion of the negotiations, the provider of regulated telecommunications service shall file with the commission the final contract or other evidence of the service to be provided, together with the charges and other conditions of the service. Thereafter, for the term of the contract, the provider of regulated telecommunications service may provide the service to the customer without regard to its tariffs or price lists on file with the commission.

(7) Services provided pursuant to subsection (1) remain subject to the regulatory powers of the commission.

History: En. Sec. 8, Ch. 546, L. 1985; amd. Sec. 4, Ch. 210, L. 1991.

69-3-809. Alternative forms of regulation. (1) The commission may authorize a provider of regulated telecommunication services, as defined in 69-3-803, to implement alternatives to the ratemaking practices required under parts 2, 3, and 9 of this chapter, including but not limited to price caps and equitable sharing of earnings or revenues between a provider of regulated telecommunications services and its customers.

(2) A provider of regulated telecommunications services may petition the commission to regulate the provider under an alternative form of regulation. The provider shall submit its plan for an alternative form of regulation with its petition. The commission's order on the petition must be issued no later than 9 months after the filing of the petition. The commission shall review and may authorize implementation of the plan if it finds, after notice and hearing, that the plan:

(a) will not degrade the quality of or the availability of efficient telecommunications services;

(b) will produce fair, just, and reasonable rates for telecommunications services;

(c) will not unduly or unreasonably prejudice or disadvantage a customer class;

(d) will reduce regulatory delay and costs;

(e) is in the public interest;

(f) will enhance economic development in the state;

(g) will result in the improvement of the telephone infrastructure in the state; and

(h) conforms to the purpose stated in 69-3-802 more nearly than regulation under part 2, 3, or 9 of this chapter conforms to the stated purpose.

(3) If the commission determines that the plan does not satisfy the requirements of this section, it may either reject the petition or issue a proposed order modifying the plan as submitted by the provider.

(4) A proposed order modifying the plan submitted by a provider of regulated telecommunications service may not be final until 60 days after issuance. During that 60-day period, the provider may withdraw its petition for alternative regulation or the consumer counsel may object to the proposed order. If a petition for alternative regulation is withdrawn or the consumer counsel objects to the proposed order, the provider:

(a) remains subject to the same regulation that applied when the petition was filed; and

(b) may petition the commission to be regulated under a revised alternative plan.

(5) Upon petition or upon its own motion, the commission may rescind its approval or amend an alternative form of regulation if, after notice and hearing, it finds that the conditions in subsection (2) are no longer satisfied.

(6) Nothing contained in this section may be construed as limiting or otherwise affecting the commission's authority to conduct investigations or hear complaints as provided in part 3 of this chapter.

History: En. Sec. 2, Ch. 210, L. 1991.

69-3-810. New service — withdrawal of services. (1) A provider of regulated telecommunications service shall provide notice, in the form prescribed by the commission, of its intent to offer a new service to its customers. The notice must include a description of the service, a minimum price, and the terms and conditions under which it will be offered. At the end of a 10-day comment period for interested parties, the commission may immediately approve, suspend, or disapprove the new service offering or it may allow the interim introduction of the service pending a hearing at a later date. If the commission has not acted at the end of 30 days following issuance of notice, the provider may proceed to offer the service.

(2) A new service may be offered on a detariffed basis. A price list containing the price of the new service must be filed with the commission at the time the service is offered to the public.

(3) For purposes of this section, "new service" means any service that is introduced separately or in combination with other services and that is not functionally required to provide local exchange service or that is not a repackaged current service or a direct replacement for a regulated telecommunications service.

(4) A provider of regulated telecommunications service may withdraw a service upon 30 days' notice to the commission and to the users of the service. The commission may, however, suspend the withdrawal of the service, either on its own motion or at the request of an interested person, and shall then proceed to hearing.

History: En. Sec. 5, Ch. 210, L. 1991.

69-3-811. Costs for services provided — jurisdiction over complaints. (1) Prices charged for a regulated telecommunications service must be above relevant costs unless otherwise ordered by the commission. If the commission determines that a price is below relevant costs, it may ensure that shareholders and not ratepayers are responsible for any relevant costs not recovered through prices.

(2) With regard to competitive services, the term "relevant costs" includes the price for any components that are used by the telecommunications provider and that would be essential for alternative providers to use in providing the competitive services pursuant to commission-approved methodology.

(3) The commission has jurisdiction to consider complaints and initiate investigations to determine whether the price charged by a provider of regulated telecommunications service is above relevant costs. The commission may also consider complaints that a pricing or promotional practice violates any provision of this title.

History: En. Sec. 7, Ch. 210, L. 1991.

69-3-812 through 69-3-814 reserved.

69-3-815. Nondiscriminatory intercarrier compensation — billing records — enforcement — rulemaking. (1) An originating carrier of local telecommunications service shall transmit with the originating carrier's telecommunications traffic information necessary to enable the terminating carrier to identify, measure, and appropriately charge the originating carrier for the termination of the local telecommunications service.

(2) A provider of intralocal access transport area toll services or any other carrier that provides nonlocal telecommunications services in Montana shall transmit with its telecommunications traffic information necessary to enable the terminating carrier to identify, measure, and appropriately charge for the termination of the telecommunications traffic.

(3) A transiting carrier shall deliver telecommunications traffic to terminating carriers by means of facilities that enable the terminating carrier to receive from the originating carrier any and all information that the originating carrier transmits with its telecommunications traffic that enables the terminating carrier to identify, measure, and appropriately charge the originating carrier or the interlocal access transport area carrier or intralocal access transport area toll provider of nonlocal telecommunications traffic for the termination of its telecommunications traffic.

(4) A transiting carrier is required to provide billing records for its transit traffic to the terminating carrier upon request. The transiting carrier shall provide billing records pursuant to existing policies and agreements until the commission adopts rules pursuant to subsection (7).

(5) A local exchange carrier or commercial mobile radio services provider that delivers local telecommunications traffic to a terminating carrier, directly or indirectly through a transiting

carrier, shall, upon request of the terminating carrier, negotiate an interconnection agreement with the terminating carrier, as provided in 69-3-831 through 69-3-839. The interconnection agreement must include rates, terms, and conditions for reciprocal compensation for the transport and termination of local telecommunications traffic.

(6) A telecommunications carrier registered to provide telecommunications services in Montana pursuant to 69-3-805 may file a complaint with the commission requesting enforcement of this section, including enforcement of an agreement approved by the commission under 69-3-839. Upon the filing of a complaint, the commission may authorize the terminating carrier to refuse to terminate traffic from the originating carrier or the commission may authorize interim payments. The commission may order compensation to the terminating carrier and may order other appropriate relief.

(7) The commission shall adopt rules for the implementation of this section. The rules must provide for the expedited resolution of complaints filed pertaining to the provisions of this section. The rules must identify what type of transit records are available and what the cost of the transit records should be and must determine which party is responsible for the payment of detailed call records to the transiting carrier.

(4) The exemption provided by subsection (3)(a) does not apply with respect to a request from a cable operator providing video programming and seeking to provide any

telecommunications service in the area in which the rural telephone company was providing video programming on February 8, 1996.

(5) (a) A local exchange carrier with fewer than 2% of the nation's subscriber lines, installed in the aggregate nationwide, may petition the commission for a suspension or modification of the application of a requirement of subsection (2)(b) or (2)(c) to telephone exchange service facilities specified in the petition. The commission shall grant the petition for the suspension or modification to the extent and for the duration that the commission determines:

(i) is necessary:

(A) to avoid a significant adverse economic impact on users of telecommunications services generally;

(B) to avoid imposing a requirement that is unduly economically burdensome; or

(C) to avoid imposing a requirement that is technically infeasible; and

(ii) is consistent with the public interest, convenience, and necessity.

(b) The commission shall act upon any petition filed under subsection (5)(a) within 180 days after receiving the petition. Pending action, the commission may suspend enforcement of the requirement to which the petition applies with respect to the petitioning carrier.

History: En. Sec. 4, Ch. 349, L. 1997.

69-3-835. Voluntary negotiation of interconnection agreements. Upon receiving a request for interconnection, services, or network elements pursuant to 69-3-834, an incumbent local exchange carrier may negotiate and enter into a binding agreement with the requesting telecommunications carrier without regard to the duties set forth in 69-3-834(2)(b) or (2)(c). The agreement must include a detailed schedule of itemized charges for interconnection and each service or network element included in the agreement.

History: En. Sec. 5, Ch. 349, L. 1997.

69-3-836. Mediation of interconnection agreements. Upon the written request of any party negotiating an agreement for interconnection with another telecommunications carrier, the commission may designate a mediator, who may be a commission member, to mediate any differences arising in the course of the negotiation.

History: En. Sec. 6, Ch. 349, L. 1997.

69-3-837. Arbitration of interconnection issues. (1) The commission has the authority to arbitrate any open interconnection issues pursuant to 47 U.S.C. 252(b), as it existed on February 8, 1996, according to the duties in subsections (3) through (14) of this section. Except as expressly provided in this section, the provisions of the Montana Administrative Procedure Act do not apply to arbitrations conducted under the authority granted by this section.

(2) During the period from the 135th to the 160th day, inclusive, after the date on which an incumbent local exchange carrier receives a request for negotiation under 69-3-834, the carrier or any other party to the negotiation may petition the commission to arbitrate any open issues. A party that petitions the commission under this section shall, at the same time as it submits the petition, provide the commission all relevant documentation concerning the following:

(a) the unresolved issues;

(b) the position of each of the parties with respect to those issues; and

(c) any other issue discussed and resolved by the parties.

(3) A party petitioning the commission under this section shall provide a copy of the petition and any documentation to the other party or parties not later than the day on which the commission receives the petition.

(4) A nonpetitioning party to a negotiation under 69-3-834 may respond to the other party's petition and provide any additional information that it wishes within 25 days after the commission receives the petition.

(5) The commission shall limit its consideration to those issues set forth by the parties to the negotiation in the petition for arbitration and the response to the petition.

(6) The commission may appoint a hearings examiner for arbitration proceedings under this section. The hearings examiner shall file with the commission a proposed decision within the time set by order of the commission. A hearings examiner must be assigned with regard to the expertise required for the particular matter. On the filing by a party, in good faith, of a timely and sufficient affidavit of personal bias, lack of independence, disqualification by law, or other

disqualification of a hearings examiner or on the hearings examiner's own motion, the commission shall determine the affidavit or motion as a part of the record in the case. The commission may disqualify the hearings examiner and appoint another hearings examiner. The affidavit must state the facts and the reasons for the belief that the hearings examiner should be disqualified and must be filed not less than 10 days before the original date set for the hearing.

(7) Participation in the arbitration proceeding must be limited to the telecommunications carrier requesting the arbitration, the telecommunications carrier from which interconnection is being sought, and the Montana consumer counsel.

(8) Negotiations among the telecommunications carriers may continue, pending a final decision by the arbitrator.

(9) Unless otherwise agreed to by the parties, the commission shall, within 10 days of the filing of a request for arbitration, conduct a conference with the parties for the purpose of establishing a schedule for the orderly and timely disposition of the arbitration. The schedule must include discovery deadlines and a hearing date.

(10) The hearing must be conducted pursuant to the Montana Rules of Evidence, and the parties are entitled to be heard, present evidence material to the issues, and cross-examine witnesses appearing at the hearing. Parties must be allowed to conduct discovery pursuant to the schedule determined by the arbitrator, and the discovery must be conducted pursuant to the Montana Rules of Civil Procedure.

(11) The commission may issue subpoenas for the attendance of witnesses and the production of books, records, documents, and other evidence relevant to the issues being arbitrated and may administer oaths. Subpoenas must be served and enforced in the manner provided by law for the service and enforcement of subpoenas in a civil action in district court. The commission shall regulate the course of the hearings and the need for filing briefs and may direct the parties to appear and confer to consider simplification of the issues by consent of the parties.

(12) The commission shall issue its final decision no later than 9 months after the request for negotiations on a petition issued under 69-3-834. When the commission files its final decision or when the hearings examiner files the proposed decision with the commission, each party must be simultaneously given a copy delivered personally or by certified mail. The decision must:

(a) ensure the resolution of issues presented by the parties and ensure that the resolution meets the requirements of 69-3-834 and this section;

(b) establish rates for interconnection, services, or access to unbundled network elements pursuant to 47 U.S.C. 252(d); and

(c) provide a schedule for implementation of the terms and conditions of the decision by the parties.

(13) If the person who conducted the hearing becomes unavailable to the commission, the commission is not precluded from issuing a final decision based on the record if the demeanor of the witnesses is considered immaterial by all parties.

(14) Unless required for the disposition of ex parte matters authorized by law, the person or persons who are charged with the duty of rendering a decision or of making findings of fact and conclusions of law in an arbitration proceeding, after issuance of notice of hearing, may not communicate with any party or a party's representative in connection with any issue of fact or law in the case unless there is notice and opportunity for all parties to participate.

History: En. Sec. 7, Ch. 349, L. 1997.

69-3-838. Approval of arbitration decision. (1) If the commission has not approved or rejected in its entirety an agreement adopted by arbitration under 69-3-837(12) within 30 days of submission by the parties, the agreement is considered approved.

(2) The commission may reject the agreement only if the commission finds that the agreement does not meet the requirements of 47 U.S.C. 251 and the regulations prescribed to implement that section by the federal communications commission or the standards set forth in 47 U.S.C. 252(d). Upon rejection of an agreement, the commission shall provide the parties with written findings as to any deficiencies.

History: En. Sec. 8, Ch. 349, L. 1997.

69-3-839. Approval of interconnection agreements. (1) Within 90 days of filing of an interconnection agreement adopted by negotiation of the parties to an agreement, the commission shall approve or reject the agreement, or the agreement is considered approved.

(2) The commission may reject an agreement filed under this section only if the commission finds that:

(a) the agreement or a portion of the agreement discriminates against a telecommunications carrier not a party to the agreement; or

(b) the implementation of the agreement or portion is not consistent with the public interest, convenience, and necessity.

(3) Upon rejecting an agreement filed under this section, the commission shall issue written findings detailing any deficiencies in the agreement.

History: En. Sec. 9, Ch. 349, L. 1997.

69-3-840. Determination of eligible carrier status — universal service support. (1) The commission is authorized to designate telecommunications carriers as eligible for federal universal service support, in accordance with 47 U.S.C. 214(e)(1) and 47 U.S.C. 254, and for any Montana universal service funds. This authorization applies to all telecommunications carriers notwithstanding the carrier's exemption from further regulation by the commission.

(2) Upon the petition of a telecommunications carrier or upon its own motion, the commission shall designate a telecommunications carrier that meets the requirements of 47 U.S.C. 214(e)(1) as an eligible telecommunications carrier for a service area designated by the commission. In the case of an area served by a rural telephone company, the term "service area" means the company's "study area" for federal universal service support unless the federal communications commission and the commission, after taking into account recommendations of a federal-state joint board instituted under 47 U.S.C. 410(c), establish a different definition of service area for the company. The term "service area" for all other telecommunications carriers means a geographic area, such as a census block or grid block, as established by the commission for the purpose of determining federal universal service obligations and support mechanisms.

(3) Upon receiving a petition from a telecommunications carrier and consistent with the public interest, convenience, and necessity, the commission may, in the case of an area served by a rural telephone company, and shall, in the case of all other areas, designate more than one telecommunications carrier for a service area, so long as each additional requesting telecommunications carrier meets the requirements of 47 U.S.C. 214(e)(1). Before designating an additional eligible telecommunications carrier for an area served by a rural telephone company, the commission shall find that the designation is in the public interest.

(4) If no telecommunications carrier will provide the services that are supported by universal service support mechanisms under 47 U.S.C. 254(c) to all or a part of an unserved community that requests service, the commission shall determine which telecommunications carrier is best able to provide the service to the requesting unserved community. Any telecommunications carrier ordered to provide service under this section shall meet the requirements of 47 U.S.C. 214(e)(1) and must be designated as an eligible telecommunications carrier for that community or the unserved portion of the community.

(5) The commission shall permit an eligible telecommunications carrier to relinquish its designation as an eligible telecommunications carrier in any area served by more than one eligible telecommunications carrier. An eligible telecommunications carrier that seeks to relinquish its eligible telecommunications carrier designation for an area served by more than one eligible telecommunications carrier shall give advance notice to the commission of the relinquishment. Prior to permitting a telecommunications carrier designated as an eligible telecommunications carrier to cease providing universal service in an area served by more than one eligible telecommunications carrier, the commission shall require the remaining eligible telecommunications carrier to ensure that all customers served by the relinquishing carrier will continue to be served and shall require sufficient notice to permit the purchase or construction of adequate facilities by any remaining eligible telecommunications carrier. The commission shall establish a time, not to exceed 1 year after the commission approves relinquishment under this section, within which the purchase or construction must be completed.

Compiler's Comments

2003 Amendment: Chapter 187 in (2) near middle of second sentence after "communications commission" substituted "and the commission, after taking into account recommendations of a federal-state joint board instituted under 47 U.S.C. 410(c), establish" for "establishes"; in (5) near middle of first sentence after "eligible" inserted "telecommunications"; and made minor changes in style. Amendment effective March 31, 2003.

69-3-841. Universal service policies. The legislature finds that universally available telecommunications services are essential to the health, welfare, and economic well-being of the citizens of Montana. The federal Telecommunications Act of 1996, Public Law 104-104, requires a transition to local competition. Implicit subsidies have historically been used to further the public policy of keeping local rates to customers in high-cost areas at affordable levels. The federal act and the transition to competition require that all subsidies used to keep local rates at affordable levels be explicit. Additionally, the federal act's universal service provisions establish a system of discounts for schools, libraries, and health care providers. Securing these discounts can be dependent on state actions. In order to preserve and advance the goal of universal service in the new competitive environment established by the federal act, the legislature finds that a new Montana universal service fund, supported by contributions from the telecommunications carriers operating in Montana, should be created that will:

(1) not duplicate the federal universal service fund mandated by the Telecommunications Act of 1996 but that will complement the federal fund by providing additional funding as necessary to ensure universal service in the state of Montana;

(2) be competitively and technologically neutral in both funding and distribution;

(3) provide a specific, predictable, and sufficient mechanism of support for high-cost areas; and

(4) allow for implementation of the federal support system for telecommunications services provided to schools, libraries, and health care providers.

History: En. Sec. 11, Ch. 349, L. 1997.

69-3-842. Universal service fund established — purpose. (1) Upon petition for good cause by a telecommunications carrier or the consumer counsel or on the commission's own motion, the commission shall investigate the need for a fund to assist eligible telecommunications carriers in providing affordable telecommunications services in high-cost areas. This investigation must take into account the evolving nature of universal service as well as changes in federal and state telecommunications support systems, including but not limited to universal service funds and access reform.

(2) If the commission determines that a state universal service fund is necessary to promote the policies in 69-3-841 and is consistent with the public interest, the commission shall establish a state universal service fund. The fund must provide support for the following services:

(a) voice grade access to the public switched network, including some usage;

(b) dual-tone multifrequency (DTMF or "touch tone") signaling or its equivalent;

(c) single-party service;

(d) access to emergency services, including access to 9-1-1, where available, and access to enhanced 9-1-1 when requested by a telecommunications carrier's local community and when the telecommunications carrier has technical capacity to provide it;

(e) access to operator services;

(f) access to interexchange services; and

(g) access to directory assistance.

(3) The fund must support only access to the services listed in subsections (2)(d) through (2)(g) and not support the services themselves.

(4) The fund must be administered to ensure that its operation is competitively and technologically neutral.

(5) For the purposes of this section, "interexchange services" means telecommunications long-distance services.

History: En. Sec. 12, Ch. 349, L. 1997; amd. Sec. 1, Ch. 430, L. 2001.

69-3-843. Fund administrator — commission rulemaking authority. (1) A fiscal agent and daily administrator must be selected by the commission to receive and distribute funds under 69-3-841, 69-3-842, 69-3-844, 69-3-845, and this section.

(2) The fiscal agent must be selected by the commission based upon a competitive bidding process after an opportunity for public comment on the specific qualifications required of the fiscal agent. A telecommunications carrier is not eligible to be the fiscal agent. The duties of the fiscal agent must be determined by a contract consistent with 69-3-841, 69-3-842, 69-3-844, 69-3-845, and this section. The contract term of the fiscal agent may not be for a period greater than 3 years.

(3) The commission may adopt rules for the administration of the fund.

History: En. Sec. 13, Ch. 349, L. 1997; amd. Sec. 1, Ch. 187, L. 1999; amd. Sec. 2, Ch. 430, L. 2001.

69-3-844. Contributions to fund. (1) The fiscal agent shall collect contributions from all telecommunications carriers on a quarterly basis, based on a January 1 to December 31 calendar year. Those contributions must be determined on a percentage of total intrastate retail revenue for all telecommunications carriers registered in the state. If the high-cost mechanisms of the federal universal service program are eliminated, contributions must be determined on a percentage of total intrastate and interstate retail revenue for all telecommunications carriers registered in the state.

(2) The commission shall adopt rules to govern collection of the contributions required by this section, as well as rules allowing the fiscal agent and daily administrator to assess late fees and interest on delinquent payments from telecommunications carriers. The fiscal agent is specifically authorized to enforce the contribution requirements of this section through suit in the district courts of Montana, and the prevailing party in an action is entitled to the recovery of costs and attorney fees incurred in that action.

(3) Any funds received by an eligible telecommunications carrier from the state high-cost fund must be used for the provision, maintenance, and upgrading of facilities and services for which the support is intended.

(4) Any reduction in telecommunications carrier access expenses because of the removal of implicit subsidies inherent in telecommunications carrier access rates must be passed through to Montana end-user customer retail rates.

History: En. Sec. 14, Ch. 349, L. 1997; amd. Sec. 2, Ch. 187, L. 1999; amd. Sec. 3, Ch. 430, L. 2001.

69-3-845. Payments from fund — costs. (1) Payments from the fund must be made from collected contributions by the fiscal agent to qualifying eligible telecommunications carriers, on a quarterly basis, pursuant to rules adopted by the commission.

(2) Only eligible telecommunications carriers that offer the telecommunications services described in 69-3-842(2) to all customers in a designated support area and that advertise the availability of the telecommunications services and the charges for the telecommunications services using media of general distribution may receive support from the fund for the designated support area.

(3) An eligible telecommunications carrier providing telecommunications services through resale of another telecommunications carrier's telecommunications services or facilities may not receive support for those telecommunications services or facilities if the rates charged to an eligible telecommunications carrier by the other telecommunications carrier have been reduced by a contribution from universal service funds under this section.

(4) Costs of administering the fund must be paid from the fund.

History: En. Sec. 15, Ch. 349, L. 1997; amd. Sec. 3, Ch. 187, L. 1999; amd. Sec. 4, Ch. 430, L. 2001.

69-3-846. Discounts for schools, libraries, and health care providers. The commission is authorized to establish intrastate discounts to schools, libraries, and health care providers and to perform administrative functions necessary as a condition of federal universal service support if the discounts are recovered through the federal universal service fund.

History: En. Sec. 16, Ch. 349, L. 1997.

69-3-847. Wholesale pricing standards. (1) Except as provided in subsection (2), if the commission is requested by a telecommunications carrier to establish wholesale prices for services provided by a telecommunications carrier, the commission may not establish a wholesale price using a default proxy discount value to be applied to the applicable retail price. The commission shall establish wholesale prices using company-specific costs.

(2) This section does not apply to the prices, terms, and conditions of a final or interim arbitrated interconnection agreement, arbitration decision, or appeal from an agreement or decision if the request for arbitration was filed on or before March 1, 1997.

History: En. Sec. 17, Ch. 349, L. 1997.

69-3-848. Pricing of individual network elements. (1) Except as provided in subsection (4), if the commission is requested by a telecommunications carrier to establish the prices of the individual network elements used to provide telecommunications services, the commission shall set those prices at a just and reasonable level sufficient to recover the actual cost of providing those elements, including:

(a) a reasonable share of the joint and common costs so that the telecommunications carrier has a reasonable opportunity to recover these costs;

(b) depreciation costs that are based upon forward-looking asset lives consistent with asset lives of other telecommunications carriers and that reflect an amortization of any underdepreciated investment;

(c) a reasonable share of the costs associated with fill factors, recognizing spare capacity required to fulfill eligible telecommunications carrier responsibilities; and

(d) a fair return on investments.

(2) The actual cost of providing the elements included in subsections (1)(a) through (1)(d) must be determined without reference to a rate-of-return or other rate-based proceeding.

(3) If a telecommunications carrier uses average prices for services to end users without regard to the customer's location, the commission shall similarly establish an average cost and wholesale price for each individual network element sold to other telecommunications carriers. The commission may depart from average pricing for network elements only to the extent that the retail prices to end users of a telecommunications carrier have departed from average pricing.

(4) This section does not apply to the prices, terms, and conditions of a final or interim arbitrated interconnection agreement, arbitration decision, or appeal from an agreement or decision if the request for arbitration was filed on or before March 1, 1997.

History: En. Sec. 18, Ch. 349, L. 1997.

69-3-849. Prohibited subsidies. The commission may not subsidize the price of any telecommunications service, including wholesale prices or the prices of individual network elements, by reducing the prices to reflect an allocation or credit of revenue from the operations of an affiliated company of the carrier of telecommunications services, including a publishing affiliate.

69-3-870. Performance assurance state special revenue account — statutory appropriation. (1) There is a performance assurance state special revenue account in the state special revenue fund. The account must be used for the deposit of payments to the state made by a telecommunications carrier pursuant to the terms of a performance assurance plan.

(2) Money in the performance assurance state special revenue account is statutorily appropriated, as provided in 17-7-502, and may be expended by the commission in carrying out its responsibilities to administer, audit, and oversee the performance assurance plan, pursuant to the terms of the plan.

(3) For purposes of this section, a "performance assurance plan" means a commission-approved, self-executing remedy plan to ensure that a telecommunications carrier provides adequate wholesale service to competitors after the carrier gains entry into the interlocal access and transport area long-distance market in its region pursuant to 47 U.S.C. 271.

Part 9
Rate Regulation of Small Telecommunications Providers

69-3-901. Definitions. As used in this part, the following definitions apply:

(1) "Commission" means the Montana public service commission.

(2) "Rate" means a charge by a small telecommunications provider to a subscriber for the initiation or continued provision of regulated telecommunications service. The term includes but is not limited to charges for installations, local service, toll service, directory assistance, and late payment.

(3) "Rate increase" means an increase in the rates for regulated telecommunications services provided by a small telecommunications provider and the creation of new rates.

(4) "Regulated telecommunications service" is as defined in 69-3-803.

(5) "Small telecommunications provider" means a person, partnership, corporation, or other entity providing regulated telecommunications service to less than 12,000 subscribers in Montana. Rural telephone cooperatives organized under Title 35, chapter 18, are not small telecommunications providers.

(6) "Subscriber" means a person, partnership, corporation, or other entity acquiring regulated telecommunications service from a small telecommunications provider. There is one subscriber for each billed line of a small telecommunications provider.

History: En. Sec. 1, Ch. 254, L. 1987; amd. Sec. 1, Ch. 154, L. 1999.

69-3-902. Rate regulation of small telecommunications provider. Except as provided in this part, small telecommunications providers are not subject to commission rate regulation provided in parts 3 and 8 of this chapter.

History: En. Sec. 2, Ch. 254, L. 1987.

69-3-903. Notice of rate increase or decrease. (1) At least 60 days before the effective date of any rate increase or decrease proposed by a small telecommunications provider, the small telecommunications provider shall mail notice of the proposed rate increase or decrease to each affected subscriber, the commission, and the Montana consumer counsel.

(2) Notice to the commission and consumer counsel must include:

(a) a summary of the justification for the proposed rate increase;

(b) a list of the number of affected subscribers in each category of rates proposed to be increased or decreased; and

(c) if requested by the commission, a list of the names of the affected subscribers.

(3) The notice to affected subscribers may be included with regular subscriber billings and must include:

(a) a schedule of the proposed rates;

(b) the effective date of the proposed rates; and

(c) a description of the petition procedure in 69-3-906 for seeking commission review and determination of the proposed rates. If the small telecommunications provider publishes the petition procedure in a telephone directory, a reference to the location of the procedure in the directory is adequate notice.

History: **En. Sec. 3, Ch. 254, L. 1987; amd. Sec. 2, Ch. 154, L. 1999.**

69-3-904. Commission review and determination of rate increases or decreases. (1) When a small telecommunications provider proposes a rate increase or decrease, the commission shall review and determine the rates pursuant to the applicable procedures in this chapter if:

(a) the affected subscribers have successfully petitioned for commission review as described in 69-3-906;

(b) the small telecommunications provider requests the commission to review and determine the rates; or

(c) by the 60th day following notice of the proposed increase or decrease, the consumer counsel petitions the commission to review and determine the rates.

(2) An order of the commission issued under this section establishes the effective rate for the regulated telecommunications services covered by the order. Rates established by commission order may not be increased for a period of 6 months, except as ordered by the commission.

(3) The order of the commission is subject to review pursuant to part 4 of this chapter.

History: **En. Sec. 4, Ch. 254, L. 1987; amd. Sec. 3, Ch. 154, L. 1999.**

69-3-905. Investigations by commission. Nothing in this part limits the authority of the commission under 69-3-324 to investigate at any time and on its own motion the existing rates of a small telecommunications provider.

History: **En. Sec. 5, Ch. 254, L. 1987.**

69-3-906. Petition for review of proposed rate increase or decrease. Subscribers affected by a proposed rate increase or decrease for regulated telecommunications services by a small telecommunications provider may petition the commission to review and determine the rates. The petition must identify the proposed rate increase or decrease and must be in writing and signed by a subscriber or the authorized person if the subscriber is a business account.

History: **En. Sec. 6, Ch. 254, L. 1987; amd. Sec. 4, Ch. 154, L. 1999.**

69-3-907. Proposed increase or decrease effective unless requisite petitions received by commission. (1) If by the 60th day following notice to subscribers of a proposed rate increase or decrease the commission has not received petitions containing signatures from at least 10% of the affected subscribers in any rate category or a petition for review from the consumer counsel, the commission shall certify this fact to the small telecommunications provider and the proposed rate increase or decrease becomes effective as published in the notice of proposed increase or decrease.

(2) If by the 60th day following notice to subscribers of a proposed rate increase or decrease the commission has received petitions containing signatures from 10% or more of the affected subscribers in any rate category or a petition for review from the consumer counsel, the commission shall notify the small telecommunications provider of this fact and shall indicate that the proposed rate increase or decrease in that rate category will not take effect as noticed. The commission shall then review and determine the rates in that category pursuant to 69-3-904.

(3) In the case of a proposed increase or decrease in rates for access services provided to interexchange carriers, a valid petition for commission review and determination of rates consists of a signature of an authorized representative of any interexchange carrier that would be affected by the access rates that are proposed to be increased or decreased.

History: **En. Sec. 7, Ch. 254, L. 1987; amd. Sec. 5, Ch. 154, L. 1999.**

69-3-908 and 69-3-909 reserved.

69-3-910. Regulatory flexibility upon petition by small telecommunications provider. (1) Upon application by a small telecommunications provider, the commission shall forebear from applying any regulation or any provision of this chapter to a small telecommunications provider in all or some of the small telecommunications provider's geographic markets, as stated in the application, if the commission determines that:

(a) enforcement of a regulation or provision is not necessary to ensure:

(i) that the charges, practices, or classifications are just and reasonable; or

(ii) that regulations by, for, or in connection with the small telecommunications provider are just and reasonable;

69-3-1101. Purpose. The purpose of this part is to provide aggrieved customers and the commission a course of action against operator service providers that charge customers exorbitant rates for intrastate calls from a pay telephone or certain other telephones in commercial establishments and public facilities and to ensure that customers are fully aware of which charges on their monthly bill are owed to an operator service provider and of how a customer can reach the operator service provider for the purpose of contesting the amount charged.

The allowable rate is inclusive of the call rate and any aggregator surcharge or other calling fee collected from a customer by the operator service provider.

(2) disclose, audibly and distinctly to the customer, at no charge and before connecting any intrastate call, how to obtain the total cost of the call, including any aggregator surcharge, or the maximum possible total cost of the call, including any aggregator surcharge, before providing further advice to the customer on how to proceed to make the call. The voice disclosure required in this section must instruct each customer that the customer may obtain applicable rate and surcharge amounts by dialing not more than two digits or by remaining on the line.

(3) upon request, fully and immediately disclose to the customer, at no charge, the operator service provider's method of collecting its charges, a description of the operator service provider's method of resolving customer complaints, a toll-free telephone number that can be used to report complaints to or contest charges of the operator service provider, and all other requested information pertinent to the customer's use of the operator service provider's services. History: En. Sec. 1, Ch. 157, L. 1993.

69-3-1202. Policy — planning. (1) It is the policy of the state of Montana to supervise, regulate, and control public utilities. To the extent that it is consistent with the policy and in order to benefit society, the state encourages efficient utility operations, efficient use of utility services, and efficient rates. It is further the policy of the state to encourage utilities to acquire resources in a manner that will help ensure a clean, healthful, safe, and economically productive environment.

(2) The legislature finds that the commission may include in rates the costs that are associated with acquiring the resources referred to in subsection (1) and that are consistent with this policy if the resources are actually used and useful for the convenience of the public. To advance this policy, the commission may require periodic long-range plans from utilities that provide electric and natural gas service in a form and manner determined by the commission. The commission may receive comments on the plans.

(3) This part does not constrain or limit the commission's existing statutory duties or responsibilities.

The rules may prescribe the content and the time for filing a plan.

(2) A plan must contain but is not limited to an evaluation of the full range of cost-effective means for the public utility to meet the service requirements of its Montana customers, including conservation or similar improvements in the efficiency by which services are used.

(3) The commission may adopt rules providing guidelines to be used in preparing a plan and identifying the criteria to be used in determining cost-effectiveness. The criteria may include externalities associated with the acquisition of a resource by a public utility. The rules must establish the minimum filing requirements for acceptance of a plan by the commission for further review. If a plan does not meet the minimum filing requirements, it must be returned to the public utility with a list of deficiencies. (2) The department of environmental quality:

(a) shall review a plan and comment on the need for new resources, the alternatives evaluated to meet the need, the environmental implications of the resource choices, and other related issues that it considers important. The department shall coordinate and deliver all comments from other executive branch agencies.

(2) If the commission finds that an entity is operating in violation of any provision of this section, the commission may:

(a) order the carrier or a billing agent that bills directly for that entity to terminate the billing and collection services for that entity. The commission shall provide adequate time for the billing agent to terminate contractual agreements with the entity. This section does not preclude a carrier or billing agent from taking action on its own to terminate billing and collection services.

(b) prohibit the entity's billing aggregator from forwarding any charges from an entity operating in violation of this section to a carrier or billing agent for placement on a customer's telephone bill.

(3) Failure by an entity to respond to commission requests for information related to an investigation of a possible violation of this section is grounds for the commission to:

(a) order the carrier, billing aggregator, or billing agent that bills directly for the entity to cease billing and collection services for the service provider; or

(b) prohibit a billing aggregator from forwarding charges to the billing agent to be placed on a customer's telephone bill.

(4) This section does not obligate a billing agent to provide billing and collection services to a billing aggregator or service provider.

(5) A telephone company has a right of indemnity against anyone who has provided it with false information as to the status of charges billed on behalf of a service provider.

(a) knowingly or repeatedly billed one or more customers for unauthorized service; or

(b) engaged in any other false or deceptive billing practices.

(8) The commission may revoke the registration of a billing aggregator that has:

(a) knowingly or repeatedly forwarded the charge for a service or product to a billing agent on behalf of a service provider that was required to be registered with the commission and that was not properly registered; or

(b) engaged in any other false or deceptive billing practices.

(9) Immediately following a revocation of registration under this section, the commission shall provide notice of the revocation to all telecommunications carriers and registered billing aggregators doing business in Montana.

Part 14

Natural Gas Utility Restructuring and Customer Choice Act

69-3-1401. Short title. This part may be cited as the "Natural Gas Utility Restructuring and Customer Choice Act".

History: En. Sec. 1, Ch. 506, L. 1997.

69-3-1402. Definitions. As used in this part, the following definitions apply:

(1) "Customer" means a natural gas customer or consumer of natural gas supply or natural gas transmission facilities, storage facilities, or distribution facilities.

(2) "Distribution facilities" means those facilities that are not transmission facilities:

(a) by and through which natural gas is received from a transmission services provider and transmitted to the customer; and

(b) operated by a distribution services provider.

(3) "Distribution services provider" means a person controlling or operating distribution facilities for distribution of natural gas to the public.

(4) "Natural gas supplier" means a person, including aggregators, market aggregators, brokers, and marketers, licensed by the commission that is offering to sell natural gas to retail customers in the state of Montana.

(5) "Natural gas utility" means a utility regulated by the commission on May 2, 1997, that provides natural gas services to the public.

(6) "Open access" means that a natural gas utility has made its transmission facilities, storage facilities, or distribution facilities available to all natural gas suppliers, transmission services providers, distribution services providers, and customers on a nondiscriminatory and comparable basis.

(7) "Performance-based ratemaking" means those forms of regulation that include but are not limited to the use of revenue indexing, price indexing, ranges of authorized return, gas cost indexing, and innovative use of utility-related assets and activities, such as system sales of excess natural gas supplies, release of upstream pipeline capacity, and performance of billing services for other natural gas suppliers. A performance-based regulation may also include a mechanism for automatic annual adjustments of revenue to prices to reflect changes in any index adopted for the implementation of the performance-based form of regulation.

(8) "Storage facilities" means those facilities that are owned, controlled, or operated by a person offering storage service for natural gas and generally means any underground reservoir suitable for the storage of natural gas and the facilities used to inject and withdraw natural gas into and out of that underground reservoir.

(9) "Transition costs" means:

(a) a natural gas utility's net, verifiable production- and gathering-related costs, including costs of capital, that become unrecoverable as a result of customer choice and open access. These costs include but are not limited to:

(i) regulatory assets and deferred charges that exist as a result of current regulatory practices and that may be accounted for up to the point in time that the commission issues a final order in a docket addressing transition costs, including all costs, expenses, and fees related to the issuance of transition bonds;

(ii) the above-market costs associated with existing gas supply commitments;

(iii) other natural gas utility investments rendered uneconomic as a result of implementation of customer choice and open access;

(iv) the costs associated with renegotiation or buyout of existing natural gas purchase contracts; and

(v) the costs associated with the issuance of any related transition bonds authorized by the commission pursuant to 69-3-1403.

(b) the costs of refinancing or retiring debt or equity capital of the natural gas utility and associated federal and state tax liabilities or other utility costs for which the use of transition bonds would benefit customers.

(10) "Transmission facilities" means those facilities owned, controlled, and operated by a transmission services provider that are used to transport natural gas from a gathering line or storage facility to a distribution facility, storage facility, or end-use customer.

(11) "Transmission services provider" means a person controlling or operating transmission facilities.

(12) "Universal system benefits charge" means a nonbypassable rate or charge to be imposed on a customer to pay the customer's share of universal system benefits program costs.

(13) "Universal system benefits programs" means public purpose programs for cost-effective local energy conservation, low-income weatherization, and low-income energy bill assistance.

History: En. Sec. 2, Ch. 506, L. 1997.

69-3-1403. Customer choice. (1) A natural gas utility may voluntarily offer its customers choice of natural gas supplier and provide open access to its transmission facilities, storage facilities, or distribution facilities.

(2) If a customer choice offering results in transition costs, the commission may allow those transition costs to be recovered in separate identifiable charges to customers. Upon commission approval, the natural gas utility must have the opportunity but not the obligation to finance the fixed transition costs and related financing costs using transition cost financing as provided for in 69-8-103 and 69-8-503.

History: En. Sec. 3, Ch. 506, L. 1997.

69-3-1404. Functional separation — code of conduct — emergency services — customer protection. (1) A natural gas utility that provides customer choice and open access on its system shall:

(a) functionally separate its natural gas production and gathering from its natural gas transmission, storage, and distribution services and remove natural gas production and gathering from the rate base;

(b) adopt and comply with commission-approved standards of conduct to be included in a tariff to govern its natural gas transmission, storage, and distribution services; and

(c) provide emergency natural gas supply and related services to the extent necessary to maintain the operational integrity of the transmission system as determined by the commission.

(2) The commission shall develop standards that protect consumers and natural gas suppliers from anticompetitive and abusive practices.

(3) This part does not reduce or otherwise change the authority of the commission to review the prudence of natural gas purchases made by a natural gas utility for its customers that do not

have a choice or that have not made a choice of natural gas suppliers or have not been assigned a natural gas supplier.

History: En. Sec. 4, Ch. 506, L. 1997.

69-3-1405. Licensing — procedures — commission rulemaking. (1) The commission shall license natural gas suppliers and enforce licensing provisions pursuant to this section.

(2) A natural gas supplier shall file an application with and obtain a license from the commission to sell natural gas to customers in the state of Montana.

(3) A licensee shall:

(a) provide copies of all license applications to the commission and to all distribution services providers; and

(b) update information and file annual reports.

(4) A license application becomes effective 30 days after filing with the commission, unless the commission rejects the application during that period. If the commission rejects a license application, the commission shall specify the reasons in writing and, if practical, shall identify alternative ways to overcome deficiencies.

(5) The commission shall promulgate rules requiring licensing information that identifies the licensee and ensures that the natural gas supply is provided as offered and is adequate in terms of quality, safety, and reliability.

(6) The commission may require proof of a licensees financial integrity and a demonstration of adequate firm deliverability to meet load requirements.

(7) Pursuant to its own investigation or upon the complaint of an affected party, the commission may institute a proceeding to revoke or suspend a license of a natural gas supplier for just cause.

History: En. Sec. 5, Ch. 506, L. 1997.

69-3-1406. Reciprocity. (1) All natural gas suppliers are afforded the comparable opportunity to compete.

(2) A natural gas distribution services provider or its affiliates may not use another natural gas distribution services provider's facilities in the state of Montana to sell natural gas to customers in the state of Montana unless the natural gas distribution services provider or its affiliates offer customer choice and open access to their natural gas distribution facilities.

History: En. Sec. 6, Ch. 506, L. 1997.

69-3-1407. Optional performance-based ratemaking for natural gas utilities — commission rulemaking. (1) The commission may, upon application and after giving notice and conducting a hearing as provided in 69-3-303, authorize any natural gas utility to implement an optional form of rate regulation using a performance-based ratemaking methodology.

(2) The commission may approve a performance-based ratemaking methodology if it finds that the methodology:

(a) preserves adequate service to all classes of customers, including transportation-only customers;

(b) does not unreasonably prejudice or disadvantage any class of natural gas utility users;

(c) provides incentives for improved performance by the natural gas utility in the natural gas utility's public duties;

(d) results in rates that are not excessive; and

(e) is in the public interest.

(3) The commission may, after giving notice and conducting a hearing as provided in 69-3-303, modify or discontinue a natural gas utility's performance-based ratemaking previously authorized under this section if the commission finds that:

(a) natural gas service to one or more classes of customers has deteriorated or will deteriorate;

(b) any class of natural gas utility customer is being unreasonably prejudiced or disadvantaged;

(c) the performance-based ratemaking is not providing or will not provide reasonable incentives for improved performance by a natural gas utility in the performance of its public duties;

(d) rates are excessive compared to a natural gas utility's cost of service;

(e) terms ordered by the commission in connection with the approval of a natural gas utility's implementation of performance-based ratemaking have been violated; and

(f) the performance-based form of regulation is not in the public interest.

(4) The commission shall promulgate rules for monitoring a natural gas utility that has implemented performance-based ratemaking to ensure that the natural gas utility is in compliance with the requirements of this section.

History: En. Sec. 7, Ch. 506, L. 1997.

69-3-1408. Universal system benefits programs — establishing nonbypassable rate. (1) A natural gas utility shall implement, upon commission approval, a universal system benefits program that considers existing universal system benefits programs in the state.

(2) The commission shall establish a universal system benefits charge that either all natural gas transmission services providers or all distribution services providers, or both, in the state of Montana shall charge to all end-use customers, taking into consideration the current level of expenditure by the natural gas utility, cost-effectiveness, and similar costs imposed in other states. The method of assessing those rates may not disproportionately burden a large transmission services provider's customers. Within the universal system benefits charge, a natural gas utility's annual funding requirement for low-income weatherization and low-income energy bill assistance is established at 0.42% of a natural gas utility's annual revenue. A natural gas utility must receive credit for its internal programs or activities that qualify as universal system benefits programs.

(3) On or before July 1, 2002, the commission shall conduct a reevaluation of the ongoing need for universal system benefits programs and annual funding requirements and shall make recommendations to the 58th legislature regarding the future need for universal system benefits programs. The determination should focus specifically on the existence of markets to provide for any of the universal system benefits programs or on whether other means for funding those universal system benefits programs have developed. These recommendations may also address how future reevaluations will be provided, if necessary.

History: En. Sec. 8, Ch. 506, L. 1997.

69-3-1409. Tax revenue analysis. The revenue and transportation interim committee, as provided for in 5-5-202, shall analyze the amount of state and local tax revenue derived from previously regulated natural gas suppliers that will enter the competitive market and shall report to the legislature on how revenue to the state or local government is changed by restructuring and competition.

General Provisions

69-4-101. Use of public right-of-way for utility lines and facilities. A telegraph, telephone, electric light, or electric power line corporation or public body or any other person owning or operating such is hereby authorized to install its respective plants and appliances necessary for service and to supply and distribute electricity for lighting, heating, power, and other purposes and to that end, to construct such telegraph, telephone, electric light, or electric power lines, from point to point, along and upon any of the public roads, streets, and highways in the state, by the erection of necessary fixtures, including posts, piers, and abutments necessary for the wires. The same shall be so constructed as not to incommode or endanger the public in the use of said roads, streets, or highways, and nothing herein shall be so construed as to restrict the powers of city or town councils.

(a) "new service area" means any subdivision or group of newly constructed or newly installed dwellings (including mobile homes) or commercial buildings which, when occupied, will generate at least five contracts for the supply of electricity; and

(b) "lines used for the distribution of electricity" means all the distribution lines in the new service area through which electricity passes before it is utilized by the consumer and the consumer's dwelling or place of business.

(2) A firm, agency, or person exercising the rights conferred by 69-4-101 shall install underground all lines used for the distribution of electricity in a new service area when technically and economically feasible.

(3) The commission may make rules to implement this section.

Part 2
Construction Standards for Utility Lines and Facilities

69-4-201. Application of national electrical safety code. (1) The national electrical safety code standards govern all construction involving wires for power, heat, light, telephone, telegraph, or signal transmission or reception. Except as provided in 69-4-203, electrical construction of overhead and underground electrical supply and communication lines in the state must be in conformity with the rules set forth in the national electrical safety code approved by the American national standards institute as published by the institute of electrical and electronic engineers. The national electrical safety code provides construction standards and must be enforced by the commission. Proof of compliance with the requirements of an applicable national electrical safety code standard establishes due care in the defense of a negligence claim alleging a violation of that standard.

(2) The commission shall adopt rules to implement and enforce this part. The commission shall adopt by rule standards for electrical safety. The standards must be based on standards published in the most recent edition of the national electrical safety code.

History: En. Sec. 25, Ch. 171, L. 1917; re-en. Sec. 2701, R.C.M. 1921; re-en. Sec. 2701, R.C.M. 1935; amd. Sec. 12, Ch. 137, L. 1941; R.C.M. 1947, 24-125; amd. Sec. 1, Ch. 516, L. 1979; amd. Sec. 1, Ch. 471, L. 1989; amd. Sec. 1, Ch. 212, L. 1993.

(1) interstate railroad electrification construction except where the wires of the railroad cross or are crossed by wires belonging to others; and

(2) any electrical construction of any person using the construction for power wires where:

(a) the construction and wires and the power plant furnishing electricity therefor are wholly owned by this person and the electricity conducted thereby is produced and used solely by this person on his own premises and not sold or delivered to any other person off his premises;

(b) the wires or construction are not over or across any highway or public place or the property of others; and

(c) these wires have a potential of less than 450 volts between any phases.

69-4-311. Authorization to create special improvement districts. (1) The governing body of a county is authorized and empowered to create special improvement districts under Title 7, chapter 12, part 21, and this part, within the unincorporated portion of the county. The governing body of a city or town is authorized and empowered to create special improvement districts under Title 7, chapter 12, parts 41 and 42, and this part, within its territorial limits. (2) A special improvement district must include an area having a frontage of not less than 1,000 feet upon a public street, road, highway, or utilities easement along which overhead electric or communication facilities are located.

69-4-312. Procedure to initiate creation of district — resolution for feasibility study. (1) A governing body, on its own initiative or upon a petition signed by at least 60% of the property owners owning at least 60% of the assessable land of a proposed district requesting the creation of a special improvement district, as provided for in this part, may pass a resolution at a regular or special meeting, declaring that it finds that the special improvement district is in the public interest. The governing body shall make a finding that the formation of the special improvement district, for the purposes set out in this part, will promote the public convenience, necessity, and welfare.

(2) The resolution must state that the costs and expenses will be levied and assessed upon the property benefited and further request that each public utility serving the area by overhead electric or communication facilities shall, within 120 days after the receipt of the resolution, make a study of the cost of conversion of its facilities in the area to underground service. The report of the study must be provided to the governing body and made available for inspection in the office of the governing body and each public utility. The governing body may not pass a resolution of intention to create a special improvement district until it has received the report. The resolution of the governing body must require that each public utility be provided with the name and address of the owner of each parcel or lot within the proposed improvement district, if known, and if not known, the description of the property and other matters as may be required by the public utilities in order to perform the work involved in the cost study. The resolution must further state the area in square feet of each lot or parcel within the proposed conversion service area.

History: En. Sec. 6, Ch. 429, L. 1971; R.C.M. 1947, 70-606; amd. Sec. 6, Ch. 250, L. 1993.

69-4-313. Cost and feasibility report. (1) The public utility report shall set forth an estimate of the total underground conversion costs and shall also indicate the costs of underground conversion of facilities of the public utility located within the boundaries of the various parcels or lots then receiving service. The report shall also contain the public utility's recommendations concerning the feasibility of the project for the district proposed, insofar as the physical characteristics of the district are concerned. The report shall make recommendations by the public utility concerning inclusion or exclusion of areas within the district or immediately adjacent to the district.

(2) The governing body shall give careful consideration to the public utility's recommendations concerning feasibility, recognizing their expertise in this area, and may amend the boundaries of the proposed improvement district; provided, that the costs and feasibility report of the public utility contains a cost figure on the district as amended, or it may request a new cost and feasibility report from the public utility concerned on the basis of the amended district. Should a delay result in a significant increase of the estimated conversion costs, new hearings shall be held on the creation of the district. In the event an increase of 10% or less results from delay, only the hearing on the assessments need be held again.

History: En. Sec. 7, Ch. 429, L. 1971; R.C.M. 1947, 70-607.

69-4-314. Determination of conversion costs. In determining the conversion costs included in the cost and feasibility report required by 69-4-313, the public utility is entitled to amounts sufficient to repay it for the following, as computed and reflected by the uniform system of accounts approved by the Montana public service commission, federal communications commission, or federal power commission or if the public utility is not subject to regulation by any of the above governmental agencies, by the public utility's system of accounts then in use and in accordance with standard accounting procedures of the public utility:

(1) the original costs less depreciation taken of the existing overhead electric and communication facilities to be removed;

(2) the estimated costs of removing the overhead electric and communication facilities less the salvage value of the facilities removed;

(3) if the estimated cost of constructing new underground facilities exceeds the estimated cost of constructing new aerial facilities, then the cost difference between the two;

(4) the cost of obtaining new easements when technical considerations make it reasonably necessary to utilize easements for the underground facilities different from those used for above ground facilities or where the preexisting easements are insufficient for the underground facilities.

69-4-351. Maintenance and construction of converted facilities. The public utility shall have the duty to maintain, repair, and replace all underground facilities installed pursuant to this part. There shall be no competitive bidding as to the construction of the converted facilities since existing facilities are owned, maintained, and operated by the public utility and the continuity of service of the utility is essential, both of which make construction work by third persons impracticable. Therefore, the public utility concerned shall be responsible for the accomplishment of all construction work and may contract out such of the construction work as it deems desirable.

History: En. Sec. 27, Ch. 429, L. 1971; R.C.M. 1947, 70-627(part).

69-4-352. Title to converted facilities. Title to the converted facilities shall be at all times solely and exclusively in the public utility involved, as the public is only purchasing the intangible benefits which come from converted facilities; that is, the removal of the overhead facilities and replacement by underground facilities.

History: En. Sec. 27, Ch. 429, L. 1971; R.C.M. 1947, 70-627(part).

69-4-353. Conversion of facilities on public property — notice to landowners. (1) Upon completion of the conversion of the overhead electric or communication facilities on public lands and right-of-way to underground, the public utility shall file a verified statement of the costs of such conversion with the governing body.

(2) The governing body shall mail to each landowner and purchaser of property under contract for deed a notice stating that:

(a) service from the underground facilities is available;

(b) the landowner has 60 days after the date of the mailing of such notice to convert all overhead electric or communication facilities providing service to any structure or improvement located on his lot or parcel to underground service facilities; and

(c) after the 60-day period following the date of the mailing of the notice, the governing body will order the public utility to disconnect and remove all overhead electric and communication facilities providing service to any structure or improvement within the area.

History: En. Sec. 28, Ch. 429, L. 1971; R.C.M. 1947, 70-628; amd. Sec. 19, Ch. 526, L. 1983.

69-4-354. Conversion of facilities on private property. (1) Any conversion of electric or communication service facilities, including service connections, located on a privately owned lot or parcel shall be made, at the expense of the landowner, by the public utility owning the facility. The conversion shall be made in accordance with applicable safety rules, codes, regulations, tariffs, or ordinances. The public utility shall not be required to convert service lines on property, other than public lands and right-of-way, until the landowner furnishes to the public utility a permit or easement authorizing the public utility and its employees, agents, and contractors to enter upon real property of the landowner for the purpose of performing conversion work thereon.

(2) Upon completion of the conversion of overhead electric or communication service facilities on privately owned lots and parcels within a district, the public utility shall file with the governing body a verified statement of the costs of the conversion of such service facilities of each landowner in the district. Promptly thereafter, the governing body shall mail to each landowner a copy of such verified statement, which shall be due and payable within 30 days or as otherwise provided by the public utility.

69-4-355. Procedure upon failure to effect conversion on private property. If the owner of any structure or improvement served from the overhead electric or communication service facilities within an underground assessment district does not grant the utility a permit or easement referred to in 69-4-354 or if such an owner fails to convert to underground service facilities within 60 days after the mailing to him of the notice provided by 69-4-353, the governing body shall order the public utility to complete the conversion and to disconnect and remove all overhead facilities, including service facilities, providing service to such structure or improvement.

History: **En. Sec. 30, Ch. 429, L. 1971; R.C.M. 1947, 70-630.**

69-4-356. Payment of public utility. (1) Upon completion of the conversion contemplated by this part, the public utility shall present the governing body with its verified bill for conversion costs as computed pursuant to 69-4-314, but based upon the actual cost of constructing the underground facility rather than the estimated cost of the facility. In the event the conversion costs are less than the estimated conversion costs, each assessed owner within the improvement district shall receive the benefit, prorated in such form and at such time or times as the governing body may determine. The bill of the public utility shall be paid within 30 days by the governing body from the improvement district funds or such other source as is properly designated by the governing body.

(2) In determining the actual cost of constructing the underground facility, the public utility shall use its standard accounting procedures, such as the uniform system of accounts as defined by the federal communications commission, federal power commission, or Montana public service commission and as is in use at the time of the conversion by the public utility involved.

History: **En. Sec. 31, Ch. 429, L. 1971; R.C.M. 1947, 70-631.**

69-4-357. Prohibition on reinstallation of overhead facilities. Once removed, no overhead electric or communication facilities shall be installed in a special improvement district for conversion of overhead electric and communication facilities, except as authorized by this part.

History: **En. Sec. 32, Ch. 429, L. 1971; R.C.M. 1947, 70-632.**

69-4-358. Postponement of conversion until certain actions occur. If a special improvement district is established pursuant to this part, the public utility involved shall not be required to commence conversion until the ordinance, the assessment roll, and the issuance of bonds have become final and until no civil action has been filed or if civil action has been filed, until the decision of the court upon the action has become final and is not subject to further appeal.

Compiler's Comments

2003 Amendment: Chapter 359 in (1) near beginning after "area in which" substituted "wires, cables, or poles" for "utility poles or wires" and in two places inserted references to cables; deleted former (2) and (3) that read: "(2) The necessary and reasonable expense of raising or cutting the wires or of moving the poles for utilities subject to the jurisdiction of the public service commission must be fixed and determined by the public service commission on the average cost per line or pole for time and materials expended. These costs and expenses must be reviewed biennially. Except as provided in subsections (4) and (5), the necessary and reasonable expense of raising or cutting the wires or of moving the poles must be shared equally by the person, firm, or corporation owning the structure and the person, firm, or corporation owning or operating the wires, cables, or poles required to be moved.

(3) The rates and charges of rural cooperative electric utilities, rural cooperative telephone utilities, and other persons who occupy and use utility or cooperative poles may not exceed the charges established by the public service commission for utilities subject to its jurisdiction. The charges assessed by utilities, other than utilities subject to the jurisdiction of the public service commission, must be apportioned as provided in subsection (2)"; in (2)(a) near beginning substituted "the necessary and actual costs" for "to facilitate the movement of a house, building, derrick, or other structure, the necessary and reasonable costs" and at end substituted "movement of a house, building, derrick, other structure, or prefabricated structure that is intended to be moved from the place of fabrication, storage facility, or dealer's lot, determined in accordance with the schedule filed under 69-4-602, must be paid by the mover" for "movement must be paid by the owner of:

(i) a prefabricated structure that is intended to be moved from the place of fabrication; or

(ii) the sixth and each subsequent structure that exceeds 25 feet in height while being moved and that is to be moved from a single site. When structures are moved in a group or in a continuous caravan formation and when only a single line cut or movement is necessary, the move must count as only a single-structure move for purposes of this subsection (4)(a)(ii). For the purposes of this subsection (4)(a)(ii), a single site includes but is not limited to a development complex, housing complex, military base, or institutional complex. The whole of an incorporated municipality is not a single site as the term is used in this subsection"; in (2)(b) near beginning substituted "actual" for "reasonable" and at end substituted "determined in accordance with the schedule filed under 69-4-602, must be shared equally by the mover and the owner of the wires, cables, or poles if the structure is owned by a person for occupancy or use by that person" for "by a person for occupancy by that person must be shared equally as provided in subsection (2)"; at beginning of (3) substituted "A mover may not raise, cut, or in any way interfere with wires, cables, or poles" for "A person, firm, or corporation who owns or moves a house, building, derrick, or other structure may not raise, cut, or in any way interfere with any poles or wires" and in two places inserted references to cables; deleted former (5)(b) and (5)(c) that read: "(b) When the person who owns or controls the poles or wires refuses to raise or cut the wires or move the poles, the person, firm, or corporation who owns or moves the house, building, derrick, or other structure shall ensure that only competent and experienced workers raise or cut the wires or move the poles.

(c) The following procedure must be followed:

(i) The necessary and reasonable expense incurred by the owner or mover of the house, building, derrick, or other structure as a result of raising or cutting the wires or moving the poles must be paid by the owners of the poles or wires handled.

(ii) The work of raising or cutting the wires or moving the poles must be done in a careful manner.

(iii) The poles and wires must be promptly replaced and any damage to the poles or wires must be promptly repaired"; inserted (4) through (7) relating to prepayment and time for payment; and made minor changes in style. Amendment effective April 17, 2003.

Part 1
Territorial Integrity for Electric Suppliers

69-5-101. Short title. This part is known and may be cited as the "Territorial Integrity Act".

History: En. Sec. 1, Ch. 7, L. 1971; R.C.M. 1947, 70-501; amd. Sec. 34, Ch. 505, L. 1997.

69-5-102. Definitions. When used in this part, the following definitions apply:

(1) "Agreement" means a written agreement between two or more electric facilities providers that identifies the geographical area to be served exclusively by each electric facilities provider that is a party to the agreement and any terms and conditions pertinent to the agreement.

(2) "Electric cooperative" means a rural electric cooperative organized under Title 35, chapter 18, or a foreign corporation admitted thereunder to do business in Montana.

(3) "Electric facilities provider" means any utility that provides electric service facilities to the public.

(4) "Electric service facilities" means any distribution or transmission system or related facility necessary to provide electricity to the premises, including lines.

(5) "Electric utility" means a person, firm, or corporation other than an electric cooperative that provides electric service facilities to the public.

(6) "Line" means any electric supply conductor.

(7) "Premises" means a building, residence, structure, or facility to which electric service facilities are provided or are to be installed; however, two or more buildings, structures, or facilities that are located on one tract or contiguous tracts of land and that are used by one electric consumer for farming, business, commercial, industrial, institutional, governmental, or trailer court purposes must together constitute one premises, except that any building, structure, or facility, other than a trailer court, may not, together with any other building, structure, or facility, constitute one premises if the electric service to it is separately metered and the charges for that service are calculated independently of charges for service to any other building, structure, or facility.

(8) "Utility" means a public utility regulated by the commission pursuant to Title 69, chapter 3, or a utility qualifying as an electric cooperative pursuant to Title 35, chapter 18.

History: En. Sec. 2, Ch. 7, L. 1971; amd. Sec. 1, Ch. 68, L. 1975; R.C.M. 1947, 70-502; amd. Sec. 35, Ch. 505, L. 1997.

69-5-103. Repealed. Sec. 46, Ch. 505, L. 1997.

History: En. Sec. 3, Ch. 7, L. 1971; R.C.M. 1947, 70-503(part).

69-5-104. Continuation of electric service facilities to existing consumers. Each electric service facilities provider has the right to provide electric service facilities to all premises being served by it or to which any of its facilities are attached on May 2, 1997.

History: En. Sec. 3, Ch. 7, L. 1971; R.C.M. 1947, 70-503(1); amd. Sec. 36, Ch. 505, L. 1997.

69-5-105. Service to new consumers. (1) Subject to this part, the electric facilities provider having a line nearest the premises, as measured in accordance with subsection (2), shall provide electric service facilities to the premises initially requiring service after May 2, 1997, which creates a rebuttable presumption that the nearest line is the least-cost electric service facility to the new customer. However, a customer or another electric facilities provider may rebut the presumption, and another electric facilities provider may provide the electric service facilities if it can do so at less cost.

(2) All measurements under this part must be made on the shortest straight line that can be drawn from the conductor nearest the premises to the nearest permanent portion of the premises.

(3) If the electric facilities providers are unable to reach agreement as to which electric facilities provider can provide electric service facilities at least cost, an independent consultant engineer agreeable to both electric facilities providers or, in the event of failure of the electric facilities providers to agree on a consultant engineer, an independent consultant engineer selected by the district court having jurisdiction, as provided in 69-5-110, shall determine which electric facilities provider can extend its lines to the consumer at the least cost. The cost of those engineering services must be paid equally by the electric facilities providers involved.

History: En. Sec. 3, Ch. 7, L. 1971; R.C.M. 1947, 70-503(2); amd. Sec. 37, Ch. 505, L. 1997.

69-5-106. Electric service facilities to large customers. (1) An electric utility has the right to furnish electric service facilities to any premises if the estimated connected load for full operation at the premises will be 400 kilowatts or larger within 2 years from the date of initial service and if the electric utility can extend its facilities to the premises at less cost to the electric utility than the electric cooperative cost. The estimated connected load must be determined from the plans and specifications prepared for construction of the premises or, if an estimate is not available, must be determined by agreement of the electric facilities provider and the customer. The fact that the actual connected load after 2 years from the date of initial service is less than 400 kilowatts does not affect the right of the electric facilities provider initially providing electric service facilities to continue to provide electric service facilities to the premises.

(2) An independent consultant engineer agreeable to both electric facilities providers or, in the event of failure of the electric facilities providers to agree on a consultant engineer, an independent consultant engineer selected by the district court having jurisdiction, as provided in 69-5-110, shall determine which electric facilities provider can extend its facilities at the least cost to the utility. The cost of those engineering services must be paid equally by the electric facilities providers involved.

History: En. Sec. 3, Ch. 7, L. 1971; R.C.M. 1947, 70-503(3); amd. Sec. 12, Ch. 43, L. 1979; amd. Sec. 38, Ch. 505, L. 1997.

69-5-107. Customer-owned facilities. This part may not limit a customer's right to construct, own, or operate electric service facilities for the customer's own use, and construction, ownership, or use may not cause the customer to be considered a utility. A customer may not duplicate existing electric service facilities.

History: En. Sec. 3, Ch. 7, L. 1971; R.C.M. 1947, 70-503(4); amd. Sec. 39, Ch. 505, L. 1997.

69-5-108. Agreements between electric facilities providers. Utilities may enter into agreements that identify the geographical area to be exclusively served by each electric facilities provider that is party to the agreement, overriding the provisions of 69-5-105 and 69-5-107. If an agreement is approved by the commission pursuant to this part, the agreement is valid and binding on all electric facilities providers and all customers, except those provided for in 69-5-106.

History: **En. Sec. 4, Ch. 7, L. 1971; R.C.M. 1947, 70-504; amd. Sec. 1, Ch. 167, L. 1995; amd. Sec. 40, Ch. 505, L. 1997.**

69-5-109. Special provisions for annexed areas. (1) Electric facilities providers providing electric service facilities in or near areas that are incorporated municipalities having a population in excess of 3,500 persons and having annexed areas since 1985 or having existing municipal planning zones on May 2, 1997, shall enter into agreements dividing the annexed and planning zone areas into exclusive service territories and shall submit the agreements to the commission for approval, pursuant to this part.

(2) The agreements do not apply to electric service facilities with loads of 400 kilowatts or greater. Agreements must be based on the location of facilities in place on May 2, 1997.

(3) If electric facilities providers have failed to negotiate agreements within 1 year from May 2, 1997, the commission shall divide the annexed and planning zone areas into exclusive service territories, using the considerations pursuant to 69-5-112.

(4) Until agreements are final, electric service facilities to new customers will be provided pursuant to 69-5-105.

History: **En. Sec. 5, Ch. 7, L. 1971; R.C.M. 1947, 70-505; amd. Sec. 13, Ch. 43, L. 1979; amd. Sec. 41, Ch. 505, L. 1997.**

Cross-References

Annexation, Title 7, ch. 2, parts 42 through 47.

69-5-110. Jurisdiction of district courts over disputes. The district courts of the county or counties within which the premises or lines involved in any dispute are located have jurisdiction under this part over all electric facilities providers subject to this part.

History: **En. Sec. 6, Ch. 7, L. 1971; R.C.M. 1947, 70-506; amd. Sec. 42, Ch. 505, L. 1997.**

69-5-111. Judicial remedies. (1) Whenever an electric facilities provider is failing or omitting or about to fail or omit to do anything required of it by this part or is doing or is about to do anything or to permit anything to be done contrary to or in violation of this part, the electric facilities provider affected may file a complaint in the district court setting forth the acts or omissions complained of and requesting an injunction.

(2) If an affidavit showing that grounds exist that an electric facilities provider is in violation of this part is filed with the complaint, a temporary restraining order must be issued without notice. A copy of the temporary restraining order, complaint, and affidavit must be served upon the defendant, together with an order to show cause why the temporary restraining order should not be made permanent, within 5 days after issuance of the temporary restraining order. The hearing on the order to show cause must be held at a date specified in the order and may not be more than 10 days after service of the order and must take precedence over all matters pending before the district court. A judgment making the injunction permanent or dissolving the temporary restraining order that was issued and dismissing the complaint must be made before 10 days after the hearing on the order to show cause.

(3) Any party aggrieved by the order may appeal to the supreme court of Montana by filing a notice of appeal in the district court within 20 days from entry of the order. The appeal must be perfected within 20 days after filing the notice of appeal and must take precedence over all matters pending before the supreme court of Montana.

History: **En. Sec. 7, Ch. 7, L. 1971; R.C.M. 1947, 70-507; amd. Sec. 43, Ch. 505, L. 1997.**

69-5-112. Commission jurisdiction over agreements. (1) All agreements between electric facilities providers must be submitted to the commission for approval. Each agreement must clearly identify the geographical area to be served by each electric facilities provider. The submission must include:

(a) a map and a written description of the area; and

(b) the terms and conditions pertaining to the implementation of the agreement.

(2) Whenever an agreement involves the exchange or transfer of customers within service territories, the following must also be included with the agreement submission:

(a) the number and class of customers to be transferred;

(b) assurance that the affected customers have been contacted and have received a written explanation of the difference in rates; and

(c) information with respect to the degree of acceptance by affected customers, such as the number in favor of and those opposed to the transfer.

(3) In approving agreements, the commission shall consider but is not limited to consideration of:

(a) the reasonable likelihood that the agreement, in and of itself, will not cause a decrease in the reliability of electric service to the existing or future ratepayers of any electric facilities provider party of the agreement; and

(b) the reasonable likelihood that the agreement will eliminate existing or potentially uneconomic duplication of electric service facilities.

(4) An agreement approved by the commission is valid and enforceable, and except as provided in 69-5-106, an electric facilities provider may not offer, construct, or extend electric service facilities into an exclusive territory.

(5) The commission shall state its findings and conclusions for approving or disapproving an agreement and shall render a decision within 90 days of receipt of the agreement. The electric facilities providers submitting the agreement to the commission shall act according to the agreement until a decision is rendered.

(6) Upon approval of the agreement, any modification, changes, or corrections to this agreement must be approved by the commission.

(7) The commission may promulgate rules to administer this part consistent with the requirements of this part.

The serving telephone company within the geographical area of a law enforcement agency shall designate a telephone company security employee or other telephone company official and an alternate to provide all required assistance to law enforcement officials to carry out the purposes of this section. A telephone security employee or other telephone company official acting in good faith under an order given pursuant to this section does not commit the offense of violating privacy in communications and is not liable in any civil action brought as a result of such good faith actions.

Part 1
General Provisions

69-8-101. Short title. This chapter may be cited as the "Electric Utility Industry Restructuring and Customer Choice Act".

History: En. Sec. 1, Ch. 505, L. 1997.

69-8-102. Legislative findings and policy. The legislature finds and declares the following:

(1) The generation and sale of electricity is becoming a competitive industry.

(2) Montana customers should have the freedom to choose their electricity supply and related services in accordance with this chapter. Affording this opportunity serves the public interest.

(3) The interests of small Montana consumers must be protected through the provision of adequate and reliable default supply service at the lowest long-term total cost.

(4) The financial integrity of electrical utilities must be fostered.

(5) The public interest requires the continued protection of consumers through:

(a) licensure of electricity suppliers;

(b) provision of information to consumers regarding electricity supply service;

(c) provision of a process for investigating and resolving complaints;

(d) continued funding for public purpose programs for:

(i) cost-effective local energy conservation;

(ii) low-income customer weatherization;

(iii) renewable resource projects and applications;

(iv) research and development programs related to energy conservation and renewables;

(v) market transformation; and

(vi) low-income energy assistance;

(e) assurance of service reliability and quality; and

(f) prevention of anticompetitive and abusive activities.

(6) A utility in the state of Montana may not be advantaged or disadvantaged in the competitive electricity supply market, including the consideration of the existence of universal

system benefits programs and the comparable level of funding for those programs throughout the regions neighboring Montana.

Part 2
Public Utilities

69-8-201. Public utility — transition to customer choice — options and requirements — waiver. (1) Before July 1, 2027, all public utility customers of a public utility that has restructured in accordance with this chapter must have the opportunity to choose an electricity supplier other than the default supplier.

(2) (a) A small customer of a public utility that has restructured in accordance with this chapter:

(i) must receive default supply services from the default supplier as provided in this chapter; and

(ii) may purchase electricity supply services through a commission-approved small customer electricity supply program as provided in this section.

(b) A small customer receiving electricity from a licensed supplier prior to July 1, 2003, may continue to receive electricity supply from a supplier other than the default supplier.

(c) Customers that represent separately metered services with an estimated average monthly demand of less than 50 kilowatts related to the same individual customer referred to in subsection (3) or (4) may be combined with the respective eligible customer load or loads.

(3) (a) Subject to subsection (3)(b), a customer of a public utility that has restructured in accordance with this chapter and that has an individual load with an average monthly demand of less than 5,000 kilowatts but greater than or equal to 50 kilowatts may choose an electricity supplier.

(b) The total average monthly billing demand for all customers that choose an electricity supplier pursuant to subsection (3)(a) in each calendar year may not exceed 20,000 kilowatts.

(c) A customer referred to in subsection (3)(a) receiving electricity from a licensed supplier prior to July 1, 2003, may continue to receive electricity supply from a supplier other than the default supplier.

(4) (a) Except as provided in subsections (4)(b) through (4)(e), a customer of a utility that has restructured in accordance with this chapter and that has an individual load with an average monthly demand of greater than or equal to 5,000 kilowatts shall purchase its entire electricity supply from the competitive marketplace.

(b) A customer referred to in subsection (4)(a) that is receiving its electricity supply from the competitive marketplace may make a one-time election to enter into a permanent power supply contract with the default supplier for service on or after July 1, 2004. These contracts must include the applicable provisions established by the commission pursuant to subsection (5). This election must be submitted to the commission in writing no later than December 31, 2003.

(c) A new customer with an estimated average monthly demand of greater than or equal to 5,000 kilowatts may enter into a power supply contract with the default supplier in order to receive default supply service. The new customer's election of an electricity supplier must be submitted in writing to the commission at least 90 days before delivery of electricity. These contracts must include the applicable provisions established by the commission pursuant to subsection (5).

(d) A customer referred to in subsection (4)(a) that was receiving electricity from the default supplier on July 1, 2003, may continue to receive electricity from the default supplier.

(e) A customer referred to in subsection (4)(a) that is a public agency, as defined in 18-1-101, may enter into a power supply contract with the default supplier for default supply service for all or part of the public agency's load. These contracts must include the applicable provisions established by the commission pursuant to subsection (5).

(5) The commission shall adopt rules and establish rates and fees to enable customers to have reasonable opportunities to choose an electricity supplier or to receive default supply service in accordance with subsections (2) through (4), while providing protection for small customers from higher or more unstable default supply service rates than would otherwise result if these choices were not offered.

(6) An electricity supplier licensed by the commission to offer electricity supply service to small customers may petition the commission for the opportunity to provide electricity to small customers. The total average monthly demand for all customers referred to in subsection (2)(a) in each calendar year that receive service from an electricity supplier that is not the default supplier may not exceed 10,000 kilowatts. The commission shall ensure that electricity supply service provided pursuant to this subsection is consistent with the requirements in subsection (5) and the provision of default supply service pursuant to this chapter.

(7) Based on an analysis of the sources of costs of providing default supply service, the commission may:

(a) establish different categories of default supply service customers to assist with the implementation of this section;

(b) allocate default supply costs; and

(c) develop default supply rates.

(8) (a) Except as provided in subsection (8)(b), a customer receiving default supply service may not resell the electricity.

(b) A default supplier may implement demand reduction programs that reward customers for reducing demand under terms established by the commission.

(9) (a) Except as provided in 69-5-101, 69-5-102, 69-5-104 through 69-5-112, and 69-8-402, a public utility currently doing business in Montana as part of a single integrated multistate operation, no portion of which lies within the basin of the Columbia River, may defer compliance with this chapter until a time that the public utility can reasonably implement customer choice in the state of the public utility's primary service territory.

(b) To the extent that a public utility described in subsection (9)(a) becomes the successor in interest of another public utility that has restructured in accordance with this chapter, it shall assume responsibility only for the applicable transition plan of the acquired public utility.

(10) Upon a request from a public utility with fewer than 50 customers, the commission shall waive compliance with the requirements of 69-8-104, 69-8-202 through 69-8-204, 69-8-208 through 69-8-211, 69-8-402, and this section.

2003 Amendment: Chapter 565 substituted (1) through (8) regarding a public utility's transition to provide customer choice, including options, requirements, and waivers, for former (1) and (2) that read: "(1) A public utility shall, except as provided in this section, adhere to the following deadlines:

(a) All customers with individual loads greater than 1,000 kilowatts and for loads of the same customer with individual loads at a meter greater than 300 kilowatts that aggregate to 1,000 kilowatts or greater must have the opportunity to choose an electricity supplier.

(b) Before July 1, 2007, all other public utility customers must have the opportunity to choose an electricity supplier.

(2) The commission shall designate the public utility or one or more default suppliers to provide regulated default service for those small customers of a public utility that are not being served by a competitive electricity supplier"; inserted (9)(b) concerning responsibility of successor in interest; and made minor changes in style. Amendment effective July 1, 2003.

2001 Amendment Rejected: The amendments made by Ch. 577, L. 2001 (House Bill No. 474), were removed from this section because House Bill No. 474 was rejected by the electorate in a referendum held November 5, 2002.

69-8-202. Public utility — transition plans. (1) All public utilities, pursuant to this chapter, shall submit a transition plan to the commission. Plans must be filed with the commission not later than 1 year before the date by which any customers of the public utility are entitled to choice of electricity supplier pursuant to 69-8-201. The commission may develop a schedule for public utilities that are required to file plans. The transition plan must demonstrate that the public utility meets all the requirements of this chapter.

(2) The commission shall develop a procedural schedule that includes:

(a) a preliminary transition plan determination including the commission's findings on whether the plan is complete and adequate subject to the requirements of this chapter; and

(b) an opportunity for a public utility to file a revised plan based on the preliminary determination.

(3) Unless waived by the public utility, the commission shall issue a final order approving, modifying, or denying the transition plan before 9 months after the date a public utility files a plan. All parties are afforded an opportunity for hearing before issuance of the final order.

(4) The commission shall process a request for approval of a transition plan pursuant to the contested case procedures of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6.

(5) On approval of the plan, the commission shall enforce the public utility obligations as incorporated in the plan and in the commission's final order.

History: En. Sec. 6, Ch. 505, L. 1997.

69-8-203. Public utility — customer choice — education of customers. During the transition period, public utilities shall educate their customers about customer choice options so that customers may make an informed choice from among the options, including pilot programs, electricity supplier service options, and other electricity supply options available under default supply service.

History: En. Sec. 7, Ch. 505, L. 1997; amd. Sec. 1, Ch. 185, L. 1999; amd. Sec. 11, Ch. 577, L. 2001 (voided by I.R. No. 117, Nov. 5, 2002); amd. Sec. 9, Ch. 565, L. 2003.

2003 Amendment: Chapter 565 substituted text regarding a public utility's duty to provide customer choice and education for former section that read: "(1) A customer is permitted to choose an electricity supplier pursuant to the deadlines established in 69-8-201. Public utilities shall propose a method for customers to choose an electricity supplier.

(2) If a customer has not chosen an electricity supplier by the end of the transition period, a city, county, or consolidated government that is licensed as an electricity supplier may, upon application to and approval by the commission, become the default supplier to residential and commercial customers of a public utility within its jurisdiction. For customers that are not within the jurisdiction of a licensed and approved city, county, or consolidated government electricity supplier area, a public utility shall propose a method in the public utility's transition plans for assigning that customer to an electricity supplier. The commission shall establish an application process and guidelines for the designation of one or more default suppliers for the distribution area of each public utility.

(3) A public utility may phase in customer choice to promote the orderly transition to a competitive market environment pursuant to the deadlines in 69-8-201.

(4) Public utilities shall educate their customers about customer choice so that customers may make an informed choice of an electricity supplier. This education process must give special emphasis to education efforts during the transition period." Amendment effective July 1, 2003.

2001 Amendment Rejected: The amendments made by Ch. 577, L. 2001 (House Bill No. 474), were removed from this section because House Bill No. 474 was rejected by the electorate in a referendum held November 5, 2002.

69-8-204. Public utility — functional separation, divestiture, and nondiscrimination. (1) To the extent that a public utility is vertically integrated, a public utility shall functionally separate the public utility's electricity supply, retail transmission, retail distribution, and regulated and unregulated retail energy services operations in the state of Montana, upon application to and approval from the commission.

(2) Public utilities shall:

(a) prevent undue discrimination in favor of their own power supply, other services, divisions, or affiliates, if any;

(b) prevent any other forms of self-dealing that could result in noncompetitive electricity prices to customers; and

(c) grant customers and their electricity suppliers access to the public utility's retail transmission and distribution system on a nondiscriminatory basis at rates, terms, and conditions of service comparable to the use of the retail transmission and distribution system by the public utility and the public utility's affiliates.

(3) The provisions of this section are satisfied if the public utility adopts and complies with a code of conduct consistent with the federal energy regulatory commission approved code of conduct pursuant to 18 CFR, part 37, and commission rules and orders.

History: En. Sec. 8, Ch. 505, L. 1997; amd. Sec. 10, Ch. 565, L. 2003.

2003 Amendment: Chapter 565 in (1) in middle before "distribution" inserted "retail"; deleted former (2) that read: "(2) The commission may not order a public utility to divest itself of any generation assets or prohibit a public utility from divesting itself voluntarily of any generation assets"; in (3) at end substituted "and commission rules and orders" for "The commission shall promulgate rules relating to the codes of conduct"; and made minor changes in style. Amendment effective July 1, 2003.

69-8-205 through 69-8-207 reserved.

69-8-208. Public utility — distribution services. A public utility's distribution services provider shall:

(1) file tariffs that make distribution facilities available to all electricity suppliers, transmission services providers, and customers on a nondiscriminatory and comparable basis;

(2) build and maintain distribution facilities;

(3) provide default supply service; and

(4) provide or contract for emergency electricity supply and related services.

History: En. Sec. 9, Ch. 505, L. 1997; amd. Sec. 11, Ch. 565, L. 2003.

Compiler's Comments

2003 Amendment: Chapter 565 in (3) substituted "provide default supply service" for "be an emergency supplier of electricity and related services"; inserted (4) requiring provider to provide or contract for emergency electricity supply and related services; deleted former (2) that read: "(2) When a distribution services provider acts as an emergency supplier of electricity and related services to customers, the electricity supplier that should have provided the electricity shall reimburse the distribution services provider at the higher of a multiple of the cost or a multiple of the then-existing market rate for that electricity. The commission shall determine and authorize the multiple used. The market rate is the highest published rate for electricity purchased within the local load control area at the time that the distribution services provider provided the emergency supply. A distribution services provider is not required to purchase any reserve supply of electricity to fulfill this obligation"; and made minor changes in style. Amendment effective July 1, 2003.

69-8-209. Public utilities — transmission services. For transmission services regulated by the commission, public utilities, through filed tariffs, shall make transmission services available for nondiscriminatory and comparable use by all electricity suppliers, by distribution services providers, and by customers.

History: En. Sec. 10, Ch. 505, L. 1997.

69-8-210. Public utilities — electricity supply. (1) A public utility's distribution services provider shall provide default supply service.

(2) The commission shall establish an electricity cost recovery mechanism that allows a default supplier to fully recover prudently incurred electricity supply costs, subject to the provisions of 69-8-419 and 69-8-420. The cost recovery mechanism must provide for prospective rate adjustments for cost differences resulting from cost changes, load changes, and the time value of money on the differences.

(3) The commission may direct a default supplier to offer its customers multiple default supply service options if the commission determines that those options are in the public interest and are consistent with the provisions of 69-8-104 and 69-8-201.

(4) Notwithstanding any service options that the commission may require pursuant to subsection (3), a default supplier shall offer its customers the option of purchasing a product composed of or supporting power from certified environmentally preferred resources that include but are not limited to wind, solar, geothermal, and biomass, subject to review and approval by the commission. The commission shall ensure that these resources have been certified as meeting industry-accepted standards.

(5) (a) Subject to subsection (5)(b), the commission shall, in reviewing the procurement of electricity supply by the default supplier, take into account the statewide economic benefits that are associated with the electricity supply procurement for the default supply stakeholders. The default supply stakeholders include the default supplier, customers of the default supplier, and the public.

(b) The consideration of economic benefits is secondary to the consideration of the costs and benefits to the consumer and other criteria established by law.

(6) If a public utility intends to be an electricity supplier through an unregulated division, then the public utility must be licensed as an electricity supplier pursuant to 69-8-404.

History: En. Sec. 11, Ch. 505, L. 1997; amd. Sec. 12, Ch. 577, L. 2001 (voided by I.R. No. 117, Nov. 5, 2002); amd. Sec. 5, Ch. 509, L. 2003; amd. Sec. 1, Ch. 600, L. 2003.

2003 Amendments — Composite Section: Chapter 509 substituted language in (1) through (4) regarding commission's responsibilities and authority to provide for service or direct default supply service supplier for former (1) through (3) that read: "(1) On the effective date of a commission order implementing a public utility's transition plan pursuant to 69-8-202, the public utility shall remove its generation assets from the rate base.

(2) During the transition period, the commission may establish cost-based prices for electricity supply service for customers that do not have a choice of electricity supply service or that have not yet chosen an electricity supplier.

(3) If the transition period is extended, then the customers' distribution services provider shall:

(a) extend any cost-based contract with the distribution services provider's affiliate supplier for a term of not more than 3 years; or

(b) purchase electricity from the market; and

(c) use a mechanism that recovers electricity supply costs in rates to ensure that those costs are fully recovered"; and made minor changes in style. Amendment effective April 24, 2003.

Chapter 600 in (3) and (3)(a) substituted reference to default supplier for reference to distribution services provider (amendment rendered void by Ch. 509 amendment); inserted (5) concerning consideration of statewide economic benefits; and made minor changes in style. Amendment effective May 9, 2003.

The amendments to this section made by Ch. 565, L. 2003, were rendered void by sec. 7, Ch. 509, L. 2003, a coordination section.

2001 Amendment Rejected: The amendments made by Ch. 577, L. 2001 (House Bill No. 474), were removed from this section because House Bill No. 474 was rejected by the electorate in a referendum held November 5, 2002.

69-8-211. Public utilities — transition costs and charges. (1) Subject to the provisions of this section, the commission shall allow recovery of the following categories of transition costs:

(a) the unmitigable costs of qualifying facility contracts, including reasonable buyout or buydown costs, for which the contract price of generation is above the market price for generation;

(b) the unmitigable costs of energy supply-related regulatory assets and deferred charges that exist because of current regulatory practices and that can be accounted for up to the effective date of the commission's final order regarding a public utility's transition plan, including costs, expenses, and reasonable fees related to issuing of transition bonds;

(c) the unmitigable transition costs related to public utility-owned generation and other power purchase contracts, except that recovery of those costs is limited to the amount accruing during the first 4 years after the commission enters an order pursuant to 69-8-202(3); and

(d) other transition costs that may qualify for recovery under this section.

(2) Transition costs as determined by the commission upon an affirmative showing by a public utility must meet the following requirements:

(a) Transition costs must reflect all reasonable mitigation by the public utility, including but not limited to good faith efforts to renegotiate contracts, buying out or buying down contracts, and refinancing through transition bonds.

(b) The value of all generation-related assets and liabilities and other electricity supply obligations must be reasonably demonstrable and must be considered on a net basis, and methods for determining value must include but are not limited to:

(i) estimating future market values of electricity and ancillary services provided by the assets;

(ii) appraisal by independent third-party professionals; or

(iii) a competitive bid sale.

(c) Investments and power purchase contracts must have been previously allowed in rates or, if not previously allowed in rates, must be determined to be used and useful to ratepayers in connection with the commission's approval of the utility's transition plan.

(d) Unless otherwise provided for in this chapter, only costs related to investments and power purchase contracts identified in subsection (2)(c) that were allowed in rates before May 2, 1997, and costs arising from those investments and power purchase contracts may be included as transition costs.

(3) (a) On commission approval of the amount of a public utility's transition costs, those costs must be recovered through the imposition of a transition charge.

(b) A transition charge may not be collected from customers for:

(i) new or additional loads of 1,000 kilowatts or greater that were first served by the public utility after December 31, 1996; or

(ii) loads served by that customer's own generation.

(c) Subject to commission approval, a public utility and a customer may agree to alter the customer's transition charge payment schedule. Public utilities may file with the commission tariffs for electric service rates that foster economic development or retention of existing customers within the state, including generally available rate schedules. Transition charges are the only charges that may be imposed upon a customer class to recover transition costs under this section. A separate exit fee may not be charged under this section.

(4) Transition charges must be imposed within a transition cost recovery period approved by the commission on a case-by-case basis. Except for transition costs recovered under subsection (1)(c), categories of transition costs may have varying transition cost recovery periods.

(5) Approval of transition costs and collection of those transition costs through transition charges is a settlement of all transition costs claims by a public utility. A public utility seeking to recover transition costs through any means not authorized by this chapter may not collect transition charges with respect to these transition costs.

2003 Amendment: Chapter 565 in (2)(b) after "liabilities" substituted "and other electricity supply obligations" for "and electricity supply costs"; in (2)(c) after "previously" inserted "allowed"; in (2)(d) before "investments" deleted "existing" and after "subsection (2)(c)" inserted "that were allowed in rates before May 2, 1997"; in (3)(c) in fourth sentence at end inserted "under this section"; deleted former (6) through (11) that read: "(6) Except as provided in subsection (7), public utilities shall implement a rate moratorium during the transition period from July 1, 2000, through June 30, 2002, and only for those customers subject to the provisions of 69-8-201(1)(b), public utilities may not increase that increment of rates normally allocated to electric supply-related costs above the increment associated with electric supply-related costs reflected in rates in effect on July 1, 1998. Public utilities may propose increases to those increments of rates normally allocated to transmission and distribution costs.

(7) Excepted from the provisions of subsection (6) are:

(a) increased costs related to universal system benefits programs greater than those currently in rates, including the treatment of universal system benefits program costs as an expense;

(b) increased costs necessary to implement full customer choice, including but not limited to metering, billing, and technology. Those costs must be recovered from the customers on whose behalf the increased costs are incurred.

(c) subject to commission approval, an extraordinary event resulting in an 8% power supply-related annual revenue requirement increase from July 1, 2000, through June 30, 2002;

(d) the increase or decrease in the annual state and local property tax expense that has occurred since May 2, 1997.

(8) Notwithstanding subsections (6) and (7), during the transition period, public utilities may not charge rates or collect costs that include costs reallocated to transition costs at a level higher than the public utility would reasonably expect to recover in rates had the current regulatory system remained intact.

(9) Public utilities shall apply savings resulting under 69-8-503 toward the rate moratorium pursuant to subsection (6).

(10) Before July 1, 2002, public utilities may accelerate the amortization of accumulated deferred investment tax credits associated with transmission, distribution, and the general plant as an adjustment to earnings if electric earnings fall below 9.5% earned return on average equity. The public utility may include the flow through of investment tax credits so that the public utility's earned return on equity is maintained at 9.5%. Accumulated deferred investment tax credits amortized under this subsection may not be reflected in operating income for ratemaking purposes.

(11) The commission shall issue the accounting orders necessary to align rate moratorium timing and requirements to actual transition bonds savings"; and made minor changes in style. Amendment effective July 1, 2003.

2001 Amendment Rejected: The amendments made by Ch. 577, L. 2001 (House Bill No. 474), were removed from this section because House Bill No. 474 was rejected by the electorate in a referendum held November 5, 2002.

69-8-212 through 69-8-214 reserved.

69-8-215. Ratepayer and shareholder protection. (1) Rates established pursuant to Title 69, chapter 3, part 3, may not allow for the recovery of any portion of a civil judgment in a lawsuit arising out of litigation brought by the shareholders of a predecessor in interest against:

(a) the predecessor in interest;

(b) the officers or directors of the predecessor in interest;

(c) the legal advisers or consultants to the predecessor in interest; or

(d) any successor of the predecessor in interest, including a successor in interest.

(2) (a) Subject to subsection (3), an entity subject to regulation under Title 69, including the entity's subsidiaries and affiliates, may not be made a party to litigation brought by the shareholders of a predecessor in interest against:

(i) the predecessor in interest;

(ii) the officers or directors of the predecessor in interest;

(iii) the legal advisers or consultants to the predecessor in interest; or

(iv) any successor of the predecessor in interest that is not a successor in interest.

(b) Except as provided in subsection (3), an entity subject to regulation under Title 69 may not be held liable for a civil judgment entered against:

(i) a predecessor in interest;

(ii) the officers or directors of a predecessor in interest;

(iii) the legal advisers or consultants to a predecessor in interest; or

(iv) any successor of a predecessor in interest that is not a successor in interest.

(3) Subsection (2) does not apply:

(a) to a successor of a public utility regulated by the public service commission pursuant to Title 69, chapter 3, on May 2, 1997, whose shareholders received stock as a result of the sale of a public utility; or

(b) if the liabilities resulting from, related to, or arising out of a reorganization, restructuring, or plan of merger were explicitly assumed by written contract to be the liabilities of the successor to the predecessor in interest.

(4) For the purposes of this section:

(a) "predecessor in interest" means a public utility regulated by the commission pursuant to Title 69, chapter 3, on May 2, 1997, in which an interest was purchased through an arm's-length transaction in which the market value of the public utility property purchased was paid for in cash, debt assumption, or a combination of cash and debt assumption; and

(b) "successor in interest" means the purchaser of all or a portion of a public utility regulated by the commission pursuant to Title 69, chapter 3, on May 2, 1997, through an arm's-length transaction in which the market value of the public utility property purchased was paid for in cash, debt assumption, or a combination of cash and debt assumption.

Part 3
Cooperative Utilities

69-8-301. Cooperative utility — transition plan for customer choice. (1) Except as provided in 69-8-311, on or before July 1, 2006, the local governing body of a cooperative utility shall adopt a transition plan.

(2) (a) Except as provided in subsection (2)(b), transition plans must contain a transition period that may not end later than July 1, 2027. At the conclusion of the transition period, all customers must have the opportunity to choose an electricity supplier.

(b) If after a pilot program for customers of a cooperative utility with loads less than 1,000 kilowatts a competitive market, technology, or other conditions precedent to full customer choice have not developed, then the transition plan may be altered by the cooperative utility's governing body for those customers.

(3) This chapter does not require the cooperative utility to divest itself of any generation, transmission, or distribution assets or prohibit a cooperative utility from divesting itself voluntarily of those assets.

(4) A cooperative utility's local governing body shall certify to the commission that the local governing body has adopted a transition plan. In the cooperative utility's certification filing, the cooperative utility shall provide to the commission documentation that the cooperative utility's transition plan is consistent with this chapter.

History: En. Sec. 13, Ch. 505, L. 1997; amd. Sec. 5, Ch. 584, L. 2001; amd. Sec. 14, Ch. 565, L. 2003.

2003 Amendment: Chapter 565 in (2)(a) in first sentence at end substituted "July 1, 2027" for "July 1, 2007". Amendment effective July 1, 2003.

69-8-302. Cooperative utility — customer choice — education of customers — continued service. (1) Except as provided in 69-8-311, cooperative utilities shall propose a method for cooperative utility customers to choose an electricity supplier.

(2) Customer choice may be phased in to promote the orderly transition to a competitive market environment.

(3) Cooperative utilities shall educate their customers about customer choice so that customers may make an informed choice of an electricity supplier. This education process must give special emphasis to education efforts during the transition period.

(4) If a cooperative utility customer has not chosen an electricity supplier by the end of the transition period, then the electricity supplier is the cooperative utility that filed the plan or an electricity supplier designated by the cooperative utility.

History: En. Sec. 14, Ch. 505, L. 1997.

69-8-303. Cooperative utility — functional separation. (1) To the extent that a cooperative utility is vertically integrated, the cooperative utility has the option to functionally separate the cooperative utility's electricity supply, transmission, distribution, and unregulated energy services assets and operations in the state of Montana. If the cooperative utility intends to exercise this option, the cooperative utility's transition plan must explain the cooperative utility's proposed separation process.

(2) A cooperative utility shall describe in the transition plan measures taken by the cooperative utility to prevent undue discrimination in favor of the cooperative utility's own electricity supply, if any, and in favor of the cooperative utility's affiliates, if any.

(3) Cooperative utilities may establish a code of conduct similar to the federal energy regulatory commissions code of conduct established in 18 CFR, part 37.

History: En. Sec. 15, Ch. 505, L. 1997.

69-8-304. Cooperative utility — distribution services. (1) A cooperative utility transition plan must include distribution facility tariffs that must be established by the cooperative utility's local governing body and must include the obligation for the cooperative utility to:

(a) make distribution services available to all electricity suppliers, transmission services providers, and customers on a nondiscriminatory and comparable basis;

(b) build and maintain distribution facilities; and

(c) be an emergency supplier of electricity and related services.

(2) If a distribution services provider acts as an emergency supplier of electricity and related services to a customer of an electricity supplier, then the electricity supplier failing to meet contractual obligations shall reimburse the distribution services provider at an amount to be set by the local governing body but may not exceed the higher of a multiple of the cost or a multiple of the then-existing market rate for that electricity. The market rate is the highest published rate for electricity purchased within the local load control area at the time that the distribution services provider provided the emergency supply. A distribution services provider is not required to purchase any reserve supply of electricity to fulfill this obligation.

(3) Recoverable costs for cooperative utilities must be based upon standard financial reporting statements and may reflect comparable rates of return of other utilities.

History: En. Sec. 16, Ch. 505, L. 1997.

69-8-305 through 69-8-307 reserved.

69-8-308. Cooperative utility — transmission services. Transition plans must state whether the cooperative utility's transmission services, if any, are regulated by the federal energy regulatory commission. If those services are not regulated by the federal energy regulatory commission, the plan must provide the basis for comparable and nondiscriminatory use by all electricity suppliers, distribution services providers, and customers. A cooperative utility's local governing body shall establish the cooperative utility's transmission tariffs.

History: En. Sec. 17, Ch. 505, L. 1997.

69-8-309. Cooperative utility — electricity supply. (1) A transition plan may provide for a cooperative utility to own electric generation assets and for a cooperative utility to offer electricity supply service. The local governing body shall establish the price for electricity supply service offered by a cooperative utility.

(2) Cooperative utilities intending to offer electricity supply service shall comply with the provisions of 69-8-404.

(3) If a cooperative utility offers electricity supply service competitively to customers using a public utility's distribution facilities, the cooperative utility shall create an affiliated for-profit entity or similar structure to serve those customers that allows the entity to be taxed at the same level as other for-profit electricity suppliers.

History: En. Sec. 18, Ch. 505, L. 1997.

69-8-310. Cooperative utility — transition costs and charges. (1) For the purposes of this section, "transition costs" means those costs, liabilities, and investments that cooperative utilities would reasonably expect to recover if fully bundled ratemaking conditions continued and that may not be recoverable as a result of the transition to a competitive market for electricity supply service.

(2) Transition costs eligible for treatment include but are not limited to:

(a) regulatory assets and deferred charges typically recoverable in rates;

(b) nonutility and utility power purchase contracts;

(c) existing commitments or obligations incurred before May 2, 1997, and other cooperative utility investments rendered uneconomic as a result of the implementation of this chapter or the introduction of retail wheeling through federal legislation or regulation;

(d) costs associated with any renegotiation or buyout of the existing nonutility and utility power purchase contracts;

(e) revenue that appears as a portion of a facility charge necessary to meet debt service requirements, including any coverage amounts required by any mortgage, indenture, or other financing document;

(f) costs of refinancing and retiring debt of the cooperative utility and associated federal and state tax liabilities or other utility costs for which the use of transition bonds would benefit customers; and

(g) all costs, expenses, and reasonable fees related to transition bonds.

(3) For a cooperative utility's transition costs to be fully recoverable, the cooperative utility shall make reasonable efforts to mitigate those transition costs.

(4) Cooperative utilities may not collect any more costs, including costs reallocated to transition costs, at a level higher than would otherwise be anticipated had the current regulatory system remained intact, with the exception of:

(a) increased costs related to universal system benefits charges; and

(b) increased costs of metering, billing, and technology necessary to facilitate full customer choice.

(5) Subject to the obligation to mitigate transition costs, a cooperative utility shall fully recover transition costs as approved by its local governing body. Unmitigable transition costs are nonbypassable and collected on a nondiscriminatory basis from consumers using the cooperative utility's distribution facilities in the receipt of electricity supply services.

(6) A cooperative utility may not collect transition costs from a customer for which the cooperative utility does not have and never has had an obligation to incur costs to provide electricity supply service unless the unmitigated transition costs were incurred solely on behalf of the customer.

(7) Approval of and collection of transition costs through a transition charge is a settlement of all transition claims by a cooperative utility. A cooperative utility seeking to recover transition costs through any other means may not collect transition charges.

History: En. Sec. 19, Ch. 505, L. 1997.

69-8-311. Cooperative utility — exemption. (1) Within 1 year after May 2, 1997, a cooperative utility may file a notice with the commission that the cooperative utility does not intend to open the cooperative utility's distribution facilities to electricity suppliers and does not intend to adopt a transition plan. Except as otherwise provided in the universal system benefits program pursuant to 69-8-402, a cooperative utility filing notice under this section is exempt from the provisions and requirements of this chapter.

(2) A cooperative utility filing a notice under this section:

(a) may elect later to adopt a transition plan in accordance with this chapter; and

(b) may not use a public utility's distribution facilities unless preexisting contracts exist.

History: En. Sec. 20, Ch. 505, L. 1997.

Part 4
Public Utilities, Cooperative Utilities, and Electricity Suppliers

69-8-401. Maintaining safety and reliability. Utilities shall maintain standards of safety and reliability of the electric delivery system and existing customer service requirements.

History: En. Sec. 21, Ch. 505, L. 1997.

69-8-402. Universal system benefits programs. (1) Universal system benefits programs are established for the state of Montana to ensure continued funding of and new expenditures for energy conservation, renewable resource projects and applications, and low-income energy assistance.

(2) Beginning January 1, 1999, 2.4% of each utility's annual retail sales revenue in Montana for the calendar year ending December 31, 1995, is established as the initial funding level for universal system benefits programs. To collect this amount of funds on an annualized basis in 1999, the commission shall establish rates for utilities subject to its jurisdiction and the governing boards of cooperatives shall establish rates for the cooperatives. These universal system benefits charge rates must remain in effect through December 31, 2005.

(a) The recovery of all universal system benefits programs costs imposed pursuant to this section is authorized through the imposition of a universal system benefits charge assessed at the meter for each local utility system customer as provided in this section.

(b) A utility must receive credit toward annual funding requirements for the utility's internal programs or activities that qualify as universal system benefits programs, including those amortized or nonamortized portions of expenditures for the purchase of power that are for the acquisition or support of renewable energy, conservation-related activities, or low-income energy assistance, and for large customers' programs or activities as provided in subsection (7). The department of revenue shall review claimed credits of the utilities and large customers pursuant to 69-8-414.

(c) A utility's distribution services provider at which the sale of power for final end use occurs is the utility that receives credit for the universal system benefits programs expenditure.

(d) A customer's distribution services provider shall collect universal system benefits funds less any allowable credits.

(e) For a utility to receive credit for low-income-related expenditures, the activity must have taken place in Montana.

(f) If a utility's or a large customer's credit for internal activities does not satisfy the annual funding provisions of subsection (2), then the utility shall make a payment to the universal system benefits fund established in 69-8-412 for any difference.

(3) Cooperative utilities may collectively pool their statewide credits to satisfy their annual funding requirements for universal system benefits programs and low-income energy assistance.

(4) A utility's transition plan must describe how the utility proposes to provide for universal system benefits programs, including the methodologies, such as cost-effectiveness and need determination, used to measure the utility's level of contribution to each program.

(5) A utility's minimum annual funding requirement for low-income energy and weatherization assistance is established at 17% of the utility's annual universal system benefits funding level and is inclusive within the overall universal system benefits funding level.

(a) A utility must receive credit toward the utility's low-income energy assistance annual funding requirement for the utility's internal low-income energy assistance programs or activities.

(b) If a utility's credit for internal activities does not satisfy its annual funding requirement, then the utility shall make a payment for any difference to the universal low-income energy assistance fund established in 69-8-412.

(6) An individual customer may not bear a disproportionate share of the local utility's funding requirements, and a sliding scale must be implemented to provide a more equitable distribution of program costs.

(7) (a) A large customer:

(i) shall pay a universal system benefits programs charge with respect to the large customer's qualifying load equal to the lesser of:

(A) $500,000, less the large customer credits provided for in this subsection (7); or

(B) the product of 0.9 mills per kilowatt hour multiplied by the large customer's total kilowatt hour purchases, less large customer credits with respect to that qualifying load provided for in this subsection (7);

(ii) must receive credit toward that large customer's universal system benefits charge for internal expenditures and activities that qualify as a universal system benefits programs expenditure, and these internal expenditures must include but not be limited to:

(A) expenditures that result in a reduction in the consumption of electrical energy in the large customer's facility; and

(B) those amortized or nonamortized portions of expenditures for the purchase of power at retail or wholesale that are for the acquisition or support of renewable energy or conservation-related activities.

(b) Large customers making these expenditures must receive a credit against the large customer's universal system benefits charge, except that any of those amounts expended in a calendar year that exceed that large customer's universal system benefits charge for the calendar year must be used as a credit against those charges in future years until the total amount of those expenditures has been credited against that large customer's universal system benefits charges.

(8) A public utility shall prepare and submit an annual summary report of the public utility's activities relating to all universal system benefits programs to the commission, the department of revenue, and the energy and telecommunications interim committee provided for in 5-5-230. A cooperative utility shall prepare and submit annual summary reports of activities to the cooperative utility's respective local governing body, the statewide cooperative utility office, and the energy and telecommunications interim committee. The statewide cooperative utility office shall prepare and submit an annual summary report of the activities of individual cooperative utilities, including a summary of the pooling of statewide credits, as provided in subsection (3), to the department of revenue and the energy and telecommunications interim committee. The annual report of a public utility or of the statewide cooperative utility office must include but is not limited to:

(a) the types of internal utility and customer programs being used to satisfy the provisions of this chapter;

(b) the level of funding for those programs relative to the annual funding requirements prescribed in subsection (2); and

(c) any payments made to the statewide funds in the event that internal funding was below the prescribed annual funding requirements.

(9) A utility or large customer filing for a credit shall develop and maintain appropriate documentation to support the utility's or the large customer's claim for the credit.

(10) (a) A large customer claiming credits for a calendar year shall submit an annual summary report of its universal system benefits programs activities and expenditures to the department of revenue and to the large customer's utility. The annual report of a large customer must identify each qualifying project or expenditure for which it has claimed a credit and the amount of the credit. Prior approval by the department of revenue or the utility is not required, except as provided in subsection (10)(b).

(b) If a large customer claims a credit that the department of revenue disallows in whole or in part, the large customer is financially responsible for the disallowance. A large customer and the large customer's utility may mutually agree that credits claimed by the large customer be first approved by the utility. If the utility approves the large customer credit, the utility may be financially responsible for any subsequent disallowance.

Chapter 565 in (1) at end after "assistance" deleted "during the transition period and into the future"; in (2) at beginning of third sentence deleted "Except as provided in subsection (7)" and at end substituted "in effect through December 31, 2005" for "in effect until July 1, 2003"; in (8) at end of first sentence substituted "and the energy and telecommunications interim committee provided for in 5-5-230" for "and the transition advisory committee provided for in 69-8-501" and at end of second and third sentences substituted "and the energy and telecommunications interim committee" for "and the transition advisory committee"; and made minor changes in style. Amendment effective July 1, 2003.

2001 Amendment Rejected: The amendments made by Ch. 577, L. 2001 (House Bill No. 474), were removed from this section because House Bill No. 474 was rejected by the electorate in a referendum held November 5, 2002.

69-8-403. Commission authority — rulemaking authority. (1) Beginning on the effective date of a commission order regarding a public utility's transition plan, the commission shall regulate the public utility's retail transmission, distribution, and default supply services within the state of Montana, as provided in this chapter.

(2) The commission shall license electricity suppliers and enforce licensing provisions pursuant to 69-8-404.

(3) The commission shall promulgate rules that identify the licensees and ensure that the offered electricity supply is provided as offered and is adequate in terms of quality, safety, and reliability.

(4) The commission shall establish just and reasonable rates through established ratemaking principles for public utility default supply, distribution, and transmission services and shall regulate these services. The commission may approve rates and charges for those services based on alternative forms of ratemaking such as performance-based ratemaking, on a demonstration by the public utility that the alternative method complies with this chapter, and on the public utility's transition plan.

(5) The commission shall certify that a cooperative utility has adopted a transition plan that complies with this chapter. A cooperative utility's transition plan is considered certified 60 days after the cooperative utility files for certification.

(6) The commission shall promulgate rules that protect consumers, distribution services providers, and electricity suppliers from anticompetitive and abusive practices.

(7) (a) After July 1, 2010, the commission shall continuously monitor whether or not workable competition has developed for small customers.

(b) If the commission determines that workable competition has developed for small customers after July 1, 2010, the commission shall provide a report to the legislature that includes recommendations for legislative implementation of customer choice for small customers.

(8) In addition to promulgating rules expressly provided for in this chapter, the commission may promulgate any other rules necessary to carry out the provision of this chapter.

(9) This chapter does not give the commission the authority to:

(a) regulate cooperative utilities in any manner other than reviewing certification filings for compliance with this chapter; or

(b) compel any change to a cooperative utility's certification filing made pursuant to this chapter.

2003 Amendment: Chapter 565 in (1) after "distribution" inserted "and default supply"; and at end after "chapter" deleted "and may not regulate the price of electricity supply except as electricity supply may be procured as provided in this section:

(a) by one or more default suppliers for those customers not being served by a competitive supplier; or

(b) by the distribution function of a public utility for those customers that are not being served by a competitive electricity supplier as provided by commission rules. During the transition period, those procurements may include a cost-based contract from a supply affiliate or an unregulated division"; deleted former (2) that read: "(2) The commission shall decide if there is workable competition in the electricity supply market by determining whether competition is sufficient to inhibit monopoly pricing or anticompetitive price leadership. In reaching a decision, the commission may not rely solely on market share estimates"; (4) in first sentence after "utility" inserted "default supply" and in second sentence after "charges" substituted "for those services" for "for electricity distribution and transmission services"; inserted (7) requiring commission after July 1, 2010, to monitor whether workable competition has developed for small customers and to provide report to legislature for implementation of customer choice; deleted former (8) through (10) that read: "(8) The commission shall license default suppliers and enforce default licensing provisions pursuant to 69-8-416.

(9) The commission shall promulgate rules for the licensing of default suppliers on or before December 1, 1999.

(10) Until the commission has determined that workable competition has developed for small customers, a default supplier's obligation to serve remains"; and made minor changes in style. Amendment effective July 1, 2003.

2001 Amendment Rejected: The amendments made by Ch. 577, L. 2001 (House Bill No. 474), were removed from this section because House Bill No. 474 was rejected by the electorate in a referendum held November 5, 2002.

69-8-404. Licensing. (1) Except as provided in 69-8-311, an electricity supplier shall file an application with and obtain a license from the commission before offering electricity for sale to retail customers in the state of Montana.

(2) As a condition of licensing, an electricity supplier shall identify and describe its activities and purposes and the purposes of each of the electricity supplier's affiliates, if any, including whether an affiliate that owns or operates distribution facilities offers customer choice through open, fair, and nondiscriminatory access to the electricity supplier's or the electricity supplier's affiliates distribution facilities.

(3) The commission may require electricity suppliers that provide electricity supply service to small customers to make a standard service offer that ensures that those customers have access to affordable electricity.

(4) The commission may require:

(a) proof of financial integrity and a demonstration of adequate reserve margins or the ability to obtain those reserves; and

(b) a licensee to post a bond should an electricity supplier fail to supply electricity or lack financial integrity.

(5) An electricity supplier shall provide the commission and all distribution services providers with copies of all license applications pursuant to subsection (2). Licensees shall update information and file annual reports with the commission and all distribution services providers.

(6) License applications are effective 30 days after filing with the commission unless the commission rejects the application during that period. If the commission rejects a license application, the commission shall specify the reasons in writing and, if practical, identify alternative ways to overcome deficiencies.

(7) Notwithstanding this chapter, a cooperative utility is not required to apply for a license from the commission to be an electricity supplier to customers served by that cooperative utility in its electric facilities service territory or to any customers served by another cooperative utility subject to the consent of the other cooperative utility's local governing body.

History: En. Sec. 24, Ch. 505, L. 1997.

69-8-405 through 69-8-407 reserved.

69-8-408. Penalties — license revocation. (1) The commission may begin a proceeding to revoke or suspend a license of an electricity supplier, impose a penalty, or both, for just cause on the commission's own investigation or upon the complaint of an affected party if it is established that the electricity supplier:

(a) intentionally provided false information to the commission;

(b) switched the electricity supply for a customer or caused the electricity supply for a customer to be switched without first obtaining the customer's written permission;

(c) failed to provide a reasonably adequate supply of electricity for its customers in Montana; or

(d) committed fraud or engaged in deceptive practices.

(2) Any person selling or offering to sell electricity in this state in violation of 69-8-404, 69-8-410, and this section is subject to a fine of not less than $100 or more than $1,000 for the violation or a license revocation or suspension. Each day of each violation constitutes a separate violation.

(3) A license revocation proceeding under this section is a contested case proceeding pursuant to the Montana Administrative Procedure Act, Title 2, chapter 4, part 6.

(4) (a) If a distribution services provider provides or contracts for the provision of emergency electricity supply and related services to retail customers, the electricity supplier that should have provided the electricity shall reimburse the distribution services provider for the higher of the customers' contracted electricity supply rates or the existing market rates multiplied by the quantity of electricity supply service provided.

(b) (i) An electricity supplier's failure to deliver electricity supplies and the necessity of an emergency supply response by the distribution services provider pursuant to 69-8-208 are justification for a commission proceeding to revoke or suspend a license of an electricity supplier, impose a penalty, or both.

(ii) For purposes of this subsection (4), the actual costs and rates for the electricity provided by the distribution services provider as emergency supply must be used as the basis of any fine levied on an electricity supplier pursuant to subsection (4)(b)(i). The fine must be determined by an amount to be applied to actual costs and rates of electricity provided for the emergency service. The commission shall determine the amount to be used and how the amount is applied.

(5) Fines imposed under this section must be recovered in a civil action upon a complaint filed by the commission in any court of competent jurisdiction.

2003 Amendment: Chapter 565 inserted (4) requiring electricity supplier that should have provided emergency electricity to reimburse distribution services provider for higher rates or existing rates, providing that failure to deliver electricity supplies and necessity of emergency supply response are justification for commission revoking or suspending supplier license, imposing, penalty, or both, and requiring use of actual costs and rates for electricity provided as emergency supply as basis of fine levied; and made minor changes in style. Amendment effective July 1, 2003.

69-8-409. Bill information — customer nonpayment — commission rulemaking. (1) Electricity bills to consumers must disclose each component of the bill in accordance with rules promulgated by the commission. Electricity bills must disclose but are not limited to the following:

(a) distribution and transmission charges;

(b) electricity supply charges;

(c) transition charges; and

(d) universal system benefits charges.

(2) The commission shall promulgate rules establishing the procedures relating to how and when an electricity supplier may discontinue service to a customer because of the customer's nonpayment and the procedures relating to reconnection, except that those rules may not apply to electricity suppliers that are cooperative utilities.

(3) Local governing bodies of a cooperative utility shall retain authority for cooperative utilities regarding:

(a) customer nonpayment and reconnection; and

(b) information contained in electricity bills to consumers.

69-8-410. Unauthorized switching — commission rulemaking. (1) An electricity supplier or any person, firm, corporation, or governmental entity may not make any change in the electricity supplier for a customer without first obtaining the customer's written permission.

(2) The commission shall promulgate rules establishing procedures to prevent unauthorized switching.

History: En. Sec. 27, Ch. 505, L. 1997.

69-8-411. Nondiscriminatory access — reciprocity. Except as provided in 69-8-311, all electricity suppliers must be afforded open, fair, and nondiscriminatory access to customers and a comparable opportunity to compete. A distribution services provider or the distribution services provider's affiliates may not use another distribution services provider's facilities in the state of Montana to sell electricity to customers in the state of Montana unless the first distribution services provider or the distribution services provider's affiliates offer comparable and nondiscriminatory access to the distribution services provider's distribution facilities within the state of Montana.

69-8-412. Funds established — fund administrators designated — purpose of funds — department rulemaking authority to administer funds. (1) If, pursuant to 69-8-402(2)(f) or (5)(b), there is any positive difference between credits and the annual funding requirement, the department of revenue shall establish one or both of the following funds:

(a) a fund to provide for universal system benefits programs other than low-income energy assistance. The department of environmental quality shall administer this fund.

(b) a fund to provide universal low-income energy assistance. The department of public health and human services shall administer this fund.

(2) The purpose of these funds is to fund universal system benefits programs.

(3) The department of environmental quality and the department of public health and human services shall expend the money in each representative fund on universal system benefits programs in the utility service territory from which the money was received.

(4) The department of environmental quality and the department of public health and human services may adopt rules that administer and expend the money in each respective fund based on an annual assessment of identified funding needs in the utility service territory from which the money was received. In assessing the funding needs, the departments shall solicit utility and public comment from the utility service territory from which the money was received. The annual assessment must also take into account existing utility and large customer universal system benefits programs expenditures.

History: En. Sec. 5, Ch. 580, L. 1999; amd. Sec. 16, Ch. 577, L. 2001 (voided by I.R. No. 117, Nov. 5, 2002); amd. Sec. 1, Ch. 180, L. 2003.

History: En. Sec. 6, Ch. 580, L. 1999.

69-8-414. Universal system benefits programs credit review process. (1) All annual reports required pursuant to 69-8-402(8) and (10) must be filed with the department of revenue on March 1 of each year.

(2) Except as provided in 69-8-413, upon a challenge by an interested person, the department of revenue shall ensure that the credit claimed is consistent with this chapter. An interested person may file comments challenging the claim, including supporting documentation, with the department of revenue. A challenge of any claimed credit must be filed within 60 days of the department of revenue's receipt of the credit claimant's annual reports required pursuant to 69-8-402(8) and (10).

(3) Claimed credits are presumed to be correct unless challenged by an interested person. If a challenge is filed by an interested person, the department of revenue shall conduct an initial review of a challenged credit and shall make a determination as to the likelihood that the challenged credit qualifies for universal system benefits programs. If the department of revenue finds that the challenged credit is not likely to qualify for universal system benefits programs, the department of revenue shall formally review the challenge; otherwise, the department of revenue shall dismiss the challenge and provide a statement of the reasons supporting dismissal of the challenge. The department of revenue may request additional information from the credit claimant or interested person. The department of revenue shall complete the initial review within 30 days of the challenge.

(4) If the department of revenue determines that a formal review of a challenged credit is necessary, the department of revenue shall provide public notice of the opportunity to comment to the credit claimant and interested persons. The department of revenue may also schedule an oral hearing. If a hearing is scheduled, the department of revenue shall provide public notice of the hearing to the credit claimant and interested persons.

(5) For a formal credit review challenge, the following procedures apply:

(a) The credit claimant shall provide documentation supporting the credit claimed to the department of revenue and to all interested persons, subject to department of revenue protective orders for confidential or sensitive materials, upon a showing of a privacy interest by the credit claimant.

(b) The department of revenue shall make all materials related to the claim, the challenge, and the submitted comments available to the credit claimant and for public inspection and photocopying, subject to any department of revenue protective orders.

(c) The credit claimant may respond in writing to any comments and other documents filed by an interested person.

(d) The department of revenue may ask for additional detailed information to implement this section.

(6) Upon completing a formal review of a challenged credit, the department of revenue shall make a decision to certify or to deny the credit claimed, providing a statement of the reasons supporting the department of revenue's decision. The formal review of a challenged credit, including the department of revenue's final decision, must be completed within 60 days of the department of revenue's public notice of the opportunity to comment on the challenged credit.

Effective Date: Section 8, Ch. 509, L. 2003, provided that this section is effective on passage and approval. Approved April 24, 2003.

Applicability: Section 9, Ch. 509, L. 2003, provided: "[Sections 1 through 3] [69-8-419 through 69-8-421] apply only to power supply purchase agreements for which the procurement process begins on or after [the effective date of this act]." Effective April 24, 2003.

69-8-421. Default supply filings — commission processing and approval. (1) A default supplier may apply to the commission for advanced approval of a power supply purchase agreement that is:

(a) not executed; or

(b) executed with a provision that allows termination of the agreement if the commission does not find the agreement reasonable.

(2) (a) The commission shall issue an order on the default supplier's application for advanced approval of a power supply purchase agreement in a timely manner as provided in this subsection (2).

(b) In establishing an administrative procedure for reviewing an application for advanced approval, the commission shall consider any financing and market constraints and the due process rights of affected persons.

(c) Within 45 days of the default supplier's submission of an application for advanced approval, the commission shall determine whether or not the application is adequate and in compliance with the commission's minimum filing requirements. If the commission determines that the application is inadequate, it shall explain how the filing fails to comply with the objectives in 69-8-419 and the rules adopted pursuant to 69-8-419.

(d) The commission shall issue an order within 180 days of receipt of an adequate application unless it determines that extraordinary circumstances require additional time.

(e) To facilitate timely consideration of an application, the commission may initiate proceedings to evaluate planning and procurement activities related to a potential resource procurement prior to the default supplier's submission of an application for approval.

(3) (a) The commission may approve or deny, in whole or in part, an application for advanced approval of a power supply purchase agreement.

(b) The commission may consider all relevant information known up to the time that the administrative record in the proceeding is closed in the evaluation of an application for advanced approval of a power supply purchase agreement.

(c) A commission order granting advanced approval of a power supply purchase agreement must include the following findings:

(i) advanced approval of all or part of the agreement is in the public interest;

(ii) the agreement resulted from a reasonable effort by the default supplier to comply with the objectives in 69-8-419 and the rules adopted pursuant to 69-8-419; and

(iii) the price, quantity, duration, and other contract terms directly related to the price, quantity, and duration of the power supply purchase agreement are reasonable.

(d) The commission order may include other findings that the commission determines are necessary.

(e) A commission order that denies advanced approval must describe why the findings required in subsection (3)(c) could not be reached.

(4) Notwithstanding any provision of this chapter to the contrary, if the commission has issued an order containing the findings required under subsection (3)(c), the commission may not subsequently disallow the recovery of costs incurred under the agreement based on contrary findings.

(5) If a default supplier does not apply for advanced approval of a power supply purchase agreement, the commission shall consider the prudence of the default supplier's resource procurement actions in the context of a default supplier's cost recovery filing pursuant to 69-8-210 or in a separate proceeding. The commission's decisions in these proceedings must be based on facts that were known or should reasonably have been known by the default supplier at the time of its procurement decisions.

(6) Nothing limits the commission's ability to subsequently, in any future cost recovery proceeding, inquire into the manner in which the default supplier has managed a power supply purchase agreement as part of its overall portfolio. The commission may subsequently disallow default supply costs that result from the failure of a default supplier to reasonably administer power supply purchase agreements in the context of its overall default supply portfolio management and service obligations.

(7) The commission may engage independent consultants or advisory services to evaluate a utility's default supply resource procurement plans and proposed power supply purchase agreements. The consultants must have demonstrated knowledge and experience with electricity supply procurement and resource portfolio management, modeling, and risk management practices. The commission shall charge a fee to the default supplier to pay for the costs of consultants or advisory services. These costs are recoverable in default supply rates.

History: En. Sec. 30, Ch. 505, L. 1997; amd. Sec. 63, Ch. 7, L. 2001.

69-8-503. Transition costs financing. (1) A utility may apply to the commission for a determination that certain transition costs may be recovered through the issuance of transition bonds. If transition bonds are issued, cost savings associated with and resulting from the bonds must benefit customers. After the issuance of a financing order, the utility retains sole discretion regarding whether to sell, assign, or otherwise transfer or pledge transition property or to cause the transition bonds to be issued, including the right to defer or postpone the sale, assignment, transfer, pledge, or issuance. If transition bonds are not issued within 4 years of the issuance of the financing order, the financing order must terminate. The utility may apply for an extension or renewal of a financing order.

(2) (a) The commission may issue financing orders in accordance with this section to facilitate the recovery, reimbursement, financing, or refinancing of transition costs and the acquisition of transition property. A financing order may be adopted only upon the application of

a utility and may become effective in accordance with its terms only after the utility files with the commission the utility's written consent to all terms and conditions of the financing order. A financing order may specify how amounts collected from a customer are allocated between fixed transition amounts and other charges.

(b) A financing order must include, without limitation, a procedure for the expeditious approval by the commission of periodic adjustments to nonbypassable rates and charges associated with fixed transition amounts included in the order to ensure recovery of all transition costs and the costs of capital associated with the proposed recovery, reimbursement, financing, or refinancing of transition costs and the acquisition of transition property, including the costs of issuing, servicing, and retiring the transition bonds contemplated by the financing order. The order must set forth the term over which the transition bonds are to be paid, but those terms may not exceed 20 years. These adjustments may not impose fixed transition amounts upon customer classes that were not subject to the fixed transition amounts in the pertinent financing order.

(3) (a) Notwithstanding any other provision of law, and except as otherwise provided in this section with respect to transition property that has been made the basis for the issuance of transition bonds and upon the issuance of transition bonds, the financing orders and the fixed transition amounts must be irrevocable.

(b) If transition bonds have been issued, the commission may not by rescinding, altering, or amending the financing order or otherwise:

(i) revalue or revise for ratemaking purposes the transition costs or the costs of recovering, reimbursing, financing, or refinancing the transition costs and acquiring transition property;

(ii) determine that the fixed transition amounts or rates are unjust or unreasonable; or

(iii) in any way reduce or impair the value of transition property either directly or indirectly by taking fixed transition amounts into account when setting other rates for the utility.

(c) The total amount of the transition property may not be subject to reduction, impairment, postponement, or termination.

(d) Except as otherwise provided in this section, the state pledges and agrees with the assignees and pledgees of transition property and transition bondholders that the state may not limit or alter the fixed transition amounts, transition property, financing orders, or any right under the bonds until the bonds, together with the interest on the bonds, are fully met and discharged. The board, as agent for the state, is authorized to include this pledge and undertaking for the state in these bonds.

(e) Notwithstanding any other provision of this section, the commission shall approve those adjustments to the fixed transition amounts that may be necessary to ensure timely recovery of all transition costs that are the subject of the pertinent financing order and the costs of capital associated with the recovery, reimbursement, financing, or refinancing of transition costs and acquiring transition property including the costs of issuing, servicing, and retiring the transition bonds contemplated by the financing order. The adjustments may not impose fixed transition amounts upon customer classes that were not subject to the fixed transition amounts in the pertinent financing order.

(4) (a) Financing orders do not constitute a debt or liability of the state or of any political subdivision of the state if issued through the board and do not constitute a pledge of the full faith and credit of the state or any of the state's political subdivisions if issued through the board. The financing orders are payable solely from the funds provided under this section. The bonds and offering documents must contain on their face a statement to the following effect:

"This bond may not constitute an indebtedness or a loan of credit of the state of Montana or any political subdivision of the state of Montana within any constitutional or statutory provision. Neither the full faith and credit nor the taxing power of the state of Montana is pledged to the payment of the principal or interest on this bond, and neither the state of Montana nor any political subdivision of the state of Montana is obligated, directly, indirectly, or contingently, to levy or to pledge any form of taxation or to make any appropriation for the payment of this bond. This bond is a limited obligation of the issuer, payable solely out of the transition property or the proceeds of that property specifically pledged for its payment and not otherwise."

(b) The issuance of bonds under this section may not directly, indirectly, or contingently obligate the state or any political subdivision of the state to levy or to pledge any form of taxation or to make any appropriation for bond payment.

(5) The commission shall establish procedures for the expeditious processing of applications for financing orders, including the approval or disapproval of applications within 120 days after a utility submits a complete application. The commission shall provide in any financing order for a procedure for the expeditious approval by the commission of periodic adjustments to the fixed transition amounts that are the subject of the pertinent financing order pursuant to subsection (2). The commission shall determine on each anniversary of the issuance of the financing order and at additional intervals as may be provided for in the financing order whether the adjustments are required and shall provide for the adjustments, if required, to be approved within 60 days of each anniversary of the issuance of the financing order or of each additional interval provided for in the financing order.

(6) Fixed transition amounts become transition property when and to the extent that a financing order authorizing the fixed transition amounts has become effective in accordance with subsection (2), and the transition property must thereafter continuously exist as property for all purposes with all of the rights and privileges of this chapter for the period and to the extent provided in the financing order or until the transition bonds are paid in full, including all principal, interest, premium, costs, and arrearages on the transition bonds.

(7) Transition bonds may be issued upon commission approval in the pertinent financing order. Transition bonds must specify that they do not provide recourse to the credit or any assets of the utility, other than the transition property as specified in the pertinent financing order.

(8) (a) A utility may sell, assign, or transfer all or portions of the utility's interest in transition property to an assignee. A utility or an assignee may further sell, assign, or transfer the utility's interest in that transition property to one or more assignees in connection with the issuance of transition bonds to the extent approved in the pertinent financing order.

(b) A utility or an assignee may pledge transition property as collateral for transition bonds to the extent approved in the pertinent financing order and may provide for a security interest in the transition property as provided in this section.

(c) Transition property may be sold, assigned, or transferred for the benefit of:

(i) transition bondholders in connection with the exercise of remedies upon a default; or

(ii) any person acquiring the transition property after a sale, assignment, or transfer pursuant to this section.

(9) (a) To the extent that any interest in transition property is sold, assigned, transferred, or pledged as collateral, the commission shall authorize the utility to contract with any assignee so that the utility will, subject to the utility's rights under subsection (18):

(i) continue to operate the utility's system and to provide service to the utility's customers;

(ii) collect amounts in respect of the fixed transition amounts for the benefit and account of the assignee; and

(iii) account for and remit these amounts to or for the account of the assignee.

(b) Contracting with the assignee in accordance with the commission's authorization may not impair or negate the characterization of the sale, assignment, transfer, or pledge as a true sale, an absolute assignment or transfer, or a grant of a security interest, as applicable.

(10) Notwithstanding any other provision of law, any provision under this section or under a financing order requiring that the commission take or refrain from taking action with respect to the subject matter of a financing order binds the commission and any successor commission or agency exercising functions similar to the commission, and the commission or any successor commission or agency may not rescind, alter, or amend that requirement in a financing order.

(11) A pledge or any other security interest in transition property is valid, is enforceable against the pledgor and third parties, including judgment lien creditors, subject only to the rights of any third parties holding security interests in the transition property perfected in the manner described in this section, and attaches only when all of the following have taken place:

(a) the commission has issued the financing order authorizing the fixed transition amounts included in the transition property;

(b) value has been given by the pledgees of the transition property; and

(c) the pledgor has signed a security agreement or other financing-related agreement covering the transition property.

(12) (a) A valid and enforceable security interest in transition property is perfected only when it has attached and when a financing statement has been filed with the secretary of state in accordance with procedures that the secretary of state may establish. The financing statement must name the pledgor of the transition property as debtor and identify the transition property.

(b) Any description of the transition property is sufficient if the description refers to the financing order creating the transition property.

(c) The commission may require other filings with respect to the security interest in accordance with procedures the commission may establish, except that these filings may not affect the perfection of the security interest.

(13) A perfected security interest in transition property is a continuously perfected security interest in all revenue and proceeds arising with respect to the transition property, whether or not the revenue or proceeds have accrued. Conflicting security interests must rank according to priority in time of perfection. Transition property constitutes property for all purposes, including for contracts securing transition bonds, whether or not the revenue and proceeds arising with respect to the transition property have accrued.

(14) (a) Subject to the terms of the security agreement covering the transition property and the rights of any third parties holding security interests in the transition property perfected in the manner described in this section, the validity and relative priority of a security interest created under this section is not defeated or adversely affected by:

(i) the commingling of revenue arising with respect to the transition property with other funds of the utility that is the pledgor or transferor of the transition property; or

(ii) any security interest of any third party in a deposit account of that utility perfected under Title 30, chapter 9A, part 3, into which the revenue is deposited.

(b) Subject to the terms of the security agreement, upon compliance with the requirements of this section, a pledgee of the transition property has a perfected security interest in all cash and deposit accounts of the utility in which revenue arising with respect to the transition property has been commingled with other funds, but the perfected security interest must be limited to an amount no greater than the amount of the revenue with respect to the transition property received by the utility within 12 months before any default under the security agreement or the institution of insolvency proceedings by or against the utility, less payments from the revenue to the pledgees during that 12-month period.

(15) (a) If a default occurs under the security agreement covering the transition property, a pledgee of the transition property, subject to the terms of the security agreement, has all rights and remedies of a secured party upon default under Title 30, chapter 9A, part 6, and is entitled to foreclose or otherwise enforce the pledgee's security interest in the transition property, subject to the rights of any third parties holding prior security interests in the transition property perfected in the manner provided in this section.

(b) The commission may require in the financing order creating the transition property that in the event of default by the utility in payment of revenue arising with respect to the transition property, the commission and any successor to the commission, upon the application by a pledgee or assignee of the transition property and without limiting any other remedies available to the pledgees or transferees by reason of the default shall order the sequestration and payment to the pledgee or assignee of the proceeds of the transition property. An order must remain in full force and effect notwithstanding any bankruptcy, reorganization, or other insolvency proceedings with respect to the public utility or a debtor, pledgor, or transferor of the transition property.

(c) Any sum in excess of amounts necessary to pay principal, premium, if any, interest, costs, and arrearages on the transition bonds and other costs arising under the security agreement must be remitted to the debtor or to the pledgor as provided in the security agreement.

(16) (a) A transfer of transition property by a utility to an assignee or by the assignee to another assignee that the parties have in the governing documentation expressly stated to be a sale or other absolute transfer in a transaction approved or authorized in a financing order must be treated as an absolute transfer of all of the transferors right, title, and interest, as in a true sale, and not as a pledge or other financing of the transition property, other than for federal and state income and franchise tax purposes.

(b) Granting to transition bondholders a preferred right to revenue of the utility or the provision by the utility or an assignee of other credit enhancement with respect to transition bonds may not impair or negate the characterization of any transfer as a true sale, other than for federal and state income and franchise tax purposes.

(c) Notwithstanding the provisions of this subsection (16), for state tax purposes, a transfer must be treated as a pledge or other financing unless the governing documentation of transfer specifically states that the transfer is intended to be treated otherwise. The characterization of the transfer as a true sale or other absolute transfer in the governing documentation of a transfer is not intended to prejudice the characterization of the transfer as a pledge or other financing for federal tax purposes.

(17) A sale, assignment, or other transfer of transition property may be considered perfected as against any third person, including any judicial lien creditor, only when both of the following have taken place:

(a) the financing order authorizing the fixed transition amounts included in the transition property has become effective in accordance with subsection (2); and

(b) an assignment of the transition property, in writing, has been executed and delivered to the transferee.

(18) (a) As between bona fide assignees of the same right for value without notice, the assignee first filing a financing statement with the secretary of state in accordance with procedures that the secretary of state may establish has priority. The financing statement must name the assignor of the transition property as debtor and must identify the transition property. Any description of the transition property is sufficient if the description refers to the financing order creating the transition property. The commission may require the assignor or the assignee to make other filings with respect to the transfer in accordance with procedures that the commission may establish, but these filings may not affect the perfection of the transfer.

(b) Any successor to the utility, whether pursuant to any bankruptcy, reorganization, or other insolvency proceeding or pursuant to any merger, sale, or transfer, by operation of law or otherwise, shall perform and satisfy all obligations of the utility pursuant to this section in the same manner and to the same extent as the utility, including but not limited to collecting and paying to the assignee or pledgee, as the case may be, revenue arising with respect to the transition property sold, assigned, transferred, or pledged to secure transition bonds.

(19) Transition property or any right, title, or interest of a utility, assignee, or pledgee described in the definition of transition property, whether before or after the issuance of a financing order, does not constitute an account or general intangibles as those terms are defined in 30-9A-102. Any right, title, or interest pertaining to a financing order, including the interest pertaining to a financing order, along with the associated transition property and any revenue, collections, claims, payments, money, or proceeds of or arising from fixed transition amounts pursuant to the financing order, may not be considered proceeds of any right, title, or interest other than in the order and the transition property arising from the order.

(20) The lien under this section is enforceable against the pledgor and all third parties, including judicial lien creditors, subject only to the rights of any third parties holding security interests in the transition property previously perfected in the manner described in this section if value has been given by the purchasers of transition bonds. A perfected lien in transition property is a continuously perfected security interest in all revenue and proceeds arising with respect to the associated transition property, whether or not revenue has been accrued. Transition property constitutes property for the purposes of contracts securing transition bonds, whether or not the related revenue has accrued. The lien created under this section is perfected and ranks before any lien, including any judicial lien, that subsequently attaches to the transition property, to the fixed transition costs, and to the financing order and any rights created by the order or any proceeds of the order. The relative priority of a lien created under this section is not defeated or adversely affected by changes to the financing order or to the fixed transition amounts payable by any customer.

(21) The commission shall establish and maintain a separate system of records to reflect the date and time of receipt of all filings made under this section and may provide that transfers of transition property to an assignee be filed in accordance with the same system.

(22) Any sale, assignment, or other transfer of transition property or any pledge of transition property is exempt from any state or local sales, income, transfers, gains, receipts, or similar taxes.

(23) The transition bonds issued under this chapter are exempt from the provisions of Title 30, chapter 10, but copies of all prospectus and disclosure documents must be deposited for public inspection with the state securities commissioner.

(24) The granting, perfection, and priority of security interests with respect to transition property and the proceeds of transition property are governed by this section rather than by Title 30, chapter 9A.

(25) Upon the payment in full of transition bond principal and interest, the utility shall discontinue charging and collecting the competitive transition charge associated with that portion of the utility's approved transition costs.

(26) The commission may, by order or rule and subject to terms and conditions that it may prescribe, exempt any security or class of securities for which an application is required under this title or any public utility or class of public utility from the provisions of this title if it finds that the application of this title to the security, class of security, public utility, or class of public utility is not required by the public interest.

Part 6
Net Metering

69-8-601. Legislative findings. The legislature finds that it is in the public interest to promote net metering because it:

(1) encourages private investment in renewable energy resources;

(2) stimulates Montana's economic growth; and

(3) enhances the continued diversification of the energy resources used in Montana.

History: En. Sec. 1, Ch. 323, L. 1999.

69-8-602. Distribution services provider net metering requirements. A distribution services provider shall:

(1) allow net metering systems to be interconnected using a standard kilowatt-hour meter capable of registering the flow of electricity in two directions, unless the commission determines, after appropriate notice and opportunity for comment:

(a) that the use of additional metering equipment to monitor the flow of electricity in each direction is necessary and appropriate for the interconnection of net metering systems, after taking into account the benefits and costs of purchasing and installing additional metering equipment; and

(b) how the costs of net metering are to be allocated between the customer-generator and the distribution services provider; and

(2) charge the customer-generator a minimum monthly fee that is the same as other customers of the electric utility in the same rate class. The commission shall determine, after appropriate notice and opportunity for comment if:

(a) the distribution services provider will incur direct costs associated with interconnecting or administering net metering systems that exceed any offsetting benefits associated with these net metering systems; and

(b) public policy is best served by imposing these costs on the customer-generator, rather than allocating these costs among the distribution services provider's entire customer base.

History: En. Sec. 3, Ch. 323, L. 1999.

69-8-603. Net energy measurement calculation. Consistent with the other provisions of this part, the net energy measurement must be calculated in the following manner:

(1) The distribution services provider shall measure the net electricity produced or consumed during the billing period, in accordance with normal metering practices.

(2) If the electricity supplied by the electricity supplier exceeds the electricity generated by the customer-generator and fed back to the electricity supplier during the billing period, the customer-generator must be billed for the net electricity supplied by the electricity supplier, in accordance with normal metering practices.

(3) If electricity generated by the customer-generator exceeds the electricity supplied by the electricity supplier, the customer-generator must be:

(a) billed for the appropriate customer charges for that billing period, in accordance with 69-8-602; and

(b) credited for the excess kilowatt hours generated during the billing period, with this kilowatt-hour credit appearing on the bill for the following billing period.

(4) On January 1, April 1, July 1, or October 1 of each year, as designated by the customer-generator as the beginning date of a 12-month billing period, any remaining unused kilowatt-hour credit accumulated during the previous 12 months must be granted to the electricity supplier, without any compensation to the customer-generator.

History: En. Sec. 4, Ch. 323, L. 1999; amd. Sec. 1, Ch. 328, L. 2001.

69-8-604. Net metering system — reliability and safety. (1) A net metering system used by a customer-generator must include, at the customer-generator's own expense, all equipment necessary to meet applicable safety, power quality, and interconnection requirements established by the national electrical code, national electrical safety code, institute of electrical and electronic engineers, and underwriters laboratories.

(2) The commission, after appropriate notice and opportunity for comment, may adopt by rule additional safety, power quality, and interconnection requirements for customer-generators that the commission or the local governing body determines are necessary to protect public safety and net metering system reliability.

History: En. Sec. 5, Ch. 323, L. 1999.

69-8-605. Applicability. This part does not apply to corporations organized under Title 35, chapter 18.

(2) The detriment caused by the breach of a carrier's obligation to deliver freight where he has not converted it to his own use is deemed to be the value thereof at the place and on the day at which it should have been delivered, deducting the freightage to which he would have been entitled if he had completed the delivery.

(3) The detriment caused by a carrier's delay in the delivery of freight is deemed to be the depreciation in the intrinsic value of the freight during the delay and also the depreciation, if any, in the market value thereof, otherwise than by reason of a depreciation in its intrinsic value, at the place where it ought to have been delivered and between the day at which it ought to have been delivered and the day of its actual delivery.

69-11-421. Liability of inland carriers for loss. (1) Any common carrier, railroad, or transportation company subject to the provisions of 69-11-421 through 69-11-427, receiving property for transportation from a point in Montana to any other point in Montana, shall issue a receipt or bill of lading therefor and shall be liable to the lawful holder thereof for any loss, damage, or injury to such property caused by it or by any common carrier, railroad, or transportation company to which such property may be delivered or over whose line or lines such property may pass within the state when transported on a through bill of lading. No contract, receipt, rule, or other limitation of any character whatsoever shall exempt such common carrier, railroad, or transportation company from the liability hereby imposed.

(2) Except as provided in 69-11-422, any common carrier, railroad, or transportation company receiving property for transportation from a point in Montana to a point in Montana or any common carrier, railroad, or transportation company delivering property so received and transported is liable to the lawful holder of said receipt or bill of lading or to any party entitled to recover thereon, whether such receipt or bill of lading has been issued or not, for the full actual loss, damage, or injury to such property caused by it or by any common carrier, railroad, or transportation company to which such property may be delivered or over whose line or lines such property may pass within the state when transported on a through bill of lading, notwithstanding any limitation of liability or limitation of the amount of recovery or representation or agreement as to value in any such receipt or bill of lading or in any contract or

rule or in any tariff filed with the public service commission. Any such limitation, without respect to the manner or form in which it is sought to be made, is unlawful and void, except:

(b) the act of a public enemy of the United States or of this state;

(e) the act or default of the shipper or owner; or

(f) for natural shrinkage.

(4) The liability imposed by this section also applies in the case of property reconsigned or diverted in accordance with the applicable tariffs filed as provided in this part.

(5) A common carrier is liable, even in the cases excepted by subsection (2), if his ordinary negligence exposes the property to the cause of the loss.

69-11-422. Permissible limitations on liability. (1) The provisions of 69-11-421 respecting liability for full actual loss, damage, or injury, notwithstanding any limitation of liability or recovery or representation or agreement or release as to value, and declaring any such limitation to be unlawful and void shall not apply to:

(a) baggage carried on passenger trains or buses;

(b) property, except ordinary livestock, received for transportation, concerning which the carrier shall have been or shall hereafter be expressly authorized or required by order of the public service commission to establish and maintain rates dependent upon the value declared in writing by the shipper or agreed upon in writing as the released value of the property.

(2) (a) In the case listed in subsection (1)(b), such declaration or agreement shall have no other effect than to limit liability and recovery to an amount not exceeding the value so declared or released and shall not, so far as related to values, be held to be a violation of 69-11-421 through 69-11-427. Any tariff schedule which may be filed with the commission pursuant to the order referred to in subsection (1)(b) shall contain specific reference thereto and may establish rates varying with the value so declared and agreed upon. The commission is hereby empowered to make such order in cases where rates dependent upon and varying with declared or agreed values would, in its opinion, be just and reasonable under the circumstances and conditions surrounding the transportation.

(b) The term "ordinary livestock" shall include all cattle, swine, sheep, goats, horses, and mules, except such as are chiefly valuable for breeding, racing, show purposes, or other special uses.

Part 5
Ratemaking Requirements

69-12-501. Rate schedules to be maintained. (1) Every Class A or B motor carrier holding a certificate must maintain on file with the commission a full and complete schedule of its rates, fares, charges, classifications, and rules of service and any and all tariff provisions relating to such rates, fares, charges, classifications, or rules. Every schedule on file and approved on March 7, 1961, shall remain in full force and effect until changed or modified by the commission or by the carrier with the approval of the commission.

(2) No change, modification, alteration, increase, or decrease in any rate, fare, charge, classification, or rule of service shall be made by any motor carrier without first obtaining the approval of the commission. The commission shall prescribe rules providing for the form and style of all schedules and tariffs and for the procedures to be followed in filing or publishing any changes or modifications of the same.

History: En. Sec. 2, Ch. 201, L. 1961; R.C.M. 1947, 8-104.2.

69-12-502. Prohibition on deviation from rate schedules. It shall be unlawful for any Class A or B motor carrier to charge, demand, receive, or collect any greater or less rate, charge, or fare than that fixed by the commission for the transportation service provided. When maximum or minimum rates have been established for any service provided by any Class C motor carrier, it shall likewise be unlawful for such carrier to charge, demand, receive, or collect any greater compensation or rate than that established for the service by any applicable maximum rate or any less compensation or rate than that established by any applicable minimum rate. It also shall be unlawful for any Class A or B motor carrier or any Class C motor carrier subject to maximum or minimum rates to refund or remit, in any manner or by any device, any portion of the rates, fares, and charges required to be collected under the schedule of the Class A or B carrier on file with the commission or under the maximum or minimum rates established by the commission for the Class C carrier.

History: **En. Sec. 3, Ch. 201, L. 1961; R.C.M. 1947, 8-104.3.**

69-12-503. Rates to be reasonable and nondiscriminatory. (1) All rates, fares, charges, classifications, or rules of service for the transportation of property and/or persons upon the public highways of this state must be fair, just, reasonable, and nondiscriminatory. No motor carrier operating under established rates shall make, give, or permit any undue preference or advantage to any particular person, company, corporation, locality, or description of traffic, nor shall such motor carrier subject any particular person, company, corporation, locality, or description of traffic to any prejudice or disadvantage in any respect. Nothing herein provided shall prevent the commission from authorizing different rates or schedules of rates for service between the same places or between different points of origin and/or destination within the same places when such different rates are justified by the differing character of service to be rendered by the carrier to a shipper or consignee.

(2) The commission may, upon its own initiative or upon the complaint of any interested party, investigate any rate, fare, charge, classification, or rule of service contained in the schedule of any motor carrier. If the commission shall find, after such investigation, that any such rate, fare, charge, classification, or rule of service is unfair, unjust, unreasonable, or discriminatory, it shall disallow the same and fix a rate, fare, charge, classification, or rule of service which shall be fair, just, reasonable, and nondiscriminatory and it shall order the affected motor carrier or carriers to conform to such modified schedule. Each motor carrier affected by any complaint or investigation shall first be given notice of the same and an opportunity to be heard before the commission.

History: **En. Sec. 4, Ch. 201, L. 1961; amd. Sec. 2, Ch. 182, L. 1971; R.C.M. 1947, 8-104.4.**

69-12-504. Procedure to revise rate schedule. (1) No motor carrier shall change or revise any rate, fare, charge, classification, or rule of service contained in its schedule without first obtaining approval therefor from the commission. Such changes or revisions shall be made by filing with the commission the tariff sheet or sheets containing such changes or revisions, plainly stating the changes or revisions to be made, and by submitting at the same time testimony and exhibits supporting the requested change or revision and prepared by the motor carrier. Additional testimony or exhibits may be submitted before or during the hearing provided for in 69-12-505 and may be submitted after the hearing with the approval of the commission. The public shall be provided with such notice of the proposed changes or revisions as the commission shall, by rule, require.

(2) The tariff sheets containing changes or revisions shall be filed with the commission at least 45 days before the proposed effective date. The change or revision shall be effective on the stated effective date unless disallowed or suspended by the commission prior to this date. However, the commission may, for good cause, allow any change or revision to become effective on less than 45 days' notice.

History: **En. Sec. 5, Ch. 201, L. 1961; amd. Sec. 1, Ch. 235, L. 1973; R.C.M. 1947, 8-104.5(part); amd. Sec. 1, Ch. 94, L. 1979.**

69-12-505. Suspension of proposed rate revision — hearing. (1) Upon its own initiative or upon the complaint of any interested party filed with the commission within 20 days after the date upon which a change or revision of any rate, fare, charge, or classification is filed with the commission, the commission may suspend the operation of such rate, fare, charge, or classification for a period not to exceed 180 days. The order directing such suspension must be issued by the commission not less than 2 business days prior to the proposed effective date. The motor carrier or carriers filing such rate, fare, charge, or classification shall be given prompt notice by the complaining party, mailing a copy of the complaint concerning such proposed change or revision to the carrier or publishing agent, and such carrier or carriers also shall be given an opportunity to reply to any such complaint. If the proposed change or revision is in a tariff issued by a tariff publishing bureau for a motor carrier or carriers, notice to such bureau of any complaint will constitute notice to the participating carriers in such tariff.

(2) (a) If all the protests are withdrawn and the commission finds the proposed increase justified, the commission may vacate the suspension and permit the proposed rates to become effective without a public hearing.

(b) Unless the suspension has been vacated, whenever the suspension of any proposed change or revision in a tariff is ordered by the commission, it shall also order a public hearing to consider the reasonableness of the proposed change or revision. Due notice shall be given for such hearing to all known interested or affected persons, and the same shall be allowed to appear and present evidence. Additional prepared testimony may be presented before or during the hearing and may also be submitted after the hearing with the permission of the commission.

(3) After considering the evidence presented at such hearing, the commission shall issue an order approving, denying, or modifying the proposed change or revision. Unless such hearing is held and such order is issued within 180 days from the date upon which the suspension was ordered, the proposed change or revision shall be deemed approved and effective as filed.

69-12-511. Procedure to recover excess charges. (1) Any sum or amount of money paid to any motor carrier in excess of the rates, fares, or charges established for such service by the commission may be recovered from such carrier by the person or shipper who paid the same in any action brought in the district court of the county in which such payment was made. Any such action must be brought within 2 years from the date of such payment. No contract or agreement, written or otherwise, between such person or shipper and any motor carrier shall be admissible in evidence for the purpose of showing a waiver of the right given by this section.

(2) If upon the trial of such action it shall satisfactorily appear to the court or jury that such overcharge was willfully made, the person or shipper bringing the said action shall be awarded damages in treble the amount of such excess or overcharge, together with the costs and expenses of such action, including a reasonable attorney's fee, to be taxed and collected as other costs in the action.

69-12-601. Carrier agreements. (1) Any carrier, as defined in 69-12-101, which is a party to an agreement between or among two or more carriers relating to rates, fares, classifications, divisions, allowances, or charges (including charges between carriers and compensation paid or received for the use of facilities and equipment) or rules pertaining thereto or procedures for the joint consideration, initiation, or establishment thereof may, under such rules as the commission prescribes, apply to the public service commission for approval of the agreement. The commission shall by order approve any agreement if approval thereof is not prohibited by 69-12-602. The approval of the commission shall be granted only upon such terms and conditions as the commission may prescribe as necessary to enable it to grant its approval in accordance with this subsection.

(2) Each conference, bureau, committee, or other organization established or continued pursuant to any agreement approved by the commission and the provisions of this section shall maintain such accounts, records, files, and memoranda and shall submit to the commission such

reports as may be prescribed by the commission. All such accounts, records, files, and memoranda shall be subject to inspection by the commission or its duly authorized representative.

69-12-602. Limitations on carrier agreements. The commission may not approve under 69-12-601 any agreement:

(1) between a carrier by highway and a carrier by rail unless it finds that such agreement is of the character described in 69-12-601 and is limited to matters relating to the transportation under joint rates or over through routes;

(2) which it finds is an agreement with respect to pooling or division of traffic, service, or earnings;

(3) which establishes a procedure for the determination of any matter through joint consideration unless it finds that under the agreement there is accorded to each party the free and unrestrained right to take independent action either before or after any determination arrived at through such procedure.

69-12-603. Investigation of operation under agreement. The commission may, upon complaint or upon its own initiative without complaint, investigate and determine whether any agreement previously approved by it under 69-12-601 or any terms or conditions upon which such approval was granted are not in conformity with 69-12-601 and 69-12-602 or whether any such terms or conditions are not necessary for the purpose of conformity with 69-12-601 and 69-12-602. After such investigation, the commission may by order terminate or modify its approval of such agreement if it finds such action necessary to insure conformity with 69-12-601 and 69-12-602 and may modify the terms and conditions upon which such approval was granted to the extent it finds necessary to insure conformity with 69-12-601 and 69-12-602 or to the extent it finds its terms and conditions unnecessary to insure such conformity. The effective date of any order terminating or modifying approval or modifying terms and conditions may be postponed for such period as the commission determines is reasonably necessary to avoid undue hardship.

(2) Any action of the commission under 69-12-601 through 69-12-603 in approving an agreement, in denying an application for such approval, in terminating or modifying its approval of an agreement, in prescribing terms and conditions upon which its approval is to be granted, or in modifying such terms and conditions shall be construed as having effect solely with reference to the applicability of subsection (1).

In the exercise of the privileges herein conferred, such pipelines shall compensate the county for any damage done to such public road in the laying of pipelines or telegraph or telephone lines along or across the same. Requirements for Pipeline Carriers

69-13-301. Records and reports. (1) Such common carriers of crude petroleum, coal, or the products thereof shall make and publish their tariffs under such rules as may be prescribed by said commission. The commission shall require them to make reports and may investigate their books and records kept in connection with such business.

(2) The commission shall require of such common carrier pipelines monthly reports, duly verified under oath, of the total quantities of crude petroleum, coal, or the products thereof owned by such pipelines, of that held by them in storage for others, and of their unfilled storage capacity. No publicity shall be given by the commission to the reports as to stock of crude petroleum, coal, or the products thereof on hand of any particular pipeline, but the commission in its discretion may make public the aggregate amounts held by all the pipelines making such reports and of their aggregate storage capacity.

History: En. Sec. 6, Ch. 8, Ex. L. 1921; re-en. Sec. 3853, R.C.M. 1921; re-en. Sec. 3853, R.C.M. 1935; amd. Sec. 5, Ch. 190, L. 1955; amd. Sec. 5, Ch. 170, L. 1963; amd. Sec. 20, Ch. 315, L. 1974; R.C.M. 1947, 8-206(part).

69-13-302. Connection and interchange facilities. (1) Every common carrier shall exchange crude petroleum tonnage, coal tonnage, or petroleum or coal products tonnage with each like common carrier. The commission shall have the power to require such connections and facilities for the interchange of such tonnage to be made at every locality reached by both pipelines whenever a necessity therefor exists, subject to such rates and regulations as may be made by the commission. Any such common carrier under like rules shall be required to install and maintain facilities for the receipt and delivery of crude petroleum, coal, or the products thereof of patrons at all points on such pipeline.

(2) No carrier shall be required to receive or transport any crude petroleum, coal, or the products thereof except such as may be marketable under rules to be prescribed by the commission, which they are hereby empowered and required to prescribe. The commission is also empowered and required to make rules for the ascertainment of the amount of water and other foreign matter in crude oil, coal, or the products thereof tendered for transportation, for deduction therefor, and for the amount of deduction to be made for temperature, leakage, and evaporation.

(3) The recital herein of particular powers on the part of said commission shall not be construed to limit the general powers conferred by this chapter.

69-13-303. Prohibition of discrimination in rates or service. (1) Except as provided in subsection (2), no such common carrier in its operations as such shall discriminate between or against shippers in regard to facilities furnished, service rendered, or rates charged under same or similar circumstances in the transportation of crude petroleum, coal, or the products thereof; nor shall there be any discrimination in the transportation of crude petroleum, coal, or the products thereof produced or purchased by itself directly or indirectly. In this connection the pipeline shall be considered as a shipper of the crude petroleum, coal, or the products thereof produced or purchased by itself directly or indirectly and handled through its facilities. No such carrier in such operation shall directly or indirectly charge, demand, collect, or receive from any one a greater or lesser compensation for any service rendered than from another for a like and contemporaneous service. Subject to the provisions of this chapter and the rules which may be prescribed by the commission, every such common carrier shall receive and transport crude petroleum or coal delivered to it for transportation and shall so receive and transport the same and perform its other duties with respect thereto without discrimination.

(2) The provisions of subsection (1) shall not limit the right of the commission to prescribe rates and regulations different from or to some places from other rates or regulations for transportation from or to other places, as it may determine; nor shall any carrier be guilty of discrimination when obeying any order of the commission. When there shall be offered for transportation more crude petroleum, coal, or the products thereof than can be immediately transported, the same shall be equitably apportioned. The commission may make and enforce general or specific regulations in this regard. No such common carrier shall at any time be required to receive for shipments exceeding 3,000 barrels of petroleum or the products thereof in any one day from any person, firm, corporation, or association of persons.

However, no witness furnished with free transportation may receive mileage for the distance he may have traveled on such free transportation. No person may be excused from attending or testifying or producing any books, papers, documents, or any thing or things before any court or magistrate or commissioner or board upon any investigation, proceeding, or trial under the provisions of this chapter or for any violation of any of them upon the ground or for the reason that the testimony or evidence, documentary or otherwise, required of him may tend to convict him of a crime or subject him to a penalty or forfeiture. The court shall thereupon summarily direct that a subpoena be issued out of the court requiring the attendance of any person as a witness before the court. The commission may thereupon examine such witness before the court, under oath, respecting any inquiry or investigation being made by the commission pursuant to the provisions of this chapter. The court shall likewise, when any petition is filed stating the necessity therefor, order the production by any person or corporation, for examination in the court, of any books, papers, records, or files necessary or pertinent to any inquiry or investigation then being made by the commission.

(d) Telemetry systems installed on a train in conformity with rules made under this section must be equipped so that an emergency application of brakes of the train can be initiated by activation of the device placed on the last car at the rear end of the train.

(e) Disciplinary action or other adverse administrative or employment action may not be instituted against a person who reports a violation of this subsection (2) or who acts to enforce the provisions of this subsection (2).

(3) The inspections and rules required under subsections (1) and (2) must be compatible with any federal provisions and may not create an undue burden on interstate commerce.

(4) The commission may not require the installation and use of a telemetry system as described in this section on a train equipped with a caboose that:

(a) meets the requirements of Montana law;

(b) is placed as the last car of the train; and

(c) is occupied by a member of the train crew.

69-14-134. Court enforcement of commission actions. (1) The district court has jurisdiction to enforce, by proper decree, injunction, or order, the rates, classifications, rulings, orders, and regulations made or established by the commission under the provisions of this chapter. The proceeding therefor shall be by equitable action in the name of the state and shall be instituted by the attorney general or county attorney, whenever advised by the commission that any railroad, railway, or common carrier is violating or refusing to comply with any such rule, order, rate, classification, or regulation made by the commission and applicable to such railroad, railway, or common carrier. Such proceedings shall have precedence over all other business in such courts except criminal business.

(2) In any action the burden of proof shall rest upon the defendant, who must show by clear and satisfactory evidence that the rule, order, regulation, rate, or classification involved is unreasonable and unjust as to it. If, in such action, it is the decision of the court that the rule, regulation, order, rate, or classification is not unreasonable or unjust and that in refusing compliance therewith the railroad, railway, or common carrier is thereby failing or omitting the performance of any duty, debt, or obligation, the court shall decree a mandatory and perpetual injunction compelling obedience to and compliance with the rule, regulation, order, rate, or classification by the defendant and its officers, agents, servants, and employees and may grant such other relief as is just and proper. Any violation of such decree renders the defendant and any officer, agent, servant, or employee of the defendant who is in any manner instrumental in such violation guilty of contempt, punishable by a fine not exceeding $1,000 for each offense or by imprisonment of the person guilty of contempt until he sufficiently purges himself therefrom. Such decree remains in effect until the rule, regulation, order, rate, or classification shall be modified or vacated by the commission. Nothing contained herein shall be construed to deprive

either party to such proceedings of the right to trial by jury as provided by the seventh amendment to the constitution of the United States or as provided by the constitution of this state.

(3) An appeal shall lie to the supreme court from the decree in such action, and the cause shall have precedence over all other civil actions of a different nature pending in the supreme court except original proceedings in the supreme court.

(1) Railroad corporations shall build and maintain a legal fence on both sides of their track and property and maintain cattle guards at all crossings over which cattle or other domestic animals cannot pass, except that a fence is not required in places where water ditches, embankments, terrain, or other sufficient protection prevents domestic animals from straying onto the right-of-way. An affected landowner or lessee may construct, maintain, or repair a fence subject to approval and reimbursement by the railroad corporation.

(2) If a railroad corporation does not build and maintain the fence and guards and its engines or cars, because of the lack of a fence or maintenance of a fence, kill or maim cattle or other domestic animals upon its line of road, it must pay to the owner of the cattle or other domestic animals, in all cases, a fair market price for the animal, unless it occurred through the neglect or fault of the owner of the animal killed or maimed; however, nothing in this section may be construed to prevent a person from recovering damages from a railroad corporation for its negligent killing or injury to cattle or other domestic animals at spurs, sidings, Ys, crossings, and turntables.

(3) An affected landowner or lessee may file a complaint with the public service commission when a fence is in disrepair or in need of maintenance. The public service commission shall certify that the fence is in need of repair and notify the railroad corporation responsible for the fence. The public service commission shall forward a copy of the complaint, a certification that the fence is in need of repair, and a verification that the railroad corporation was notified to the county attorney of the county within which the site of the fence in disrepair is located. Upon notice, the railroad corporation responsible for the fence shall repair the fence within 30 days,

weather permitting. A railroad corporation failing to repair the fence within 30 days of notification shall pay a fine of $100 plus $50 a day each day after the 30th day of notification, for failure to repair the fence. The fine must be recovered in a civil action and deposited in the county general fund. It is the duty of the county attorney of the county within which the site of the fence in disrepair is located to prosecute the action.

(1) If livestock are killed by railroad corporations in violation of 69-14-701 and if the owner of the livestock does not claim or assert a claim against the railroad or railroad corporation for the value of the livestock killed within 6 months from the date the animal is killed, the department of livestock shall demand from the railroad or railroad corporation payment in damages for livestock. The department shall institute and prosecute, in the name of the state, actions against the railroad or railroad companies in a court of competent jurisdiction to recover damages if the railroad fails, neglects, or refuses to make payment of the amount of the claim filed by the department.

(2) The money recovered shall be paid to the department and shall be held by the department for a period of 2 years after the date of its receipt. If the lawful owner of the animal killed does not present and prove his claim to the net proceeds received from the animal killed within the 2 years, the money shall be paid to the state treasurer and credited to the stock estray

It shall be the duty of any person, firm, or corporation to whom application is made for the right to erect and maintain an elevator or warehouse under the provisions of 69-14-901 through 69-14-911, within 30 days after the receipt of such application, to notify said applicant in writing of the acceptance or rejection of the amount stated in said application to be reasonable compensation for the right, privilege, and easement sought to be acquired. In case such person, firm, or corporation fails to notify the applicant within said 30 days, such person, firm, or corporation shall be deemed to have accepted said amount, and upon the payment or tender thereof, said applicant shall be deemed to have acquired the right, privilege, and easement applied for.

69-14-903. Court action to resolve differences. (1) In case the amount so named in the application and tendered is not accepted and the parties cannot agree on the amount to be paid for such right, privilege, and easement, the same shall be ascertained, assessed, and determined by proceedings in the district court of the county in which the station or siding at which the right, privilege, and easement sought is situated. The court is hereby given full jurisdiction in the premises and shall at all times be deemed open and in session for the purposes of 69-14-901 through 69-14-911.

(2) Proceedings in the district court shall be instituted and carried on as provided in 69-14-904.

69-14-904. Procedure in district court. (1) The parties seeking the right, privilege, and easement aforesaid shall present to and file with the district court a petition in writing and under oath, specifying and describing the right, privilege, and easement sought, the time for which the same is sought, and the fact that the parties to the proceedings are unable to agree upon the amount of compensation therefor.

(2) A copy of the application for such privilege shall be attached to said petition, and thereupon it shall be at once the duty of the court by its order in writing to fix a time not more than 30 days thereafter within which the person, firm, or corporation so owning, managing, or controlling such railroad shall appear and join issue in said proceeding. Such notice shall be served as a summons is served in civil actions and shall be ample notice to the parties so served to appear and join in the proceedings and shall be ample to give the court full jurisdiction over the party against whom the proceedings are instituted and the property involved in the proceeding.

(3) The manner of joining issue and the procedure at the trial shall be the same as that in any other civil action at law.

(4) The trial of such issue shall be expedited by the court as much as possible. At the trial the court or jury, as the case may be, shall find and assess the compensation, both in the form of an annual rental and in the form of a gross sum, for the right, privilege, and easement sought. Immediately after the finding or verdict has been made, the party against whom the proceedings have been taken shall elect whether to receive the annual rental or the gross sum found. In case such election is not made by said party, then the other party to the proceedings may make such election. After election is made as aforesaid, judgment shall be rendered adjudging, among other things, that upon payment of the gross sum found or the annual rental found, yearly in advance, as the case may be, the party instituting the proceedings shall be entitled to the right, privilege, and easement of erecting and maintaining the elevator or warehouse asked for in the application and petition aforesaid and for the time therein specified. Thereupon the party in whose favor said judgment is rendered shall be entitled to a writ of execution in proper form to immediately invest such party with the right, privilege, and easement aforesaid.

Such appeal shall not stay or hinder the use or enjoyment to the fullest extent of the right, privilege, and easement asked for by the petition and conferred by the judgment if the party instituting the proceedings shall make and file a bond with sureties, to be approved by the court, in an amount double the gross sum or annual rental, conditioned to pay such sum or rental and to abide and satisfy any judgment the supreme court may render in the premises. Either party may appeal from that part of the judgment determining the quantity and location of the land upon which such warehouse or elevator is to be erected, and in the event of such appeal, the judgment shall be suspended pending the appeal.

69-14-931. Definitions. As used in 69-14-932 and this section, the following definitions apply:

(1) "Fair market value" means:

(a) the price negotiated between the parties under 69-14-932; or

(b) the appraised value as determined by a certified appraisal under 69-14-932.

(2) "Leaseholder" means a person who holds a lease or permit with respect to land adjacent to a railroad right-of-way and who has constructed or owns buildings on the land that have an appraised value of $5,000 or more.

(3) "Right-of-way" means land upon which a railroad has or has had tracks.

History: En. Sec. 1, Ch. 814, L. 1991.

69-14-932. First right to purchase or match offer — lease preference — negotiation process — exception. (1) A person or entity that has a leasehold site between a point 8.5 feet from the centerline of the track nearest the edge of the right-of-way and 300 feet from the track centerline and that uses the leasehold for transporting grain, seed, or related agricultural input commodities, regardless of the status of train operations, has a right of first refusal to purchase the land in the event the owner seeks to sell the land or transfer the leasehold estate.

(2) The leaseholder of a leasehold site described in subsection (1) must be given the opportunity to match a competing lease offer upon expiration of an existing lease. If the leaseholder matches the new lease offer, the lease must be given to the leaseholder. When a person other than the current leaseholder becomes the lessee of a leasehold site described in subsection (1) or the lease is terminated by the lessor for reasons other than nonpayment or other material breach of the lease, the lessor or new lessee shall compensate the former leaseholder for the fair market value of improvements made by the former leaseholder.

(3) The owner of the land may not sell or offer for sale an interest in the leased land or dispossess the leaseholder for reasons other than nonpayment or other material breach of the lease unless he first extends to the leaseholder a written offer to sell the leased land to the leaseholder at fair market value. The leaseholder shall respond to the offer within 60 days of receipt of the offer.

(4) The owner shall negotiate in good faith with the leaseholder for a period not to exceed 90 days following the leaseholder's response to the written offer provided for in subsection (3). The land may not be sold or transferred during the response and negotiation periods.

(5) (a) If the owner and the leaseholder cannot agree on the fair market value, they shall appoint a certified appraiser to establish the fair market value.

(b) In the event that the owner and leaseholder cannot agree on an appraiser, each shall appoint a certified appraiser who shall make an independent appraisal. If the appraisals are within 5% of each other, the average of the two appraisals must constitute the fair market value.

(c) If the two appraisals differ by more than 5%, the two appraisers must appoint a third certified appraiser whose appraisal must establish the fair market value.

(d) If the leaseholder fails to close the purchase of the leasehold estate for any reason within 45 days after the fair market value of the land has been established by the appraisal process provided for in this section, the right of first refusal is extinguished and the owner is free to transfer the property to a person or entity other than the leaseholder.

(e) The owner may transfer a title under this section by quitclaim deed rather than warranty deed.

(6) This section does not apply to the sale of an entire operating railroad line by one operating railroad to another entity for the purpose of operating a railroad.

Part 2
Uniting of Materials — Workmanship

70-4-201. Use of materials belonging to another — reimbursement. If one makes a thing from materials belonging to another, the latter may claim the thing on reimbursing the value of the workmanship unless the value of the workmanship exceeds the value of the materials, in which case the thing belongs to the maker on reimbursing the value of the materials.

History: **En. Sec. 1413, Civ. C. 1895; re-en. Sec. 4582, Rev. C. 1907; re-en. Sec. 6829, R.C.M. 1921; Cal. Civ. C. Sec. 1028; Field Civ. C. Sec. 452; re-en. Sec. 6829, R.C.M. 1935; R.C.M. 1947, 67-1404.**

70-4-202. Uniting of materials of maker and other. Where one has made use of materials which in part belong to him and in part to another in order to form a thing of a new description, without having destroyed any of the materials but in such a way that they cannot be separated without inconvenience, the thing formed is common to both proprietors in proportion, as respects the one, of the materials belonging to him and, as respects the other, of the materials belonging to him and the price of his workmanship.

History: **En. Sec. 1414, Civ. C. 1895; re-en. Sec. 4583, Rev. C. 1907; re-en. Sec. 6830, R.C.M. 1921; Cal. Civ. C. Sec. 1029; Field Civ. C. Sec. 453; re-en. Sec. 6830, R.C.M. 1935; R.C.M. 1947, 67-1405.**

70-4-203. Uniting of materials of several owners. When a thing has been formed by the admixture of several materials of different owners and neither can be considered the principal substance, an owner without whose consent the admixture was made may require a separation if the materials can be separated without inconvenience. If they cannot be thus separated, the owners acquire the thing in common, in proportion to the quantity, quality, and value of their materials, but if the materials of one were far superior to those of the others, both in quantity and value, he may claim the thing on reimbursing to the others the value of their materials.

History: **En. Sec. 1415, Civ. C. 1895; re-en. Sec. 4584, Rev. C. 1907; re-en. Sec. 6831, R.C.M. 1921; Cal. Civ. C. Sec. 1030; Field Civ. C. Sec. 454; re-en. Sec. 6831, R.C.M. 1935; R.C.M. 1947, 67-1406.**

70-4-204. Use of materials without consent — owner prevails. The foregoing sections of this chapter are not applicable to cases in which one willfully uses the materials of another without his consent, but in such cases, the product belongs to the owner of material if its identity can be traced.

History: **En. Sec. 1416, Civ. C. 1895; re-en. Sec. 4585, Rev. C. 1907; re-en. Sec. 6832, R.C.M. 1921; Cal. Civ. C. Sec. 1031; Field Civ. C. Sec. 455; re-en. Sec. 6832, R.C.M. 1935; R.C.M. 1947, 67-1407.**

70-4-205. Owner of materials wrongfully used — election of remedies. In all cases where one whose material has been used without his knowledge in order to form a product of a different description can claim an interest in such product, he has an option to demand either restitution of his material in kind, in the same quantity, weight, measure, and quality, or the value thereof or, where he is entitled to the product, the value thereof in place of the product.

History: **En. Sec. 1417, Civ. C. 1895; re-en. Sec. 4586, Rev. C. 1907; re-en. Sec. 6833, R.C.M. 1921; Cal. Civ. C. Sec. 1032; Field Civ. C. Sec. 456; re-en. Sec. 6833, R.C.M. 1935; R.C.M. 1947, 67-1408.**

70-4-206. Wrongdoer liable in damages. One who wrongfully employs materials belonging to another is liable to him in damages as well as under the foregoing provisions of this chapter.

(q) all other property, 5 years after the owner's right to demand the property or after the obligation to pay or distribute the property arises, whichever first occurs.

(2) At the time that an interest is presumed abandoned under subsection (1), any other property right accrued or accruing to the owner as a result of the interest, and not previously presumed abandoned, is also presumed abandoned.

(3) Property is unclaimed if, for the applicable period set forth in subsection (1), the apparent owner has not communicated in writing or by other means reflected in a contemporaneous record prepared by or on behalf of the holder with the holder concerning the property or the account in which the property is held and has not otherwise indicated an interest in the property. A communication with an owner by a person other than the holder or its representative who has not in writing identified the property to the owner is not an indication of interest in the property by the owner.

(4) An indication of an owner's interest in property includes:

(a) the presentment of a check or other instrument of payment of a dividend or other distribution made with respect to an account or underlying stock or other interest in a business association or financial organization or, in the case of a distribution made by electronic or similar means, evidence that the distribution has been received;

(b) owner-directed activity in the account in which the property is held, including a direction by the owner to increase, decrease, or change the amount or type of property held in the account;

(c) the making of a deposit to or withdrawal from an account in a financial organization; and

(d) the payment of a premium with respect to a property interest in an insurance policy; however, the application of an automatic premium loan provision or other nonforfeiture provision contained in an insurance policy does not prevent a policy from maturing or terminating if the insured has died or the insured or the beneficiary of the policy has otherwise become entitled to the proceeds before the depletion of the cash surrender value of a policy by the application of those provisions.

(5) Property is payable or distributable for purposes of this part notwithstanding the owner's failure to make demand or present an instrument or document otherwise required to obtain payment.

(6) The presumption provided in subsection (1) does not apply to:

(a) unclaimed patronage refunds of a rural electric or telephone cooperative if the cooperative uses the refunds exclusively for educational purposes; or

(b) unclaimed shares in a nonutility cooperative if the cooperative uses the shares for charitable or civic purposes in the community in which the cooperative is located.

History: En. Sec. 3, Ch. 124, L. 1997; amd. Sec. 33, Ch. 268, L. 1997.

70-9-804. Contents of safe deposit box or other safekeeping depository. Tangible property held in a safe deposit box or other safekeeping depository in this state in the ordinary course of the holder's business and proceeds resulting from the sale of the property permitted by other law are presumed abandoned if the property remains unclaimed by the owner for more than 5 years after expiration of the lease or rental period on the box or other depository.

History: En. Sec. 4, Ch. 124, L. 1997.

70-9-805. Rules for taking custody. Except as otherwise provided in this part or by other statute of this state, property that is presumed abandoned, whether located in this or another state, is subject to the custody of this state if:

(1) the last-known address of the apparent owner, as shown on the records of the holder, is in this state;

(2) the records of the holder do not reflect the identity of the person entitled to the property and it is established that the last-known address of the person entitled to the property is in this state;

(3) the records of the holder do not reflect the last-known address of the apparent owner and it is established that:

(a) the last-known address of the person entitled to the property is in this state; or

(b) the holder is domiciled in this state or is a government or governmental subdivision, agency, or instrumentality of this state and has not previously paid or delivered the property to the state of the last-known address of the apparent owner or other person entitled to the property;

(4) the last-known address of the apparent owner, as shown on the records of the holder, is in a state that does not provide for the escheat or custodial taking of the property and the holder is domiciled in this state or is a government or governmental subdivision, agency, or instrumentality of this state;

(5) the last-known address of the apparent owner, as shown on the records of the holder, is in a foreign country and the holder is domiciled in this state or is a government or governmental subdivision, agency, or instrumentality of this state;

(6) the transaction out of which the property arose occurred in this state, the holder is domiciled in a state that does not provide for the escheat or custodial taking of the property, and the last-known address of the apparent owner or other person entitled to the property is unknown or is in a state that does not provide for the escheat or custodial taking of the property; or

(7) the property is a traveler's check or money order purchased in this state or the issuer of the traveler's check or money order has its principal place of business in this state and the issuer's records show that the instrument was purchased in a state that does not provide for the

escheat or custodial taking of the property or do not show the state in which the instrument was purchased.

History: En. Sec. 5, Ch. 124, L. 1997.

70-9-806. Dormancy charge. A holder may deduct from property presumed abandoned a charge imposed by reason of the owner's failure to claim the property within a specified time only if there is a valid and enforceable written contract between the holder and the owner under which the holder may impose the charge and the holder regularly imposes the charge, which is not regularly reversed or otherwise canceled. The amount of the deduction is limited to an amount that is not unconscionable.

History: En. Sec. 6, Ch. 124, L. 1997.

70-9-807. Burden of proof as to property evidenced by record of check or draft. A record of the issuance of a check, draft, or similar instrument is prima facie evidence of an obligation. In claiming property from a holder that is also the issuer, the administrator's burden of proof as to the existence and amount of the property and its abandonment is satisfied by showing issuance of the instrument and passage of the requisite period of abandonment. Defenses of payment, satisfaction, discharge, and want of consideration are affirmative defenses that must be established by the holder.

History: En. Sec. 7, Ch. 124, L. 1997.

70-9-808. Report of abandoned property. (1) A holder of property presumed abandoned shall make a report to the administrator concerning the property.

(2) The report must be verified and must contain:

(a) a description of the property;

(b) except with respect to a traveler's check or money order, the name, if known, and last-known address, if any, and the social security number or taxpayer identification number, if readily ascertainable, of the apparent owner of property of the value of $50 or more;

(c) an aggregated amount of items valued under $50 each;

(d) in the case of an amount of $50 or more held or owing under an annuity or a life or endowment insurance policy, the full name and last-known address of the annuitant or insured and of the beneficiary;

(e) in the case of property held in a safe deposit box or other safekeeping depository, an indication of the place where it is held and where it may be inspected by the administrator and any amounts owing to the holder;

(f) the date, if any, on which the property became payable, demandable, or returnable and the date of the last transaction with the apparent owner with respect to the property; and

(g) other information that the administrator by rule prescribes as necessary for the administration of this part.

(3) If a holder of property presumed abandoned is a successor to another person that previously held the property for the apparent owner or the holder has changed its name while holding the property, the holder shall file with the report its former names, if any, and the known names and addresses of all previous holders of the property.

(4) The report must be filed before November 1 of each year and cover the 12 months next preceding July 1 of that year, but a report with respect to a life insurance company must be filed before May 1 of each year for the calendar year next preceding.

(5) The holder of property that is presumed abandoned shall send written notice to the apparent owner, not more than 120 days or less than 60 days before filing the report, stating that the holder is in possession of property subject to this part if:

(a) the holder has in its records an address for the apparent owner that the holder's records do not disclose to be inaccurate;

(b) the claim of the apparent owner is not barred by a statute of limitations; and

(c) the value of the property is $50 or more.

(6) Before the date for filing the report, the holder of property presumed abandoned may request the administrator to extend the time for filing the report. The administrator may grant the extension for good cause. The holder, upon receipt of the extension, may make an interim payment on the amount the holder estimates will ultimately be due, which terminates the accrual of additional interest on the amount paid.

(7) The holder of property presumed abandoned shall file with the report an affidavit stating that the holder has complied with subsection (5).

History: **En. Sec. 8, Ch. 124, L. 1997.**

70-9-809. Payment or delivery of abandoned property. (1) Except for property held in a safe deposit box or other safekeeping depository, upon filing the report required by 70-9-808, the holder of property presumed abandoned shall pay, deliver, or cause to be paid or delivered to the administrator the property described in the report as unclaimed; however, if the property is an automatically renewable deposit and a penalty or forfeiture in the payment of interest would result, the time for compliance is extended until a penalty or forfeiture would no longer result. Tangible property held in a safe deposit box or other safekeeping depository may not be delivered to the administrator until 60 days after filing the report required by 70-9-808.

(2) If the property reported to the administrator is a security or security entitlement under Title 30, chapter 8, the administrator is an appropriate person to make an endorsement, instruction, or entitlement order on behalf of the apparent owner to invoke the duty of the issuer or its transfer agent or the securities intermediary to transfer or dispose of the security or the security entitlement in accordance with Title 30, chapter 8.

(3) If the holder of property reported to the administrator is the issuer of a certificated security, the administrator has the right to obtain a replacement certificate pursuant to 30-8-415, but an indemnity bond is not required.

(4) An issuer, the holder, and any transfer agent or other person acting pursuant to the instructions of and on behalf of the issuer or holder in accordance with this section is not liable to the apparent owner and must be indemnified against claims of any person in accordance with 70-9-811.

History: **En. Sec. 9, Ch. 124, L. 1997.**

70-9-810. Notice and publication of lists of abandoned property. (1) The administrator shall publish a notice not later than November 30 of the year following the year in which abandoned property has been paid or delivered to the administrator. The notice must be published in a newspaper of general circulation in the county of this state in which is located the last-known address of any person named in the notice. If a holder does not report an address for the apparent owner or the address is outside this state, the notice must be published in the county in which the holder has its principal place of business within this state or another county that the administrator reasonably selects. The advertisement must be in a form that, in the judgment of the administrator, is likely to attract the attention of the apparent owner of the unclaimed property. The form must contain:

(a) the name of each person appearing to be the owner of the property, as set forth in the report filed by the holder;

(b) the last-known address or location of each person appearing to be the owner of the property, if an address or location is set forth in the report filed by the holder;

(c) a statement explaining that property of the owner is presumed to be abandoned and has been taken into the protective custody of the administrator; and

(d) a statement that information about the property and its return to the owner is available to a person having a legal or beneficial interest in the property, upon request to the administrator.

(2) The administrator is not required to advertise the name and address or location of an owner of property having a total value less than $50 or information concerning a traveler's check, money order, or similar instrument.

History: **En. Sec. 10, Ch. 124, L. 1997.**

70-9-811. Custody by state — recovery by holder — defense of holder. (1) In this section, payment or delivery is made in "good faith" if:

(a) payment or delivery was made in a reasonable attempt to comply with this part;

(b) the holder was not then in breach of a fiduciary obligation with respect to the property and had a reasonable basis for believing, based on the facts then known, that the property was presumed abandoned; and

(c) there is no showing that the records under which the payment or delivery was made did not meet reasonable commercial standards of practice.

(2) Upon payment or delivery of property to the administrator, the state assumes custody and responsibility for the safekeeping of the property. A holder that pays or delivers property to the administrator in good faith is relieved of all liability arising thereafter with respect to the property.

(3) A holder that has paid money to the administrator pursuant to this part may subsequently make payment to a person reasonably appearing to the holder to be entitled to payment. Upon a filing by the holder of proof of payment and proof that the payee was entitled to the payment, the administrator shall promptly reimburse the holder for the payment without imposing a fee or other charge. If reimbursement is sought for a payment made on a negotiable instrument, including a traveler's check or money order, the holder must be reimbursed upon filing proof that the instrument was duly presented and that payment was made to a person that reasonably appeared to be entitled to payment. The holder must be reimbursed for payment made even if the payment was made to a person whose claim was barred under 70-9-819.

(4) A holder that has delivered property other than money to the administrator pursuant to this part may reclaim the property if it is still in the possession of the administrator, without paying any fee or other charge, upon filing proof that the apparent owner has claimed the property from the holder.

(5) The administrator may accept a holder's affidavit as sufficient proof of the holder's right to recover money and property under this section.

(6) If a holder pays or delivers property to the administrator in good faith and thereafter another person claims the property from the holder or another state claims the money or property under its laws relating to escheat or abandoned or unclaimed property, the administrator, upon written notice of the claim, shall defend the holder against the claim and indemnify the holder against any liability on the claim resulting from payment or delivery of the property to the administrator.

(7) Property removed from a safe deposit box or other safekeeping depository is received by the administrator subject to the holder's right to be reimbursed for the cost of the opening and to any valid lien or contract providing for the holder to be reimbursed for unpaid rent or storage charges. The administrator shall reimburse the holder out of the proceeds remaining after deducting the expense incurred by the administrator in selling the property.

History: En. Sec. 11, Ch. 124, L. 1997.

70-9-812. Public sale of abandoned property. (1) Except as otherwise provided in this section, the administrator, within 3 years after the receipt of abandoned property, shall sell it to the highest bidder at public sale at a location in the state, which in the judgment of the administrator affords the most favorable market for the property. The administrator may decline the highest bid and reoffer the property for sale if the administrator considers the bid to be insufficient. The administrator need not offer the property for sale if the administrator considers that the probable cost of sale will exceed the proceeds of the sale. A sale held under this section must be preceded by a single publication of notice, at least 3 weeks before sale, in a newspaper of general circulation in the county in which the property is to be sold.

(2) Securities listed on an established stock exchange must be sold at prices prevailing on the exchange at the time of sale. Other securities may be sold over the counter at prices prevailing at the time of sale or by any reasonable method selected by the administrator. If securities are sold by the administrator before the expiration of 3 years after their delivery to the administrator, a person making a claim under this part before the end of the 3-year period is entitled to the proceeds of the sale of the securities or the market value of the securities at the time the claim is made, whichever is greater, plus dividends, interest, and other increments up to the time the claim is made, less any deduction for expenses of sale. A person making a claim under this part after the expiration of the 3-year period is entitled to receive the securities delivered to the administrator by the holder, if they still remain in the custody of the administrator, or the net proceeds received from sale and is not entitled to receive any appreciation in the value of the property occurring after delivery to the administrator except in a case of intentional misconduct or malfeasance by the administrator.

(3) A purchaser of property at a sale conducted by the administrator pursuant to this part takes the property free of all claims of the owner or previous holder and of all persons claiming

through or under them. The administrator shall execute all documents necessary to complete the transfer of ownership.

History: **En. Sec. 12, Ch. 124, L. 1997.**

70-9-813. Deposit of funds. (1) Except as otherwise provided by this section, the administrator shall promptly deposit in the general fund of this state all funds received under this part, including the proceeds from the sale of abandoned property under 70-9-812. The administrator shall retain in a separate trust fund at least $100,000 from which the administrator shall pay claims allowed. The administrator shall record the name and last-known address of each person appearing from the holders' reports to be entitled to the property and the name and last-known address of each insured person or annuitant and beneficiary and, with respect to each policy or annuity listed in the report of an insurance company, its number, the name of the company, and the amount due.

(2) Before making a deposit to the credit of the general fund, the administrator may deduct:

(a) expenses of sale of abandoned property;

(b) costs of mailing and publication in connection with abandoned property;

(c) reasonable service charges; and

(d) expenses incurred in examining records of holders of property and in collecting the property from those holders.

History: **En. Sec. 13, Ch. 124, L. 1997.**

70-9-814. Claim of another state to recover property. (1) After property has been paid or delivered to the administrator under this part, another state may recover the property if:

(a) the property was paid or delivered to the custody of this state because the records of the holder did not reflect a last-known location of the apparent owner within the borders of the other state and the other state establishes that the apparent owner or other person entitled to the property was last known to be located within the borders of that state, and under the laws of that state, the property has escheated or become subject to a claim of abandonment by that state;

(b) the property was paid or delivered to the custody of this state because the laws of the other state did not provide for the escheat or custodial taking of the property, and under the laws of that state subsequently enacted, the property has escheated or become subject to a claim of abandonment by that state;

(c) the records of the holder were erroneous in that they did not accurately identify the owner of the property and the last-known location of the owner within the borders of another state, and under the laws of that state, the property has escheated or become subject to a claim of abandonment by that state;

(d) the property was subjected to custody by this state under 70-9-805(6), and under the laws of the state of domicile of the holder, the property has escheated or become subject to a claim of abandonment by that state; or

(e) the property is a sum payable on a traveler's check, money order, or similar instrument that was purchased in the other state and delivered into the custody of this state under 70-9-805(7), and under the laws of the other state, the property has escheated or become subject to a claim of abandonment by that state.

(2) A claim of another state to recover escheated or abandoned property must be presented in a form prescribed by the administrator, who shall decide the claim within 90 days after it is presented. The administrator shall allow the claim upon determining that the other state is entitled to the abandoned property under subsection (1).

(3) The administrator shall require another state, before recovering property under this section, to agree to indemnify this state and its officers and employees against any liability on a claim to the property.

History: **En. Sec. 14, Ch. 124, L. 1997.**

70-9-815. Filing claim with administrator — handling of claims by administrator. (1) A person, excluding another state, claiming property paid or delivered to the administrator may file a claim on a form prescribed by the administrator and verified by the claimant.

(2) Within 90 days after a claim is filed, the administrator shall allow or deny the claim and give written notice of the decision to the claimant. If the claim is denied, the administrator shall inform the claimant of the reasons for the denial and specify what additional evidence is

required before the claim will be allowed. The claimant may then file a new claim with the administrator or maintain an action under 70-9-816.

(3) Within 30 days after a claim is allowed, the property or the net proceeds of a sale of the property must be delivered or paid by the administrator to the claimant, together with any dividend, interest, or other increment to which the claimant is entitled under 70-9-812.

(4) A holder that pays the owner for property that has been delivered to the state and that, if claimed from the administrator by the owner, would be subject to an increment under 70-9-812 may recover from the administrator the amount of the increment.

History: En. Sec. 15, Ch. 124, L. 1997.

70-9-816. Action to establish claim. A person aggrieved by a decision of the administrator or whose claim has not been acted upon within 90 days after its filing may maintain an original action to establish the claim in the district court, naming the administrator as a defendant. If the aggrieved person establishes the claim in an action against the administrator, the court may award the claimant reasonable attorney fees.

History: En. Sec. 16, Ch. 124, L. 1997.

70-9-817. Election to take payment or delivery. (1) The administrator may decline to receive property reported under this part that the administrator considers to have a value less than the expenses of notice and sale.

(2) A holder, with the written consent of the administrator and upon conditions and terms prescribed by the administrator, may report and deliver property before the property is presumed abandoned. Property that is delivered must be held by the administrator and is not presumed abandoned until it otherwise would be presumed abandoned under this part.

History: En. Sec. 17, Ch. 124, L. 1997.

70-9-818. Destruction or disposition of property having no substantial commercial value — immunity from liability. If the administrator determines after investigation that property delivered under this part has no substantial commercial value, the administrator may destroy or otherwise dispose of the property at any time. An action or proceeding may not be maintained against the state or any officer or against the holder for or on account of an act of the administrator under this section except for intentional misconduct or malfeasance.

History: En. Sec. 18, Ch. 124, L. 1997.

70-9-819. Periods of limitation. (1) The expiration, before or after July 1, 1997, of a period of limitation on the owner's right to receive or recover property, whether specified by contract, statute, or court order, does not preclude the property from being presumed abandoned or affect a duty to file a report or to pay or deliver or transfer property to the administrator as required by this part.

(2) An action or proceeding may not be maintained by the administrator to enforce this part in regard to the reporting, delivery, or payment of property more than 10 years after the holder specifically identified the property in a report filed with the administrator or gave express notice to the administrator of a dispute regarding the property. In the absence of such a report or other express notice the period of limitation is tolled. The period of limitation is also tolled by the filing of a report that is fraudulent.

History: En. Sec. 19, Ch. 124, L. 1997.

70-9-820. Requests for reports and examination of records. (1) The administrator may require a person that has not filed a report or a person that the administrator believes has filed an inaccurate, incomplete, or false report to file a verified report in a form specified by the administrator. The report must state whether the person is holding property reportable under this part, describe property not previously reported or as to which the administrator has made inquiry, and specifically identify and state the amounts of property that may be in issue.

(2) The administrator, at reasonable times and upon reasonable notice, may examine the records of any person to determine whether the person has complied with this part. The administrator may conduct the examination even if the person believes it is not in possession of any property that must be reported, paid, or delivered under this part. The administrator may contract with any other person to conduct the examination on behalf of the administrator.

(3) The administrator, at reasonable times, may examine the records of an agent, including a dividend disbursing agent or transfer agent, of a business association or financial organization that is the holder of property presumed abandoned if the administrator has given the notice required by subsection (2) to both the association or organization and the agent at least 90 days before the examination.

(4) Documents and working papers obtained or compiled by the administrator, or the administrator's agents, employees, or designated representatives, in the course of conducting an examination are confidential and are not public records, but the documents and papers may be:

(a) used by the administrator in the course of an action to collect unclaimed property or otherwise enforce this part;

(b) used in joint examinations conducted with or pursuant to an agreement with another state, the federal government, or any other governmental subdivision, agency, or instrumentality;

(c) produced pursuant to subpoena or court order; or

(d) disclosed to the abandoned property office of another state for that state's use in circumstances equivalent to those described in this subsection (4) if the other state is bound to keep the documents and papers confidential.

(5) If an examination of the records of a person results in the disclosure of property reportable under this part, the administrator may assess the cost of the examination against the holder at the rate of $200 a day for each examiner, or a greater amount that is reasonable and was incurred, but the assessment may not exceed the value of the property found to be reportable. The cost of an examination made pursuant to subsection (3) may be assessed only against the business association or financial organization.

(6) If, after July 1, 1997, a holder does not maintain the records required by 70-9-821 and the records of the holder available for the periods subject to this part are insufficient to permit the preparation of a report, the administrator may require the holder to report and pay to the administrator the amount the administrator reasonably estimates, on the basis of any available records of the holder or by any other reasonable method of estimation, should have been but was not reported.

History: En. Sec. 20, Ch. 124, L. 1997.

70-9-821. Retention of records. (1) Except as otherwise provided in subsection (2), a holder required to file a report under 70-9-808 shall maintain the records containing the information required to be included in the report for 10 years after the holder files the report unless a shorter period is provided by rule of the administrator.

(2) A business association or financial organization that sells, issues, or provides to others for sale or issue in this state traveler's checks, money orders, or similar instruments other than third-party bank checks, on which the business association or financial organization is directly liable, shall maintain a record of the instruments while they remain outstanding, indicating the state and date of issue, for 3 years after the holder files the report.

History: En. Sec. 21, Ch. 124, L. 1997.

70-9-822. Enforcement. The administrator may maintain an action in this or another state to enforce this part. The court may award reasonable attorney fees to the prevailing party.

History: En. Sec. 22, Ch. 124, L. 1997.

70-9-823. Interstate agreements and cooperation — joint and reciprocal actions with other states. (1) The administrator may enter into an agreement with another state to exchange information relating to abandoned property or its possible existence. The agreement may permit the other state, or another person acting on behalf of a state, to examine records as authorized in 70-9-820. The administrator by rule may require the reporting of information needed to enable compliance with an agreement made under this section and prescribe the form.

(2) The administrator may join with another state to seek enforcement of this part against any person that is or may be holding property reportable under this part.

(3) At the request of another state, the attorney general of this state may maintain an action on behalf of the other state to enforce, in this state, the unclaimed property laws of the other state against a holder of property subject to escheat or a claim of abandonment by the other state if the

other state has agreed to pay expenses incurred by the attorney general in maintaining the action.

(4) The administrator may request that the attorney general of another state or another attorney commence an action in the other state on behalf of the administrator. With the approval of the attorney general of this state, the administrator may retain any other attorney to commence an action in this state on behalf of the administrator. This state shall pay all expenses, including attorney fees, in maintaining an action under this subsection. With the administrator's approval, the expenses and attorney fees may be paid from money received under this part. The administrator may agree to pay expenses and attorney fees based in whole or in part on a percentage of the value of any property recovered in the action. Any expenses or attorney fees paid under this subsection may not be deducted from the amount that is subject to the claim by the owner under this part.

History: En. Sec. 23, Ch. 124, L. 1997.

70-9-824. Interest and penalties. (1) A holder that fails to report, pay, or deliver property within the time prescribed by this part shall pay to the administrator interest at the annual rate of 12% on the property or value of the property from the date the property should have been reported, paid, or delivered.

(2) Except as otherwise provided in subsection (3), a holder that fails to report, pay, or deliver property within the time prescribed by this part, or fails to perform other duties imposed by this part, shall pay to the administrator, in addition to interest as provided in subsection (1), a civil penalty of $100 for each day the report, payment, or delivery is withheld, or the duty is not performed, up to a maximum of $2,500.

(3) A holder that willfully fails to report, pay, or deliver property within the time prescribed by this part, or willfully fails to perform other duties imposed by this part, shall pay to the administrator, in addition to interest as provided in subsection (1), a civil penalty of $1,000 for each day the report, payment, or delivery is withheld, or the duty is not performed, up to a maximum of $25,000, plus 25% of the value of any property that should have been but was not reported.

(4) A holder that makes a fraudulent report shall pay to the administrator, in addition to interest as provided in subsection (1), a civil penalty of $1,000 for each day from the date a report under this part was due, up to a maximum of $25,000, plus 25% of the value of any property that should have been but was not reported.

(5) The administrator for good cause may waive, in whole or in part, interest under subsection (1) and penalties under subsections (2) and (3) and shall waive penalties if the holder acted in good faith and without negligence.

History: En. Sec. 24, Ch. 124, L. 1997.

70-9-825. Agreement to locate property. (1) An agreement by an owner, the primary purpose of which is to locate, deliver, recover, or assist in the recovery of property that is presumed abandoned, is void and unenforceable if it was entered into during the period commencing on the date the property was presumed abandoned and extending to a time that is 24 months after the date the property is paid or delivered to the administrator. This subsection does not apply to an owner's agreement with an attorney to file a claim as to identified property or contest the administrator's denial of a claim.

(2) An agreement by an owner, the primary purpose of which is to locate, deliver, recover, or assist in the recovery of property, is enforceable only if the agreement is in writing, clearly sets forth the nature of the property and the services to be rendered, is signed by the apparent owner, and states the value of the property before and after the fee or other compensation has been deducted.

(3) If an agreement covered by this section applies to mineral proceeds and the agreement contains a provision to pay compensation that includes a portion of the underlying minerals or any mineral proceeds not then presumed abandoned, the provision is void and unenforceable.

(4) An agreement covered by this section that provides for compensation that is unconscionable is unenforceable except by the owner. An owner who has agreed to pay compensation that is unconscionable, or the administrator on behalf of the owner, may maintain

70-16-111. Entry to property by professional land surveyor or other qualified person — trespass exception — notice — liability. (1) Subject to the conditions and restrictions of this section, the provisions of 45-6-203 do not apply to a person who is licensed or registered under Title 37, chapter 67, part 3, as a professional land surveyor, as defined in 37-67-101, or to a person acting under the direct supervision of a professional land surveyor as an employee, agent, or representative.

(2) A person qualified under subsection (1) may enter public or private land to investigate and use boundary evidence and perform boundary surveys if the notice requirements of subsection (3) are met.

(3) (a) At least 15 days before the desired date of entry to land, a professional land surveyor shall give notice to the owner of the land, by certified mail, return receipt requested. The notice must contain the following information:

(i) the identity of the person for whom the survey is being performed;

(ii) the purpose for which the survey is being performed;

(iii) the name of the employer of the professional land surveyor;

(iv) the identity of the professional land surveyor;

(v) the dates, times, and location of entry to the land, including the estimated number of entries;

(vi) a timetable for completion of the survey, including an estimated completion date; and

(vii) a statement requesting the landowner to provide the surveyor with the name of each person who occupies the land as a tenant or lessee.

(b) A landowner may waive the notice requirement of this subsection (3), either orally or in writing.

(c) This section does not impose liability upon a landowner who fails or refuses to provide the requested entry.

(4) (a) If a landowner does not acknowledge receipt of the notice within 15 days, a person qualified under subsection (1) may enter the land pursuant to the specifications given in the notice.

(b) If a landowner acknowledges receipt of the notice within 15 days, the landowner may modify the access provisions of the notice, as long as the modifications do not unreasonably restrict completion of the survey.

(5) Persons qualified under subsection (1) who enter land pursuant to this section shall carry on their person identification sufficient to identify themselves and their employer or principal and shall present the identification upon request.

(6) Vehicular access to perform surveys is limited to established roads and trails, unless approval for other vehicular access is granted by the landowner.

(7) Approval of the landowner is required for the clearing of trees, brush, or other vegetation.

(8) A landowner may request a person qualified under subsection (1) who enters land pursuant to this section to wash any vehicle prior to entry in order to remove mud and debris that might carry noxious weeds or noxious weed seeds. The person may request that the landowner be present at the time of any entry to inspect the vehicle under the terms of this subsection.

(9) Entry upon land for survey purposes by a person qualified under subsection (1) creates a rebuttable presumption that the landowner or lessee properly protected the person against personal injury or property damage while the person was on the land.

(10) As an act of good will and in order to keep the landowner informed, a professional land surveyor shall supply the landowner with information on located, established, or reestablished corners that lie on the land or that may affect the boundaries of the land. Upon request, the professional land surveyor shall provide the landowner with a copy of any relevant survey filed or recorded.

Each coterminous owner is entitled to the lateral and subjacent support which his land receives from the adjoining land, subject to the right of the owner of the adjoining land to make proper and usual excavations on the same for the purposes of construction, on using ordinary care and skill and taking reasonable precautions to sustain the land of the other and giving previous reasonable notice to the other of his intention to make such excavations.

(a) the boundaries and monuments between them;

(b) the fences between them, unless one of them chooses to let his land lie without fencing, in which case if he afterwards encloses it, he must refund to the other a just proportion of the value, at that time, of any division fence made by the latter. However, using land for grazing or pasturage of any kind whatsoever must be considered a usage of the land, and the land must not be considered as lying idle under the provisions of this section.

(2) Except as provided by prescription, custom, or agreement between coterminous owners, each coterminous owner shall maintain all fencing to the right of the midpoint of the common boundary line as viewed from his land. If the land of one owner is entirely surrounded by the land of another, each owner shall maintain all fencing to the right, as viewed from his land, of the northeastern corner of the surrounded land or, if there is more than one northeastern corner, then from the northernmost northeastern corner to a point midway around the surrounded land. If there is a substantial difference in terrain or topographical features of the land between the coterminous owners, responsibility for maintaining the fence must be determined by mutual agreement with consideration given to factors such as cost and time.

Montana Mold Disclosure Act

Part Compiler's Comments

Effective Date: Section 4, Ch. 584, L. 2003, provided: "[This act] is effective on passage and approval." Approved May 5, 2003.

70-16-701. Short title. This part may be cited as the "Montana Mold Disclosure Act".

History: En. Sec. 1, Ch. 584, L. 2003.

70-16-702. Definitions. As used in this part, the following definitions apply:

(1) "Inhabitable real property" means any real property that includes a building affixed to land. The building must be designed to be primarily occupied by humans, either as a dwelling or as a place of business.

(2) "Mold" means any mold, fungus, mildew, or spores.

(3) "Person" means an individual, partnership, corporation, sole proprietorship, firm, enterprise, franchise, association, consultant, state or municipal agency, political subdivision of the state, or any other entity.

History: En. Sec. 2, Ch. 584, L. 2003.

70-16-703. Mold disclosure statement on real estate documents — disclosure of prior testing — immunity from liability. (1) A mold disclosure statement may be provided on at least one document, form, or application executed prior to or contemporaneously with an offer for the purchase and sale, rental, or lease of inhabitable real property. The seller, landlord, seller's agent, buyer's agent, or property manager may provide the following disclosure statement to the buyer or tenant, and the buyer or tenant shall acknowledge receipt of this disclosure statement by signing a copy of the disclosure statement:

"MOLD DISCLOSURE: There are many types of mold. Inhabitable properties are not, and cannot be, constructed to exclude mold. Moisture is one of the most significant factors contributing to mold growth. Information about controlling mold growth may be available from your county extension agent or health department. Certain strains of mold may cause damage to property and may adversely affect the health of susceptible persons, including allergic reactions that may include skin, eye, nose, and throat irritation. Certain strains of mold may cause infections, particularly in individuals with suppressed immune systems. Some experts contend that certain strains of mold may cause serious and even life-threatening diseases. However, experts do not agree about the nature and extent of the health problems caused by mold or about the level of mold exposure that may cause health problems. The Centers for Disease Control and Prevention is studying the link between mold and serious health conditions. The seller, landlord, seller's agent, buyer's agent, or property manager cannot and does not represent or warrant the absence of mold. It is the buyer's or tenant's obligation to determine whether a mold problem is present. To do so, the buyer or tenant should hire a qualified inspector and make any contract to purchase, rent, or lease contingent upon the results of that inspection. A seller, landlord, seller's agent, buyer's agent, or property manager who provides this mold disclosure statement, provides for the disclosure of any prior testing and any subsequent mitigation or treatment for mold, and discloses any knowledge of mold is not liable in any action based on the presence of or propensity for mold in a building that is subject to any contract to purchase, rent, or lease."

(2) Whenever a seller or landlord or an agent of either has knowledge that a building has mold present, the seller, landlord, or agent of either shall, prior to or upon entry into a contract for the purchase, rent, or lease, disclose to the buyer or renter the presence of the mold. Whenever a seller or landlord knows that a building has been tested for mold, the seller or landlord, prior to or upon entry into a contract for the purchase, rent, or lease of that building, shall advise the buyer or tenant that testing has occurred and shall provide to the buyer or tenant a copy of the results of that test, if available to the seller or landlord, and evidence of any subsequent mitigation or treatment. A prospective buyer or tenant who contracts for the testing may receive the results of that testing and shall provide a copy of the results of that test, if available, to the seller or landlord. The furnishing of test results and evidence of mitigation or treatment is not to be construed as a promise, warranty, or representation of any sort by the seller, landlord, seller's agent, buyer's agent, or property manager that the test results are accurate or that the mitigation or treatment is effective. This section does not create a contingency on the purchase of the property or any right to rescind a contract for purchase unless the contingency or right to rescind is an express term of the applicable contract.

(3) A seller, landlord, seller's agent, buyer's agent, or property manager who provides the disclosure in subsection (1) and complies with subsection (2) is not liable in any action based on the presence of or propensity for mold in the building.

70-18-201. Alluvion or accretion — increase of bank. Where from natural causes land forms by imperceptible degrees upon the bank of a river or stream, navigable or not navigable, either by accumulation of material or by the recession of the stream, such land belongs to the owner of the bank, subject to any existing right-of-way over the bank.

History: En. Sec. 1401, Civ. C. 1895; re-en. Sec. 4573, Rev. C. 1907; re-en. Sec. 6820, R.C.M. 1921; Cal. Civ. C. Sec. 1014; Field Civ. C. Sec. 443; re-en. Sec. 6820, R.C.M. 1935; R.C.M. 1947, 67-1302.

70-18-202. Sudden removal of bank — right of owner to reclaim. If a river or stream, navigable or not navigable, carries away by sudden violence a considerable and distinguishable part of a bank and bears it to the opposite bank or to another part of the same bank, the owner of the part carried away may reclaim it within a year after the owner of the land to which it has been united takes possession thereof.

An island or accumulation of land formed in a stream which is not navigable belongs to the owner of the shore on that side where the island or accumulation is formed or, if not formed on one side only, to the owners of the shore on the two sides, divided by an imaginary line drawn through the middle of the river.

70-19-405. Title by prescription. Except as provided in 23-2-322, occupancy for the period prescribed by this chapter as sufficient to bar an action for the recovery of the property confers a title thereto, denominated a title by prescription, which is sufficient against all.

70-19-407. Occupancy under claim founded on instrument or judgment — when considered adverse. When it appears that the occupant or those under whom he claims entered into the possession of the property under claim of title, exclusive of other right, founding such claim upon a written instrument as being a conveyance of the property in question or upon the decree or judgment of a competent court and that there has been a continued occupation and possession of the property included in such instrument, decree, or judgment or of some part of the property under such claim for 5 years, the property so included is deemed to have been held adversely, except that when it consists of a tract divided into lots, the possession of one lot is not deemed a possession of any other lot of the same tract.

70-19-408. Claim founded on instrument or judgment — what considered possession and occupation. (1) For the purpose of constituting an adverse possession by any person claiming a title founded upon a written instrument or a judgment or decree, land is deemed to have been possessed and occupied in the following cases:

(a) where it has been usually cultivated or improved;

(b) where it has been protected by a substantial enclosure;

(c) where although not enclosed it has been used for the supply of fuel or of fencing timber, either for the purpose of husbandry or for pasturage or for the ordinary use of the occupant.

(2) Where a known farm or a single lot has been partly improved, the portion of such farm or lot that has been left not cleared or not enclosed, according to the usual course and custom of the

adjoining country, shall be deemed to have been occupied for the same length of time as the part improved and cultivated.

70-19-409. Actual occupancy under claim of title not founded on instrument or judgment — adverse. Where it appears that there has been an actual continued occupation of land under a claim of title, exclusive of any other right, but not founded upon a written instrument, judgment, or decree, the land so actually occupied and no other is deemed to have been held adversely.

(1) where it has been protected by a substantial enclosure;

(2) where it has been usually cultivated or improved.

70-19-411. Occupancy and payment of taxes necessary to prove adverse possession. In no case shall adverse possessions be considered established under this code unless it shall be shown that the land has been occupied and claimed for a period of 5 years continuously and the party or persons, their predecessors, and grantors have during such period paid all the taxes, state, county, or municipal, which have been legally levied and assessed upon said land.

70-19-412. Relation of landlord and tenant as affecting adverse possession. When the relation of landlord and tenant has existed between any persons, the possession of the tenant is deemed the possession of the landlord until the expiration of 5 years from the termination of the tenancy or, where there has been no written lease, until the expiration of 5 years from the time of the last payment of rent, notwithstanding such tenant may have acquired another title or may have claimed to hold adversely to his landlord. 70-19-427. Residential construction disputes — notice and opportunity to repair — tolling of statute of limitations — presumption of compliance with construction standards. (1) Prior to commencing an action against a construction professional for a construction defect, the claimant shall serve written notice of claim on the construction professional. The notice of claim must state that the claimant asserts a construction defect claim against the construction professional and must describe the claim in reasonable detail sufficient to determine the general nature of the defect. If a written notice of claim is served under this section within the time prescribed for the filing of an action under 27-2-208, the statute of limitations for construction defect claims is tolled.

(2) Within 21 days after service of the notice of claim, the construction professional shall serve a written response on the claimant. The written response must:

(a) propose to inspect the residence that is the subject of the claim and to complete the inspection within a specified timeframe. The proposal must include the statement that the construction professional shall, based on the inspection, offer to remedy the defect, compromise by payment, or dispute the claim;

(b) offer to compromise and settle the claim by monetary payment without inspection; or

(c) state that the construction professional disputes the claim and will neither remedy the construction defect nor compromise and settle the claim.

(3) (a) If the construction professional disputes the claim or does not respond to the claimant's notice of claim within the time stated in subsection (2), the claimant may bring an action against the construction professional for the claim described in the notice of claim without further notice.

(b) If the claimant rejects the inspection proposal or the settlement offer made by the construction professional pursuant to subsection (2), the claimant shall serve written notice of the claimant's rejection on the construction professional. After service of the notice of rejection, the claimant may bring an action against the construction professional for the construction defect claim described in the notice of claim. If the construction professional has not received from the claimant, within 30 days after the claimant's receipt of the construction professional's response, either an acceptance or rejection of the inspection proposal or settlement offer, then at any time after that date the construction professional may terminate the proposal or offer by serving written notice on the claimant. The claimant may, after service, bring an action against the construction professional for the construction defect claim described in the notice of claim.

(4) (a) If the claimant elects to allow the construction professional to inspect in accordance with the construction professional's proposal pursuant to subsection (2)(a), the claimant shall provide the construction professional and its contractors or other agents reasonable access to the claimant's residence, as agreed by the parties, to inspect the premises and the claimed defect.

(b) Within 14 days following completion of the inspection, the construction professional shall serve on the claimant:

(i) a written offer to remedy the construction defect at no cost to the claimant, including a report of the scope of the inspection, the findings and results of the inspection, a description of the additional construction necessary to remedy the defect described in the claim, and a timetable for the completion of the construction;

(ii) a written offer to compromise and settle the claim by monetary payment pursuant to subsection (2)(b);

(iii) a written offer to remedy the claim through a combination of repair and monetary payment pursuant to subsection (2)(b); or

(iv) a written statement setting forth the reasons why the construction professional will not proceed further to remedy the alleged defect.

(c) If the construction professional does not proceed further to remedy the alleged construction defect within the agreed-upon time or if the construction professional fails to comply with the provisions of subsection (4)(b), the claimant may bring an action against the construction professional for the claim described in the notice of claim without further notice.

(d) If the claimant rejects the offer made by the construction professional pursuant to subsection (4)(b)(i) or (4)(b)(ii) to either remedy the construction defect or to compromise and settle the claim by monetary payment, the claimant shall serve written notice of the claimant's rejection on the construction professional. After service of the rejection notice, the claimant may bring an action against the construction professional for the construction defect claim described in the notice of claim. If the construction professional has not received from the claimant, within 30 days after the claimant's receipt of the construction professional's response, either an acceptance or rejection of the offer made pursuant to subsection (4)(b)(i) or (4)(b)(ii), then at any time after that date the construction professional may terminate the offer by serving written notice on the claimant.

(5) (a) Any claimant accepting the offer of a construction professional to remedy the construction defect pursuant to subsection (4)(b)(i) or (4)(b)(iii) shall do so by serving the construction professional with a written notice of acceptance within 30 days after receipt of the offer. The claimant shall provide the construction professional and its contractors or other agents reasonable access to the claimant's residence during normal working hours to perform and complete the construction according to the timetable stated in the offer.

(b) The claimant and construction professional may, by written mutual agreement, alter the extent of construction or the timetable for completion of construction stated in the offer, including but not limited to repair of additional defects.

(6) Subsequently discovered claims of construction defects must be administered separately under 70-19-428 and this section, unless otherwise agreed to by the parties.

(7) This section may not be construed to prevent a claimant from commencing an action on the construction defect claim described in the notice of claim if the construction professional fails to perform the construction agreed upon, fails to remedy the defect, or fails to perform within the time agreed upon pursuant to subsection (4)(b) or (5)(b).

(8) This section may not be enforced unless the homeowner has been given written notice of the requirements of 70-19-426, 70-19-428, and this section.

70-20-201. Rules for construing description. The following are the rules for construing the descriptive part of a conveyance of real property when the construction is doubtful and there are no other sufficient circumstances to determine it:

(1) Where there are certain definite and ascertained particulars in the description, the addition of others which are indefinite, unknown, or false does not frustrate the conveyance, but it is to be construed by the first mentioned particulars.

(2) When permanent and visible or ascertained boundaries or monuments are inconsistent with the measurement, either of lines, angles, or surfaces, the boundaries or monuments are paramount.

(3) Between different measurements which are inconsistent with each other, that of angles is paramount to that of surfaces and that of lines paramount to both.

(4) When a road or stream of water not navigable is the boundary, the rights of the grantor to the middle of the road or the thread of the stream are included in the conveyance, except where the road or thread of the stream is held under another title.

(5) When a navigable lake, where there is no tide, is the boundary, the rights of the grantor to low watermark are included in the conveyance.

(6) When the description refers to a map and that reference is inconsistent with other particulars, it controls them if it appears that the parties acted with reference to the map; otherwise, the map is subordinate to other definite and ascertained particulars.

70-20-202. Extrinsic evidence not to be considered in construction of deed — exceptions. (1) When the terms of an agreement have been reduced to writing by the parties, it is to be considered as containing all those terms, and therefore there can be between the parties and their representatives or successors in interest no evidence of the terms of the agreement other than the contents of the writing except in the following cases:

(a) where a mistake or imperfection of the writing is put in issue by the pleadings;

(b) where the validity of the agreement is the fact in dispute.

(2) But this section does not exclude other evidence of the circumstances under which the agreement was made or to which it relates, as defined in 1-4-102, or to explain an extrinsic ambiguity or to establish illegality or fraud.

(3) The term "agreement" includes deeds and wills as well as contracts between parties.

Every grant of an estate in real property is conclusive against the grantor, also against every one subsequently claiming under him, except a purchaser or encumbrancer who in good faith and for a valuable consideration acquires a title or lien by an instrument that is first duly recorded.

(1) From the use of the word "grant" in any conveyance by which an estate of inheritance or fee simple or possessory title is to be passed, the following covenants and none other on the part of the grantor for himself and his heirs to the grantee, his heirs, and assigns are implied unless restrained by express terms contained in such conveyance:

(a) that previous to the time of the execution of such conveyance the grantor has not conveyed the same estate or any right, title, or interest therein to any person other than the grantee;

(b) that such estate is at the time of the execution of such conveyance free from encumbrances done, made, or suffered by the grantor or any person claiming under him.

(2) Such covenants may be sued upon in the same manner as if they had been expressly inserted in the conveyance.

(1) Any deed, mortgage, or assignment of mortgage which was, previous to July 1, 1931, copied into the proper book kept in the office of the county clerk and recorder shall be deemed to impart, after July 1, 1931, notice of its contents to subsequent purchasers and encumbrancers notwithstanding the omission therefrom of the post-office address of the grantee, mortgagee, or assignee of the mortgagee, as the case may be; and all such instruments recorded before July 1, 1931, which do not contain the post-office address of the grantee, mortgagee, or assignee of the mortgagee, as the case may be, shall be valid and shall have the same force and effect as though the post-office address of such grantee, mortgagee, or assignee of the mortgagee were contained therein; but nothing herein shall be deemed to affect the rights of purchasers or encumbrancers previous to July 1, 1931.

History: En. Sec. 1, Ch. 202, L. 1963; R.C.M. 1947, 67-2001.

70-22-102. Purpose. It is the purpose of this part to protect and perpetuate public land survey corners and information concerning the location of such corners by requiring the systematic establishment of monuments and recording of information concerning the marking of the location of such public land survey corners and to allow the systematic location of other property corners thereby providing for property security and a coherent system of property location and identification of ownerships and thereby eliminating the repeated necessity for reestablishment and relocations of such corners where once they are established and located.
History: En. Sec. 2, Ch. 202, L. 1963; R.C.M. 1947, 67-2002.

70-22-103. Definitions. Except when the context indicates a different meaning, terms used in this part must be defined as follows:

(1) An "accessory to a corner" means any exclusively identifiable physical object whose spatial relationship to the corner is recorded. Accessories may be bearing trees, bearing objects, monuments, reference monuments, line trees, pits, mounds, charcoal-filled bottles, steel or wooden stakes, or other objects.

(2) The "board" means the board of professional engineers and professional land surveyors provided for in 2-15-1763.

(3) A "corner", unless otherwise qualified, means a property corner or a property controlling corner or a public land survey corner or any combination of these.

(4) A "monument" means an accessory that is presumed to occupy the exact position of a corner.

(5) A "property controlling corner" for a property means a public land survey corner or any property corner that does not lie on a property line of the property in question but that controls the location of one or more of the property corners of the property in question.

(6) A "property corner" means a geographic point on the surface of the earth and is on, is a part of, and controls a property line.

(7) A "public land survey corner" means any corner actually established and monumented in an original survey or resurvey used as a basis of legal description for issuing a patent for the land to a private person from the United States government.

History: En. Sec. 8, Ch. 202, L. 1963; R.C.M. 1947, 67-2008.

Part 2
Montana Coordinate System

70-22-201. Coordinate systems adopted — designation — division of state into zones. (1) The North American datum systems of plane coordinates that have been established by the national ocean survey/national geodetic survey (formerly the United States coast and geodetic survey) or a successor for defining and stating the positions or locations of points on the surface of the earth within the state of Montana are hereafter to be known and designated as the "Montana coordinate system NAD 27" and the "Montana coordinate system NAD 83".

(2) For the purpose of the use of the Montana coordinate system NAD 27, the state is divided into a north zone and a central zone and a south zone as provided in subsections (3) through (5).

(3) The area now included in the following counties shall constitute the north zone: Blaine, Chouteau, Daniels, Flathead, Glacier, Hill, Liberty, Lincoln, Phillips, Pondera, Roosevelt, Sheridan, Teton, Toole, and Valley.

(4) The area now included in the following counties shall constitute the central zone: Cascade, Dawson, Fergus, Garfield, Judith Basin, Lake, Lewis and Clark, McCone, Meagher, Mineral, Missoula, Petroleum, Powell, Prairie, Richland, Sanders, and Wibaux.

(5) The area now included in the following counties shall constitute the south zone: Beaverhead, Big Horn, Broadwater, Carbon, Carter, Custer, Deer Lodge, Fallon, Gallatin, Golden Valley, Granite, Jefferson, Madison, Musselshell, Park, Powder River, Ravalli, Rosebud, Silver Bow, Stillwater, Sweet Grass, Treasure, Wheatland, and Yellowstone.

(6) For the purpose of the use of the Montana coordinate system NAD 83, the state is a single zone.

History: En. Sec. 1, Ch. 232, L. 1965; amd. Sec. 1, Ch. 73, L. 1975; R.C.M. 1947, 67-2011; amd. Sec. 1, Ch. 137, L. 1987.

70-22-202. Designation of system by zone. (1) As established for use in the north zone, the Montana coordinate system NAD 27 shall be named and in any land description in which it is used it shall be designated the "Montana coordinate system NAD 27, north zone".

(2) As established for use in the central zone, the Montana coordinate system NAD 27 shall be named and in any land description in which it is used it shall be designated the "Montana coordinate system NAD 27, central zone".

(3) As established for use in the south zone, the Montana coordinate system NAD 27 shall be named and in any land description in which it is used it shall be designated the "Montana coordinate system NAD 27, south zone".

History: En. Sec. 2, Ch. 232, L. 1965; R.C.M. 1947, 67-2012; amd. Sec. 2, Ch. 137, L. 1987.

70-22-203. Use of x- and y-coordinates. (1) For the Montana coordinate system NAD 27, the plane coordinate values for a point on the earth's surface used to express the geographic position or location of such point in the appropriate zone of this system shall consist of two distances expressed in terms of a United States survey foot and decimals of a foot.

(2) For the Montana coordinate system NAD 83, the plane coordinate values for a point on the earth's surface used to express the geographic position or location of such point in the zone shall consist of two distances expressed in either meters and decimals of a meter or in feet and decimals of a foot. The international conversion value (1 foot equals 0.3048 meters exactly) shall be used. The unit of measure shall be clearly stated when the coordinate values are expressed.

(3) One of the distances used to express a position or location, to be known as the "x-coordinate", shall give the position in an east-and-west direction; the other, to be known as the "y-coordinate", shall give the position in a north-and-south direction. These coordinates shall be made to depend upon and conform to plane rectangular coordinate values for the monumented points of the North American horizontal geodetic control network as published by the national ocean survey/national geodetic survey or its successors and whose plane coordinates have been computed on the systems designated by this part. Any such station may be used for establishing a survey connection to either Montana coordinate system.

History: En. Sec. 3, Ch. 232, L. 1965; R.C.M. 1947, 67-2013; amd. Sec. 3, Ch. 137, L. 1987.

70-22-204. Description of location. (1) For the purposes of describing the location of any survey station in Montana, it is considered a complete, legal, and satisfactory description of such location to give the position of the survey station on the system of plane coordinates designated in this part.

(2) When any tract of land to be defined by a single description extends from one into another of the NAD 27 coordinate zones, the positions of all points on its boundaries may be referred to either of such zones, the zone which is used being specifically named in the description.

History: **En. Sec. 4, Ch. 232, L. 1965; R.C.M. 1947, 67-2014; amd. Sec. 4, Ch. 137, L. 1987.**

70-22-205. Technical description of zones. For purposes of more precisely defining the Montana coordinate systems NAD 27 and NAD 83, the following description by the national ocean survey/national geodetic survey (formerly the United States coast and geodetic survey) is adopted:

(1) The Montana coordinate system NAD 27, north zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 47° 51' and 48° 43', along which parallels the scale shall be exact. The origin of coordinates is at the intersection of the meridian 109° 30' west of Greenwich and the parallel 47° 00' north latitude. This origin is given the coordinates: x = 2,000,000 feet and y = 0 feet.

(2) The Montana coordinate system NAD 27, central zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 46° 27' and 47° 53', along which parallels the scale shall be exact. The origin of coordinates is at the intersection of the meridian 109° 30' west of Greenwich and the parallel 45° 50 north latitude. This origin is given the coordinates: x = 2,000,000 feet and y = 0 feet.

(3) The Montana coordinate system NAD 27, south zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 44° 52' and 46° 24', along which parallels the scale shall be exact. The origin of coordinates is at the intersection of the meridian 109° 30' west of Greenwich and the parallel 44° 00' north latitude. This origin is given the coordinates: x = 2,000,000 feet and y = 0 feet.

(4) The Montana coordinate system NAD 83 is a Lambert conformal conic projection of the GRS 80 (Geodetic Reference System 1980) ellipsoid, having standard parallels of north latitudes 45° 00' and 49° 00', along which parallels the scale shall be exact. The origin of coordinates is at the intersection of the meridian 109° 30' west of Greenwich and the parallel 44° 15' north latitude. This origin is given the coordinates: x = 600,000 meters and y = 0 meters.

History: **En. Sec. 5, Ch. 232, L. 1965; amd. Sec. 2, Ch. 73, L. 1975; R.C.M. 1947, 67-2015; amd. Sec. 5, Ch. 137, L. 1987.**

70-22-206. Conformity to standards required for use of coordinates in recorded instrument. Coordinates based on the Montana coordinate system NAD 83 purporting to define the position of a point on a land boundary may not be presented to be recorded in any public land records or deed records unless the coordinates have been tied to or originated from monumented first-order or higher accuracy horizontal control points that are adjusted to and published as part of the national spatial reference system. Public land or deed records presented for recording that purport to define the position of a point on a land boundary based on coordinates from the Montana coordinate system NAD 83 must contain a statement that identifies the first-order or higher accuracy control stations used in the survey, the specific NAD 83 datum adjustment tag of the coordinates used, and the type of equipment and methods used to perform the survey.

History: **En. Sec. 6, Ch. 232, L. 1965; R.C.M. 1947, 67-2016; amd. Sec. 6, Ch. 137, L. 1987; amd. Sec. 1, Ch. 494, L. 2001.**

70-22-207. Use of term Montana coordinate system limited. The use of the term "Montana coordinate system NAD 27 north, central, or south zone" or "Montana coordinate system NAD 83" on any map, report of survey, or other document shall be limited to coordinates based on the Montana coordinate systems as defined in this part.

History: **En. Sec. 7, Ch. 232, L. 1965; R.C.M. 1947, 67-2017; amd. Sec. 7, Ch. 137, L. 1987.**

70-22-208. Public land survey description to prevail. Whenever coordinates based on the Montana coordinate system are used to describe any tract of land which in the same document is also described by reference to any subdivision, line, or corner of the United States public land surveys, the description by coordinates shall be construed as supplemental to the basic description of such subdivision, line, or corner contained in the official plats and field notes filed of record.

History: En. Sec. 8, Ch. 232, L. 1965; R.C.M. 1947, 67-2018; amd. Sec. 8, Ch. 137, L. 1987.

70-22-209. Purchaser or mortgagee not required to rely on description using systems. Nothing contained in this part shall require any purchaser or mortgagee to rely on a description, any part of which depends exclusively upon the Montana coordinate systems.

History: En. Sec. 9, Ch. 232, L. 1965; R.C.M. 1947, 67-2019; amd. Sec. 9, Ch. 137, L. 1987.

70-22-210. Limit on use of Montana coordinate system NAD 27. The Montana coordinate system NAD 27 north, central, and south zone may not be used after July 1, 1993; the Montana coordinate system NAD 83 is the sole system to be used after this date.

History: En. Sec. 10, Ch. 137, L. 1987.

70-24-103. General definitions. Subject to additional definitions contained in subsequent sections and unless the context otherwise requires, in this chapter the following definitions apply:

(1) "Action" includes recoupment, counterclaim, setoff suit in equity, and any other proceeding in which rights are determined, including an action for possession.

(2) "Case of emergency" means an extraordinary occurrence beyond the tenant's control requiring immediate action to protect the premises or the tenant. Dwelling unit, in the case of a person who rents space in a mobile home park but does not rent the mobile home, means the space rented and not the mobile home itself.

(5) "Good faith" means honesty in fact in the conduct of the transaction concerned.

(6) "Landlord" means:

(15) "Roomer" means a person occupying a dwelling unit that does not include a toilet, a bathtub or a shower, a refrigerator, a stove, or a kitchen sink, all of which are provided by the landlord and one or more of which are used in common by occupants in the structure.

(16) "Single-family residence" means a structure maintained and used as a single dwelling unit. Notwithstanding that a dwelling unit shares one or more walls with another dwelling unit, it is a single-family residence if it has direct access to a street or thoroughfare and shares neither heating facilities, hot water equipment, nor any other essential facility or service with another dwelling unit.

(17) "Tenant" means a person entitled under a rental agreement to occupy a dwelling unit to the exclusion of others.

70-24-305. Transfer of premises by tenant. (1) A tenant who vacates a dwelling unit during the term of a tenancy may not allow the possession of the property to be transferred to a third person or sublet the property unless the landlord or the landlord's agent has consented in writing.

(2) The sale or rental of a mobile home located upon a rental lot does not entitle the purchaser or renter to retain rental of the lot unless the purchaser or renter enters into a rental agreement with the owner of the lot.

(3) A mobile home owner who owns the mobile home but rents the lot space has the exclusive right to sell the mobile home without interference or conditions by the landlord. The new purchaser shall make suitable arrangements with the landlord in order to become a tenant on the mobile home lot. The purchase of the mobile home does not automatically entitle the purchaser to rent the mobile home lot.

70-24-311. Landlord authorized to adopt rules. (1) A landlord may adopt a rule concerning the tenant's use and occupancy of the premises. A rule is enforceable against the tenant only if:

(a) its purpose is to promote the convenience, safety, or welfare of the occupants in the premises, preserve the landlord's property from abusive use, or make a fair distribution of services and facilities held out for the tenants generally;

(b) it is reasonably related to the purpose for which it is adopted;

(c) it applies to all occupants in the premises in a fair manner;

(d) it is sufficiently explicit in its prohibition, direction, or limitation of the tenant's conduct to fairly inform the tenant of what the tenant must or must not do to comply;

(e) it is not for the purpose of evading the obligations of the landlord; and

(f) the tenant has notice of it at the time that the tenant enters into the rental agreement or when it is adopted.

(2) A rule adopted by a landlord must be in writing and must be given to each tenant residing on the premises and to each new tenant upon arrival.

(3) If a rule is adopted after a tenant enters into a rental agreement that works a substantial modification of the tenant's bargain, it is not valid until 7 days after written notice to the tenant in the case of a week to week tenancy or 30 days' written notice in the case of tenancies from month to month.

70-24-312. Access to premises by landlord. (1) A tenant may not unreasonably withhold consent to the landlord or the landlord's agent to enter into the dwelling unit in order to inspect the premises, make necessary or agreed repairs, decorations, alterations, or improvements, supply necessary or agreed services, or exhibit the dwelling unit to prospective or actual purchasers, mortgagees, tenants, workmen, or contractors.

(2) A landlord may enter the dwelling unit without consent of the tenant in case of emergency.

(3) A landlord may not abuse the right of access or use it to harass the tenant. Except in case of emergency or unless it is impracticable to do so, the landlord shall give the tenant at least 24 hours' notice of the intent to enter and may enter only at reasonable times.

(4) A landlord has no other right of access except:
(a) pursuant to court order;
(b) as permitted by 70-24-425 and 70-24-426(2); or
(c) when the tenant has abandoned or surrendered the premises.

(5) A tenant may not remove a lock or replace or add a lock not supplied by the landlord to the premises without the written permission of the landlord. If a tenant removes a lock or replaces or adds a lock not supplied by the landlord to the premises, the tenant shall provide the landlord with a key to ensure that the landlord will have the right of access as provided by this chapter.

70-24-313. Mobile home parks — park rules. (1) A mobile home park landlord may adopt a rule concerning the rental occupancy of a mobile home space and the use of common areas and facilities in accordance with 70-24-311. A rule may not be unreasonable, and a rule that does not apply uniformly to all mobile home residents of a similar class creates a rebuttable presumption, as defined in 70-24-431, that the rule is unfair.

(2) Each common area facility must be open or available to residents at all reasonable hours, and the hours of a common recreational facility must be posted at the facility.

(c) dispose from the dwelling unit all ashes, garbage, rubbish, and other waste in a clean and safe manner;

(d) keep all plumbing fixtures in the dwelling unit or used by the tenant as clean as their condition permits;

(e) use in a reasonable manner all electrical, plumbing, sanitary, heating, ventilating, air-conditioning, and other facilities and appliances, including elevators, in the premises;

(f) conduct oneself and require other persons on the premises with the tenant's consent to conduct themselves in a manner, that will not disturb the tenant's neighbors' peaceful enjoyment of the premises; and

(g) use the parts of the premises, including the living room, bedroom, kitchen, bathroom, and dining room, in a reasonable manner, considering the purposes for which they were designed and intended. This section does not preclude the right of the tenant to operate a limited business or cottage industry on the premises, subject to state and local laws, if the landlord has consented in writing. The landlord may not unreasonably withhold consent if the limited business or cottage industry is operated within reasonable rules of the landlord.

(2) A tenant may not destroy, deface, damage, impair, or remove any part of the premises or permit any person to do so.

(3) A tenant may not engage or knowingly allow any person to engage in any activity on the premises that creates a reasonable potential that the premises may be damaged or destroyed or that neighboring tenants may be injured by any of the following:

(a) criminal production or manufacture of dangerous drugs, as prohibited by 45-9-110;

(b) operation of an unlawful clandestine laboratory, as prohibited by 45-9-132; or

(c) gang-related activities, as prohibited by Title 45, chapter 8, part 4.

Part 4
Remedies

70-24-401. Administration of remedies — enforcement. (1) The remedies provided by this chapter must be administered so that an aggrieved party may recover appropriate damages. The aggrieved party has a duty to mitigate damages.

(2) A right or obligation declared by this chapter is enforceable by action unless the provision declaring it specifies a different and limited effect.

(3) Rules and regulations that are not a part of this chapter and that affect the relationship between the landlord and tenant must be uniformly and fairly applied and enforced.

History: En. 42-405 by Sec. 5, Ch. 313, L. 1977; R.C.M. 1947, 42-405; amd. Sec. 7, Ch. 222, L. 1993.

70-24-402. Settlement of disputed claim or right. A claim or right arising under this chapter or on a rental agreement, if disputed in good faith, may be settled by agreement.

History: En. 42-406 by Sec. 6, Ch. 313, L. 1977; R.C.M. 1947, 42-406.

70-24-403. Prohibited provision in rental agreement — unenforceability — damages. (1) A provision prohibited by 70-24-202 included in a rental agreement is unenforceable.

(2) If a party purposefully uses a rental agreement containing provisions known by him to be prohibited, the other party may recover, in addition to his actual damages, an amount up to 3 months' periodic rent.

History: En. 42-415 by Sec. 15, Ch. 313, L. 1977; R.C.M. 1947, 42-415(2).

70-24-404. Unconscionability — court discretion to refuse enforcement. (1) If the court, as a matter of law, finds that:

(a) a rental agreement or any provision thereof is unconscionable, the court may refuse to enforce the agreement or enforce the remainder of the agreement without the unconscionable provision to avoid an unconscionable result; or

(b) a settlement in which a party waives or agrees to forego a claim or right under this chapter or under a rental agreement is unconscionable, the court may refuse to enforce the settlement, enforce the remainder of the settlement without the unconscionable provision, or limit the application of any unconscionable provision to avoid an unconscionable result.

(2) If unconscionability is put into issue by a party or by the court upon its own motion, the parties shall be afforded a reasonable opportunity to present evidence as to the setting, purpose, and effect of the rental agreement or settlement to aid the court in making the determination.

70-24-405. Failure of landlord to deliver possession — tenant's remedies. (1) If the landlord fails to deliver possession of the dwelling unit to the tenant as provided in 70-24-302, rent abates until possession is delivered and the tenant may:

(a) terminate the rental agreement upon at least 5 days' written notice to the landlord and, upon termination, the landlord shall return all prepaid rent and security; or

(b) demand performance of the rental agreement by the landlord and, if the tenant elects, maintain an action for possession of the dwelling unit against the landlord or a person wrongfully in possession and recover the actual damages sustained by him.

(2) If a person's failure to deliver possession is purposeful and not in good faith, an aggrieved party may recover from that person an amount not more than 3 months' periodic rent or treble damages, whichever is greater.

History: **En. 42-427 by Sec. 27, Ch. 313, L. 1977; R.C.M. 1947, 42-427.**

70-24-406. Failure of landlord to maintain premises — tenant's remedies. (1) Except as provided in this chapter, if there is a noncompliance with 70-24-303 affecting health and safety, the tenant may:

(a) deliver a written notice to the landlord specifying the acts and omissions constituting the breach and that the rental agreement will terminate upon a date not less than 30 days after receipt of the notice if the breach is not remedied in 14 days. If the noncompliance results in a case of emergency and the landlord fails to remedy the situation within 3 working days after written notice by the tenant of the situation and the tenant's intention to terminate the rental agreement, the tenant may terminate the rental agreement. The rental agreement terminates as provided in the notice subject to the following exceptions:

(i) if the breach is remediable by repairs, the payment of damages, or otherwise and the landlord adequately remedies the breach before the date specified in the notice, the rental agreement does not terminate by reason of the breach;

(ii) if substantially the same act or omission which constituted a prior noncompliance of which notice was given recurs within 6 months, the tenant may terminate the rental agreement upon at least 14 days' written notice specifying the breach and the date of termination of the rental agreement;

(iii) the tenant may not terminate for a condition caused by the tenant, a member of the tenant's family, or other persons on the premises with the tenant's consent.

(b) make repairs that do not cost more than 1 month's rent and deduct the cost from the rent if the tenant has given the landlord notice and the landlord has not made the repairs within a reasonable time. If the repair is required in a case of emergency and the landlord has not made the repairs, the tenant may have repairs made only by a person qualified to make the repairs.

(2) Except as provided in this chapter, the tenant may recover actual damages and obtain injunctive relief for any noncompliance by the landlord with the rental agreement or 70-24-303.

(3) The remedy provided in subsection (2) of this section is in addition to a right of the tenant arising under subsection (1).

(4) If the rental agreement is terminated, the landlord shall return all security recoverable by the tenant pursuant to chapter 25 of this title.

History: **En. 42-426 by Sec. 26, Ch. 313, L. 1977; R.C.M. 1947, 42-426; amd. Sec. 8, Ch. 222, L. 1993.**

70-24-407. Damages for minor violations by landlord. If the landlord fails to comply with the rental agreement or 70-24-303 and the reasonable cost of compliance is less than the 1 month's rent, the tenant may recover damages for the breach under 70-24-406(2).

History: **En. 42-428 by Sec. 28, Ch. 313, L. 1977; R.C.M. 1947, 42-428.**

70-24-408. Purposeful or negligent failure to provide essential services — tenant's remedies. (1) If contrary to the rental agreement or 70-24-303 the landlord purposefully or negligently fails to supply heat, running water, hot water, electric, gas, or other essential services, the tenant may give written notice to the landlord specifying the breach and may:

(a) procure reasonable amounts of heat, hot water, running water, electricity, gas, and other essential services during the period of the landlord's noncompliance and deduct their actual and reasonable cost from the rent;

(b) recover damages based upon the diminution in the fair rental value of the dwelling unit; or

(c) procure reasonable substitute housing during the period of the landlord's noncompliance, in which case the tenant is excused from paying rent for the period of the landlord's noncompliance.

(2) If the tenant proceeds under this section, he may not proceed under 70-24-406 or 70-24-407 as to that breach.

(3) Rights of the tenant under this section do not arise until he has given notice to the landlord and the landlord has had a reasonable opportunity to correct the conditions or if the conditions were caused by the act or omission of the tenant, a member of his family, or other person on the premises with his consent.

History: En. 42-429 by Sec. 29, Ch. 313, L. 1977; R.C.M. 1947, 42-429.

70-24-409. Fire or casualty damage — rights of tenant. (1) If the dwelling unit or premises are damaged or destroyed by fire or casualty to an extent that enjoyment of the dwelling unit is substantially impaired, the tenant may:

(a) immediately vacate the premises and notify the landlord in writing within 14 days thereafter of his intention to terminate the rental agreement, in which case the rental agreement terminates as of the date of vacating; or

(b) if continued occupancy is lawful, vacate any part of the dwelling unit rendered unusable by the fire or casualty, in which case the tenant's liability for rent is reduced in proportion to the diminution in the fair rental value of the dwelling unit.

(2) This section does not apply when the fire and casualty damage was caused by the purposeful or negligent act of the tenant, the tenant's family, or guests.

(3) If the rental agreement is terminated, the landlord shall return all security recoverable pursuant to chapter 25 of this title and all prepaid rent. Accounting for rent in the event of termination or apportionment shall be made as of the date of the fire or casualty.

History: En. 42-431 by Sec. 31, Ch. 313, L. 1977; R.C.M. 1947, 42-431.

70-24-410. Unlawful or unreasonable entry by landlord — tenant's remedies. If the landlord makes an unlawful entry or a lawful entry in an unreasonable manner or makes repeated demands for entry otherwise lawful but which have the effect of unreasonably harassing the tenant, the tenant may either obtain injunctive relief to prevent the recurrence of the conduct or terminate the rental agreement. In either case the tenant may recover actual damages.

History: En. 42-441 by Sec. 41, Ch. 313, L. 1977; R.C.M. 1947, 42-441(2).

70-24-411. Unlawful ouster, exclusion, or diminution of service — tenant's remedies. If a landlord unlawfully removes or excludes the tenant from the premises or purposefully diminishes services to the tenant by interrupting or causing the interruption of heat, running water, hot water, electricity, gas, or other essential services, the tenant may recover possession or terminate the rental agreement and, in either case, recover an amount not more than 3 months' periodic rent or treble damages, whichever is greater. If the rental agreement is terminated, the landlord shall return all security recoverable pursuant to chapter 25 of this title and all prepaid rent.

History: En. 42-432 by Sec. 32, Ch. 313, L. 1977; R.C.M. 1947, 42-432.

70-24-412 through 70-24-420 reserved.

70-24-421. Action for nonpayment of rent — tenant's counterclaim. (1) In an action for possession based upon nonpayment of the rent or in an action for rent when the tenant is in possession, the tenant may counterclaim for any amount he may recover under the rental agreement or this chapter. The court from time to time may order the tenant to pay into court all or part of the rent accrued and thereafter accruing and shall determine the amount due to each party. The party to whom a net amount is owed shall be paid first from the money paid into court and the balance by the other party. The court may at any time release money paid into the court to either party if the parties so agree or if the court finds a party entitled to the sums released. If no rent remains due after application of this section, judgment shall be entered for the tenant in the action for possession.

(2) In an action for rent when the tenant is not in possession, he may counterclaim as provided in subsection (1) of this section but is not required to pay any rent into court.

History: **En. 42-430 by Sec. 30, Ch. 313, L. 1977; R.C.M. 1947, 42-430.**

70-24-422. Noncompliance of tenant generally — landlord's right of termination — damages — injunction. (1) Except as provided in this chapter, if there is a noncompliance by the tenant with the rental agreement or a noncompliance with 70-24-321, the landlord may deliver a written notice to the tenant pursuant to 70-24-108 specifying the acts and omissions constituting the noncompliance and that the rental agreement will terminate upon a date specified in the notice not less than the minimum number of days after receipt of the notice provided for in this section. The rental agreement terminates as provided in the notice, subject to the following:

(a) If the noncompliance is remediable by repairs, the payment of damages, or otherwise and the tenant adequately remedies the noncompliance before the date specified in the notice, the rental agreement does not terminate.

(b) If the noncompliance involves an unauthorized pet, the notice period is 3 days.

(c) If the noncompliance involves unauthorized persons residing in the rental unit, the notice period is 3 days.

(d) If the noncompliance is not listed in subsection (1)(b) or (1)(c), the notice period is 14 days.

(e) If substantially the same act or omission that constituted a prior noncompliance of which notice was given recurs within 6 months, the landlord may terminate the rental agreement upon at least 5 days' written notice specifying the noncompliance and the date of the termination of the rental agreement.

(f) This subsection (1) does not apply to a rental agreement involving a tenant who rents space for a mobile home but does not rent the mobile home.

(2) If rent is unpaid when due and the tenant fails to pay rent within 3 days after written notice by the landlord of nonpayment and the landlord's intention to terminate the rental agreement if the rent is not paid within that period, the landlord may terminate the rental agreement. This subsection does not apply to a rental agreement involving a tenant who rents space for a mobile home but does not rent the mobile home.

(3) If the tenant destroys, defaces, damages, impairs, or removes any part of the premises in violation of 70-24-321(2), the landlord may terminate the rental agreement upon giving 3 days' written notice specifying the noncompliance under the provisions of 70-24-321(2).

(4) If the tenant creates a reasonable potential that the premises may be damaged or destroyed or that neighboring tenants may be injured, as evidenced by the tenant being arrested for or charged with an act that violates the provisions of 70-24-321(3), the landlord may terminate the rental agreement upon giving 3 days' written notice specifying the violation and noncompliance under the provisions of 70-24-321(3).

(5) Except as provided in this chapter, the landlord may recover actual damages and obtain injunctive relief for any noncompliance by the tenant with the rental agreement or 70-24-321. Except as provided in subsection (6), if the tenant's noncompliance is purposeful, the landlord may recover treble damages.

(6) Treble damages may not be recovered for the tenant's early termination of the tenancy.

(7) Subsections (3) through (6) apply to all rental agreements, including those involving a tenant who rents space for a mobile home but does not rent the mobile home.

(8) The landlord is not bound by this section in the event that:

(a) the rental agreement does not involve a tenant who rents space for a mobile home but does not rent the mobile home; and

(b) the landlord elects to use the 30-day notice for termination of tenancy as provided in 70-24-441.

70-24-425. Failure of tenant to maintain dwelling — landlord's right to enter and repair. If there is noncompliance by the tenant with 70-24-321 affecting health and safety that can be remedied by repair, replacement of a damaged item, or cleaning and the tenant fails to comply as promptly as conditions require in case of emergency or within 14 days after written notice by the landlord specifying the breach and requesting that the tenant remedy it within that period of time, the landlord may enter the dwelling unit and cause the work to be done in a workmanlike manner and submit an itemized bill for the actual and reasonable cost, the fair and reasonable cost, or the fair and reasonable value thereof as rent on the next date periodic rent is due or, if the rental agreement has terminated, for immediate payment.

70-24-426. Remedies for absence or abandonment. (1) If the rental agreement requires the tenant to give notice to the landlord of an anticipated extended absence in excess of 7 days, as provided for in 70-24-322, and the tenant fails to do so, the landlord may recover actual damages from the tenant.

(2) During an absence of the tenant in excess of 7 days, the landlord may enter the dwelling unit at times reasonably necessary.

(3) If the tenant abandons the dwelling unit, the landlord shall make reasonable efforts to rent it at a fair rental. If the landlord rents the dwelling unit for a term beginning before the expiration of the rental agreement, the rental agreement terminates as of the date of the tenancy. If the landlord fails to use reasonable efforts to rent the dwelling unit at a fair rental or if the landlord accepts the abandonment as a surrender, the rental agreement is terminated by the landlord as of the date the landlord has notice of the abandonment. 2003 Amendment: Chapter 408 in (2) in first and second sentences at end inserted exception clause. Amendment effective October 1, 2003.

70-24-428. Landlord's recovery of possession limited. Except in the case of abandonment, surrender, or as permitted in this chapter, a landlord may not recover or take possession of the dwelling unit by action or otherwise, including purposeful diminution of services to the tenant by interrupting or causing the interruption of heat, running water, hot water, electricity, gas, or other essential services.

History: En. 42-439 by Sec. 39, Ch. 313, L. 1977; R.C.M. 1947, 42-439.

70-24-429. Holdover remedies — consent to continued occupancy — tenant's response to service in action for possession. (1) If the tenant remains in possession without the landlord's consent after expiration of the term of the rental agreement or its termination, the landlord may bring an action for possession. If the tenant's holdover is purposeful and not in good faith, the landlord may recover an amount not more than 3 months' periodic rent or treble damages, whichever is greater.

(2) In an action for possession or unlawful holdover, the provisions of Title 25, chapter 23, apply, except that the time for filing an answer under Rule 4C(2)(b) is 10 days after service of summons and complaint, exclusive of the date of service.

(3) If the landlord consents to the tenant's continued occupancy, 70-24-201(2)(e) applies.

History: En. 42-440 by Sec. 40, Ch. 313, L. 1977; R.C.M. 1947, 42-440(3); amd. Sec. 1, Ch. 176, L. 1993.

70-24-430. Disposition of personal property abandoned by tenant after termination. (1) If a tenancy terminates in any manner except by court order and the landlord reasonably believes that the tenant has abandoned all personal property that the tenant has left on the premises and a period of time of at least 5 days has elapsed since the occurrence of events upon which the landlord formed that belief, the landlord may remove the property from the premises.

(2) The landlord shall inventory and store all goods, chattels, and personal property of the tenant in a place of safekeeping and shall exercise reasonable care for the property. The landlord may charge a reasonable storage and labor charge if the property is stored by the landlord, plus the cost of removal of the property to the place of storage. The landlord may store the property in a commercial storage company, in which case the storage cost includes the actual storage charge plus the cost of removal of the property to the place of storage.

(3) After complying with subsections (1) and (2), the landlord shall:

(a) make a reasonable attempt to notify the tenant in writing that the property must be removed from the place of safekeeping;

(b) notify the local law enforcement office of the property held by the landlord;

(c) make a reasonable effort to determine if the property is secured or otherwise encumbered; and

(d) send a notice by certified mail to the last-known address of the tenant, stating that at a specified time, not less than 15 days after mailing the notice, the property will be disposed of if not removed.

(4) The landlord may dispose of the property after complying with subsection (3) by:

(a) selling all or part of the property at a public or private sale; or

(b) destroying or otherwise disposing of all or part of the property if the landlord reasonably believes that the value of the property is so low that the cost of storage or sale exceeds the reasonable value of the property.

(5) If the tenant, upon receipt of the notice provided in subsection (3), responds in writing to the landlord on or before the day specified in the notice that the tenant intends to remove the

property and does not do so within 7 days after delivery of the tenant's response, the tenant's property is conclusively presumed to be abandoned. If the tenant removes the property, the landlord is entitled to storage costs for the period that the property remains in safekeeping, plus the cost of removal of the property to the place of storage. Reasonable storage costs are allowed a landlord who stores the property, and actual storage costs are allowed a landlord who stores the property in a commercial storage company. A landlord is entitled to payment of the storage costs allowed under this subsection before the tenant may remove the property.

(6) The landlord is not responsible for any loss to the tenant resulting from storage unless the loss is caused by the landlord's purposeful or negligent act. On the event of purposeful violation, the landlord is liable for actual damages.

(7) A public or private sale authorized by this section must be conducted under the provisions of 30-9A-601 or the sheriff's sale provisions of Title 25, chapter 13, part 7.

(8) The landlord may deduct from the proceeds of the sale the reasonable costs of notice, storage, labor, and sale and any delinquent rent or damages owing on the premises and shall remit to the tenant the remaining proceeds, if any, together with an itemized accounting. If the tenant cannot after due diligence be found, the remaining proceeds must be deposited with the county treasurer of the county in which the sale occurred and, if not claimed within 3 years, must revert to the general fund of the county available for general purposes.

History: En. 42-437 by Sec. 37, Ch. 313, L. 1977; R.C.M. 1947, 42-437; amd. Sec. 1, Ch. 483, L. 1985; amd. Sec. 3, Ch. 401, L. 1997; amd. Sec. 152, Ch. 305, L. 1999.

70-24-431. Retaliatory conduct by landlord prohibited. (1) Except as provided in this section, a landlord may not retaliate by increasing rent, decreasing services, or by bringing or threatening to bring an action for possession after the tenant:

(a) has complained of a violation applicable to the premises materially affecting health and safety to a governmental agency charged with responsibility for enforcement of a building or housing code;

(b) has complained to the landlord in writing of a violation under 70-24-303; or

(c) has organized or become a member of a tenant's union, mobile home park tenant association, or similar organization.

(2) If the landlord acts in violation of subsection (1) of this section, the tenant is entitled to the remedies provided in 70-24-411 and has a defense in any retaliatory action against him for possession.

(3) In an action by or against the tenant, evidence of a complaint within 6 months before the alleged act of retaliation creates a rebuttable presumption that the landlord's conduct was in retaliation. The presumption does not arise if the tenant made the complaint after notice of a proposed rent increase or diminution of services. For purposes of this section, "rebuttable presumption" means that the trier of fact must find the existence of the fact presumed unless and until evidence is introduced which would support a finding of its nonexistence.

(4) Notwithstanding subsections (1), (2), and (3) of this section, a landlord may bring an action for possession if:

(a) the violation of the applicable building or housing code was caused primarily by lack of reasonable care by the tenant, a member of the tenant's family, or other persons on the premises with his consent;

(b) the tenant is in default in rent; or

(c) compliance with the applicable building or housing code requires alteration, remodeling, or demolition which would effectively deprive the tenant of use of the dwelling unit.

(5) The maintenance of an action under subsection (4) of this section does not release the landlord from liability under 70-24-405(2).

History: En. 42-442 by Sec. 42, Ch. 313, L. 1977; R.C.M. 1947, 42-442; amd. Sec. 6, Ch. 487, L. 1993.

70-24-432. Disposition of abandoned mobile home occupying a mobile home park space. (1) If a tenancy terminates and the landlord reasonably believes that the tenant has abandoned a mobile home occupying a mobile home park space and a period of time of at least 5 days has elapsed since the occurrence of events upon which the landlord formed that belief, the landlord may remove the mobile home from the premises.

(2) If the landlord moves the mobile home from the premises, the landlord shall store the mobile home in a place of safekeeping and shall exercise reasonable care for the mobile home. The landlord may charge the mobile home owner a reasonable removal and storage charge.

(3) If the landlord stores the mobile home, the landlord shall:

(a) notify the local law enforcement office of the removal and storage;

(b) make a reasonable effort to determine if the mobile home is secured or otherwise encumbered; and

(c) send a notice by certified mail to the last-known address of the mobile home owner and to any person or entity found by the landlord to have an interest referred to in subsection (3)(b), stating that at a specified time, not less than 15 days after mailing the notice, the mobile home will be disposed of if the mobile home owner does not respond and remove the mobile home under subsection (4).

(4) If the mobile home owner, within 15 days after receipt of the notice provided for in subsection (3)(c), responds in writing to the landlord that the owner intends to remove the mobile home from storage and does not do so within 20 days after delivery of the owner's response, the mobile home is conclusively presumed to be abandoned. A landlord is entitled to payment of the removal and storage costs allowed under subsection (2) before the owner may remove the mobile home.

(5) The landlord may dispose of the mobile home after complying with subsection (3) by:

(a) selling the mobile home at a public or private sale; or

(b) destroying or otherwise disposing of the mobile home if the landlord reasonably believes that the value of the mobile home is so low that the cost of a sale would exceed the reasonable value of the mobile home. Disposal may include having the mobile home removed to an appropriate disposal site.

(6) A public or private sale authorized by this section must be conducted under the sheriff's sale provisions of Title 25, chapter 13, part 7.

(7) The landlord may deduct from the proceeds of a sale the reasonable costs of removal, storage, notice, and sale and any delinquent rent or damages owing on the premises and shall remit to the mobile home owner the remaining proceeds, if any. If the owner cannot after due diligence be found, the remaining proceeds must be deposited in the general fund of the county in which the sale occurred and, if not claimed within 3 years, are forfeited to the county.

70-24-436. Mobile home parks — grounds for termination of rental agreement. (1) With respect to a tenant who rents space in a mobile home park but does not rent the mobile home, if there is a noncompliance by the tenant with the rental agreement or with a provision of 70-24-321, the landlord may deliver a written notice to the tenant pursuant to 70-24-108 specifying the acts or omissions constituting the noncompliance and stating that the rental agreement will terminate upon a date specified in the notice that may not be less than the minimum number of days after receipt of the notice provided for in this section. The rental agreement terminates as provided in the notice for one or more of the following reasons and subject to the following conditions:

(a) nonpayment of rent, late charges, or common area maintenance fees as established in the rental agreement, for which the notice period is 7 days;

(b) a violation of a mobile home park rule other than provided for in subsection (1)(a) that does not create an immediate threat to the health and safety of any resident of the mobile home park or its manager or owner, for which the notice period is 14 days;

(c) a violation of a mobile home park rule that creates an immediate threat to the health and safety of any resident of the mobile home park, its manager, or its owner, for which the notice period is 24 hours;

(d) late payment of rent, late charges, or common area maintenance fees, as established in the rental agreement, three or more times within a 12-month period if written notice is given by the landlord after each failure to pay, as required by subsection (1)(a), for which the notice period for the final late payment is 30 days;

(e) a violation of a mobile home park rule that creates an immediate threat to the health and safety of any resident of the mobile home park, its manager, or its owner, whether or not notice was given pursuant to subsection (1)(c) and the violation was remedied as provided in subsection (3), for which the notice period is 14 days;

(f) two or more violations within a 12-month period of the same rule for which notice has been given for each prior violation, as provided in subsection (1)(a), (1)(b), or (1)(c), for which the notice period for the final violation is 30 days;

(g) two or more violations of 70-24-321(1) within a 12-month period, for which the notice period for the final violation is 14 days;

(h) any violation of 70-24-321(2), for which the notice period is as provided in 70-24-422(3);

(i) disorderly conduct that results in disruption of the rights of others to the peaceful enjoyment and use of the premises, for which the notice period is 30 days;

(j) any other noncompliance or violation not covered by subsection (1)(a) through (1)(i) that endangers other residents or mobile home park personnel or causes substantial damage to the mobile home park premises, for which the notice period is 14 days;

(k) conviction of the mobile home owner or a tenant of the mobile home owner of a violation of a federal or state law or local ordinance, when the violation is detrimental to the health, safety, or welfare of other residents or the landlord of the mobile home park, or the landlord's documentation of a violation of the provisions of Title 45, chapter 9, for which the notice period is 14 days;

(l) changes in the use of the land if the requirements of subsection (2) are met, for which the notice period is 180 days;

(m) any legitimate business reason not covered elsewhere in this subsection (1), provided that the landlord meets the following requirements:

(i) the termination does not violate a provision of this section or any other state statute; and

(ii) the landlord has given the mobile home owner or tenant of the mobile home owner a minimum of 90 days' written notice of the termination.

(2) If a landlord plans to change the use of all or part of the land comprising the mobile home park from mobile home lot rentals to some other use, each affected mobile home owner must receive notice from the landlord as follows:

(a) The landlord shall give the mobile home owner and a tenant of the mobile home owner at least 15 days' written notice that the landlord will be appearing before a unit of local government to request permits for a change of use of the mobile home park.

(b) After all required permits requesting a change of use have been approved by the unit of local government, the landlord shall give the mobile home owner and a tenant of the mobile home owner 6 months' written notice of termination of tenancy. If the change of use does not require local government permits, the landlord shall give the written notice at least 6 months prior to the change of use. In the notice, the landlord shall disclose and describe in detail the nature of the change of use.

(c) Prior to entering a rental agreement during the 6-month notice period referred to in subsection (2)(b), the landlord shall give each prospective mobile home owner, and any tenant of the mobile home owner whose identity and address have been provided to the landlord, written notice that the landlord is requesting a change in use before a unit of local government or that a change in use has been approved.

(3) Subject to the right to terminate in subsections (1)(d) through (1)(k), if the noncompliance described in subsections (1)(a) through (1)(c) is remediable by repairs, the payment of damages, or otherwise and the tenant adequately remedies the noncompliance before the date specified in the notice, the rental agreement does not terminate as a result of that noncompliance.

(4) For purposes of calculating the total number of notices given within a 12-month period under subsection (1)(d), only one notice for each violation per month may be included in the calculation.

(1) "Cleaning expenses" means the actual and necessary cost of cleaning done by an owner or his selected representative for cleaning needs not attributable to normal wear brought about by the tenant's failure to bring the premises to the condition it was at the time of renting.

(2) "Damage" means any and all tangible loss, injury, or deterioration of a leasehold premises caused by the willful or accidental acts of the tenant occupying same or by the tenant's family, licensees, or invitees, as well as any and all tangible loss, injury, or deterioration resulting from the tenant's omissions or failure to perform any duty imposed upon the tenant by law with respect to the leasehold.

Part 2
Rights and Duties

70-25-201. Security deposit — deductions authorized therefrom. (1) A landlord renting property covered by this chapter may deduct from the security deposit a sum equal to the damage alleged to have been caused by the tenant, together with a sum equal to the unpaid rent, late charges, utilities, penalties due under lease provisions, and other money owing to the landlord at the time of deduction, including rent owed under 70-24-441(3), and a sum for actual cleaning expenses, including a reasonable charge for the landlord's labor.

(2) At the request of either party, the premises may be inspected within 1 week prior to termination of the tenancy.

(3) Cleaning charges may not be imposed for normal maintenance performed on a cyclical basis by the landlord as noted by the landlord at the time that the tenant occupies the space unless the landlord is forced to perform this maintenance because of negligence of the tenant. Additionally, cleaning charges may not be deducted until written notice has been given to the tenant. The notice must include the cleaning not accomplished by the tenant and the additional and type or types of cleaning that need to be done by the tenant to bring the premises back to its condition at the time of its renting. After the delivery of the notice, the tenant has 24 hours to complete the required cleaning. If notice is mailed by certified mail, service of the notice is considered to have been made 3 days after the date of the mailing. A tenant who fails to notify the landlord of the intent to vacate or who vacates the premises without notice relieves the landlord of the requirement of giving notice and allows the landlord to deduct the cleaning charges from the deposit.

(4) A person may not deduct or withhold from the security deposit any amount for purposes other than those set forth in this section.

History: En. 42-303 by Sec. 3, Ch. 219, L. 1974; amd. Sec. 2, Ch. 297, L. 1977; R.C.M. 1947, 42-303; amd. Sec. 14, Ch. 115, L. 1979; amd. Sec. 2, Ch. 505, L. 1991; amd. Sec. 1, Ch. 342, L. 1993; amd. Sec. 4, Ch. 389, L. 1995; amd. Sec. 5, Ch. 401, L. 1997.

70-25-202. List of damages and refund — delivery to departing tenant. (1) Every landlord, within 30 days subsequent to the termination of a tenancy or within 30 days subsequent to a surrender and acceptance of the leasehold premises, whichever occurs first, shall provide the departing tenant with a written list of any rent due and any damage and cleaning charges, brought after the provisions of 70-25-201 have been followed, with regard to the leasehold premises that the landlord alleges are the responsibility of the tenant. Delivery of the list must be accompanied by payment of the difference, if any, between the security deposit and the permitted charges set forth in 70-25-201. Delivery must be accomplished by mailing the list and refund to the new address provided by the tenant or, if a new address is not provided, to the tenant's last-known address.

(2) If after inspection there are no damages to the premises, no cleaning required, and no rent unpaid and if the tenant can demonstrate that no utilities are unpaid by the tenant, the landlord shall return the security deposit within 10 days by mailing it to the new address provided by the tenant or, if a new address is not provided, to the tenant's last-known address.

(3) It is not a wrongful withholding of security deposit funds if the landlord mails the funds to the last-known address of a tenant who has departed and the tenant does not receive the funds because the tenant has not given the landlord the tenant's new address, but the landlord remains liable to the tenant for the amount due the tenant.

History: En. 42-304 by Sec. 4, Ch. 219, L. 1974; amd. Sec. 3, Ch. 297, L. 1977; R.C.M. 1947, 42-304; amd. Sec. 3, Ch. 505, L. 1991; amd. Sec. 1, Ch. 241, L. 2001.

70-25-203. Failure to provide list — forfeiture of deduction rights. Any landlord who fails to provide the departing tenant with a written list of damage and cleaning charges as required by 70-25-202 shall forfeit all rights to withhold any portion of the security deposit for the damages or cleaning charges.

History: En. 42-305 by Sec. 5, Ch. 219, L. 1974; amd. Sec. 4, Ch. 297, L. 1977; R.C.M. 1947, 42-305.

70-25-204. Wrongful withholding of security deposit — action. (1) A person who wrongfully withholds a residential property security deposit or any portion of the deposit is liable in damages to the tenant in a civil action for an amount equal to the sum determined to have been wrongfully withheld or deducted. The attorney fees may be awarded the prevailing party at the discretion of the court. The burden of proof of damages caused by the tenant to the leasehold premises is on the landlord.

(2) An action may not be maintained by a tenant for any amount wrongfully withheld or deducted prior to:

(a) the tenant's receipt from the landlord or the landlord's agent of a written denial of the sum alleged to be wrongfully detained;

(b) the expiration of a 30-day period after the termination of a tenancy;

(c) the expiration of a 30-day period after surrender and acceptance of the leasehold premises; or

(d) the expiration of a 10-day period after the landlord has indicated there were no damages to the premises, no cleaning was required, no rent was unpaid, and no utilities were unpaid by the tenant.

70-25-205. Failure of departing tenant to furnish new address. Failure by the departing tenant to provide the landlord with a new address in writing upon termination of the tenancy or upon surrender and acceptance of the leasehold premises, whichever occurs first, does not bar the tenant from recovering the amount owing to the tenant by the landlord.

History: En. 42-307 by Sec. 7, Ch. 219, L. 1974; R.C.M. 1947, 42-307; amd. Sec. 3, Ch. 342, L. 1993; amd. Sec. 2, Ch. 241, L. 2001.

70-25-206. Landlord to furnish statement of condition of premises at beginning of lease. (1) Any person engaged in the rental of property for residential purposes who requires a security deposit shall furnish to each tenant, in conjunction with execution of a lease or creation of a tenancy, a separate written statement as to the present condition of the premises intended to be let. At the written request of the tenant, a copy of the written list of damage and cleaning charges, if any, provided to the tenant of the immediately preceding leasehold agreement for the premises in question must be provided to the tenant.

(2) Each written statement of the present condition of a premises intended to be let shall contain at least the following:

(a) a clear and concise statement of the present condition of the premises known to the landlord or the landlord's agent or which should have been known upon reasonable inspection;

(b) if the premises have never previously been let, a statement indicating the fact; and

(c) the signature of the landlord or the landlord's agent.

(3) A person engaged in the rental of property for residential purposes who fails to furnish a tenant, in conjunction with the execution of the lease or creation of the tenancy, with a separate written statement of the present condition of the premises intended to be let and, upon the written request of the tenant, a written list of damage and cleaning charges provided to the tenant of the immediately preceding leasehold agreement is barred from recovering any sum for damage to or cleaning of the leasehold premises unless the person can establish by clear and convincing evidence that the damage occurred during the tenancy in question and was caused by the tenant occupying the leasehold premises or the tenant's family, licensees, or invitees.

70-27-102. Forcible entry defined. Every person is guilty of a forcible entry who either:

(1) by breaking open doors, windows, or other parts of a house or by any kind of violence or circumstance of terror enters upon or into any real property or mining claim; or

(2) after entering peaceably upon real property or mining claim, turns out by force, threats, or menacing conduct the party in possession.

70-27-104. Tenancy at will — termination by notice. A tenancy or other estate at will, however created, may be terminated by the landlord's giving notice in writing to the tenant, in the manner prescribed in this chapter, to remove from the premises within a period of not less than 1 month, to be specified in the notice; but none of the estates or tenancies embraced by the provisions of 70-15-202(4) is a tenancy or estate at will.

70-27-108. Unlawful detainer defined. A tenant of real property or mining claim, for a term less than life, is guilty of unlawful detainer:

(1) when he continues in possession, in person or by subtenant, of the property or any part thereof after the expiration of the term for which it is let to him without the permission of the landlord or the successor in estate of his landlord, if any there be, but in case of a tenancy at will, it must first be terminated by notice, as prescribed in 70-27-104;

(2) where he continues in possession, in person or by subtenant, without permission of his landlord or the successor in estate of his landlord, if any there be, after default in the payment of rent, pursuant to the lease or agreement under which the property is held, and 3 days' notice in writing requiring its payment, stating the amount which is due, or possession of the property shall have been served upon him and, if there be a subtenant in actual occupation of the premises, also upon such subtenant. Such notice may be served at any time within 1 year after the rent becomes due. In all cases of tenancy upon agricultural lands where the tenant has held over and retained possession for more than 60 days after the expiration of his term without any demand of possession or notice to quit by the landlord or the successor in estate of his landlord, if any there be, he shall be deemed to be holding by permission of the landlord or the successor in estate of his landlord and shall be entitled to hold under the terms of the lease for another full

year and shall not be guilty of an unlawful detainer during said year, and such holding over for the period aforesaid shall be taken and construed as a consent on the part of a tenant to hold for another year;

(3) when he continues in possession, in person or by subtenant, after a neglect or failure to perform other conditions or covenants of the lease or agreement under which the property is held, including any covenant not to assign or sublet, than the one for the payment of rent, and 3 days' notice in writing, requiring the performance of such conditions or covenants or the possession of the property, shall have been served upon him and, if there be a subtenant in actual occupation of the premises, also upon such subtenant. Within 3 days after the serving of the notice, the tenant or any subtenant in actual occupation of the premises or any mortgagee of the term or other person interested in its continuance may perform the conditions or covenants of the lease or pay the stipulated rent, as the case may be, and thereby save the lease from forfeiture. If the covenants and conditions of the lease violated by the lessee cannot afterward be performed, then no notice, as last prescribed herein, need be given to said lessee or his subtenant demanding the performance of the violated covenant or conditions of the lease. A tenant may take proceedings similar to those prescribed in this chapter to obtain possession of the premises let to an undertenant in case of his unlawful detention of the premises underlet to him. Any tenant or subtenant assigning or subletting or committing waste upon the demised premises contrary to the covenants of his lease thereby terminates the lease, and the landlord or his successor in estate shall, upon service of 3 days' notice to quit upon the person or persons in possession, be entitled to restitution of possession of such demised premises under the provisions of this chapter.

The defendant may show in his defense that he or his ancestors or those whose interest in such premises he claims have been in the quiet possession thereof for the space of 1 whole year together next before the commencement of the proceedings and that his interest therein is not then ended or determined, and such showing is a bar to the proceedings.

(1) When, upon the trial of any proceeding under this chapter, it appears from the evidence that the defendant has been guilty of either forcible entry or forcible or unlawful detainer and other than the offense charged in the complaint, the judge must order that such complaint be forthwith amended to conform with such proof. Such amendment must be made without any imposition of terms.

(2) The jury, or the court if the proceeding be tried without a jury, shall also assess the damages occasioned to the plaintiff by any forcible entry or by any forcible or unlawful detainer

alleged in the complaint and proved on the trial and find the amount of any rent due if the alleged unlawful detainer be after default in the payment of rent; and the judgment shall be rendered against the defendant, guilty of the forcible entry or forcible or unlawful detainer, for three times the amount of the damages thus assessed and of the rent found due.

(3) When the proceeding is for an unlawful detainer after default in the payment of the rent and the lease or agreement under which the rent is payable has not by its terms expired, execution upon the judgment shall not be issued until the expiration of 5 days after the entry of the judgment, within which time the tenant or any subtenant or any mortgagee of the term or other party interested in its continuance may pay into court for the landlord the amount found due as rent with interest thereon and the amount of damages found by the jury or the court for the unlawful detainer and the costs of the proceeding, and thereupon the judgment shall be satisfied and the tenant be restored to his estate; but if payment, as here provided, be not made within the 5 days, the judgment may be enforced for its full amount and for the possession of the premises. 70-29-202. Court to order sale or partition — appointment of referees. (1) If it be alleged in the complaint and established by evidence or if it appear by the evidence without such allegation in the complaint to the satisfaction of the court that the property or any part is so situated that the partition cannot be made without great prejudice to the owners, the court may order a sale thereof; otherwise, upon the requisite proofs being made, it must order a partition according to the respective rights of the parties as ascertained by the court and appoint three referees therefor and must designate the portion to remain undivided for the owners whose interests remain unknown or are not ascertained.

(2) The court, with the consent of the parties, may appoint a single referee instead of three referees in the proceedings under the provisions of this chapter, and the single referee, when thus appointed, has all the powers and may perform all the duties required of the three referees.

70-29-203. Determination of title required before judgment of sale. When a sale of the premises is necessary, the title must be ascertained by proof to the satisfaction of the court before the judgment of sale can be made, and where service of the summons has been made by publication, like proof must be required of the right of the absent or unknown parties before such judgment is rendered, except where there are several unknown parties having an interest in the property, their rights may be considered together in the action and not as between themselves.

70-29-204. Partial partition. Whenever from any cause it is in the opinion of the court impracticable or highly inconvenient to make a complete partition in the first instance among all the parties in interest, the court may first ascertain and determine the shares or interests respectively held by the original cotenants and thereupon adjudge and cause a partition to be made as if such original cotenants were the parties and sole parties in interest and the only parties to the action and thereafter may proceed in like manner to adjudge and make partition separately of each share or portion so ascertained and allotted, as between those claiming under the original tenant to whom the same shall have been so set apart, or may allow them to remain tenants in common thereof, as they may desire.

70-29-205. Partition according to rights of parties — roads. (1) In making partition, the referees must divide the property and allot the several portions thereof to the respective parties, quality and quantity relatively considered, according to the respective rights of the parties as determined by the court, pursuant to the provisions of this chapter, designating the several portions by proper landmarks, and may employ a surveyor with the necessary assistants to aid them.

(2) Before making partition or sale, the referees may, whenever it will be for the advantage of those interested, set apart a portion of the property for a way, road, or street, and the portion so set apart shall not be assigned to any of the parties or sold but shall remain an open and public way, road, or street unless the referees shall set the same apart as a private way for the use of the parties interested or some of them, their heirs, and assigns, in which case it shall remain such private way. Whenever the referees have laid out on any tract of land roads sufficient, in the judgment of said referees, to accommodate the public and private wants, they shall report that fact to the court, and upon the confirmation of their report all other roads on said tract shall cease to be public highways.

70-29-206. Procedure in relation to lots and subdivisions. When the site of an incorporated city or town is included within the exterior boundaries of the property to be partitioned, on said fact being established by evidence, the following proceedings shall be had:

(1) The court shall thereupon direct the referees to survey and appraise the entire property to be partitioned by actual lots and subdivisions then existing in the actual possession of the several tenants in common, exclusive of the value of improvements thereon, first setting apart necessary portions of the property for ways, roads, and streets, as in 70-29-205 provided, and to report such survey and separate appraisement on each lot and subdivision to the court. The court may confirm, change, modify, or set aside the report in whole or in part and, if necessary, appoint new referees.

(2) When, after the final confirmation of the report of such survey and appraisement, it shall appear by evidence to the satisfaction of the court that an equitable partition of the whole property is impracticable and a sale of the site of such city, town, or any portion thereof will be for the best interest of the owners of the whole property, it shall order a sale thereof; provided that within 60 days thereafter any tenant in common or tenants in common having improvements erected on any town or city lot or subdivision included in such order of sale shall have the prior right to purchase the same at such appraised valuation and pay into court the amount so appraised as the value thereof, and upon such payment, the title shall vest in such purchaser or purchasers, and the court shall cause to be executed by said referees a deed for such lot or subdivision in fee and in severalty to such purchaser or purchasers. Such further proceedings shall then be had as to the remainder of the property and the money so paid to the court as by this chapter provided.

70-29-207. Allotment of shares of land — improvements. In all cases the court shall direct the referees, in making partition of land, to allot the share of each of the parties owning an interest in the whole or in any part of the premises sought to be partitioned and to locate the share of each cotenant so as to embrace as far as practicable the improvements made by such cotenant upon the property, and the value of the improvements made by the tenants in common must be excluded from the valuation in making allotments, and the land must be valued without regard to such improvements, in case the same can be done without material injury to the rights and interests of the other tenants in common owning such land.

70-29-208. Allotment of land to grantee of tenant in common. Whenever it shall appear in an action for the partition of lands that one or more of the tenants in common, being the owner of an undivided interest in the tract of land sought to be partitioned, has sold to another person a specific tract by metes and bounds out of the common land and executed to the purchaser a deed of conveyance, purporting to convey the whole title to such specific tract to the purchaser in fee and in severalty, the land described in such deed shall be allotted and set apart in partition to such purchaser, his heirs, or assigns or in such other manner as shall make such deed effectual as a conveyance of the whole title to such segregated parcel if such tract or tracts of land can be so allotted or set apart without material injury to the rights and interests of the other cotenants who may not have joined in such conveyance.

70-29-209. Compensation of one party by another in certain cases of partition. (1) When it appears that a partition cannot be made equal between the parties according to their respective rights without prejudice to the rights and interests of some of them and a partition be ordered, the court may adjudge compensation to be made by one party to another on account of the inequality, but such compensation shall not be required to be made to others by owners unknown or by a minor unless it appears that such minor has personal property sufficient for that purpose and that his interest will be promoted thereby.

(2) In all cases the court has power to make compensatory adjustment between the respective parties according to the ordinary principles of equity.

70-29-210. Consent of guardian to share of ward. The general guardian of a minor and the guardian entitled to the custody and management of the estate of a person committed pursuant to 53-21-127 or other person adjudged incapable of conducting the person's own affairs, who is interested in real estate held in joint tenancy or in common or in any other manner so as to authorize the person being made a party to an action, may agree upon the share to be set off to the minor or other person entitled to the share. The guardian may execute a release, in the person's behalf, to the owners of the shares of the parts to which they may be respectively entitled, upon an order of the court.

(1) If it appears to the court that it was necessary to have made an abstract of the title to the property to be partitioned and such abstract shall have been procured by the plaintiff or if the plaintiff shall have failed to have the same made before the commencement of the action and any one of the defendants shall have had such abstract afterward made, the cost of the abstract, with interest thereon from the time the same is subject to the inspection of the respective parties to the action, must be allowed and taxed.

(2) Whenever such abstract is procured by the plaintiff, before the commencement of the action he must file with his complaint a notice that an abstract of the title has been made and is subject to the inspection and use of all the parties to the action, designating therein where the abstract will be kept for inspection. But if the plaintiff shall have failed to procure such abstract before commencing the action and any defendant shall procure the same to be made, he shall, as soon as he has directed it to be made, file a notice thereof in the action with the clerk of the court, stating who is making the same and where it will be kept when finished.

70-29-325. Future interests — ascertainment — share of proceeds. In all cases of sales when it appears that any person has a vested or contingent or future right or estate in any of the property sold, the court must ascertain and settle the proportional value of such contingent or vested right or estate and must direct such proportion of the proceeds of the sale to be invested, secured, or paid over, in such manner as to protect the rights and interests of the parties.

(1) The person entitled to a tenancy for life or years or who has a right or inchoate right of dower, whose estate has been sold, is entitled to receive such sum as may be deemed a reasonable satisfaction for such estate and which the person so entitled may consent to accept instead thereof by an instrument in writing filed with the clerk of the court. Upon the filing of such consent, the clerk must enter the same in the minutes of the court.

(2) If such consent be not given, filed, and entered, as provided in subsection (1), at or before a judgment of sale is rendered, the court must ascertain and determine what proportion of the proceeds of the sale, after deducting expenses, will be a just and reasonable sum to be allowed on account of such estate and must order the same to be paid to such party or deposited in court for him or her, as the case may require.

(3) If the persons entitled to such estate for life or years be unknown, the court must provide for the protection of their rights in the same manner, as far as may be, as if they were known and had appeared.

70-30-103. What property may be taken. (1) The property that may be taken under this chapter includes:

(a) all real property belonging to any person;

(b) land that belongs to this state or to any county, city, or town and that is not appropriated to some public use;

(c) property appropriated to a public use, but the property may not be taken unless for a more necessary public use than that to which it has already been appropriated;

(d) franchises for roads, bridges, and ferries and all other franchises; but the franchises may not be taken unless for free highways, free bridges, railroads, or another more necessary public use; or

(e) a right-of-way for any public use mentioned in 70-30-102 and any structures and improvements on the right-of-way. The land held and used in connection with the right-of-way must be subject to being connected with, crossed, or intersected by any other right-of-way improvements or structures on the right-of-way. The improvements or structures must also be subject to a limited use in common with the owner of the improvements or structures when necessary. However, the uses, crossings, intersections, and connections must be made in the manner that is most compatible with the greatest public benefit and least private injury.

(2) All classes of private property not enumerated may be taken for public use when the taking is authorized by law.

History: En. Sec. 582, p. 190, L. 1877; re-en. Sec. 582, 1st Div. Rev. Stat. 1879; re-en. Sec. 600, 1st Div. Comp. Stat. 1887; amd. Sec. 2213, C. Civ. Proc. 1895; re-en. Sec. 7333, Rev. 70-30-104. What estates and rights in land may be taken. (1) The following is a classification of the estates and rights in land subject to taking for public use:

(a) subject to subsection (2), estates or rights that are necessary, up to and including a fee simple interest, when taken for:

(i) public buildings or grounds;

(ii) permanent buildings;

(iii) an outlet for a flow or a place for the deposit of debris or tailings of a mine;

(iv) the mining and extracting of ores, metals, or minerals when the ores, metals, or minerals are owned by the condemnor but are located beneath or upon the surface of property for which the title to the surface vests in others; or

(v) the underground storage of natural gas by a natural gas public utility as defined in 82-10-301. When the taking is for the underground storage of natural gas, all of the right, title, interest, and estate in the real property and in the subsand stratum, formation, or reservoir taken must be determinable and for all purposes terminates upon abandonment or upon cessation for the period of 1 year of the use for which the property was taken. Upon the abandonment or cessation, the ownership of the residue of natural gas remaining in the reservoir vests in the current owners of the surface property over the reservoir space.

(b) the estate or rights in the surface property that are necessary for a reservoir or dam and for the permanent flooding that results from the reservoir or dam, up to the edge of the maximum pool of the reservoir;

(c) an easement, leasehold, or other interest, for as long as the interest is necessary for the purpose described in the complaint, or fee simple interest when taken for any other use;

(d) the right of entry upon and occupation of land and the right to take from the land any earth, gravel, stones, trees, and timber that may be necessary for some public use.

(2) Subject to 60-4-102, an easement is presumed to be sufficient for a project for a public use unless the parties agree that a greater interest should be taken or the condemnor shows by a preponderance of the evidence that a greater interest is necessary.

70-30-105. Taking of underground natural gas storage reservoir — effect on owner's right to drill. (1) The taking of any sand, stratum, or formation for use as an underground natural gas storage reservoir is without prejudice to the rights of the owner or owners of the land or of the oil, gas, or other mineral rights in the land to drill or bore through the sand, stratum, or formation taken for use as an underground natural gas storage reservoir in order to explore for, produce, process, treat, or market any oil, gas, or other minerals that might be contained in the land above or below the sand, stratum, or formation taken.

(2) Any additional cost or expense required to be incurred in order to protect the underground natural gas storage reservoir against pollution and the escape of the gas from the reservoir by reason of boring or drilling through the sand, stratum, or formation used as an underground natural gas storage reservoir must be paid by the persons, firm, or corporation owning the underground natural gas storage reservoir at the time of the boring or drilling.

History: **En. Sec. 5, Ch. 245, L. 1953; R.C.M. 1947, 93-9903.1; amd. Sec. 55, Ch. 125, L. 2001.**

70-30-106. Eminent domain not to be used for coal mining in certain cases — policy. (1) For the reasons contained in this section, the state's power of eminent domain may not be exercised to mine and extract coal owned by the condemnor located beneath the surface of property for which the title to the surface is vested in others.

(2) Because of the large reserves of and the renewed interest in coal in eastern Montana, coal development is potentially more destructive to land and watercourses and underground aquifers and potentially more extensive geographically than the foreseeable development of other ores, metals, or minerals and affects large areas of land and large numbers of people.

(3) In certain areas of Montana referred to in subsection (2), the title to the surface property is vested in an owner other than the mineral owner and the surface owner is putting that surface property to a productive use, and it is the public policy of the state to encourage and foster that productive use by the surface owner. To permit the mineral owner to condemn the surface owner's property is to deprive the surface owner of the right to use the property in the productive manner that the surface owner determines and is also contrary to public policy set forth in subsection (5).

(4) The magnitude of the potential coal development in eastern Montana will subject landowners to undue harassment by excessive use of eminent domain.

(5) It is the public policy of the state to encourage and foster diversity of land ownership, and the surface mining of coal and control of large areas of land by the surface coal mining industry would not promote public policy and further the public interest.

History: **En. 93-9902.1 by Sec. 2, Ch. 311, L. 1973; R.C.M. 1947, 93-9902.1; amd. Sec. 56, Ch. 125, L. 2001.**

70-30-107. Private roads. Private roads may be opened in the manner prescribed by this chapter, but in every case the necessity of the road and the amount of all damage to be sustained by the opening of the road must be first determined by a jury, and the amount of damages, together with the expenses of the proceeding, must be paid by the person to be benefited.

History: **En. Sec. 2232, C. Civ. Proc. 1895; re-en. Sec. 7352, Rev. C. 1907; re-en. Sec. 9955, R.C.M. 1921; re-en. Sec. 9955, R.C.M. 1935; R.C.M. 1947, 93-9923; amd. Sec. 57, Ch. 125, L. 2001.**

70-30-108. No abrogation of provisions relating to city or county roads. This chapter may not be construed to abrogate or repeal any statute providing for the taking of property in any county, city, or town for road or street purposes.

History: **En. Sec. 2233, C. Civ. Proc. 1895; re-en. Sec. 7353, Rev. C. 1907; re-en. Sec. 9956, R.C.M. 1921; re-en. Sec. 9956, R.C.M. 1935; R.C.M. 1947, 93-9924; amd. Sec. 58, Ch. 125, L. 2001.**

70-30-109. Temporary logging roads and banking grounds. (1) In the event that a temporary road used for logging purposes or land used for banking grounds is taken, the taking includes only the temporary right to use the road or land. The order of condemnation for the road or land must fix the length of time and the date from which the road must be opened or land must be used, and at the expiration of that period, the right to use the road or land ceases. The use of the road or land reverts to the party from whom the road or land was taken or to that party's legal successor in interest. However, land may not be taken for temporary logging roads or banking grounds for a period of time longer than 5 years. When taken for a period of time exceeding 1 year, the amount of damage for each year must be fixed separately, and the amount fixed for each particular year must be paid on or before January 1 of each year. If the amount fixed for any 1 year is not paid as specified in this subsection, then the use of the road or land reverts to the party from whom the road or land was taken or to that party's successor in interest.

(2) In any suit for the opening of any temporary logging road or for the use of any land for banking grounds, the court may not finally order the opening of the road or the right to use the land until the amount assessed as damages has been paid into court for the benefit of the party or parties owning or holding the road or land.

(3) In the event that any road or land taken or used as provided in this section is occupied by a lessee, the lessee must be made a party to the suit, and the final decree of the court must apportion the amount of compensation received between the lessee and the owner of the road or land. The decree is subject to the right of appeal by any party in interest.

70-30-110. Survey and location of property to be taken — greatest public good — least private injury. (1) In all cases in which land is required for public use, the state or its agents in charge of the public use may survey and locate the land to be used. The use must be located in the manner that will be most compatible with the greatest public good and the least private injury, and the location is subject to the provisions of 70-30-206. The state or its agents in charge of the public use may, after giving 30 days' written notice to the owners and persons in possession of the land, enter upon the land and make examination, surveys, and maps of the land. The entry does not constitute a cause of action in favor of the owners of the land except from injuries resulting from negligence or intentional acts. Upon written request of the state or its agents, the owner shall provide the names and addresses of all persons who are in possession of the owner's land within 14 days from receipt of the written notice. The state or its agents shall within 14 days from receipt of that information furnish written notice to the listed persons.

(2) Prior to or at the time of rejection of the final written offer as referred to in 70-30-111(4), the condemnee may provide to the condemnor the condemnee's claim of appropriate measures that the condemnee considers necessary to minimize damages to the property directly affected by the project as well as to minimize damages incurred to the remaining parcel of property.

70-30-111. Facts necessary to be found before condemnation. Before property can be taken, the condemnor shall show by a preponderance of the evidence that the public interest requires the taking based on the following findings:

(1) the use to which the property is to be applied is a use authorized by law;

(2) the taking is necessary to the use;

(3) if already being used for a public use, that the public use for which the property is proposed to be used is a more necessary public use;

(4) an effort to obtain the property interest sought to be taken was made by submission of a written offer and the offer was rejected.

70-30-202. Jurisdiction and venue — complaint and summons required. All proceedings under this chapter must be brought in the district court of the county in which the property or some part of the property is situated. A proceeding must be commenced by filing a complaint and issuing a summons. A summons served under this chapter must contain a notice to the condemnee to file and serve an answer. Within 6 months from the date that the summons is served, unless the court shortens or lengthens that time for good cause, the court, sitting without a jury, shall commence a trial on the issue of whether a preliminary condemnation order should be issued.

(f) a statement of the condemnor's claim of appropriate payment for damages to the property proposed to be taken as well as to any remaining parcel of property.

(2) If a right-of-way is sought, in addition to the items listed in subsection (1), the complaint must show the location, general route, and termini and must be accompanied with a map of the route, so far as the route is involved in the action or proceeding.

(i) the reservoir is subject to being taken by the plaintiff;

(ii) the underground storage of natural gas in the land sought to be taken is in the public interest;

(iii) the reservoir is suitable and practicable for natural gas storage;

70-30-206. Powers of court — preliminary condemnation order. (1) In a condemnation proceeding, the court may:

(a) regulate and determine the place and manner of:

(i) making the connections and crossings and enjoying the common uses mentioned in 70-30-103(1)(e); and

(ii) occupying canyons, passes, and defiles for railroad purposes, as permitted and regulated by the laws of this state or of the United States; or

(b) subject to 70-30-104(2), limit the interest in real property sought to be taken if in the opinion of the court the interest sought is not necessary.

(2) If the court finds and concludes from the evidence presented that the public interest requires the taking of an interest in real property and that the condemnor has met the burden of proof under 70-30-111, the court shall enter a preliminary condemnation order providing that the condemnation of the interest in real property may proceed in accordance with the provisions of this chapter.

(3) (a) If the property sought to be taken is a sand, stratum, or formation suitable for use as an underground natural gas storage reservoir and the existence and suitability of the property for that use has been proved by the condemnor based upon substantial evidence, the order of the court must direct the condemnation commissioners to determine the amount to be paid by the condemnor to each person for each person's interest in the property sought to be taken for use as an underground natural gas storage reservoir.

(b) In addition to or in lieu of the amount paid under subsection (3)(a), the court may direct the commissioners to determine the annual rental for:

(i) the use of the underground natural gas storage reservoir;

(ii) the use of so much of the surface as is required in the operation of the reservoir and for the use in connection with the creation, operation, and maintenance of the reservoir; and

(iii) all the native gas contained in the reservoir. However, the amount to be paid for the native gas may not be less than the market value of the gas.

(4) The court shall appoint three persons, qualified and recommended as experts by the board of oil and gas conservation, to assist and advise the commissioners in determining the compensation and damages to be paid by the condemnor to each person for each person's interest in the property sought to be taken. The fees and expenses of the experts are chargeable as costs of the proceedings to be paid by the condemnor.

(5) After a complaint as described in 70-30-203 is filed and prior to the issuance of the preliminary condemnation order, all parties shall proceed as expeditiously as possible, but without prejudicing any party's position, with all aspects of the preliminary condemnation proceeding, including discovery and trial. The court shall give the proceedings expeditious and priority consideration. The preliminary condemnation proceeding must be tried by the court sitting without a jury.

70-30-207. Appointment of condemnation commissioners — affidavit — compensation. (1) Within 30 days of entry of a preliminary condemnation order, the condemnee shall file a statement of the condemnee's claim of just compensation. If within 20 days of service of the condemnee's claim the condemnor fails to accept the claim, the court shall appoint condemnation commissioners. The commission hearing may be waived by written consent of both parties, in which case the proceeding must be conducted in the district court as if the case had been appealed from an award by the commissioners.

(2) The court shall appoint three qualified, disinterested condemnation commissioners, unless appointment has been waived. One of the commissioners must be nominated by the condemnor. One of the commissioners must be nominated by the condemnee. The third commissioner is the presiding officer and must be nominated by the two commissioners previously nominated. However, if the two commissioners fail to make the choice at the time of their appointment, then the nomination must be made by the presiding judge.

(3) Each commissioner:

(a) must have sufficient knowledge of the English language;

(b) must be a resident of a county within the judicial district in which the action is pending;

(c) may not be related within the sixth degree of consanguinity to any party; and

(d) may not stand in the relation of guardian and ward, master and servant, debtor and creditor, principal and agent, or partner or surety to any party.

(4) At the time of the meeting and nominations, there must be filed with the court by each nominating party or judge an affidavit of the person nominated stating substantially the following:

(a) that the person has not formed an unqualified opinion or belief as to the compensation to be awarded in the proceeding or as to the fairness or unfairness of the condemnor's offer for the lands and improvements of the condemnee;

(b) that the person has no enmity against or bias in favor of any party and has not discussed, communicated, overheard, or read any discussion or communication from any party relating to values of the lands in question or the compensation offered, demanded, or to be awarded;

(c) that if selected as a condemnation commissioner, the person is willing to serve and will try the issues of compensation and render a decision according to the evidence and in compliance with the instructions of the court; and

(d) that the person will not discuss the case with anyone except the other commissioners until a decision has been filed with the court.

(5) The court shall specify the compensation of the condemnation commissioners, which may not exceed $250 for each hearing day, including expenses. The condemnor shall pay the compensation of the commissioners.

Part 3
Hearing, Judgment, and Subsequent Proceedings

70-30-301. Hearing — judge to preside — determinations by condemnation commissioners. (1) The condemnation commissioners shall meet at the time and place stated in the order appointing them. The meeting time may not be more than 10 days after the order of appointment. The commissioners shall examine the lands sought to be taken. At a time appointed by the judge and within the 10-day period, the commissioners shall hear the allegations and evidence of all persons interested in each parcel of land.

(2) The hearing must be attended by and presided over by the presiding judge, who shall make all necessary rulings upon procedure and the admissibility of evidence.

(3) (a) At the conclusion of the hearing, the judge shall instruct the commissioners as to the law applicable to their deliberations and shall instruct them that their duty is to determine, based solely upon their examination of lands, the evidence produced at the hearing or hearings, and the instructions of the court, the appropriate findings provided for in subsections (3)(b) through (3)(d).

(b) The commissioners shall determine the current fair market value of the real property sought to be taken and all improvements pertaining to the real property and of each separate estate and interest in the real property and improvements. If the real property consists of different parcels, the current fair market value of each parcel and each estate or interest in the real property must be separately assessed.

(c) (i) If the property sought to be taken constitutes only a part of a larger parcel, the commissioners shall determine the depreciation in current fair market value that will accrue to the remaining parcel by reason of the condemnation and the construction of the improvements in the manner proposed by the condemnor.

(ii) The commissioners shall also determine how much the remaining parcel and each estate or interest in the remaining parcel will be benefited, if at all, by the construction of the improvements proposed by the condemnor. If the benefit is equal to the amount assessed under subsection (3)(c)(i), the compensation to the condemnee is limited to the value of the portion taken. However, if the benefit is less than the amount assessed under subsection (3)(c)(i), the benefit to the condemnee must be deducted from the amount assessed under subsection (3)(c)(i) and the remainder is the only amount allowed in addition to the current fair market value.

(d) If the property sought to be taken is for a railroad, the commissioners shall also determine the cost of good and sufficient fences along the line of the railroad and the cost of cattle guards where fences may cross the line of the railroad.

(e) Through examination of the property, the commissioners shall determine the appropriate payment for damages to the property taken, as well as to any remaining parcel of property that may be adversely impacted by the project, to assist the court in making a final determination pursuant to 70-30-309.

(4) When there are two or more estates or divided interests in property sought to be taken, the condemnor is entitled to have the amount of the award for the property first determined as between the condemnor and all condemnees claiming any interest in the property. In the same proceeding, the respective rights of each of the condemnees in and to the total award must be determined by the commissioners, under supervision and instruction of the court, and the award must be apportioned accordingly.

History: En. Sec. 608, 1st Div. Comp. Stat. 1887; amd. Sec. 1, p. 269, L. 1891; amd. Sec. 2221, C. Civ. Proc. 1895; re-en. Sec. 7341, Rev. C. 1907; re-en. Sec. 9944, R.C.M. 1921; Cal. C. Civ. Proc. Sec. 66, Ch. 125, L. 2001.

70-30-302. Assessing compensation — date and measure — interest. (1) For the purpose of assessing compensation, the right to compensation is considered to have accrued at the date of the service of the summons, and the property's current fair market value as of that date is the measure of compensation for all property to be actually taken and the basis of depreciation in the current fair market value of property not actually taken but injuriously affected. This subsection may not be construed to limit the amount of compensation payable by the department of transportation under the provisions of any legislation enacted pursuant to the federal Highway Beautification Act of 1965.

(2) If an order is made allowing the condemnor to take possession, as provided in 60-4-104(4) and (5) and 70-30-311, the full amount finally awarded must draw interest at the rate of 10% a year from the date of the service of the summons to the earlier of the following dates:

(a) the date on which the right to appeal to the Montana supreme court expires or, if an appeal is filed, the date of final decision by the supreme court; or

(b) the date on which the condemnee withdraws from the court the full amount finally awarded.

(3) If the condemnee withdraws from the court a fraction of the amount finally awarded, interest on that fraction ceases on the date it is withdrawn but interest on the remainder of the amount finally awarded continues to the earlier of the dates referred to in subsections (2)(a) and (2)(b) until the full amount is withdrawn from the court.

(4) None of the amount finally awarded draws interest after the date on which the right to appeal to the Montana supreme court expires.

(5) Improvements put upon the property subsequent to the date of the service of summons may not be included in the assessment of compensation or depreciation in current fair market value and may not be used as the basis of computing compensation or depreciation.

70-30-303. Final report and award of condemnation commissioners — procedure on failure to agree. (1) The report of the condemnation commissioners must be made on forms that are provided for their use by the court. The report must be filed within 10 days after the completion of the hearing or within any additional time allowed by the judge upon a clear showing of necessity. 70-30-304. Appeal to district court from assessment of condemnation commissioners. (1) Any party may appeal from any assessment made by the condemnation commissioners in the court in which the report of the commissioners is filed. The appeal must be taken within 30 days after the service upon the parties of the notice of the filing of the award. The appealing party shall serve notice of the appeal upon the opposing party or the opposing party's attorney and shall file the notice of appeal in the district court in which the action is pending. The appeal must be tried upon the same notice and in the same manner as other civil actions. Unless a jury is waived by the consent of all parties to the appeal, the appeal must be tried by a jury. The amount to which the condemnee may be entitled, by reason of the taking of the condemnee's property, must be reassessed as prescribed in this part for the assessment of that amount by the commissioners.

(2) Upon any verdict or assessment by the commissioners becoming final, judgment must be entered declaring that upon payment of the amount of the verdict or assessment, together with the interests and costs allowed by law, if any, the condemnor has the right to construct and maintain the public use project and to take the property described in the verdict or assessment for the use and purposes for which the property has been taken. The rights granted in the verdict or assessment remain in the condemnor and the condemnor's heirs, successors, or assigns forever.

(3) If the party appealing from the award of the commissioners does not succeed in changing to the appellant's advantage the amount finally awarded in the proceeding, the appellant may not recover the costs of the appeal, but all the costs of the appellee in the appeal must be taxed against and recovered from the appellant. However, upon the trial of the appeal, the appellant may contest the right of any party to any of the property mentioned and set forth or involved in the appeal that was located after the preliminary survey of any highway or railroad, seeking to condemn a right-of-way pursuant to the provisions of this chapter if the condemnation proceedings are begun within 1 year after the preliminary survey.

70-30-305. Condemnor to make offer upon appeal — award of expenses of litigation. (1) The condemnor shall, within 30 days after an appeal is perfected from the condemnation commissioner's award or report or not more than 60 days after the waiver of appointment of commissioners, submit to the condemnee a written final offer of judgment for the property sought to be taken, together with the accrued necessary expenses of the condemnee. If at any time prior to 10 days before trial the condemnee serves written notice that the offer is accepted, either party may then file the offer and notice of acceptance, together with proof of service of the acceptance, and judgment must be entered. An offer not accepted is considered withdrawn and evidence of the offer is not admissible at the trial except in a proceeding to determine costs. The fact that an offer is made but not accepted does not preclude a subsequent offer.

(2) In the event of litigation and when the condemnee prevails by receiving an award in excess of the final offer of the condemnor, the court shall award necessary expenses of litigation to the condemnee.

(2) Reasonable and necessary attorney fees are the customary hourly rates for an attorney's services in the county in which the trial is held. Reasonable and necessary attorney fees must be computed on an hourly basis and may not be computed on the basis of any contingent fee contract.

(3) Reasonable and necessary expert witness fees may not exceed the customary rate for the services of a witness of that expertise in the county in which the trial is held.

70-30-307. When payment of compensation to be made — deposit of bond. In a proceeding for condemnation for a railroad, the condemnor shall within 30 days after final judgment pay the sum of money assessed but may at the time of or before the payment elect to build any required fences and cattle guards. A condemnor who elects to build the required fences and cattle guards shall execute to the condemnee a bond with sureties to be approved by the court, in double the assessed cost of the fences and cattle guards, conditioned upon building the fences and cattle guards within 8 months from the time the railroad is built on the land taken. If the bond is given, the condemnor is not required to pay the cost of the fences and cattle guards. In an action on the bond, the condemnee may recover reasonable attorney fees.

70-30-308. How payment made — execution or annulment for nonpayment. (1) Payment may be made to the condemnee, or the money may be deposited in court for the condemnee and be distributed pursuant to the assessment or judgment. However, at the option of the condemnee, payments may be made:

(a) on an annual basis, using the installment contract method; or

(b) if other land is reasonably available and the condemnor consents, by means of a land exchange between the condemnee and condemnor if the land to be provided by the condemnor in the exchange is of equal or more value than the land being condemned.

(2) If the money is not paid or deposited, the condemnee may have execution as in civil cases, and if the money cannot be executed upon, the court, upon a showing to that effect, shall set aside and annul the entire proceedings and restore possession of the property to the condemnee if possession has been taken by the condemnor.

(1) When payments have been made and the bond, if appropriate, has been given as required by 70-30-307 and 70-30-308, the court shall make a final order of condemnation. The order must describe the property condemned, the purposes of the condemnation, and any appropriate payment for damages to the property actually taken as well as to any remaining parcel of property that may be adversely affected by the taking.

(2) A copy of the order must be filed in the office of the county clerk and recorder, and upon filing, the property described in the order vests in the condemnor for the purposes specified in the order.

70-30-310. New proceedings to cure defective title. If the title to property attempted to be acquired is found to be defective from any cause, the condemnor may again institute proceedings to acquire the property, as prescribed in this chapter.

70-30-311. Putting condemnor in possession. (1) At any time after the filing of the preliminary condemnation order pursuant to 70-30-206 or an order as provided in 60-4-104(4) and (5) and while it retains jurisdiction, the court upon application of the condemnor may make an order that:

(a) upon payment into court of the amount of compensation claimed by the condemnee in the condemnee's statement of claim of just compensation under 70-30-207 or the amount assessed either by the commissioners or by the jury, the condemnor is authorized:

(i) if already in possession of the property of the condemnee that is sought to be taken, to continue in possession; or

(ii) if not in possession, to take possession of the property and use and possess the property during the pendency and until the final conclusion of the proceedings and litigation; and

(b) all actions and proceedings against the condemnor on account of the possession are stayed until the final conclusion of the proceedings and litigation.

(2) If the condemnee fails to file a statement of claim of just compensation within the time specified in 70-30-207, the condemnor may obtain an order for possession provided for in subsection (1), subject to the condition subsequent that a condemnor's payment into court must be made within 10 days of receipt of the condemnee's statement of claim.

(3) However, when an appeal is taken by the condemnee, the court may require the condemnor before continuing or taking possession, in addition to paying into court the amount assessed, to give a bond or undertaking with sufficient sureties approved by the court and in an amount that the court may direct, conditioned to pay the condemnee any additional damages and costs above the amount assessed, which is finally determined as the amount that the condemnee is entitled to for the taking of the property, and all damages that the condemnee may sustain if for any cause the property is not finally taken for public use.

(4) The amount assessed by the commissioners or by the jury on appeal is considered, for the purposes of this section and until reassessed or changed in the further proceedings, as just compensation for the property taken. However, the condemnor, by payment into court of the amount claimed in the answer or the amount assessed or by giving security as provided in subsection (3), may not be prevented from appealing from the assessment but may appeal in the same manner and with the same effect as if money had not been deposited or security had not been given.

(5) (a) Subject to subsection (5)(b), in all cases in which the condemnor deposits the amount of the assessment and continues in possession or takes possession of the property, as provided in this section, the condemnee, if there is no dispute as to the ownership of the property, may at any time demand and receive upon order of the court all or any part of the money deposited. The demand or receipt may not preclude the condemnee's right of appeal from the assessment.

However, if the amount of the assessment is finally reduced on appeal by either party, the condemnee who has received all or any part of the amount deposited is liable to the condemnor for any excess of the amount received over the amount finally assessed, with legal interest on the excess from the time the condemnee received the money deposited. The excess, plus interest, may be recovered by a civil action. Upon any appeal from an assessment by the commissioners to a jury, the jury may make a finding for any amount that it considers appropriate.

(b) The court may not order the delivery to any condemnee of more than 75% of the money deposited on the condemnee's account except upon posting of bond by the condemnee equal to the amount in excess of 75%, with sureties to be approved by the court, to repay to the condemnor amounts withdrawn that are in excess of the condemnee's final award in the proceedings.

(2) If the seller decides to sell an interest in real property as set forth in subsection (1), the seller shall publish notice of the public sale in a newspaper published in the county in which the real property is located once a week for 4 successive weeks. If more than one person claims an equal entitlement, the option may not be exercised.

(2) A condemnee or a condemnee's successor in interest who is liable for damages under subsection (1) is severally liable only and is responsible only for the percentage of negligence attributable to the condemnee or the condemnee's successor in interest.

(3) If a condemnee or a condemnee's successor in interest is joined in an action for damages that are alleged to result from the construction, use, or maintenance of a project on property in which the condemnee or the condemnee's successor in interest has an interest, the project owner or operator is liable for the costs and attorney fees incurred by the condemnee or the condemnee's successor in interest unless the condemnee or the condemnee's successor in interest is found liable for damages under subsections (1) and (2).

Part 3

Rights and Duties Relating to Condemnation

70-31-301. Appraisal, negotiation, and other condemnation policies mandated. An agency that acquires real property for a program or project (for which federal financial assistance will be available to pay all or any part of the cost of the program or project) shall comply with the following policies:

(1) The agency shall make every reasonable effort to expeditiously acquire real property by negotiation.

(2) Real property must be appraised before the initiation of negotiations, and the owner or the owner's designated representative must be given an opportunity to accompany the appraiser during the appraiser's inspection of the property. The head of the agency may prescribe a procedure to waive the appraisal in cases involving the acquisition by sale or donation of property with a low fair market value.

(3) Before the initiation of negotiations for real property, an amount must be established that is reasonably believed to be just compensation for the property or interest taken, and that amount must be offered for the property. The amount may not be less than the approved appraisal of the fair market value of the property. Any decrease or increase in the fair market value of real property prior to the date of valuation caused by the public improvement for which the property is acquired or by the likelihood that the property would be acquired for the improvement, other than an amount due to physical deterioration within the reasonable control of the owner, must be disregarded in determining the compensation for the property. The owner of the real property to be acquired must be provided with a written statement of and summary of the basis for the amount established as just compensation. When appropriate, the just compensation for the real property acquired and for damages to remaining real property must be separately stated.

(4) An owner may not be required to surrender possession of real property before the agreed purchase price is paid or before there is deposited with the court, in accordance with applicable law, for the benefit of the owner, an amount not less than the approved appraisal of the fair market value of the property or the amount of the award of compensation in the condemnation proceeding of the property.

(5) The construction or development of a program or project (for which federal financial assistance will be available to pay all or any part of the cost of the program or project) must be scheduled so that, to the greatest extent practicable, a person lawfully occupying real property is not required to move from a dwelling (assuming a replacement dwelling will be available) or to move the person's business or farm operation without at least 90 days' written notice of the date by which a move is required.

(6) If an owner or tenant is permitted to occupy the real property acquired on a rental basis for a short term or for a period subject to termination by the acquiring agency on short notice, the amount of rent required may not exceed the fair rental value of the property to a short-term occupier.

(7) The time of condemnation may not be advanced, negotiations or condemnation and the deposit of funds in court for the use of the owner may not be deferred, and any other action coercive in nature may not be taken to compel an agreement on the price to be paid for the property.

(8) If an interest in real property is to be acquired by exercise of the power of eminent domain, formal condemnation proceedings must be instituted as provided in Title 70, chapter 30. The acquiring agency may not intentionally make it necessary for an owner to institute legal proceedings to prove the fact of the taking of the owner's real property.

(9) If the acquisition of only part of the property would leave its owner with an uneconomic remnant, an offer to acquire the uneconomic remnant must be made.

(10) A person whose real property is being acquired may, after being fully informed of the person's right to receive just compensation, donate to an agency the property, any interest in the property, or any compensation received for the property.

History: En. Sec. 11, Ch. 3, 2nd Ex. L. 1971; R.C.M. 1947, 93-9937; amd. Sec. 5, Ch. 374, L. 1989; amd. Sec. 85, Ch. 125, L. 2001.

70-31-302. Reimbursement of closing costs and taxes incurred by owner. Any agency acquiring real property for a program or project (for which federal financial assistance will be available to pay all or any part of the cost of the program or project) shall, as soon as practicable after the date of payment of the purchase price or the date of deposit into court of funds to satisfy the award of compensation in a condemnation proceeding to acquire real property, whichever is the earlier, reimburse the owner to the extent the acquiring agency deems fair and reasonable for:

(1) expenses he necessarily incurred for recording fees, transfer taxes, and similar expenses incidental to conveying such real property to the acquiring agency;

(2) penalty costs for prepayment for any preexisting recorded mortgage or deed of trust entered into in good faith encumbering such real property; and

(3) the pro rata portion of real property taxes paid which are allocable to a period subsequent to the date of vesting title in the acquiring agency or the effective date of possession of such real property by the acquiring agency, whichever is the earlier.

History: En. Sec. 12, Ch. 3, 2nd Ex. L. 1971; R.C.M. 1947, 93-9938.

70-31-303. Inverse condemnation — reimbursement of expenses of proceeding. Where an inverse condemnation proceeding is instituted by the owner of any right, title, or interest in real property because of the alleged taking of his property for any program or project (for which federal financial assistance will be available to pay all or any part of the cost of the program or project), the court rendering a judgment for the plaintiff in such proceeding and awarding compensation for the taking of property or attorney for the acquiring agency effecting a settlement of any such proceeding shall determine and award or allow to such plaintiff as a part of such judgment or settlement such sum as will, in the opinion of the court or such attorney, reimburse such plaintiff for his reasonable costs, disbursements, and expenses including reasonable attorney, appraisal, and engineering fees actually incurred because of such proceeding.

History: En. Sec. 14, Ch. 3, 2nd Ex. L. 1971; R.C.M. 1947, 93-9940.

70-31-304. Reimbursement of costs when condemnation proceedings dismissed or abandoned. Where a condemnation proceeding is instituted by an agency to acquire real property for a program or project (for which federal financial assistance is available) and the final judgment is that the real property cannot be acquired by condemnation or that the proceeding is abandoned, the owner of any right, title, or interest in such real property shall be paid such sum as will, in the opinion of the court, reimburse such owner for his reasonable attorney, appraisal, and engineering fees actually incurred because of the condemnation proceedings. The award of such sums will be paid by the agency which sought to condemn the property.

History: En. Sec. 13, Ch. 3, 2nd Ex. L. 1971; R.C.M. 1947, 93-9939.

70-31-305. Acquisition of buildings and improvements affected. (1) Where any interest in real property is acquired for a program or project (for which federal assistance will be available to pay all or any part of the cost of the program or project), the acquiring agency shall acquire an equal interest in all buildings, structures, or other improvements located upon the real property so acquired and which are required to be removed from such real property or which the acquiring agency determines will be adversely affected by the use to which such real property will be put.

(2) For the purpose of determining the just compensation to be paid for any building, structure, or other improvement required to be acquired by subsection (1) of this section, such building, structure, or other improvement shall be deemed to be a part of the real property to be acquired notwithstanding the right or obligation of a tenant, as against the owner of any other interest in the real property, to remove such building, structure, or improvement at the expiration of his term; and the fair market value which such building, structure, or improvement contributes to the fair market value of the real property to be acquired or the fair market value of such building, structure, or improvement for removal from the real property, whichever is the greater, shall be paid to the tenant therefor.

(3) Payment for such buildings, structures, or improvements as set forth in subsection (2) shall not result in duplication of any payments otherwise authorized by state law. No such payment shall be made unless the owner of the land involved disclaims all interest in the improvements of the tenant. In consideration for any such payment, the tenant shall assign, transfer, and release all his right, title, and interest in and to such improvements. Nothing in this subsection or subsection (2) shall be construed to deprive the tenant of any rights to reject payment and to obtain payment for such property interests in accordance with other laws of the state.

History: En. Sec. 15, Ch. 3, 2nd Ex. L. 1971; R.C.M. 1947, 93-9941.

70-31-306 through 70-31-310 reserved.

70-31-311. Relocation payments and assistance. For any project that results in the displacement of a person from the person's home, business, or farm and for which federal financial assistance may be available to pay all or any part of the cost of displacement, an entity of the state or any public or private entity that has the authority to acquire property by eminent domain under Title 60, chapter 4, or Title 70, chapter 30, is authorized to provide relocation assistance and to make relocation payments to the full extent permitted by the federal relocation assistance law, 42 U.S.C. 4601, et seq., as amended. The entity is authorized to do what may be necessary or required to obtain for property owners the full benefit of federal relocation assistance, including the adoption of methods of administration that may be required by federal law or rules to carry out the operation of relocation assistance.

History: En. Sec. 3, Ch. 374, L. 1989; amd. Sec. 86, Ch. 125, L. 2001.

Part 1
Establishment of the Homestead

70-32-101. Of what homestead consists. The homestead consists of the dwelling house or mobile home, and all appurtenances, in which the claimant resides and the land, if any, on which the same is situated, selected as provided in this chapter.

History: En. Sec. 1670, Civ. C. 1895; re-en. Sec. 4694, Rev. C. 1907; re-en. Sec. 6945, R.C.M. 1921; Cal. Civ. C. Sec. 1237; re-en. Sec. 6945, R.C.M. 1935; R.C.M. 1947, 33-101; amd. Sec. 1, Ch. 370, L. 1981.

70-32-102. Repealed. Sec. 9, Ch. 370, L. 1981.

History: En. Sec. 1671, Civ. C. 1895; re-en. Sec. 4695, Rev. C. 1907; re-en. Sec. 6946, R.C.M. 1921; Cal. Civ. C. Sec. 1238; re-en. Sec. 6946, R.C.M. 1935; amd. Sec. 1, Ch. 1, L. 1975; R.C.M. 1947, 33-102; amd. Sec. 2, Ch. 370, L. 1981.

70-32-104. Limitation on value. (1) A homestead may not exceed $100,000 in value. In a proceeding instituted to determine the value of the homestead, the assessed value of the land with included appurtenances, if any, and of the dwelling house as it appears on the last-completed assessment roll preceding the institution of the proceeding is prima facie evidence of the value of the property claimed as a homestead.

(2) If a claimant who is an owner of an undivided interest in real property claims a homestead exemption, the claimant is limited to an exemption amount proportional to the claimant's undivided interest.

If from the report it appears to the judge that the land claimed can be divided without material injury, he must by an order direct the appraisers to set off to the claimant so much of the land, including the residence, as will amount in value to the homestead exemption, and the execution may be enforced against the remainder of the land.

71-1-206. Future advances. (1) The amount of future advances or total indebtedness that may be outstanding at any given time and subject to mortgage protection must be stated in the mortgage. The mortgagee may reserve the right, at the mortgagee's option, to refuse to make all or any part of a future advance. The total amount of indebtedness that may be secured by the mortgage may decrease or increase from time to time, but the total principal amount of the obligations secured at any one time may not exceed the face amount stated in the mortgage together with interest as provided in the instrument secured by the mortgage.

(2) The lien for the stated amount of future advances or total indebtedness shall, notwithstanding the fact that from time to time during the term of the mortgage no indebtedness is due from the mortgagor to the mortgagee, have priority to the same extent as if the amount thereof had been actually advanced by the mortgagee to the mortgagor at the time of the execution of the mortgage. The lien extends to interest as provided in the instrument secured by the mortgage.

(3) The mortgagee shall, upon demand of the mortgagor or a creditor, furnish a statement of all such advances and amounts paid on the principal sum secured, provided such statement shall not impair or affect the lien created for all advances. Upon receipt of such statement or at any other time following the execution and delivery of the mortgage, the mortgagor may deliver written notice, duly acknowledged, to the mortgagee plainly stating that the mortgagor does not desire to request or apply for any future advances if none have been allowed or for any further advances if additional advances have in fact been theretofore allowed under the mortgage, clearly identifying the mortgage by reference to its date, the parties thereto, and the principal amount of the original indebtedness and the limit placed on contemplated future advances, if allowed. Upon the recording of such written notice by the mortgagor in the county and counties where the mortgage is recorded, the lien of the mortgage shall continue to have priority, but only for the aggregate amount of the indebtedness then existing, including any advances theretofore made, interest due, and other charges as evidenced by the original loan-contract and indebtedness thereafter accumulating on such basis, exclusive of any other future advances originally contemplated. The mortgagor retains the right to demand satisfaction of the mortgage at any time the balance is zero.

71-1-207. Recording of mortgages and assignments. (1) Mortgages of real property may be acknowledged or proved, certified, and recorded in like manner and with like effect as grants thereof.

71-1-222. Proceedings in foreclosure suits. (1) There is only one action for the recovery of debt or the enforcement of any right secured by a mortgage upon real estate, and that action must be in accordance with the provisions of this part. In the action, the court may, by its judgment, direct:

(a) a sale of the encumbered property or as much of the property as may be necessary;

(b) the application of the proceeds of the sale, including the payment of property taxes due at the time of foreclosure; and

(c) the payment of the costs of the court, the expenses of the sale, and the amount due the plaintiff.

(2) If it appears from the sheriff's return that the proceeds are insufficient and a balance still remains due, judgment can then be docketed for the balance against the defendant or defendants personally liable for the debt, and it becomes a lien upon the real estate of the judgment debtor, as in other cases on which execution may be issued.

(3) A person holding a conveyance from or under the mortgagor of the property mortgaged or having a lien on the property, which conveyance or lien does not appear of record in the proper office at the time of the commencement of the action, does not have to be made a party to the action. The judgment and the proceedings are as conclusive against the party holding the unrecorded conveyance or lien as if the holding party had been made a party to the action.

(4) The one-action limitation in this section does not prohibit an act or proceeding:

(a) to appoint a receiver for or obtain possession of real or personal property collateral for the debt or other obligation;

(b) to enforce a security interest in or the assignment of any rents, issues, profits, or other income of any real or personal property;

(c) to enforce a mortgage or other lien on real or personal property collateral located outside this state that is security for the same debt or other right secured by real property in this state;

(d) to secure a judgment outside this state on a debt or other right secured by real property in this state and by real or personal property collateral located outside this state;

(e) for the exercise of a power of sale conferred pursuant to the provisions of 71-1-223 or a foreclosure by advertisement and sale pursuant to Title 71, chapter 1, part 3;

(f) for the exercise of a right or remedy under the Montana Uniform Commercial Code, except securing a judgment on a secured debt, including a deficiency judgment on a secured debt, in a court in Montana;

(g) for the exercise of a right or remedy under the uniform commercial code of another state;

(h) for claim and delivery of personal property pursuant to the provisions of Title 27, chapter 17;

(i) for the exercise of a right to set off a deposit or share account, to enforce a pledge in a deposit or share account pursuant to a written agreement or pledge, or to enforce a financial institution's statutory lien;

(j) to draw under a letter of credit;

(k) for the recovery of damages arising from the commission of a tort or the recovery of any declaratory or equitable relief;

(l) to collect a debt or enforce a right or obligation secured by a junior mortgage or other junior lien on real property if the property has been sold to satisfy, in whole or in part, a debt or other right or obligation secured by a senior mortgage or other senior lien on the property;

(m) concerning a mortgage securing a debt or right guaranteed, to enforce an agreement with a surety or guarantor of the debt or right secured by a mortgage on real estate, if the surety or guaranty obligation is not secured by the same mortgage;

(n) relating to a proceeding in bankruptcy, including filing a proof of claim, to seek relief from an automatic stay and any other action to determine the amount or validity of a debt or right or obligation secured by a mortgage;

(o) for filing a claim or to enforce a claim disallowed pursuant to the Montana Uniform Probate Code;

(p) that does not include collection of the debt or realization of the collateral securing the debt or other obligation;

(q) that is exempted from the provisions of this section by law;

(r) to recover costs of suit, costs and expenses of sale, attorney fees, and other incidental relief in connection with any act or proceeding authorized in this subsection (4); or

(s) for recovery of a debt or for enforcement of a right secured by a mortgage when the mortgage security in this state has become valueless through no fault of the mortgagee.

71-1-229. Possession of lands prior to foreclosure upon default and during period of redemption. The purchaser of lands at mortgage foreclosure is not entitled to the possession thereof as against the execution debtor during the period of redemption allowed by law while the execution debtor personally occupies the land as a home for himself and his family. It is unlawful to insert in any mortgage of real estate any provision intended to constitute a waiver by the owner of real estate personally occupying land as a home for himself and family of the provision of this section or any provision intended to give the mortgagee possession of the land or premises prior to foreclosure upon default of tax, principal, or interest payments. The intention hereof is to insure to such owner the possession of his land prior to foreclosure and during the year of redemption.

Small Tract Financing

71-1-301. Short title. This part may be cited as the "Small Tract Financing Act of Montana".

History: **En. Sec. 1, Ch. 177, L. 1963; R.C.M. 1947, 52-401.**

71-1-302. Policy. Because the financing of homes and business expansion is essential to the development of the state of Montana and because financing of homes and business expansion, usually involving areas of real estate of not more than 40 acres, has been restricted by the laws relating to mortgages of real property and because more financing of homes and business expansion is available if the parties can use security instruments and procedures not subject to all the provisions of the mortgage laws, it is the public policy of the state of Montana to permit the use of trust indentures for estates in real property of not more than 40 acres as provided in this part.

History: **En. Sec. 2, Ch. 177, L. 1963; amd. Sec. 1, Ch. 337, L. 1974; R.C.M. 1947, 52-402; amd. Sec. 1, Ch. 114, L. 1989; amd. Sec. 2, Ch. 30, L. 2001.**

71-1-303. Definitions. As used in this part, unless the context requires otherwise, the following definitions apply:

(1) "Beneficiary" means the person named or otherwise designated in a trust indenture as the person for whose benefit a trust indenture is given or the person's successor in interest, who may not be the trustee.

(2) "Grantor" means the person conveying real property by a trust indenture as security for the performance of an obligation.

(3) "Trust indenture" means an indenture executed in conformity with this part and conveying real property to a trustee in trust to secure the performance of an obligation of the grantor or other person named in the indenture to a beneficiary.

(4) "Trustee" means a person to whom the legal title to real property is conveyed by a trust indenture or the person's successor in interest.

History: **En. Sec. 3, Ch. 177, L. 1963; amd. Sec. 2, Ch. 337, L. 1974; R.C.M. 1947, 52-403(part); amd. Sec. 2, Ch. 114, L. 1989; amd. Sec. 3, Ch. 30, L. 2001.**

71-1-304. Trust indentures authorized — power of sale for breach in trustee. (1) A transfer in trust of an interest in real property of an area not exceeding 40 acres may be made to secure the performance of an obligation of a grantor or any other person named in the indenture to a beneficiary. However, a trust indenture may not be substituted for a mortgage that was in existence on March 5, 1963.

(2) When a transfer in trust of an interest in real property is made to secure the performance of the obligation referred to in subsection (1), a power of sale is conferred upon the trustee to be exercised after a breach of the obligation for which the transfer is security.

(3) A trust indenture executed in conformity with this part may be foreclosed by advertisement and sale in the manner provided in this part or, at the option of the beneficiary, by judicial procedure as provided by law for the foreclosure of mortgages on real property. The power of sale may be exercised by the trustee without express provision in the trust indenture.

(4) If a trust indenture states that the real property involved does not exceed 40 acres, the statement is binding upon all parties and conclusive as to compliance with the provisions of this part relative to the power to make a transfer, trust, and power of sale.

History: **(1) thru (3)En. Sec. 4, Ch. 177, L. 1963; amd. Sec. 3, Ch. 337, L. 1974; Sec. 52-404, R.C.M. 1947; (4)En. Sec. 3, Ch. 177, L. 1963; amd. Sec. 2, Ch. 337, L. 1974; Sec. 52-403, R.C.M. 1947; R.C.M. 1947, 52-403(part), 52-404; amd. Sec. 3, Ch. 114, L. 1989; amd. Sec. 4, Ch. 30, L. 2001.**

71-1-305. Trust indenture considered to be mortgage on real property. A trust indenture is deemed to be a mortgage on real property and is subject to all laws relating to mortgages on real property except to the extent that such laws are inconsistent with the provisions of this part, in which event the provisions of this part shall control. For the purpose of applying the mortgage laws, the grantor in a trust indenture is deemed the mortgagor and the beneficiary is deemed the mortgagee.

History: **En. Sec. 17, Ch. 177, L. 1963; R.C.M. 1947, 52-417.**

(b) a bank, trust company, or savings and loan association authorized to do business in Montana under the laws of Montana or the United States; or

(c) a title insurer or title insurance producer or agency authorized to do business in Montana under the laws of Montana.

(2) The beneficiary may appoint a successor trustee at any time by filing for record, in the office of the clerk and recorder of each county in which the trust property or some part of the trust property is situated, a substitution of trustee. The substitution must identify the trust indenture by stating the names of the original parties to the trust indenture and the date of recordation and the book and page where the information is recorded, must state the name and mailing address of the new trustee, and must be executed and acknowledged by all of the beneficiaries designated

in the trust indenture or their successors in interest. From the time the substitution is filed for record, the new trustee is vested with all the power, duties, authority, and title of the trustee named in the trust indenture and of any successor trustee.

(3) If the default is cured and the obligation and the trust indenture reinstated in the manner hereinabove provided, the beneficiary or his assignee shall, on demand of any person having an interest in the trust property, execute, acknowledge, and deliver to him a request that the trustee execute, acknowledge, and deliver a cancellation of the recorded notice of sale under such trust indenture.

(5) A cancellation of a recorded notice of sale shall, when executed and acknowledged, be entitled to be recorded and shall be sufficient if it sets forth a reference to the trust indenture and the book and page where the same is recorded, a reference to the notice of sale and to the book and page where the same is recorded, and a statement that such notice of sale is canceled.

(iv) any successor in interest to the grantor whose interest and address appear of record at the filing date and time of the notice of sale, at such address;

(v) any person having a lien or interest subsequent to the interest of the trustee and whose lien or interest and address appear of record at the filing date and time of the notice of sale, at such address.

The person making the sale may, for any cause he deems expedient, postpone the sale for a period not exceeding 15 days by public proclamation at the time and place fixed in the notice of sale. No other notice of the postponed sale need be given. In the event a sale cannot be held at the scheduled time by reason of the automatic stay provision of the United States Bankruptcy Code, 11 U.S.C. 362, or of a stay order issued by any court of competent jurisdiction, the person making the sale may, as often as he considers expedient, postpone the sale. Each postponement may not exceed 30 days, and all postponements, in the aggregate, may not exceed 120 days. Service of notice herein required may be made upon the officer charged with the execution of such writ in one or more cases that may be pending against such person, who shall forthwith serve such notice and claim, by copy, upon the parties plaintiff and defendant, if found in the county where such action is pending, or upon their respective attorneys employed in such case or cases pending.

(2) Service may be made in any case at any time before the actual sale of the property levied upon in such pending action, and unless such claim is disputed by the debtor or a creditor or party plaintiff, such officer must pay such person out of the proceeds of the sale the amount he is entitled to receive for services rendered within the 4 months next preceding the levy of the writ, not exceeding the amount actually owed.

The officer must retain possession of so much of the proceeds of the sale as may be necessary to satisfy such claim and costs until the final determination of such action. In case judgment be had, the costs are a preferred claim, which may include a reasonable attorney's fee.

(2) The debtor or creditor intending to dispute any claim presented under the provisions of 71-3-303 shall, within 10 days after receiving notice of such claim, serve upon the claimant and officer holding such execution, attachment, or other writ a statement in writing, verified by the oath of the debtor or person disputing such claim for services, setting forth that no part of said claim, not exceeding a sum specified, is justly due from the debtor to the claimant for services rendered within the 4 months next preceding the levy of the execution, attachment, or other writ, as the case may be.

(3) If the claimant brings suit on a claim which is disputed in part only and fails to recover a sum exceeding that which was admitted to be due, he shall not recover costs, but costs shall be adjudged against him. Part 4
Farm Laborers' Liens

71-3-401. Who may have lien — priority. (1) Any person who performs services for another in the capacity of a farm or ranch laborer has a lien on all crops of every kind grown, raised, or harvested by the person for whom the services were performed during that time as security for the payment of any wages due or owing to such persons for services so performed.

(2) The lien has priority over all other liens, chattel mortgages, or encumbrances except feed sufficient for 3 months for 1 horse, 2 cows and their calves, 4 hogs, and 50 domestic fowls and seed grain and threshers' liens. The wages for which a lien may be claimed may not be in excess

of $1,000 or for a period of time exceeding 60 days next preceding the date of filing the lien. In case any such person without cause quits his employment before the expiration of the time for which he is employed, he is not entitled to a lien as herein provided.

(3) If several persons have or obtain liens under the provisions of this part against property of the same employer, they have no priority among themselves but all must be paid pro rata from the proceeds of any foreclosure sale according to the provisions of this part.

Any other labor lienholder to whom notice is given may join in the foreclosure proceedings and is entitled to a pro rata share of the proceeds of the foreclosure sale, as provided in this part. However, if the notified labor lienholder does not join in the proceedings, he is not entitled to share pro rata in the proceeds of the sale.

(2) The lien notice required herein must be given by certified mail and directed to the last-known address of the owner or the person against whom the lien is claimed and to the addresses of the chattel mortgagees, encumbrancers, and all other lienholders as their addresses appear of record. (i) a contract for the mining or removal of timber, minerals, gravel, soil, sod, or things growing on the land or a similar contract in which the activity is primarily for the purpose of making the materials available for sale or use; or

History: En. Sec. 3, Ch. 202, L. 1987.

71-3-524. Limitation of lien for materials supplied. (1) A lien for furnishing materials arises only if:

(a) (i) the materials are supplied with the intent that they be used in the course of construction of or incorporated into the improvement in connection with which the lien arises; and

(ii) the intent described in subsection (1)(a)(i) can be shown by a contract of sale, a delivery order, delivery to the site by the lien claimant or at his direction, or by other evidence; and

(b) the materials are:

(i) incorporated in the improvement or consumed as normal wastage in construction operations;

(ii) specifically fabricated for incorporation into the improvement and not readily resalable in the ordinary course of the fabricator's business, even though the materials are not actually incorporated into the improvement;

(iii) used for the construction or operation of machinery or equipment used in the course of construction and not remaining in the improvement, subject to diminution by the salvage value of those materials; or

(iv) tools, appliances, or machinery used on the particular improvement. However, a lien for supplying tools, appliances, or machinery used on the improvement is limited as provided by subsection (3).

(2) The delivery of materials to the site of the improvement, whether by the lien claimant or by another, creates a presumption that they were used in the course of construction or were incorporated into the improvement.

(3) A lien arising for the supplying of tools, appliances, or machinery under subsection (1)(b)(iv) is limited as follows:

(a) if they are rented, the lien is for the reasonable rental value for the period of actual use, including any reasonable periods of nonuse provided for in the rental contract; and

(b) if they are purchased, the lien is for the price but arises only if they were purchased for use in the course of the particular improvement and have no substantial value after the completion of the improvement on which they were used.

History: En. Sec. 4, Ch. 202, L. 1987.

71-3-525. Extent of lien. (1) A construction lien extends to the interest of the contracting owner in the real estate, as the interest exists at the commencement of work or is thereafter acquired in the real estate, subject to the provisions of this section.

(2) (a) If an improvement is located wholly on one or more platted lots belonging to the contracting owner, the lien applies to the improvement and to the lots on which the improvement is located.

(b) If an improvement is not located wholly on one or more platted lots, the lien applies to the improvement and to the smallest identifiable tract or parcel of land on which the improvement is located.

(3) If the improvement is to leased premises, the lien attaches to the improvement and to the leasehold term. Except as provided in subsection (4), it does not attach to the lessor's interest unless he contracted for or agreed to the improvement before it was begun.

(4) (a) A construction lien is not impaired to the extent of the value of the work or improvement that is severable from the real estate if the improvement is to premises held by:

(i) a contracting owner who owns less than a fee simple interest; or

(ii) a lessee and the lease is forfeited by the lessee.

(b) If the work or improvement may be removed without harm to the rest of the real estate, the lienholder may have the value determined, the work or improvement sold separately, and the proceeds delivered to him to satisfy the construction lien. The purchaser shall remove the work or improvement within 45 days of the sale.

(5) If a contracting owner contracts for improvements on real estate not owned by him as part of an improvement on his real estate or for the purpose of directly benefiting his real estate, there is a lien against the contracting owner's real estate being improved or directly benefited in favor of persons furnishing services or materials to the same extent as if the improvement had been on the contracting owner's real estate.

History: **En. Sec. 5, Ch. 202, L. 1987.**

71-3-526. Amount of lien. (1) A person who has furnished services or materials pursuant to a real estate improvement contract is entitled to a lien for the unpaid part of his contract price, subject to the provisions of 71-3-524.

(2) A person's lien is reduced by the sum of the liens of persons claiming construction liens through him.

History: **En. Sec. 6, Ch. 202, L. 1987.**

71-3-527 through 71-3-530 reserved.

71-3-531. Notice of right to claim lien required — exceptions. (1) The following are not required to give notice of a right to claim a lien as required by this section:

(2) A person who may claim a construction lien pursuant to this part shall give notice of the right to claim a lien to the contracting owner in order to claim a lien.

(3) Except as provided in subsection (4), this notice may not be given later than 20 days after the date on which the services or materials are first furnished to the contracting owner. If notice is not given within this period, a lien is enforceable only for the services or materials furnished within the 20-day period before the date on which notice is given.

(4) When payment for services or materials furnished pursuant to a real estate improvement contract, excluding a contract on an owner-occupied residence, is made by or on behalf of the contracting party from funds provided by a regulated lender and secured by an interest, lien, mortgage, or encumbrance for the purpose of paying the particular real estate improvement being liened, the notice required by this section may not be given later than 45 days after the date on which the services or materials are first furnished to the contracting owner. If notice is not given within this period, a lien is enforceable only for the services or materials furnished within the 45-day period before the date on which notice is given.

(5) The notice of the right to claim a lien must be sent to the contracting owner by certified mail or delivered personally to the owner. Notice by certified mail is effective on the date on which the notice is mailed. If the notice is delivered, written acknowledgment of receipt must be obtained from the owner. A person may not claim a construction lien unless the person has complied with this subsection.

(6) (a) A person who may claim a lien shall also file with the clerk and recorder of the county in which the improved real estate is located a copy of the notice of the right to claim a lien, in the form required by 71-3-532. This copy may not be filed later than 5 business days after the date on which the notice of the right to claim a lien is given to the contracting owner.

(b) The county clerk and recorder may allow the notice of the right to claim a lien to be electronically filed.

(c) The notice filed with the clerk and recorder for the purpose of public notice is effective for 1 year from the date of filing. The notice lapses upon the expiration of the 1-year period unless the person who may claim a lien files with the clerk and recorder a 1-year continuation of the notice prior to the date on which the notice lapses. The clerk and recorder may remove the notice from the public record when it lapses.

(d) The continuation statement must include:

(i) the clerk and recorder's file number of the notice;

(ii) the date on which the notice originally was filed; and

(iii) the name of the person to whom the original notice was given.

(e) If a notice of a right to claim a lien is required under this section, a person may not claim a construction lien pursuant to this part unless there is an unexpired notice of right to claim a construction lien or an unexpired continuation notice filed with the clerk and recorder at the time that the person files the lien.

(7) At the request of any subcontractor or material supplier who may claim a lien through a person providing services or materials to a contracting owner, the person shall furnish to the requestor within 5 business days:

NAME: ....
ADDRESS: ....
TELEPHONE: ....

Under Montana's laws, those who work on your property or provide materials and are not paid have a right to enforce their claim for payment against your property. This claim is known as a construction lien.

If your contractor fails to pay subcontractors or material suppliers or neglects to make other legally required payments, the people who are owed money may look to your property for payment, even if you have paid your contractor in full.

The law states that all people hired by a contractor to provide you with services or materials are required to give you a notice of the right to claim a lien to let you know what they have provided. WAYS TO PROTECT YOURSELF ARE:

— RECOGNIZE that this notice of delivery of services or materials may result in a lien against your property unless all those supplying a notice of the right to lien have been paid.

— LEARN more about the construction lien laws and the meaning of this notice by contacting an attorney or the firm sending this notice.

— WHEN PAYING your contractor for services or materials, you may make checks payable jointly to the contractor and the firm furnishing services or materials for which you have received a notice of the right to claim a lien.

— OBTAIN EVIDENCE that all firms from whom you have received a notice of the right to claim a lien have been paid or have waived the right to claim a lien against your property.

— CONSULT an attorney, a professional escrow company, or your mortgage lender.

(2) The clerk shall not file the lien unless there is attached thereto a certification by the lien claimant or his agent that a copy of the lien has been served upon each owner of record of the property named in the lien. Service shall be made by personal service on each owner or by mailing a copy of the lien by certified or registered mail with return receipt requested to each owner's last known address. The certification shall state whether service was made by delivery of certified or registered mail.

(3) The bond shall be conditioned that if the lien claimant shall be finally adjudged to be entitled to recover upon the claim upon which his lien is based, the principal or his sureties shall pay to such claimant the amount of his judgment, together with any interest, costs, attorneys' fees, and other sums which such claimant would be entitled to recover upon the foreclosure of a lien against the principal.

(5) The proceeds of the sale shall be applied by the sheriff to the discharge of the lien and the cost of the proceedings in selling the property and enforcing the lien, and the remainder, if any, or such part as is required to discharge the claims, shall be turned over by the sheriff to the holders, in the order of their precedence, of the chattel mortgages or other lien claimants of record against said property, and the balance of the proceeds shall be turned over to the owner of the property.

(2) Persons are bound by orders binding others in the following cases:

(a) Orders binding the sole holder or all coholders of a power of revocation or a presently exercisable general power of appointment, including one in the form of a power of amendment, bind other persons to the extent their interests (as objects, takers in default, or otherwise) are subject to the power.

(b) To the extent there is no conflict of interest between them or among persons represented, orders binding a conservator bind the person whose estate he controls; orders binding a guardian bind the ward if no conservator of his estate has been appointed; orders binding a trustee bind beneficiaries of the trust in proceedings to probate a will establishing or adding to a trust, to review the acts or accounts of a prior fiduciary, and in proceedings involving creditors or other third parties; and orders binding a personal representative bind persons interested in the undistributed assets of a decedent's estate in actions or proceedings by or against the estate. If there is no conflict of interest and no conservator or guardian has been appointed, a parent may represent his minor child.

(c) An unborn or unascertained person who is not otherwise represented is bound by an order to the extent his interest is adequately represented by another party having a substantially identical interest in the proceeding.

(3) Notice is required as follows:

(a) Notice as prescribed by 72-1-301 shall be given to every interested person or to one who can bind an interested person as described in (2)(a) or (2)(b) above. Notice may be given both to a person and to another who may bind him.

(4) At any point in a proceeding, a court may appoint a guardian ad litem to represent the interest of a minor, an incapacitated, unborn, or unascertained person, or a person whose identity or address is unknown, if the court determines that representation of the interest otherwise would be inadequate. If not precluded by conflict of interests, a guardian ad litem may be appointed to represent several persons or interests. The court shall set out its reasons for appointing a guardian ad litem as a part of the record of the proceeding.

(ii) property transferred in any of the following forms by the decedent during marriage:

(A) any irrevocable transfer in which the decedent retained the right to the possession or enjoyment of, or to the income from, the property if and to the extent that the decedent's right terminated at or continued beyond the decedent's death; the amount included is the value of the fraction of the property to which the decedent's right related, to the extent that the fraction of the property was passed outside probate to or for the benefit of any person other than the decedent's estate or surviving spouse; or

(B) any transfer of property, to the extent not otherwise included in the augmented estate, made to or for the benefit of a person other than the decedent's surviving spouse; the amount included is the value of the transferred property to the extent that the aggregate transfers to any one donee in either of the 2 years exceeded the amount excluded from federal taxable gifts pursuant to section 2503(b) of the Internal Revenue Code in effect in the year of transfer;

(c) the value of the decedent's nonprobate transfers to the decedent's surviving spouse, which are composed of all property that passed outside probate at the decedent's death from the decedent to the surviving spouse by reason of the decedent's death, including:

(A) the surviving spouse's fractional interest in property held in joint tenancy with the right of survivorship;

(B) the surviving spouse's ownership interest in property or accounts held in co-ownership registration with the right of survivorship; and

(C) property that passed to the surviving spouse by reason of the decedent's death, but not including the spouse's right to homestead allowance, family allowance, exempt property, or payments under the federal social security system; and

(ii) property that would have been included in the surviving spouse's nonprobate transfers to others, other than the spouse's fractional and ownership interests included in subsections (2)(d)(i)(A) and (2)(d)(i)(B), had the spouse been the decedent. Property included under this subsection (2)(d)(ii) is valued at the decedent's death, taking into account the fact that the decedent predeceased the spouse, except that, for purposes of subsections (2)(d)(i)(A) and (2)(d)(i)(B), the values of the spouse's fractional and ownership interests are determined immediately before the decedent's death if the decedent was then a joint tenant or a co-owner of the property or accounts. The commuted value of life and term interests in income, annuity, or unitrust amount must be determined in accordance with U.S. treasury regulations for internal revenue purposes in effect at the time of the decedent's death.

(5) In case of overlapping application to the same property of the provisions of subsection (2), the property is included in the augmented estate under the provision yielding the highest value, but under any one, but only one, of the overlapping provisions if they all yield the same value.

(1) The right of election may be exercised only by a surviving spouse who is living when the petition for the elective share is filed in the court under 72-2-225(1). If the election is not exercised by the surviving spouse personally, it may be exercised on the surviving spouse's behalf by the surviving spouse's conservator, guardian, or agent under the authority of a power of attorney.

(2) If the election is exercised on behalf of a surviving spouse who is an incapacitated person, the court shall set aside that portion of the elective-share and supplemental elective-share amounts due from the decedent's probate estate and recipients of the decedent's nonprobate transfers to others under 72-2-227(2) and (3) and shall appoint a trustee to administer that property for the support of the surviving spouse. For the purposes of this subsection, an election on behalf of a surviving spouse by an agent under a durable power of attorney is presumed to be on behalf of a surviving spouse who is an incapacitated person. The trustee shall administer the trust in accordance with the following terms and such additional terms as the court determines appropriate:

The written contract, agreement, or waiver is enforceable without consideration.

(2) A surviving spouse's waiver is not enforceable if the surviving spouse proves that:

(a) the surviving spouse did not execute the waiver voluntarily; or

(b) the waiver was unconscionable when it was executed and, before execution of the waiver, the surviving spouse:

(i) was not provided a fair and reasonable disclosure of the property or financial obligations of the decedent;

(ii) did not voluntarily and expressly waive, in writing, any right to disclosure of the property or financial obligations of the decedent beyond the disclosure provided; and

(iii) did not have or reasonably could not have had an adequate knowledge of the property or financial obligations of the decedent.

(3) An issue of unconscionability of a waiver is for decision by the court as a matter of law.

(4) Unless it provides to the contrary, a waiver of "all rights", or equivalent language, in the property or estate of a present or prospective spouse or a complete property settlement entered into after or in anticipation of separation or divorce is a waiver of all rights to elective share, homestead allowance, exempt property, and family allowance by each spouse in the property of

the other and a renunciation by each of all benefits that would otherwise pass to that spouse from the other by intestate succession or by virtue of any will executed before the waiver or property settlement.

72-2-225. Proceeding for elective share — time limit. (1) Except as provided in subsection (2), the election must be made by filing in the court and mailing or delivering to the personal representative, if any, a petition for the elective share within 9 months after the date of the decedent's death or within 6 months after the probate of the decedent's will, whichever limitation later expires. The surviving spouse shall give notice of the time and place set for hearing to persons interested in the estate and to the distributees and recipients of portions of the augmented estate whose interests will be adversely affected by the taking of the elective share. Except as provided in subsection (2), the decedent's nonprobate transfers to others described in 72-2-222(2)(b), is not included within the augmented estate for the purpose of computing the elective share if the petition is filed more than 9 months after the decedent's death.

(2) Within 9 months after the decedent's death, the surviving spouse may petition the court for an extension of time for making an election. If, within 9 months after the decedent's death, the spouse gives notice of the petition to all persons interested in the decedent's nonprobate transfers to others the court for cause shown by the surviving spouse may extend the time for election. If the court grants the spouse's petition for an extension, the decedent's nonprobate transfers to others described in 72-2-222(2)(b), is not excluded from the augmented estate for the purpose of computing the elective-share and supplemental elective-share amounts if the spouse makes an election by filing in the court and mailing or delivering to the personal representative, if any, a petition for the elective share within the time allowed by the extension.

(3) The surviving spouse may withdraw a demand for an elective share at any time before entry of a final determination by the court.

(4) After notice and hearing, the court shall determine the elective-share and supplemental elective-share amounts and shall order its payment from the assets of the augmented estate or by contribution as appears appropriate under 72-2-227. If it appears that a fund or property included in the augmented estate has not come into the possession of the personal representative or has been distributed by the personal representative, the court nevertheless shall fix the liability of any person who has any interest in the fund or property or who has possession thereof, whether as trustee or otherwise. The proceeding may be maintained against fewer than all persons against whom relief could be sought, but no person is subject to contribution in any greater amount than the person would have been under 72-2-227 if relief had been secured against all persons subject to contribution.

(5) The order or judgment of the court may be enforced as necessary in suit for contribution or payment in other courts of this state or other jurisdictions.

72-2-227. Sources from which elective share payable. (1) In the proceeding for an elective share, the following are applied first to satisfy the elective-share amount and to reduce or eliminate any contributions due from the decedent's probate estate and recipients of the decedent's nonprobate transfers to others:

(a) amounts included in the augmented estate under 72-2-222(2)(a) that pass or have passed to the surviving spouse by testate or intestate succession;

(b) amounts included in the augmented estate under 72-2-222(2)(c);

(c) amounts included in the augmented estate that would have passed to the spouse but were disclaimed; and

(d) amounts included in the augmented estate under 72-2-222(2)(d) up to the applicable percentage thereof. For purposes of this subsection (d), the "applicable percentage" is twice the elective-share percentage set forth in the schedule in 72-2-221(1) appropriate to the length of time the spouse and the decedent were married to each other.

(2) If, after the application of subsection (1), the elective-share amount is not fully satisfied or the surviving spouse is entitled to a supplemental elective-share amount, amounts included in the decedent's probate estate and in the decedent's nonprobate transfers to others, other than amounts included under 72-2-222(2)(b)(iii)(A) or (2)(b)(iii)(B), are applied first to satisfy the unsatisfied balance of the elective-share amount or the supplemental elective-share amount. The decedent's probate estate and that portion of the decedent's nonprobate transfers to others are applied so that liability for the unsatisfied balance of the elective-share amount or for the supplemental elective-share amount is equitably apportioned among the recipients of the decedent's probate estate and of that portion of the decedent's nonprobate transfers to others in proportion to the value of their interests therein.

(3) If, after the application of subsections (1) and (2), the elective-share or supplemental elective-share amount is not fully satisfied, the remaining portion of the decedent's nonprobate transfers to others is applied so that liability for the unsatisfied balance of the elective-share or supplemental elective-share amount is equitably apportioned among the recipients of that remaining portion of the decedent's nonprobate transfers to others in proportion to the value of their interests therein.

72-2-228. Protection of payors and other third parties. (1) Although under 72-2-222 a payment, item of property, or other benefit is included in the decedent's nonprobate transfers to others, a payor or other third party is not liable for having made a payment or transferred an item of property or other benefit to a beneficiary designated in a governing instrument or for having taken any other action in reliance on the validity of a governing instrument, upon request and satisfactory proof of the decedent's death, before the payor or other third party received written notice from the surviving spouse or spouse's representative of an intention to file a petition for the elective share or that a petition for the elective share has been filed. A payor or other third party is liable only for actions taken 2 or more business days after the payor or other third party received written notice of an intention to file a petition for the elective share or that a petition for the elective share has been filed. The written notice must indicate the name of the decedent, the date of the decedent's death, the name of the person asserting an interest, the nature of the payment or item of property or other benefit, and a statement that the spouse intends to file a petition for the elective share or that a petition for the elective share has been filed. Any form of service of notice other than that described in subsection (2) is not sufficient to impose liability on a payor or other third party for actions taken pursuant to the governing instrument.

(2) The written notice must be mailed to the payor's or other third party's main office or home by certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. Notice to a sales representative of the payor or other third party does not constitute notice to the payor or other third party. Upon receipt of written notice of intention to file a petition for the elective share or that a petition for the elective share has been filed, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate

proceedings relating to the decedent's estate or, if no proceedings have been commenced, to or with the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. The availability of an action under this section does not prevent the payor or other third party from taking any other action authorized by law or the governing instrument. If probate proceedings have not been commenced, the payor or other third party shall file with the court a copy of the written notice received by the payor or other third party, with the payment of funds or transfer or deposit of property. The court may not charge a filing fee to the payor or other third party for the payment, transfer, or deposit. The court shall hold the funds or item of property and, upon its determination under 72-2-225(4), shall order disbursement in accordance with the determination. If no petition is filed in the court within the specified time under 72-2-225(1) or, if filed, the demand for an elective share is withdrawn under 72-2-225(3), the court shall order disbursement to the designated beneficiary. A filing fee, if any, may, in the discretion of the court, be charged upon disbursement either to the recipient or against the funds or property on deposit with the court. Payments, transfers, or deposits made to or with the court discharge the payor or other third party from all claims under the governing instrument or applicable law for the value of amounts paid to or items of property transferred to or deposited with the court.

(3) Upon petition to the probate court by the beneficiary designated in a governing instrument, the court may order that all or part of the property be paid to the beneficiary in an amount and subject to conditions consistent with this section.

72-2-230. Personal liability of recipients. (1) Only original recipients of the decedent's nonprobate transfers to others, and the donees of the recipients of the decedent's nonprobate transfers to others, to the extent the donees have the property or its proceeds, are liable to make a proportional contribution toward satisfaction of the surviving spouse's elective-share or supplemental elective-share amount. A person liable to make contribution may choose to give up the proportional part of the decedent's nonprobate transfers to the person or to pay the value of the amount for which the person is liable.

(2) If any section or part of any section of this part is preempted by federal law with respect to a payment, an item of property, or any other benefit included in the decedent's nonprobate transfers to others, a person who, not for value, receives the payment, item of property, or other benefit is obligated to return that payment, item of property, or benefit or is personally liable for the amount of that payment or the value of that item of property or benefit, as provided in 72-2-227, to the person who would have been entitled to it were that section or part of that section not preempted.

72-2-331. Entitlement of spouse — premarital will. (1) If a testator's surviving spouse married the testator after the execution of the will, the surviving spouse is entitled to receive, as an intestate share, no less than the value of the share of the estate the spouse would have received if the testator had died intestate as to that portion of the testator's estate, if any, that is neither devised to a child of the testator who was born before the testator married the surviving spouse and who is not a child of the surviving spouse nor devised to the descendant of such a child or passes under 72-2-613 or 72-2-614 to such a child or to a descendant of such a child, unless:

(a) it appears from the will or other evidence that the will was made in contemplation of the testator's marriage to the surviving spouse;

(b) the will expresses the intention that it is to be effective notwithstanding any subsequent marriage; or

(c) the testator provided for the spouse by transfer outside the will and the intent that the transfer be in lieu of a testamentary provision is shown by the testator's statements or is reasonably inferred from the amount of the transfer or other evidence.

(2) In satisfying the share provided by this section, devises made by the will to the testator's surviving spouse, if any, are applied first and other devises, other than a devise to a child of the testator who was born before the testator married the surviving spouse and who is not a child of the surviving spouse or a devise or substitute gift under 72-2-613 or 72-2-614 to a descendant of such a child, abate as provided in 72-3-901.

72-2-332. Omitted children. (1) Except as provided in subsection (2), if a testator fails to provide in the testator's will for any of the testator's children born or adopted after the execution of the will, the omitted after-born or after-adopted child receives a share in the estate as follows:

(a) If the testator had no child living when the testator executed the will, an omitted after-born or after-adopted child receives a share in the estate equal in value to that which the child would have received had the testator died intestate unless the will devised all or substantially all of the estate to the other parent of the omitted child and that other parent survives the testator and is entitled to take under the will.

(b) If the testator had one or more children living when the testator executed the will and the will devised property or an interest in property to one or more of the then-living children, an omitted after-born or after-adopted child is entitled to share in the testator's estate as follows:

(i) The portion of the testator's estate in which the omitted after-born or after-adopted child is entitled to share is limited to devises made to the testator's then-living children under the will.

(ii) The omitted after-born or after-adopted child is entitled to receive the share of the testator's estate, as limited in subsection (1)(b)(i), that the child would have received had the testator included all omitted after-born and after-adopted children with the children to whom devises were made under the will and had given an equal share of the estate to each child.

(iii) To the extent feasible, the interest granted an omitted after-born or after-adopted child under this section must be of the same character, whether equitable or legal, present or future, as that devised to the testator's then-living children under the will.

(iv) In satisfying a share provided by this subsection (1)(b), devises to the testator's children who were living when the will was executed abate ratably. In abating the devises of the then-living children, the court shall preserve to the maximum extent possible the character of the testamentary plan adopted by the testator.

(2) Subsections (1)(a) and (1)(b) do not apply if:

(a) it appears from the will that the omission was intentional; or

(b) the testator provided for the omitted after-born or after-adopted child by transfer outside the will and the intent that the transfer be in lieu of a testamentary provision is shown by the testator's statements or is reasonably inferred from the amount of the transfer or other evidence.

(3) If at the time of execution of the will the testator fails to provide in the testator's will for a living child solely because the testator believes the child to be dead, the child is entitled to share in the estate as if the child were an omitted after-born or after-adopted child.

(4) In satisfying a share provided by subsection (1)(a), devises made by the will abate as provided in 72-3-901.

History: En. Sec. 56, Ch. 494, L. 1993.

72-2-412. Homestead allowance. A decedent's surviving spouse is entitled to a homestead allowance of $20,000. If there is no surviving spouse, each minor child and each dependent child of the decedent is entitled to a homestead allowance amounting to $20,000 divided by the number of minor and dependent children of the decedent. The homestead allowance is exempt from and has priority over all claims against the estate. Homestead allowance is in addition to any share passing to the surviving spouse or minor or dependent child by the will of the decedent unless otherwise provided, by intestate succession, or by way of elective share.

72-2-413. Exempt property. In addition to the homestead allowance, the decedent's surviving spouse is entitled from the estate to a value, not exceeding $10,000 in excess of any security interests therein, in household furniture, automobiles, furnishings, appliances, and personal effects. If there is no surviving spouse, the decedent's children are entitled jointly to the same value. If encumbered chattels are selected and if the value in excess of security interests, plus that of other exempt property, is less than $10,000 or if there is not $10,000 worth of exempt property in the estate, the spouse or children are entitled to other assets of the estate, if any, to the extent necessary to make up the $10,000 value. Rights to exempt property and assets needed to make up a deficiency of exempt property have priority over all claims against the estate, but the right to any assets to make up a deficiency of exempt property abates as necessary to permit earlier payment of homestead allowance and family allowance. These rights are in addition to any benefit or share passing to the surviving spouse or children by the decedent's will unless otherwise provided, by intestate succession, or by way of elective share.

72-2-414. Family allowance. (1) In addition to the right to homestead allowance and exempt property, the decedent's surviving spouse and minor children whom the decedent was obligated to support and children who were in fact being supported by the decedent are entitled to a reasonable allowance in money out of the estate for their maintenance during the period of administration, which allowance may not continue for longer than 1 year if the estate is inadequate to discharge allowed claims. The allowance may be paid as a lump sum or in periodic installments. It is payable to the surviving spouse, if living, for the use of the surviving spouse and minor and dependent children, otherwise to the children or persons having their care and custody. If a minor child or dependent child is not living with the surviving spouse, the allowance may be made partially to the child or the child's guardian or other person having the child's care and custody and partially to the spouse, as their needs may appear. The family allowance is exempt from and has priority over all claims except the homestead allowance.

(2) The family allowance is not chargeable against any benefit or share passing to the surviving spouse or children by the will of the decedent unless otherwise provided, by intestate succession, or by way of elective share. The death of any person entitled to family allowance terminates the right to allowances not yet paid.

72-2-415. Source, determination, and documentation. (1) If the estate is otherwise sufficient, property specifically devised may not be used to satisfy rights to homestead allowance or exempt property. Subject to this restriction, the surviving spouse, guardians of minor children, or children who are adults may select property of the estate as homestead allowance and exempt property. The personal representative may make those selections if the surviving spouse, the children, or the guardians of the minor children are unable or fail to do so within a reasonable time or if there is no guardian of a minor child. The personal representative may execute an instrument or deed of distribution to establish the ownership of property taken as homestead allowance or exempt property. The personal representative may determine the family allowance in a lump sum not exceeding $18,000 or periodic installments not exceeding $1,500 per month for 1 year and may disburse funds of the estate in payment of the family allowance and any part of the homestead allowance payable in cash. The personal representative or any interested person aggrieved by any selection, determination, payment, proposed payment, or failure to act under this section may petition the court for appropriate relief, which may include a family allowance other than that which the personal representative determined or could have determined.

(2) If the right to an elective share is exercised on behalf of a surviving spouse who is an incapacitated person, the personal representative may add any unexpended portions payable under the homestead allowance, exempt property, and family allowance to the trust established under 72-2-223(2).

(b) signed by the testator or in the testator's name by some other individual in the testator's conscious presence and by the testator's direction; and

(c) signed by at least two individuals, each of whom signed within a reasonable time after having witnessed either the signing of the will as described in subsection (1)(b) or the testator's acknowledgment of that signature or acknowledgment of the will.

(2) A will that does not comply with subsection (1) is valid as a holographic will, whether or not witnessed, if the signature and material portions of the document are in the testator's handwriting.

(3) Intent that the document constitute the testator's will may be established by extrinsic evidence, including, for holographic wills, portions of the document that are not in the testator's handwriting.

72-2-523. Writings intended as wills. Although a document or writing added upon a document was not executed in compliance with 72-2-522, the document or writing is treated as if it had been executed in compliance with that section if the proponent of the document or writing establishes by clear and convincing evidence that the decedent intended the document or writing to constitute:

(1) the decedent's will;

(2) a partial or complete revocation of the will;

(3) an addition to or an alteration of the will; or

(4) a partial or complete revival of the decedent's formerly revoked will or of a formerly revoked portion of the will.

History: En. Sec. 34, Ch. 494, L. 1993.

72-2-524. Self-proved will. (1) A will may be simultaneously executed, attested, and made self-proved by acknowledgment by the testator and affidavits of the witnesses, each made before an officer authorized to administer oaths under the laws of the state in which execution occurs and evidenced by the officer's certificate, under official seal, in substantially the following form:

I, ..., the testator, sign my name to this instrument this ...... day of ......, 20..., and being first duly sworn, do hereby declare to the undersigned authority that I sign and execute this instrument as my will, that I sign it willingly (or willingly direct another to sign for me), that I execute it as my free and voluntary act for the purposes expressed in it, and that I am 18 years of age or older, of sound mind, and under no constraint or undue influence.

72-2-526. Choice of law as to execution. A written will is valid if executed in compliance with 72-2-522 or 72-2-523 or if its execution complies with the law at the time of execution of the place where the will is executed or of the law of the place where at the time of execution or at the time of death the testator is domiciled, has a place of abode, or is a national.

72-2-527. Revocation by writing or act. (1) A will or any part of a will is revoked:

(a) by executing a subsequent will that revokes the previous will or part expressly or by inconsistency; or

(b) by performing a revocatory act on the will if the testator performed the act with the intent and for the purpose of revoking the will or part of the will or if another individual performed the act in the testator's conscious presence and by the testator's direction. For purposes of this subsection (b), "revocatory act on the will" includes burning, tearing, canceling, obliterating, or destroying the will or any part of it. A burning, tearing, or canceling is a revocatory act on the will, whether or not the burn, tear, or cancellation touched any of the words on the will.

(2) If a subsequent will does not expressly revoke a previous will, the execution of the subsequent will wholly revokes the previous will by inconsistency if the testator intended the subsequent will to replace rather than supplement the previous will.

(3) The testator is presumed to have intended a subsequent will to replace rather than supplement a previous will if the subsequent will makes a complete disposition of the testator's estate. If this presumption arises and is not rebutted by clear and convincing evidence, the previous will is revoked and only the subsequent will is operative on the testator's death.

(4) The testator is presumed to have intended a subsequent will to supplement rather than replace a previous will if the subsequent will does not make a complete disposition of the testator's estate. If this presumption arises and is not rebutted by clear and convincing evidence, the subsequent will revokes the previous will only to the extent the subsequent will is inconsistent with the previous will and each will is fully operative on the testator's death to the extent they are not inconsistent.

72-2-529. Revival of revoked will. (1) If a subsequent will that wholly revoked a previous will is thereafter revoked by a revocatory act under 72-2-527(1)(b), the previous will remains revoked unless it is revived. The previous will is revived if it is evident from the circumstances of the revocation of the subsequent will or from the testator's contemporary or subsequent declarations that the testator intended the previous will to take effect as executed.

(2) If a subsequent will that partly revoked a previous will is thereafter revoked by a revocatory act under 72-2-527(1)(b), a revoked part of the previous will is revived unless it is evident from the circumstances of the revocation of the subsequent will or from the testator's contemporary or subsequent declarations that the testator did not intend the revoked part to take effect as executed.

(3) If a subsequent will that revoked a previous will in whole or in part is thereafter revoked by another, later will, the previous will remains revoked in whole or in part, unless it or its revoked part is revived. The previous will or its revoked part is revived to the extent it appears from the terms of the later will that the testator intended the previous will to take effect.

72-2-531. Testamentary additions to trusts. (1) (a) A will may validly devise property to the trustee of a trust established or to be established:

(i) during the testator's lifetime by the testator, by the testator and some other person, or by some other person, including a funded or unfunded life insurance trust, although the settlor has reserved any or all rights of ownership of the insurance contracts; or

(ii) at the testator's death by the testator's devise to the trustee if the trust is identified in the testator's will and its terms are set forth in a written instrument, other than a will, executed before, concurrently with, or after the execution of the testator's will or in another individual's will if that other individual has predeceased the testator, regardless of the existence, size, or character of the corpus of the trust.

(b) The devise is not invalid because the trust is amendable or revocable or because the trust was amended after the execution of the will or the testator's death.

(2) Unless the testator's will provides otherwise, property devised to a trust described in subsection (1) is not held under a testamentary trust of the testator but it becomes a part of the trust to which it is devised and must be administered and disposed of in accordance with the provisions of the governing instrument setting forth the terms of the trust, including any amendments thereto made before or after the testator's death.

(3) Unless the testator's will provides otherwise, a revocation or termination of the trust before the testator's death causes the devise to lapse.

A will may dispose of property by reference to acts and events that have significance apart from their effect upon the dispositions made by the will, whether they occur before or after the execution of the will or before or after the testator's death. The execution or revocation of a will of another person is such an event.

(1) Whether or not the provisions relating to holographic wills apply, a will may refer to a written statement or list to dispose of items of tangible personal property not otherwise specifically disposed of by the will, other than money.

(2) To be admissible under this section as evidence of the intended disposition, the writing must be signed by the testator and must describe the items and the devisees with reasonable certainty.

(3) The writing may be:

(a) referred to as one to be in existence at the time of the testator's death;

(b) prepared before or after the execution of the will;

(c) altered by the testator after its preparation; and

(d) a writing that has no significance apart from its effect upon the dispositions made by the will.

(b) an express reference in a will to a contract and extrinsic evidence proving the terms of the contract; or

A conservator may be allowed to examine a deposited will of a protected testator under procedures designed to maintain the confidential character of the document to the extent possible and to ensure that it will be resealed and kept on deposit after the examination. A person who willfully fails to deliver a will is liable to any person aggrieved for any damages that may be sustained by the failure. 72-2-613. Antilapse — deceased devisee — class gifts. (1) As used in this section, the following definitions apply:

(a) "Alternative devise" means a devise that is expressly created by the will and that under the terms of the will may take effect instead of another devise on the happening of one or more events, including survival of the testator or failure to survive the testator, whether an event is expressed in condition-precedent, condition-subsequent, or any other form. A residuary clause constitutes an alternative devise with respect to a nonresiduary devise only if the will specifically provides that, upon lapse or failure, the nonresiduary devise or nonresiduary devises in general pass under the residuary clause.

(b) "Class member" includes an individual who fails to survive the testator but who would have taken under a devise in the form of a class gift had the individual survived the testator.

(c) "Devise" includes an alternative devise, a devise in the form of a class gift, and an exercise of a power of appointment.

(d) "Devisee" includes:

(i) a class member if the devise is in the form of a class gift;

(ii) an individual or class member who was deceased at the time the testator executed the testator's will as well as an individual or class member who was then living but who failed to survive the testator; and

(iii) an appointee under a power of appointment exercised by the testator's will.

(e) "Stepchild" means a child of the surviving, deceased, or former spouse of the testator or of the donor of a power of appointment but not a child of the testator or donor.

(f) "Surviving devisee" or "surviving descendant" means a devisee or a descendant who neither predeceased the testator nor is considered to have predeceased the testator under 72-2-712.

(g) "Testator" includes the donee of a power of appointment if the power is exercised in the testator's will.

(2) If a devisee fails to survive the testator and is a grandparent, a descendant of a grandparent, or a stepchild of either the testator or the donor of a power of appointment exercised by the testator's will, the following apply:

(a) Except as provided in subsection (2)(d), if the devise is not in the form of a class gift and the deceased devisee leaves surviving descendants, a substitute gift is created in the devisee's surviving descendants. They take by representation the property to which the devisee would have been entitled had the devisee survived the testator.

(b) Except as provided in subsection (2)(d), if the devise is in the form of a class gift, other than a devise to "issue", "descendants", "heirs of the body", "heirs", "next of kin", "relatives", or "family" or a class described by language of similar import, a substitute gift is created in the surviving descendants of any deceased devisee. The property to which the devisees would have been entitled had all of them survived the testator passes to the surviving devisees and the surviving descendants of the deceased devisees. Each surviving devisee takes the share to which the devisee would have been entitled had the deceased devisees survived the testator. Each deceased devisee's surviving descendants who are substituted for the deceased devisee take by representation the share to which the deceased devisee would have been entitled had the deceased devisee survived the testator. For purposes of this subsection (b), "deceased devisee" means a class member who failed to survive the testator and left one or more surviving descendants.

(c) For purposes of 72-2-611, words of survivorship, such as in a devise to an individual "if the individual survives me" or in a devise to "my surviving children", are not, in the absence of additional evidence, a sufficient indication of an intent contrary to the application of this section.

(d) If the will creates an alternative devise with respect to a devise for which a substitute gift is created by subsection (2)(a) or (2)(b), the substitute gift is superseded by the alternative devise only if an expressly designated devisee of the alternative devise is entitled to take under the will.

(e) Unless the language creating a power of appointment expressly excludes the substitution of the descendants of an appointee for the appointee, a surviving descendant of a deceased appointee of a power of appointment may be substituted for the appointee under this section, whether or not the descendant is an object of the power.

(3) If, under subsection (2), substitute gifts are created and not superseded with respect to more than one devise and the devises are alternative devises, one to the other, the determination of which of the substitute gifts takes effect is resolved as follows:

(a) Except as provided in subsection (3)(b), the devised property passes under the primary substitute gift.

(b) If there is a younger-generation devise, the devised property passes under the younger-generation substitute gift and not under the primary substitute gift.

(c) As used in this subsection (3), the following definitions apply:

(i) "Primary devise" means the devise that would have taken effect had all the deceased devisees of the alternative devises who left surviving descendants survived the testator.

(ii) "Primary substitute gift" means the substitute gift created with respect to the primary devise.

(iii) "Younger-generation devise" means a devise that:

(A) is to a descendant of a devisee of the primary devise;

(B) is an alternative devise with respect to the primary devise;

(C) is a devise for which a substitute gift is created; and

(D) would have taken effect had all the deceased devisees who left surviving descendants survived the testator except the deceased devisee or devisees of the primary devise.

(iv) "Younger-generation substitute gift" means the substitute gift created with respect to the younger-generation devise.

72-2-614. Failure of testamentary provision. (1) Except as provided in 72-2-613, a devise, other than a residuary devise, that fails for any reason becomes a part of the residue.

(2) Except as provided in 72-2-613, if the residue is devised to two or more persons, the share of a residuary devisee that fails for any reason passes to the other residuary devisee or to other residuary devisees in proportion to the interest of each in the remaining part of the residue.

72-2-615. Increase in securities — accessions. (1) If a testator executes a will that devises securities and the testator then owned securities that meet the description in the will, the devise includes additional securities owned by the testator at death to the extent the additional securities were acquired by the testator after the will was executed as a result of the testator's ownership of the described securities and if the securities are of any of the following types:

(a) securities of the same organization acquired by reason of action initiated by the organization or any successor, related, or acquiring organization, excluding any acquired by exercise of purchase options;

(b) securities of another organization acquired as a result of a merger, consolidation, reorganization, or other distribution by the organization or any successor, related, or acquiring organization; or

(c) securities of the same organization acquired as a result of a plan of reinvestment.

(2) Distributions in cash before death with respect to a described security are not part of the devise.

(b) any amount of a condemnation award for the taking of the property unpaid at death;

(d) property owned by the testator at death and acquired as a result of foreclosure or obtained in lieu of foreclosure of the security interest for a specifically devised obligation;

(e) real or tangible personal property owned by the testator at death that the testator acquired as a replacement for specifically devised real or tangible personal property; and

(f) unless the facts and circumstances indicate that ademption of the devise was intended by the testator or ademption of the devise is consistent with the testator's manifested plan of distribution, the value of the specifically devised property to the extent the specifically devised property is not in the testator's estate at death and its value or its replacement is not covered by subsections (1)(a) through (1)(e).

(2) If specifically devised property is sold or mortgaged by a conservator or an agent acting within the authority of a durable power of attorney for an incapacitated principal or if a condemnation award, insurance proceeds, or recovery for an injury to property is paid to a conservator or an agent acting within the authority of a durable power of attorney for an incapacitated principal, the specific devisee has the right to a general pecuniary devise equal to the net sale price, the amount of the unpaid loan, the condemnation award, the insurance proceeds, or the recovery.

(3) The right of the specific devisee under subsection (2) is reduced by any right the devisee has under subsection (1).

(4) For the purposes of the references in subsection (2) to a conservator, subsection (2) does not apply if, after the sale, mortgage, condemnation, casualty, or recovery, it was adjudicated that the testator's incapacity ceased and the testator survived the adjudication by 1 year.

(5) For the purposes of the references in subsection (2) to an agent acting within the authority of a durable power of attorney for an incapacitated principal:

(a) "incapacitated principal" means a principal who is an incapacitated person;

(b) no adjudication of incapacity before death is necessary; and

(c) the acts of an agent within the authority of a durable power of attorney are presumed to be for an incapacitated principal.

72-2-617. Nonexoneration. A specific devise passes subject to any security interest existing at the date of death, without right of exoneration, regardless of a general directive in the will to pay debts.

72-2-618. Exercise of power of appointment. In the absence of a requirement that a power of appointment be exercised by a reference to the power or by an express or specific reference to the power, a general residuary clause in a will or a will making general disposition of all of the testator's property expresses an intention to exercise a power of appointment held by the testator only if:

(1) the power is a general power and the creating instrument does not contain a gift if the power is not exercised; or

(2) the testator's will manifests an intention to include the property subject to the power.

72-2-619. Ademption by satisfaction. (1) Property that a testator gave in the testator's lifetime to a person is treated as a satisfaction of a devise in whole or in part only if:

(a) the will provides for deduction of the gift;

(b) the testator declared in a contemporaneous writing that the gift is in satisfaction of the devise or that its value is to be deducted from the value of the devise; or

(c) the devisee acknowledged in writing that the gift is in satisfaction of the devise or that its value is to be deducted from the value of the devise.

(2) For purposes of partial satisfaction, property given during the testator's lifetime is valued as of the time the devisee came into possession or enjoyment of the property or at the testator's death, whichever occurs first.

(3) If the devisee fails to survive the testator, the gift is treated as a full or partial satisfaction of the devise, as appropriate, in applying 72-2-613 and 72-2-614, unless the testator's contemporaneous writing provides otherwise.

72-2-708 through 72-2-710 reserved.

72-2-711. Scope. In the absence of a finding of a contrary intention, the rules of construction in this part control the construction of a governing instrument. The rules of construction in this part apply to a governing instrument of any type, except as the application of a particular section is limited by its terms to a specific type or types of provision or governing instrument.

History: En. Sec. 61, Ch. 494, L. 1993.

72-2-712. Requirement of survival by one hundred twenty hours. (1) For the purposes of chapters 1 through 5, except as provided in subsection (4), an individual who is not established by clear and convincing evidence to have survived an event, including the death of another individual, by 120 hours is considered to have predeceased the event.

(2) Except as provided in subsection (4), for purposes of a provision of a governing instrument that relates to an individual surviving an event, including the death of another individual, an individual who is not established by clear and convincing evidence to have survived the event by 120 hours is considered to have predeceased the event.

(3) (a) Except as provided in subsection (4), if:

(i) it is not established by clear and convincing evidence that one of two co-owners with right of survivorship survived the other co-owner by 120 hours, one-half of the property passes as if one had survived by 120 hours and one-half as if the other had survived by 120 hours; and

(ii) there are more than two co-owners and it is not established by clear and convincing evidence that at least one of them survived the others by 120 hours, the property passes in the proportion that one bears to the whole number of co-owners.

(b) For the purposes of this subsection (3), "co-owners with right of survivorship" includes joint tenants, tenants by the entireties, and other co-owners of property or accounts held under circumstances that entitle one or more to the whole of the property or account on the death of the other or others.

(4) Survival by 120 hours is not required if:

(a) the governing instrument contains language dealing explicitly with simultaneous deaths or deaths in a common disaster and that language is operable under the facts of the case;

(b) the governing instrument expressly indicates that an individual is not required to survive an event, including the death of another individual, by any specified period or expressly requires the individual to survive the event by a specified period. However, survival of the event or the specified period must be established by clear and convincing evidence.

(c) the imposition of a 120-hour requirement of survival would cause a nonvested property interest or a power of appointment to fail to qualify for validity under 72-2-1002(1)(a), (2)(a), or (3)(a) or to become invalid under 72-2-1002(1)(b), (2)(b), or (3)(b); however, survival must be established by clear and convincing evidence; or

(d) the application of a 120-hour requirement of survival to multiple governing instruments would result in an unintended failure or duplication of a disposition. However, survival must be established by clear and convincing evidence.

(5) (a) A payor or other third party is not liable for having made a payment or transferred an item of property or any other benefit to a beneficiary designated in a governing instrument who, under this section, is not entitled to the payment or item of property, or for having taken any other action in good faith reliance on the beneficiary's apparent entitlement under the terms of the governing instrument, before the payor or other third party received written notice of a claimed lack of entitlement under this section. A payor or other third party is liable for a payment made or other action taken after the payor or other third party received written notice of a claimed lack of entitlement under this section.

(b) Written notice of a claimed lack of entitlement under subsection (5)(a) must be mailed to the payor's or other third party's main office or home by certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. Upon receipt of written notice of a claimed lack of entitlement under this section, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to or with the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. The court shall hold the funds or item of property and, upon its determination under this section, shall order disbursement in accordance with the determination. Payments, transfers, or deposits made to or with the court discharge the payor or other third party from all claims for the value of amounts paid to or items of property transferred to or deposited with the court.

(6) (a) A person who purchases property for value and without notice or who receives a payment or other item of property in partial or full satisfaction of a legally enforceable obligation is neither obligated under this section to return the payment, item of property, or benefit nor liable under this section for the amount of the payment or the value of the item of property or benefit. However, a person who, not for value, receives a payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who is entitled to it under this section.

(b) If this section or any part of this section is preempted by federal law with respect to a payment, an item of property, or any other benefit covered by this section, a person who, not for value, receives the payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who would have been entitled to it were this section or part of this section not preempted.

History: En. Sec. 62, Ch. 494, L. 1993; amd. Sec. 15, Ch. 592, L. 1995.

72-2-713. Choice of law as to meaning and effect of governing instrument. The meaning and legal effect of a governing instrument is determined by the local law of the state selected by the transferor in the governing instrument unless the application of that law is contrary to the provisions relating to the elective share described in part 7, the provisions relating to exempt property and allowances described in part 8, or any other public policy of this state otherwise applicable to the disposition.

History: En. 91A-2-602 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-2-602; amd. Sec. 38, Ch. 494, L. 1993; Sec. 72-2-504, MCA 1991; redes. 72-2-713 by Code Commissioner, 1993.

72-2-714. Power of appointment — meaning of specific reference requirement. If a governing instrument creating a power of appointment expressly requires that the power be exercised by a reference, an express reference, or a specific reference to the power or its source, it is presumed that the donor's intention, in requiring that the donee exercise the power by making reference to the particular power or to the creating instrument, was to prevent an inadvertent exercise of the power.

History: En. Sec. 63, Ch. 494, L. 1993.

72-2-715. Class gifts construed to accord with intestate succession. (1) Adopted individuals and individuals born out of wedlock and their respective descendants if appropriate to the class are included in class gifts and other terms of relationship in accordance with the rules for intestate succession. Terms of relationship that do not differentiate relationships by blood from those by affinity, such as "uncles", "aunts", "nieces", or "nephews", are construed to exclude relatives by affinity. Terms of relationship that do not differentiate relationships by the half blood from those by the whole blood, such as "brothers", "sisters", "nieces", or "nephews", are construed to include both types of relationships.

(2) In addition to the requirements of subsection (1), in construing a dispositive provision of a transferor who is not the natural parent, an individual born to the natural parent is not considered the child of that parent unless the individual lived while a minor as a regular member of the household of that natural parent or of that parent's parent, brother, sister, spouse, or surviving spouse.

(3) In addition to the requirements of subsection (1), in construing a dispositive provision of a transferor who is not the adopting parent, an adopted individual is not considered the child of the adopting parent unless the adopted individual lived while a minor, either before or after the adoption, as a regular member of the household of the adopting parent.

History: En. Sec. 64, Ch. 494, L. 1993.

72-2-716. Life insurance — retirement plan — account with POD designation — transfer-on-death registration — deceased beneficiary. (1) As used in this section, the following definitions apply:

(a) "Alternative beneficiary designation" means a beneficiary designation that is expressly created by the governing instrument and that under the terms of the governing instrument may take effect instead of another beneficiary designation on the happening of one or more events, including survival of the decedent or failure to survive the decedent, whether an event is expressed in condition-precedent, condition-subsequent, or any other form.

(b) "Beneficiary" means the beneficiary of a beneficiary designation under which the beneficiary must survive the decedent and includes:

(i) a class member if the beneficiary designation is in the form of a class gift; and

(ii) an individual or class member who was deceased at the time the beneficiary designation was executed as well as an individual or class member who was then living but who failed to survive the decedent, but excludes a joint tenant of a joint tenancy with the right of survivorship and a party to a joint and survivorship account.

(c) "Beneficiary designation" includes an alternative beneficiary designation and a beneficiary designation in the form of a class gift.

(d) "Class member" includes an individual who fails to survive the decedent but who would have taken under a beneficiary designation in the form of a class gift had the individual survived the decedent.

(e) "Stepchild" means a child of the decedent's surviving, deceased, or former spouse but not a child of the decedent.

(f) "Surviving beneficiary" or "surviving descendant" means a beneficiary or a descendant who neither predeceased the decedent nor is considered to have predeceased the decedent under 72-2-712.

(2) If a beneficiary fails to survive the decedent and is a grandparent, a descendant of a grandparent, or a stepchild of the decedent, the following provisions apply:

(a) Except as provided in subsection (2)(d), if the beneficiary designation is not in the form of a class gift and the deceased beneficiary leaves surviving descendants, a substitute gift is created in the beneficiary's surviving descendants. They take by representation the property to which the beneficiary would have been entitled had the beneficiary survived the decedent.

(b) Except as provided in subsection (2)(d), if the beneficiary designation is in the form of a class gift, other than a beneficiary designation to "issue", "descendants", "heirs of the body", "heirs", "next of kin", "relatives", or "family" or a class described by language of similar import, a substitute gift is created in the surviving descendants of any deceased beneficiary. The property to which the beneficiaries would have been entitled had all of them survived the decedent passes to the surviving beneficiaries and the surviving descendants of the deceased beneficiaries. Each surviving beneficiary takes the share to which the surviving beneficiary would have been entitled had the deceased beneficiaries survived the decedent. Each deceased beneficiary's surviving descendants who are substituted for the deceased beneficiary take by representation the share to which the deceased beneficiary would have been entitled had the deceased beneficiary survived the decedent. For purposes of this subsection (b), "deceased beneficiary" means a class member who failed to survive the decedent and left one or more surviving descendants.

(c) For the purposes of 72-2-711, words of survivorship, such as in a beneficiary designation to an individual "if the individual survives me" or in a beneficiary designation to "my surviving children", are not, in the absence of additional evidence, a sufficient indication of an intent contrary to the application of this section.

(d) If a governing instrument creates an alternative beneficiary designation with respect to a beneficiary designation for which a substitute gift is created by subsection (2)(a) or (2)(b), the substitute gift is superseded by the alternative beneficiary designation only if an expressly designated beneficiary of the alternative beneficiary designation is entitled to take.

(3) If, under subsection (2), substitute gifts are created and not superseded with respect to more than one beneficiary designation and the beneficiary designations are alternative beneficiary designations, one to the other, the determination of which of the substitute gifts takes effect is resolved as follows:

(a) Except as provided in subsection (3)(b), the property passes under the primary substitute gift.

(b) If there is a younger-generation beneficiary designation, the property passes under the younger-generation substitute gift and not under the primary substitute gift.

(c) As used in this subsection (3), the following definitions apply:

(i) "Primary beneficiary designation" means the beneficiary designation that would have taken effect had all the deceased beneficiaries of the alternative beneficiary designations who left surviving descendants survived the decedent.

(ii) "Primary substitute gift" means the substitute gift created with respect to the primary beneficiary designation.

(iii) "Younger-generation beneficiary designation" means a beneficiary designation that:

(A) is to a descendant of a beneficiary of the primary beneficiary designation;

(B) is an alternative beneficiary designation with respect to the primary beneficiary designation;

(C) is a beneficiary designation for which a substitute gift is created; and

(D) would have taken effect had all the deceased beneficiaries who left surviving descendants survived the decedent except the deceased beneficiary or beneficiaries of the primary beneficiary designation.

(iv) "Younger-generation substitute gift" means the substitute gift created with respect to the younger-generation beneficiary designation.

(4) (a) A payor is protected from liability in making payments under the terms of the beneficiary designation until the payor has received written notice of a claim to a substitute gift under this section. Payment made before the receipt of written notice of a claim to a substitute gift under this section discharges the payor, but not the recipient, from all claims for the amounts paid. A payor is liable for a payment made after the payor has received written notice of the claim. A recipient is liable for a payment received, whether or not written notice of the claim is given.

(b) The written notice of the claim must be mailed to the payor's main office or home by certified mail, return receipt requested, or served upon the payor in the same manner as a summons in a civil action. Upon receipt of written notice of the claim, a payor may pay any amount owed by it to the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. The court shall hold the funds and, upon its determination under this section, shall order disbursement in accordance with the determination. Payment made to the court discharges the payor from all claims for the amounts paid.

(5) (a) A person who purchases property for value and without notice or who receives a payment or other item of property in partial or full satisfaction of a legally enforceable obligation is neither obligated under this section to return the payment, item of property, or benefit nor liable under this section for the amount of the payment or the value of the item of property or benefit. However, a person who, not for value, receives a payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who is entitled to it under this section.

(b) If this section or any part of this section is preempted by federal law with respect to a payment, an item of property, or any other benefit covered by this section, a person who, not for value, receives the payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who would have been entitled to it were this section or part of this section not preempted.

72-2-717. Survivorship with respect to future interests under terms of trust — substitute takers. (1) As used in this section, the following definitions apply:

(a) "Alternative future interest" means an expressly created future interest that may take effect in possession or enjoyment instead of another future interest on the happening of one or more events, including survival of an event or failure to survive an event, whether an event is expressed in condition-precedent, condition-subsequent, or any other form. A residuary clause in a will does not create an alternative future interest with respect to a future interest created in a nonresiduary devise in the will, whether or not the will specifically provides that lapsed or failed devises are to pass under the residuary clause.

(b) "Beneficiary" means the beneficiary of a future interest and includes a class member if the future interest is in the form of a class gift.

(c) "Class member" includes an individual who fails to survive the distribution date but who would have taken under a future interest in the form of a class gift had the individual survived the distribution date.

(d) "Distribution date" with respect to a future interest means the time when the future interest is to take effect in possession or enjoyment. The distribution date need not occur at the beginning or end of a calendar day, but may occur at a time during the course of a day.

(e) "Future interest" includes an alternative future interest and a future interest in the form of a class gift.

(f) "Future interest under the terms of a trust" means a future interest that was created by a transfer creating a trust or to an existing trust or by an exercise of a power of appointment to an existing trust that directs the continuance of an existing trust, designates a beneficiary of an existing trust, or creates a trust.

(g) "Surviving beneficiary" or "surviving descendant" means a beneficiary or a descendant who neither predeceased the distribution date nor is considered to have predeceased the distribution date under 72-2-712.

(2) A future interest under the terms of a trust is contingent on the beneficiary surviving the distribution date. If a beneficiary of a future interest under the terms of a trust fails to survive the distribution date, the following provisions apply:

(a) Except as provided in subsection (2)(d), if the future interest is not in the form of a class gift and the deceased beneficiary leaves surviving descendants, a substitute gift is created in the beneficiary's surviving descendants. They take by representation the property to which the beneficiary would have been entitled had the beneficiary survived the distribution date.

(b) Except as provided in subsection (2)(d), if the future interest is in the form of a class gift, other than a future interest to "issue", "descendants", "heirs of the body", "heirs", "next of kin", "relatives", or "family" or a class described by language of similar import, a substitute gift is created in the surviving descendants of any deceased beneficiary. The property to which the beneficiaries would have been entitled had all of them survived the distribution date passes to the surviving beneficiaries and the surviving descendants of the deceased beneficiaries. Each surviving beneficiary takes the share to which the surviving beneficiary would have been entitled had the deceased beneficiaries survived the distribution date. Each deceased beneficiary's surviving descendants who are substituted for the deceased beneficiary take by representation the share to which the deceased beneficiary would have been entitled had the deceased beneficiary survived the distribution date. For purposes of this subsection (2), "deceased beneficiary" means a class member who failed to survive the distribution date and left one or more surviving descendants.

(c) For the purposes of 72-2-711, words of survivorship attached to a future interest are not, in the absence of additional evidence, a sufficient indication of an intent contrary to the application of this section. Words of survivorship include words of survivorship that relate to the distribution date or to an earlier or an unspecified time, whether those words of survivorship are expressed in condition-precedent, condition-subsequent, or any other form.

(d) If a governing instrument creates an alternative future interest with respect to a future interest for which a substitute gift is created by subsection (2)(a) or (2)(b), the substitute gift is superseded by the alternative future interest only if an expressly designated beneficiary of the alternative future interest is entitled to take in possession or enjoyment.

(3) If, under subsection (2), substitute gifts are created and not superseded with respect to more than one future interest and the future interests are alternative future interests, one to the other, the determination of which of the substitute gifts takes effect is resolved as follows:

(a) Except as provided in subsection (3)(b), the property passes under the primary substitute gift.

(b) If there is a younger-generation future interest, the property passes under the younger-generation substitute gift and not under the primary substitute gift.

(c) As used in this subsection (3), the following definitions apply:

(i) "Primary future interest" means the future interest that would have taken effect had all the deceased beneficiaries of the alternative future interests who left surviving descendants survived the distribution date.

(ii) "Primary substitute gift" means the substitute gift created with respect to the primary future interest.

(iii) "Younger-generation future interest" means a future interest that:

(A) is to a descendant of a beneficiary of the primary future interest;

(B) is an alternative future interest with respect to the primary future interest;

(C) is a future interest for which a substitute gift is created; and

(D) would have taken effect had all the deceased beneficiaries who left surviving descendants survived the distribution date except the deceased beneficiary or beneficiaries of the primary future interest.

(iv) "Younger-generation substitute gift" means the substitute gift created with respect to the younger-generation future interest.

(4) Except as provided in subsection (5), if, after the application of subsections (2) and (3), there is no surviving taker, the property passes in the following order:

(a) if the trust was created in a nonresiduary devise in the transferor's will or in a codicil to the transferor's will, the property passes under the residuary clause in the transferor's will. For purposes of this section, the residuary clause is treated as creating a future interest under the terms of a trust.

(b) if no taker is produced by the application of subsection (4)(a), the property passes to the transferor's heirs under 72-2-721.

(5) If, after the application of subsections (2) and (3), there is no surviving taker and if the future interest was created by the exercise of a power of appointment:

(a) the property passes under the donor's gift-in-default clause, if any, which clause is treated as creating a future interest under the terms of a trust; and

(b) if no taker is produced by the application of subsection (5)(a), the property passes as provided in subsection (4). For purposes of subsection (4), "transferor" means the donor if the power was a nongeneral power and means the donee if the power was a general power.

History: **En. Sec. 66, Ch. 494, L. 1993; amd. Sec. 17, Ch. 592, L. 1995.**

72-2-718. Class gifts to "descendants", "issue", or "heirs of the body" — form of distribution if none specified. If a class gift in favor of "descendants", "issue", or "heirs of the body" does not specify the manner in which the property is to be distributed among the class members, the property is distributed among the class members who are living when the interest is to take effect in possession or enjoyment in such shares as they would receive under the applicable law of intestate succession if the designated ancestor had then died intestate owning the subject matter of the class gift.

History: **En. Sec. 67, Ch. 494, L. 1993.**

72-2-719. Representation — per capita at each generation — per stirpes. (1) As used in this section, the following definitions apply:

(a) "Deceased child" or "deceased descendant" means a child or a descendant who either predeceased the distribution date or is considered to have predeceased the distribution date under 72-2-712.

(b) "Distribution date", with respect to an interest, means the time when the interest is to take effect in possession or enjoyment. The distribution date need not occur at the beginning or end of a calendar day but may occur at a time during the course of a day.

(c) "Surviving ancestor", "surviving child", or "surviving descendant" means an ancestor, a child, or a descendant who neither predeceased the distribution date nor is considered to have predeceased the distribution date under 72-2-712.

(2) (a) If a governing instrument calls for property to be distributed "per capita at each generation", the property is divided into as many equal shares as there are:

(i) surviving descendants in the generation nearest to the designated ancestor that contains one or more surviving descendants; and

(ii) deceased descendants in the same generation who left surviving descendants, if any.

(b) Each surviving descendant in the nearest generation is allocated one share. The remaining shares, if any, are combined and then divided in the same manner among the surviving descendants of the deceased descendants as if the surviving descendants who were allocated a share and their surviving descendants had predeceased the distribution date.

(3) (a) If a governing instrument calls for property to be distributed "per stirpes", the property is divided into as many equal shares as there are:

(i) surviving children of the designated ancestor; and

(ii) deceased children who left surviving descendants.

(b) Each surviving child, if any, is allocated one share. The share of each deceased child with surviving descendants is divided in the same manner, with subdivision repeating at each succeeding generation until the property is fully allocated among surviving descendants.

(4) (a) If an applicable statute or a governing instrument calls for property to be distributed "by representation", the property is divided into as many equal shares as there are:

(i) surviving descendants in the generation nearest to the designated ancestor that contains one or more surviving descendants; and

(ii) deceased descendants in the same generation who left surviving descendants, if any.

(b) Each surviving descendant in the nearest generation is allocated one share. The share of each deceased descendant in the same generation as the surviving descendant is divided in the same manner, with the subdivision repeating at each succeeding generation until the property is fully allocated among surviving descendants.

(5) For the purposes of subsections (2) through (4), an individual who is deceased and left no surviving descendant is disregarded and an individual who leaves a surviving ancestor who is a descendant of the designated ancestor is not entitled to a share.

History: **En. Sec. 68, Ch. 494, L. 1993; amd. Sec. 18, Ch. 592, L. 1995.**

72-2-720. Worthier title doctrine abolished. The doctrine of worthier title is abolished as a rule of law and as a rule of construction. Language in a governing instrument describing the beneficiaries of a disposition as the transferor's "heirs", "heirs at law", "next of kin", "distributees", "relatives", or "family" or language of similar import does not create or presumptively create a reversionary interest in the transferor.

History: En. Sec. 69, Ch. 494, L. 1993.

72-2-721. Interests in "heirs" and like. If an applicable statute or a governing instrument calls for a present or future distribution to or creates a present or future interest in a designated individual's "heirs", "heirs at law", "next of kin", "relatives", or "family" or language of similar import, the property passes to those persons, including the state, and in such shares as would succeed to the designated individual's intestate estate under the intestate succession law of the designated individual's domicile in effect at the time the disposition is to take effect in possession or enjoyment as if the designated individual died at that time. If the designated individual's surviving spouse is living but is remarried at the time the disposition is to take effect in possession or enjoyment, the surviving spouse is not an heir of the designated individual.

General Provisions Concerning Probate and Nonprobate Transfers

72-2-801. Renumbered 72-2-412. Code Commissioner, 1993.

72-2-802. Renumbered 72-2-413. Code Commissioner, 1993.

72-2-803. Renumbered 72-2-414. Code Commissioner, 1993.

72-2-804. Renumbered 72-2-415. Code Commissioner, 1993.

72-2-805 through 72-2-810 reserved.

72-2-811. Disclaimer of property interests. (1) (a) A person or the representative of a person to whom an interest in or with respect to property or an interest in the property devolves by whatever means may disclaim it in whole or in part by delivering or filing a written disclaimer under this section.

(b) The right to disclaim exists notwithstanding:

(i) any limitation on the interest of the disclaimant in the nature of a spendthrift provision or similar restriction; or

(ii) any restriction or limitation on the right to disclaim contained in the governing instrument.

(c) For purposes of this subsection (1), the "representative of a person" includes a personal representative of a decedent; a conservator of a disabled person; a guardian of a minor or incapacitated person; a guardian ad litem of a minor, an incapacitated person, an unborn person, an unascertained person, or a person whose identity or address is unknown; and an agent acting on behalf of the person within the authority of a power of attorney. The representative of a person may rely on a general family benefit accruing to the living members of the represented person's family as a basis for making a disclaimer.

(2) The following rules govern the time when a disclaimer must be filed or delivered:

(a) If the property or interest has devolved to the disclaimant under a testamentary instrument or by the laws of intestacy, the disclaimer must be filed, if of a present interest, not later than 9 months after the death of the deceased owner or deceased donee of a power of appointment and, if of a future interest, not later than 9 months after the event determining that the taker of the property or interest is finally ascertained and the taker's interest is indefeasibly vested. The disclaimer must be filed in the court of the county in which proceedings for the administration of the estate of the deceased owner or deceased donee of the power have been commenced. A copy of the disclaimer must be delivered in person or mailed by certified mail, return receipt requested, to any personal representative or other fiduciary of the decedent or donee of the power.

(b) If a property or interest has devolved to the disclaimant under a nontestamentary instrument or contract, the disclaimer must be delivered or filed, if of a present interest, not later than 9 months after the effective date of the nontestamentary instrument or contract and, if of a future interest, not later than 9 months after the event determining that the taker of the property or interest is finally ascertained and the taker's interest is indefeasibly vested. If the person entitled to disclaim does not know of the existence of the interest, the disclaimer must be delivered or filed not later than 9 months after the person learns of the existence of the interest. The effective date of a revocable instrument or contract is the date on which the maker no longer has power to revoke it or to transfer to the maker or another the entire legal and equitable ownership of the interest. The disclaimer or a copy of the disclaimer must be delivered in person or mailed by certified mail, return receipt requested, to the person who has legal title to or possession of the interest disclaimed.

(c) A surviving joint tenant may disclaim as a separate interest any property or interest in property devolving to the surviving joint tenant by right of survivorship within 9 months after the death of the deceased joint owner, regardless of whether the surviving joint tenant contributed to the purchase of jointly held property or benefited from the jointly held property prior to the other joint tenant's death.

(d) If real property or an interest in the property is disclaimed, a copy of the disclaimer may be recorded in the office of the clerk and recorder of the county in which the property or interest disclaimed is located.

(3) The disclaimer must:

(a) describe the property or interest disclaimed;

(b) declare the disclaimer and extent of the disclaimer; and

(c) be signed by the disclaimant.

(4) The following are the effects of a disclaimer:

(a) If property or an interest in property devolves to a disclaimant under a testamentary instrument, under a power of appointment exercised by a testamentary instrument, or under the laws of intestacy and the decedent has not provided for another disposition of that interest, should it be disclaimed, or of disclaimed or failed interests in general, the disclaimed interest devolves as if the disclaimant had predeceased the decedent, but if by law or under the testamentary instrument the descendants of the disclaimant would share in the disclaimed interest by representation or otherwise were the disclaimant to predecease the decedent, then the disclaimed interest passes by representation, or passes as directed by the governing instrument, to the descendants of the disclaimant who survive the decedent. A future interest that takes effect in possession or enjoyment after the termination of the estate or interest disclaimed takes effect as if the disclaimant had predeceased the decedent. A disclaimer relates back for all purposes to the date of the death of the decedent.

(b) If property or an interest in property devolves to a disclaimant under a nontestamentary instrument or contract and the instrument or contract does not provide for another disposition of that interest, should it be disclaimed, or of disclaimed or failed interests in general, the disclaimed interest devolves as if the disclaimant had predeceased the effective date of the instrument or contract, but if by law or under the nontestamentary instrument or contract the descendants of the disclaimant would share in the disclaimed interest by representation or otherwise were the disclaimant to predecease the effective date of the instrument, then the disclaimed interest passes by representation, or passes as directed by the governing instrument, to the descendants of the disclaimant who survive the effective date of the instrument. A disclaimer relates back for all purposes to that date. A future interest that takes effect in possession or enjoyment at or after the termination of the disclaimed interest takes effect as if the disclaimant had died before the effective date of the instrument or contract that transferred the disclaimed interest.

(c) The disclaimer or the written waiver of the right to disclaim is binding upon the disclaimant or person waiving and on all persons claiming through or under either of them.

(5) The right to disclaim property or an interest in the property is barred by:

(a) an assignment, conveyance, encumbrance, pledge, or transfer of the property or interest or a contract therefor;

(b) a written waiver of the right to disclaim;

(c) an acceptance of the property or interest or benefit under it; or

(d) a sale of the property or interest under judicial sale made before the disclaimer is made.

(6) This section does not abridge the right of a person to waive, release, disclaim, or renounce property or an interest in property under any other statute.

(7) An interest in property that exists on October 1, 1993, as to which, if a present interest, the time for filing a disclaimer under this section has not expired or, if a future interest, the interest has not become indefeasibly vested or the taker finally ascertained may be disclaimed within 9 months after October 1, 1993.

72-2-812. Effect of divorce, annulment, or decree of separation. (1) An individual who is divorced from the decedent or whose marriage to the decedent has been annulled is not a surviving spouse unless by virtue of a subsequent marriage the individual is married to the decedent at the time of death. A decree of separation that does not terminate the status of husband and wife is not a divorce for purposes of this section.

(2) For purposes of chapter 2, parts 1 through 4, and of 72-3-501 through 72-3-508, a surviving spouse does not include:

(a) an individual who obtains or consents to a final decree or judgment of divorce from the decedent or an annulment of their marriage, which decree or judgment is not recognized as valid in this state, unless subsequently they participate in a marriage ceremony purporting to marry each to the other or live together as husband and wife;

(b) an individual who, following an invalid decree or judgment of divorce or annulment obtained by the decedent, participates in a marriage ceremony with a third individual; or

(c) an individual who was a party to a valid proceeding concluded by an order purporting to terminate all marital property rights.

72-2-813. Effect of homicide on intestate succession, wills, trusts, joint assets, life insurance, and beneficiary designations. (1) For purposes of this section, the following definitions apply:

(a) "Disposition or appointment of property" includes a transfer of an item of property or any other benefit to a beneficiary designated in a governing instrument.

(b) "Governing instrument" means a governing instrument executed by the decedent.

(c) "Revocable", with respect to a disposition, appointment, provision, or nomination, means one under which the decedent, at the time of or immediately before death, was alone empowered, by law or under the governing instrument, to cancel the designation in favor of the killer, whether or not the decedent was then empowered to designate the decedent in place of the decedent's killer and whether or not the decedent then had capacity to exercise the power.

(2) An individual who feloniously and intentionally kills the decedent forfeits all benefits under this chapter with respect to the decedent's estate, including an intestate share, an elective share, an omitted spouse's or child's share, a homestead allowance, exempt property, and a family allowance. If the decedent died intestate, the decedent's intestate estate passes as if the killer disclaimed the killer's intestate share.

(3) The felonious and intentional killing of the decedent:

(a) revokes any revocable:

(i) disposition or appointment of property made by the decedent to the killer in a governing instrument;

(ii) provision in a governing instrument conferring a general or nongeneral power of appointment on the killer; and

(iii) nomination of the killer in a governing instrument, nominating or appointing the killer to serve in any fiduciary or representative capacity, including a personal representative, executor, trustee, or agent; and

(b) severs the interests of the decedent and killer in property held by them at the time of the killing as joint tenants with the right of survivorship and transforms the interests of the decedent and killer into tenancies in common.

(4) A severance under subsection (3)(b) does not affect any third-party interest in property acquired for value and in good faith reliance on an apparent title by survivorship in the killer unless a writing declaring the severance has been noted, registered, filed, or recorded in records appropriate to the kind and location of the property, which records are relied upon, in the ordinary course of transactions involving such property, as evidence of ownership.

(5) Provisions of a governing instrument are given effect as if the killer disclaimed all provisions revoked by this section or, in the case of a revoked nomination in a fiduciary or representative capacity, as if the killer predeceased the decedent.

(6) A wrongful acquisition of property or interest by a killer not covered by this section must be treated in accordance with the principle that a killer cannot profit from the killer's wrong.

(7) After all right to appeal has been exhausted, a judgment of conviction establishing criminal accountability for the felonious and intentional killing of the decedent conclusively establishes the convicted individual as the decedent's killer for purposes of this section. In the absence of a conviction, the court, upon the petition of an interested person, shall determine whether, under the preponderance of evidence standard, the individual would be found criminally accountable for the felonious and intentional killing of the decedent. If the court determines that under that standard the individual would be found criminally accountable for the felonious and intentional killing of the decedent, the determination conclusively establishes that individual as the decedent's killer for purposes of this section.

(8) (a) A payor or other third party is not liable for having made a payment or transferred an item of property or any other benefit to a beneficiary designated in a governing instrument affected by an intentional and felonious killing, or for having taken any other action in good faith reliance on the validity of the governing instrument, upon request and satisfactory proof of the decedent's death, before the payor or other third party received written notice of a claimed forfeiture or revocation under this section. A payor or other third party does not have a duty or obligation to make any determination as to whether the decedent was a victim of a homicide or to seek any evidence with respect to a homicide even if the circumstances of the decedent's death are suspicious or questionable as to the beneficiary's participation in a homicide. A payor or other third party is only liable for actions taken 2 or more business days after the actual receipt by the payor or other third party of written notice. The payor or other third party may be liable for actions taken pursuant to the governing instrument only if the form of the service is that described in subsection (8)(b).

(b) The written notice must indicate the name of the decedent, the name of the person asserting an interest, the nature of the payment or item of property or other benefit, and a statement that a claim of forfeiture or revocation is being made under this section. Written notice of a claimed forfeiture or revocation under subsection (8)(a) must be mailed to the payor's or other third party's main office or home by certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. Notice to a sales representative of the payor or other third party does not constitute notice to the payor or other third party. Upon receipt of written notice of a claimed forfeiture or revocation under this section, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to or with the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. In addition to the actions available under this section, the payor or other third party may take any action authorized by law or the governing instrument. If probate proceedings have not been commenced, the payor or other third party shall file with the court a copy of the written notice received by the payor or other third party, with the payment of funds or transfer or deposit of property. The court may not charge a filing fee to the payor or other third party for the payment to the court of amounts owed or transferred to or deposited with the court or any item of property. The court shall hold the funds or item of property and, upon its determination under this section, shall order disbursement in accordance with the determination. A filing fee, if any, may be charged upon disbursement either to the recipient or against the funds or property on deposit with the court, in the discretion of the court. Payments, transfers, or deposits made to or with the court discharge the payor or other third party from all claims for the value of amounts paid to or items of property transferred to or deposited with the court.

(9) (a) A bona fide purchaser who purchases property or who receives a payment or other item of property in partial or full satisfaction of a legally enforceable obligation is neither obligated under this section to return the payment, item of property, or benefit nor liable under this section for the amount of the payment or the value of the item of property or benefit. However, a person who, not for value, receives a payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who is entitled to it under this section.

(b) If this section or any part of this section is preempted by federal law, other than the federal Employee Retirement Income Security Act of 1974, as amended, with respect to a payment, an item of property, or any other benefit covered by this section, a person who, not for value, receives the payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who would have been entitled to it were this section or part of this section not preempted.

(10) For the purposes of this section, a felonious and intentional killing includes a deliberate homicide as defined in 45-5-102 and a mitigated deliberate homicide as defined in 45-5-103.

72-2-814. Revocation of probate and nonprobate transfers by divorce — no revocation by other changes of circumstances. (1) As used in this section, the following definitions apply:

(a) "Disposition or appointment of property" includes a transfer of an item of property or any other benefit to a beneficiary designated in a governing instrument.

(b) "Divorce or annulment" means any divorce, annulment, or dissolution or declaration of invalidity of a marriage that would exclude the spouse as a surviving spouse within the meaning of 72-2-812. A decree of separation that does not terminate the status of husband and wife is not a divorce for purposes of this section.

(c) "Divorced individual" includes an individual whose marriage has been annulled.

(d) "Governing instrument" means a governing instrument executed by the divorced individual before the divorce or annulment of the individual's marriage to the individual's former spouse.

(e) "Relative of the divorced individual's former spouse" means an individual who is related to the divorced individual's former spouse by blood, adoption, or affinity and who, after the divorce or annulment, is not related to the divorced individual by blood, adoption, or affinity.

(f) "Revocable", with respect to a disposition, appointment, provision, or nomination, means one under which the divorced individual, at the time of the divorce or annulment, was alone empowered, by law or under the governing instrument, to cancel the designation in favor of the individual's former spouse or former spouse's relative, whether or not the divorced individual was then empowered to designate the divorced individual in place of the individual's former spouse or in place of the former spouse's relative and whether or not the divorced individual then had the capacity to exercise the power.

(2) Except as to a retirement system established in Title 19 or as provided by the express terms of a governing instrument, a court order, or a contract relating to the division of the marital estate made between the divorced individuals before or after the marriage, divorce, or annulment, the divorce or annulment of a marriage:

(a) revokes any revocable:

(i) disposition or appointment of property made by a divorced individual to the individual's former spouse in a governing instrument and any disposition or appointment created by law or in a governing instrument to a relative of the divorced individual's former spouse;

(ii) provision in a governing instrument conferring a general or nongeneral power of appointment on the divorced individual's former spouse or on a relative of the divorced individual's former spouse; and

(iii) nomination in a governing instrument that nominates a divorced individual's former spouse or a relative of the divorced individual's former spouse to serve in any fiduciary or representative capacity, including a personal representative, executor, trustee, conservator, agent, or guardian; and

(b) severs the interests of the former spouses in property held by them at the time of the divorce or annulment as joint tenants with the right of survivorship and transforms the interests of the former spouses into tenancies in common.

(3) A severance under subsection (2)(b) does not affect any third-party interest in property acquired for value and in good faith reliance on an apparent title by survivorship in the survivor of the former spouses unless a writing declaring the severance has been noted, registered, filed, or recorded in records appropriate to the kind and location of the property, which records are relied upon, in the ordinary course of transactions involving such property, as evidence of ownership.

(4) Provisions of a governing instrument are given effect as if the former spouse and relatives of the former spouse disclaimed all provisions revoked by this section or, in the case of a revoked nomination in a fiduciary or representative capacity, as if the former spouse and relatives of the former spouse died immediately before the divorce or annulment.

(5) Provisions revoked solely by this section are revived by the divorced individual's remarriage to the former spouse or by a nullification of the divorce or annulment.

(6) No change of circumstances other than as described in this section and in 72-2-813 effects a revocation.

(7) (a) A payor or other third party is not liable for having made a payment or transferred an item of property or any other benefit to a beneficiary designated in a governing instrument affected by a divorce, annulment, or remarriage, or for having taken any other action in good faith reliance on the validity of the governing instrument, before the payor or other third party received written notice of the divorce, annulment, or remarriage. A payor or other third party does not have a duty or obligation to inquire as to the continued marital relationship between the decedent and a beneficiary or to seek any evidence with respect to a marital relationship. A payor or other third party is only liable for actions taken 2 or more business days after the actual receipt by the payor or other third party of written notice. The payor or other third party may be liable for actions taken pursuant to the governing instrument only if the form of service is that described in subsection (7)(b).

(b) The written notice must indicate the name of the decedent, the name of the person asserting an interest, the nature of the payment or item of property or other benefit, and a statement that a dissolution, annulment, or remarriage of the decedent and the designated beneficiary occurred. Written notice of the divorce, annulment, or remarriage under subsection (7)(a) must be mailed to the payor's or other third party's main office or home by certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. Upon receipt of written notice of the divorce, annulment, or remarriage, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to or with the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. In addition to the actions available under this section, the payor or other third party may take any action authorized by law or the governing instrument. If probate proceedings have not been commenced, the payor or other third party shall file with the court a copy of the written notice received by the payor or other third party, with the payment of funds or transfer or deposit of property. The court may not charge a filing fee to the payor or other third party for the payment to the court of amounts owed or transferred to or deposited with the court or any item of property. The court shall hold the funds or item of property and, upon its determination under this section, shall order disbursement or transfer in accordance with the determination. A filing fee, if any, may, in the discretion of the court, be charged upon disbursement either to the recipient or against the funds or property on deposit with the court. Payments, transfers, or deposits made to or with the court discharge the payor or other third party from all claims for the value of amounts paid to or items of property transferred to or deposited with the court.

(8) (a) A bona fide purchaser who purchases property from a former spouse, relative of a former spouse, or any other person or who receives from a former spouse, relative of a former spouse, or any other person a payment or other item of property in partial or full satisfaction of a legally enforceable obligation is neither obligated under this section to return the payment, item of property, or benefit nor liable under this section for the amount of the payment or the value of the item of property or benefit. However, a former spouse, relative of a former spouse, or other person who, not for value, received a payment, item of property, or other benefit to which that person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who is entitled to it under this section.

(b) If this section or any part of this section is preempted by federal law, other than the federal Employee Retirement Income Security Act of 1974, as amended, with respect to a payment, an item of property, or any other benefit covered by this section, a former spouse, relative of the former spouse, or any other person who, not for value, received a payment, item of property, or other benefit to which that person is not entitled under this section is obligated to return that payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who would have been entitled to it were this section or part of this section not preempted.

Part 9
Uniform International Will Act

72-2-901. Definitions. In this part, the following definitions apply:

(1) "Authorized person" and "person authorized to act in connection with international wills" means a person who by 72-2-908 or by the laws of the United States, including members of the diplomatic and consular service of the United States designated by the foreign service regulations, is empowered to supervise the execution of international wills.

(2) "International will" means a will executed in conformity with 72-2-902 through 72-2-905.

History: En. Sec. 1, Ch. 62, L. 1991.

72-2-902. Validity. (1) The form of a will is valid, regardless of the place where it is made, of the location of the assets, and of the nationality, domicile, or residence of the testator, if it is made in the form of an international will complying with the requirements of this part.

(2) The invalidity of the will as an international will does not affect its formal validity as a will of another kind.

(3) This part does not apply to the form of testamentary dispositions made by two or more persons in one instrument.

History: En. Sec. 2, Ch. 62, L. 1991.

72-2-903. Requirements. (1) An international will must be made in writing. It need not be written by the testator himself. It may be written in any language, by hand, or by any other means.

(2) The testator shall declare in the presence of two witnesses and of a person authorized to act in connection with international wills that the document is his will and that he knows the contents of the will. The testator need not inform the witnesses or the authorized person of the contents of the will.

(3) In the presence of the witnesses and of the authorized person, the testator shall sign the will or, if he has previously signed it, shall acknowledge his signature.

(4) If the testator is unable to sign, the absence of his signature does not affect the validity of the international will if the testator indicates the reason for his inability to sign and the authorized person makes note of the inability on the will. In that case, it is permissible for any other person present, including the authorized person or one of the witnesses, at the direction of the testator, to sign the testator's name for him if the authorized person makes note of this on the will, but it is not required that any person sign the testator's name for him.

(5) The witnesses and the authorized person shall there and then attest the will by signing in the presence of the testator.

History: En. Sec. 3, Ch. 62, L. 1991.

72-2-904. Other points of form. (1) The signatures must be placed at the end of the will. If the will consists of several sheets, each sheet must be signed by the testator or, if he is unable to sign, by the person signing on his behalf or, if there is no such person, by the authorized person. In addition, each sheet must be numbered.

(2) The date of the will must be the date of its signature by the authorized person.

(3) The authorized person shall ask the testator whether he wished to make a declaration concerning the safekeeping of his will. If so and at the express request of the testator, the place where he intends to have his will kept must be mentioned in the certificate provided for in 72-2-905.

(4) A will executed in compliance with 72-2-903 is not invalid merely because it does not comply with this section.

History: En. Sec. 4, Ch. 62, L. 1991.

72-2-905. Certificate. The authorized person shall attach to the will a certificate to be signed by him establishing that the requirements of this part for valid execution of an international will have been fulfilled. The authorized person shall keep a copy of the certificate and deliver another to the testator. The certificate must be substantially in the following form:

72-2-906. Effect of certificate. In the absence of evidence to the contrary, the certificate of the authorized person is conclusive of the formal validity of the instrument as a will under this part. The absence or irregularity of a certificate does not affect the formal validity of a will under this part.

History: En. Sec. 6, Ch. 62, L. 1991.

72-2-907. Revocation. An international will is subject to the ordinary rules of revocation of wills.

History: En. Sec. 7, Ch. 62, L. 1991.

72-2-908. Persons authorized to act in relation to international will — eligibility — recognition by authorizing agency. Individuals who have been admitted to practice law before the courts of this state and are currently licensed are authorized persons in relation to international wills.

History: En. Sec. 9, Ch. 62, L. 1991.

72-2-909. International will information registration. The secretary of state shall establish a registry system by which authorized persons may register in a central information center information regarding the execution of international wills, keeping that information in strictest confidence until the death of the maker and then making it available to any person desiring information about any will who presents a death certificate or other satisfactory evidence of the testator's death to the center. Information that may be received, preserved in confidence until death, and reported as indicated is limited to the name, social security or individual-identifying number established by law, address, and date and place of birth of the testator and the intended place of deposit or safekeeping of the instrument pending the death of the maker. The secretary of state, at the request of the authorized person, may cause the information he receives about the execution of any international will to be transmitted to the registry system of another jurisdiction as identified by the testator if that other registry system adheres to rules protecting the confidentiality of the information similar to those established in this state.

In interpreting and applying this part, regard must be given to its international origin and to the need for uniformity in its interpretation.

Part 10
Uniform Statutory Rule Against Perpetuities — Honorary Trusts

Part Cross-References

Perpetuities, Art. XIII, sec. 6, Mont. Const.

72-2-1001. Short title. This part may be cited as the "Uniform Statutory Rule Against Perpetuities".

History: En. Sec. 1, Ch. 250, L. 1989; Sec. 70-1-801, MCA 1991; redes. 72-2-1001 by Code Commissioner, 1993.

72-2-1002. Statutory rule against perpetuities. (1) A nonvested property interest is invalid unless:

(a) when the interest is created, it is certain to vest or terminate no later than 21 years after the death of an individual then alive; or

(b) the interest either vests or terminates within 90 years after its creation.

(2) A general power of appointment not presently exercisable because of a condition precedent is invalid unless:

(a) when the power is created, the condition precedent is certain to be satisfied or become impossible to satisfy no later than 21 years after the death of an individual then alive; or

(b) the condition precedent either is satisfied or becomes impossible to satisfy within 90 years after its creation.

(3) A nongeneral power of appointment or a general testamentary power of appointment is invalid unless:

(a) when the power is created, it is certain to be irrevocably exercised or otherwise to terminate no later than 21 years after the death of an individual then alive; or

(b) the power is irrevocably exercised or otherwise terminates within 90 years after its creation.

(4) In determining whether a nonvested property interest or a power of appointment is valid under subsection (1)(a), (2)(a), or (3)(a), the possibility that a child will be born to an individual after the individual's death is disregarded.

(5) If, in measuring a period from the creation of a trust or other property arrangement, a clause in a governing instrument purports to postpone the vesting or termination of any interest or trust until, purports to disallow the vesting or termination of any interest or trust beyond, purports to require all interests or trusts to vest or terminate no later than, or operates in any similar fashion upon the later of:

(a) the expiration of a period of time that exceeds 21 years or that exceeds or might exceed 21 years after the death of the survivor of lives in being at the creation of the trust or other property arrangement; or

(b) the death of, or the expiration of a period not exceeding 21 years after the death of, the survivor of specified lives in being at the creation of the trust or other property arrangement, then the portion of the clause pertaining to the period of time that exceeds 21 years or that exceeds or might exceed 21 years after the death of the survivor of lives in being at the creation of the trust or other property arrangement must be disregarded, and the clause operates upon the death of, or upon the expiration of the period not exceeding 21 years after the death of, the survivor of the specified lives in being at the creation of the trust or other property arrangement.

History: En. Sec. 2, Ch. 250, L. 1989; amd. Sec. 1, Ch. 26, L. 1991; Sec. 70-1-802, MCA 1991; redes. 72-2-1002 by Code Commissioner, 1993.

72-2-1003. When nonvested property interest or power of appointment created. (1) Except as provided in 72-2-1005 and subsections (2) and (3) of this section, the time of creation of a nonvested property interest or a power of appointment is determined under general principles of property law.

(2) For purposes of this part, if there is a person who alone can exercise a power created by a governing instrument to become the unqualified beneficial owner of a nonvested property interest or a property interest subject to a power of appointment described in 72-2-1002(2) or (3), the nonvested property interest or power of appointment is created when the power to become the unqualified beneficial owner terminates.

(3) For purposes of this part, a nonvested property interest or a power of appointment arising from a transfer of property to a previously funded trust or other existing property arrangement is created when the nonvested property interest or power of appointment in the original contribution was created.

History: En. Sec. 3, Ch. 250, L. 1989; Sec. 70-1-803, MCA 1991; redes. 72-2-1003 by Code Commissioner, 1993.

72-2-1004. Reformation. Upon the petition of an interested person, a court shall reform a disposition in the manner that most closely approximates the transferor's manifested plan of distribution and that is within the 90 years allowed by 72-2-1002(1)(b), (2)(b), or (3)(b) if:

(1) a nonvested property interest or a power of appointment becomes invalid under 72-2-1002;

(2) a class gift is not but might become invalid under 72-2-1002 and the time has arrived when the share of any class member is to take effect in possession or enjoyment; or

(3) a nonvested property interest that is not validated by 72-2-1002(1)(a) can vest but not within 90 years after its creation.

History: En. Sec. 4, Ch. 250, L. 1989; Sec. 70-1-804, MCA 1991; redes. 72-2-1004 by Code Commissioner, 1993.

72-2-1005. Exclusions from statutory rule against perpetuities. Section 72-2-1002 does not apply to:

(1) a nonvested property interest or a power of appointment arising out of a nondonative transfer, except a nonvested property interest or a power of appointment arising out of a:

(b) separation or divorce settlement;

(c) spouse's election;

(d) similar arrangement arising out of a prospective, existing, or previous marital relationship between the parties;

(e) contract to make or not to revoke a will or trust;

(f) contract to exercise or not to exercise a power of appointment;

(g) transfer in satisfaction of a duty of support; or

(h) reciprocal transfer;

(2) a fiduciary's power relating to the administration or management of assets, including the power of a fiduciary to sell, lease, or mortgage property, and the power of a fiduciary to determine principal and income;

(3) the power to appoint a fiduciary;

(4) a discretionary power of a trustee to distribute principal before termination of a trust to a beneficiary having an indefeasibly vested interest in the income and principal;

(5) a nonvested property interest held by a charity, government, or governmental agency or subdivision if the nonvested property interest is preceded by an interest held by another charity, government, or governmental agency or subdivision;

(6) a nonvested property interest in or a power of appointment with respect to a trust or other property arrangement forming part of a pension, profit-sharing, stock bonus, health, disability, death benefit, income deferral, or other current or deferred benefit plan for one or more employees or independent contractors, or their beneficiaries or spouses, to which contributions are made for the purpose of distributing to or for the benefit of the participants or their beneficiaries or spouses the property, income, or principal in the trust or other property arrangement, except a nonvested property interest or a power of appointment that is created by an election of a participant or a beneficiary or spouse; or

(7) a property interest, power of appointment, or arrangement that was not subject to the common-law rule against perpetuities or is excluded by another statute of this state.

History: En. Sec. 5, Ch. 250, L. 1989; Sec. 70-1-805, MCA 1991; redes. 72-2-1005 by Code Commissioner, 1993.

72-2-1006. Prospective application. (1) Except as extended by subsection (2), this part applies to a nonvested property interest or a power of appointment created on or after October 1, 1989. For purposes of this section, a nonvested property interest or a power of appointment created by the exercise of a power of appointment is created when the power is irrevocably exercised or when a revocable exercise becomes irrevocable.

(2) If a nonvested property interest or a power of appointment was created before October 1, 1989, and is determined in a judicial proceeding commenced on or after October 1, 1989, to violate this state's rule against perpetuities as that rule existed before October 1, 1989, a court, upon the petition of an interested person, may reform the disposition in the manner that most closely approximates the transferor's manifested plan of distribution and that is within the limits of the rule against perpetuities applicable when the nonvested property interest or power of appointment was created.

History: En. Sec. 6, Ch. 250, L. 1989; Sec. 70-1-806, MCA 1991; redes. 72-2-1006 by Code Commissioner, 1993.

72-2-1007. Uniformity of application and construction. This part must be applied and construed to effectuate its general purpose to make uniform the law with respect to the subject of this part among the states enacting it.

History: En. Sec. 7, Ch. 250, L. 1989; Sec. 70-1-807, MCA 1991; redes. 72-2-1007 by Code Commissioner, 1993.

72-2-1008 through 72-2-1016 reserved.

72-2-1017. Honorary trusts — trusts for pets. (1) Subject to subsection (3), a trust may be performed by the trustee for 21 years but no longer, whether or not the terms of the trust contemplate a longer duration if:

(a) a trust is for a specific lawful noncharitable purpose or for lawful noncharitable purposes to be selected by the trustee; and

(b) there is no definite or definitely ascertainable beneficiary designated.

(2) Subject to the provisions of subsection (3) and this subsection, a trust for the care of a designated domestic or pet animal is valid. The trust terminates when no living animal is covered by the trust. A governing instrument must be liberally construed to bring the transfer within this subsection, to presume against the merely precatory or honorary nature of the disposition, and to carry out the general intent of the transferor. Extrinsic evidence is admissible in determining the transferor's intent.

(3) In addition to the provisions of subsection (1) or (2), a trust covered by either of those subsections is subject to the following provisions:

(a) Except as expressly provided otherwise in the trust instrument, no portion of the principal or income may be converted to the use of the trustee or to any use other than for the trust's purposes or for the benefit of a covered animal.

(b) Upon termination, the trustee shall transfer the unexpended trust property in the following order:

(i) as directed in the trust instrument;

(ii) if the trust was created in a nonresiduary clause in the transferor's will or in a codicil to the transferor's will, under the residuary clause in the transferor's will; and

(iii) if no taker is produced by the application of subsection (3)(b)(i) or (3)(b)(ii), to the transferor's heirs under 72-2-721.

(c) For the purposes of 72-2-717, the residuary clause is treated as creating a future interest under the terms of a trust.

(d) The intended use of the principal or income may be enforced by an individual designated for that purpose in the trust instrument or, if none, by an individual appointed by a court upon application to it by an individual.

(e) Except as ordered by the court or required by the trust instrument, no filing, report, registration, periodic accounting, separate maintenance of funds, appointment, or fee is required by reason of the existence of the fiduciary relationship of the trustee.

(f) A court may reduce the amount of the property transferred if it determines that that amount substantially exceeds the amount required for the intended use. The amount of the reduction, if any, passes as unexpended trust property under subsection (3)(b).

(g) If no trustee is designated or no designated trustee is willing or able to serve, a court shall name a trustee. A court may order the transfer of the property to another trustee if required to ensure that the intended use is carried out and if no successor trustee is designated in the trust instrument or if no designated successor trustee agrees to serve or is able to serve. A court may also make such other orders and determinations as are advisable to carry out the intent of the transferor and the purpose of this section.
